construction and operation features of the meters to be submitted, but rather that you submit an opinion as to their general functional worth and adaptability to the vehicular traffic control conditions in the City of Boston.

It is suggested that a report submitted include your opinion on the merits of the various meters with regard to the following characteristics:

1. Construction.
2. Material.
3. Clocks.
4. Ruggedness of housing.
5. Durability.
6. Simplicity of operation.
7. Simplicity of repair.
8. Method of mounting.
9. Resistance to robbery.
10. Resistance to weather, particularly ability to function under hard freezing conditions.
11. Resistance to tampering.
12. Maintenance costs.

Kindly advise me whether you are willing to make this analysis.

Very truly yours,

LEO F. CURLEY,
Commissioner.

TO RESTORE MAIN ATHLETIC FIELD AT WORLD WAR MEMORIAL PARK IN EAST BOSTON.

A contract has been awarded to William P. Herlihy Company for the restoration and resurfacing of the main athletic field at World War Memorial Park, East Boston, for the sum of \$21,553.

This park was used during the war period by the army and will now be put in condition for use as an athletic field for boys and girls.

The improvements to World War Memorial Park are being made pending the development of the two recreational areas in East Boston to be completed by the state in payment for the eventual taking of World War Memorial Park as part of the airport.

In view of the fact that this actual taking will not be made for several years, it is the present intention of the city to keep World War Memorial Park in condition for use, and the money for this purpose will be forthcoming from the United States Government, which has awarded the city approximately \$30,000 for damages.

ADDITIONAL FUNDS.

The Temporary Mayor approved the request indicated in the following letter:

ASSESSING DEPARTMENT.

BOSTON, August 11, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—The Assessing Department was allowed \$3,900 for office machines in the 1946 Departmental Equipment Loan. Due to the increase in prices, the additional amount of \$114.97 is requested in order to provide funds for payment of the equipment ordered and encumbered on the accounts of the Auditing Department. The sum referred to represents the final amount needed to provide for payment of all invoices rendered for all machines purchased under the 1946 Departmental Equipment Loan.

Respectfully,

PETER J. ALLEN,
Chairman.

CIRCULAR LETTER NO. 18.

CITY OF BOSTON,
MAYOR'S OFFICE, September 4, 1947.
To the Heads of Departments.

GENTLEMEN,—You are hereby directed to grant leave of absence without loss of pay to employees of the city who are of Jewish faith for their observance of the New Year on Monday, September 15, Tuesday, September 16, and Yom Kippur, Wednesday 24, 1947.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

OFF-STREET PARKING
SITES SELECTED.

The Temporary Mayor has approved the following request of the Board of Real Estate Commissioners:

Boston, August 19, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

MY DEAR MR. MAYOR,—Enclosed is a copy of the vote of the Board of Real Estate Commissioners in the matter of off-street parking, taken at a meeting of said Board held August 13, 1947.

Your approval of the action of the Board is respectfully requested.

Respectfully yours,

IRVING LEWIS,
Chairman.

At a meeting of the Board of Real Estate Commissioners held at the office of the Real Estate Commission on Wednesday, August 13, 1947, at 3 p. m., the following members being present,

Irving Lewis, *Chairman*,
Philip E. Bennett,
William F. Keesler,
Henry F. Brennan,
William Stanley Parker,

it was unanimously

Voted, That subject to the approval of the Mayor, the Board hereby selects the following site to be taken by condemnation proceedings for use of public off-street parking facilities. This site being within the area bounded by Summer, South, Beach and Washington streets in the City of Boston, as follows:

19-59 Lincoln street, Boston.
12 16 Columbia street, Boston.
144 Essex street, Boston.

which is a location already approved by the Planning Board and the Traffic Commission under the requirements of the Act for off-street parking facilities.

REPAIRS TO SUMMER STREET.

The Temporary Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published July 3, 5, 7, and 8, 1947, in the *Boston Globe* and the *Boston Post*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public necessity and convenience require, does hereby order that specific repairs be made in Summer street, Boston Proper district, between Atlantic avenue and Dorchester avenue, consisting of a reduction in the width of the sidewalk on each side of the street by five feet; the reloca-

tion of the tracks, and the construction of a loading platform at the end of the proposed track and on each side of the proposed track, as shown on a plan on file in this office.

NAMING OF STREETS.

The Temporary Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the location, direction, width, and grade of the private way in the Brighton district designated as Platt road, leading southwesterly from Mt. Vernon street for a distance of approximately one hundred and seventy-eight feet, as shown on a plan approved in writing by the Board of Street Commissioners, and on file in the office of the Street Laying-Out Department, be, and the same hereby is, approved.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Temporary Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon September 2 the Temporary Mayor approved a contract with P. J. Dinn & Co., for erecting chain link fence at the William McKinley School. There was but one bid, opened on Wednesday, August 27, as follows:

P. J. Dinn & Co., \$1,387.

Upon September 5 the Temporary Mayor approved a contract with the Washington Contracting Company, Inc., for regrading and laying asphalt surface

at the Frank V. Thompson School. Bids, opened on Wednesday, September 3, were as follows:

Washington Contracting Company, Inc., \$1,275; Liberty Asphalt Construction Company, \$1,300; Cronin & Horigan, Inc., \$1,450; P. J. Joyce & Son, \$1,525; F. C. Power Corporation, \$1,635.

ELECTION DEPARTMENT.

Upon September 5 the Temporary Mayor approved a contract according to the following request:

CITY OF BOSTON,

BOARD OF ELECTION COMMISSIONERS,
September 4, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—The Board of Election Commissioners respectfully requests that permission be given them to award the contract for printing the city election ballots to the firm of Wright & Potter Printing Company, of 32 Derne street, Boston, without advertising for bids, at the following prices:

For 375,000 official ballots, including the usual specimen ballots (15 each, 362 precincts) and challenged ballots (43 precincts)—all to be boxed in open-window boxes by precincts, \$4,400. (In the event that additional ballots are necessary in excess of the 375,000, ballots will be supplied at the rate of \$8.25 a thousand.)

For 20,000 absent voters' ballots (for 362 precincts, printed on blue paper and boxed), \$675.

For 20,000 official war ballots (for 362 precincts, printed on lightweight white paper and boxed), \$675.

For ballot labels and specimen ballots for 43 voting machine precincts, printed on cardboard and colored paper (punching not included), \$475.

The ballots for the city election will contain 362 precinct changes, 22 ward changes, and 22 changes for council candidates in the make-up. Great care will be required on the part of the printer, as the time for printing such ballots and making a delivery to this office is very limited, in view of the necessity of having absentee ballots on hand, to be mailed as requests are filed at this office.

The Wright & Potter Printing Company is the only printing concern especially equipped to do this work, having printed the state and City of Boston ballots for a long period of years. Because of world conditions which have caused an acute shortage of paper stock, it is of utmost importance that an early decision be reached.

For the reasons as stated above, and to safeguard the voters of the city as far as possible against error, this request is made.

Respectfully yours,

BOARD OF ELECTION COMMISSIONERS,
WILLIAM A. MOTLEY, JR.,
Chairman.

PARK DEPARTMENT.

Upon September 5 the Temporary Mayor approved a contract with William P. Herlihy for excavation, loaming, and improvement of athletic field at World War Memorial Park, East Boston. Bids, opened August 28, were as follows:

William P. Herlihy, \$21,853; R. W. Balam, \$24,720; Marinucci Brothers & Co., \$25,609; M. McGinnis Company, \$27,190; David W. Kidd, \$31,560; J. A. Singarella Company, \$37,940; R. A. Buccella & Sons, \$43,235.

SUPPLY DEPARTMENT.

Upon July 14 the Temporary Mayor approved a contract in accordance with the following request:

BOSTON, July 11, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,— Your approval is requested to award contracts and orders respectively to the low bidders as shown on attached tabulation for Items 1 to 10. A separate recommendation will be made on Item 11 as more time is required to check the specifications.

The total amounts of awards were as follows:

Bowers Motor Sales, \$10,101.89; Lalime & Partridge, Inc., \$9,109.19; Builders Equipment and Supplies Company, \$7,615.42; Cote Motor Company, \$949.16.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Upon August 25 the Temporary Mayor approved a contract in accordance with the following request:

BOSTON, August 12, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,— On July 23, 1947, proposals for furnishing and installing Transit walls at the Boston City Hospital were publicly opened in this office. No bids were received.

Subsequent to the opening of the bids, the Johns-Manville Sales Corporation Federal street, Boston, submitted a quotation on the above material. Since this company is the manufacturer of this equipment, it is respectfully requested that permission be granted me to award a contract, without further public advertisement, to the Johns-Manville Sales Corporation in the amount of \$3,591.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

SUFFOLK COUNTY.

SHERIFF'S OFFICE.

Upon September 5 the Temporary Mayor approved a contract in accordance with the following request:

BOSTON, September 3, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,— On July 21, 1947, the Building Department notified this office of the dangerous condition of the masonry-fence wall at intersection of Charles and Cambridge streets which is cracked from top to bottom. The Building Department instructed us "to obtain a building permit and have brick corner removed and rebuilt satisfactory to the Building Department."

In pursuance of this order the following contractors were asked to inspect the job and submit a bid:

John Deveney Company, Coleman Brothers, J. F. Fitzgerald Company, Matthew Cummings Company, Daniel Marr and Son Company.

Only one, the Daniel Marr and Son Company submitted a bid. One other contractor, J. F. Fitzgerald Company, responded to the subsequent letter sent to each of the above-mentioned contractors, in which they state they would be interested only on a cost-plus basis.

Because of the emergency nature of this work, and because of the obvious reluctance of the contractors to bid on the work, I respectfully request that I be allowed to award this contract to the sole bidder, the Daniel Marr and Son Company, so that the work may be completed as soon as possible.

To the best of my knowledge and from inquiries I have made, the bid submitted by the Daniel Marr and Son Company appears to be a fair estimate of the cost of the required repairs.

Yours very truly,

FREDERICK R. SULLIVAN,
Sheriff.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Temporary Mayor approved contracts with firms, contractors and mercantile houses for furnishing supplies, labor, etc. Communications from the heads of the several departments interested were as follows:

BOSTON TRAFFIC COMMISSION.

BOSTON, August 21, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,— This commission has voted, subject to your approval, which approval is hereby requested, to award a contract without advertising to the Boston Edison Company to construct underground conduit and install cable for service to eighteen (18) automatic traffic signals at various intersections throughout the city at a cost not to exceed twenty-five thousand four hundred fifty-seven (25,457) dollars.

Since the Boston Edison Company is the only person or corporation having facilities available for supplying electric energy no benefit would accrue from publicly advertising.

Respectfully yours,

LEO F. CURLEY,
Commissioner.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

FIRE DEPARTMENT.

Approval has been given of the following additions to and deduction from the contract of J. A. Singarella Company for alterations, additions, and renovations to Fire Station Engine 33, located at 941 Boylston street, Back Bay.

Addition No. 1.— Furnish labor and material for the following work:

Install 4 size No. 1 Type R wires in 2-inch conduit from the service switch to the meter board. This supersedes paragraph 13-7 which calls for wires

to be in 1½-inch conduit. Install 1-inch conduit from fire alarm terminal box to the outlet box under patrol desk. This conduit shall terminate in an 18-inch by 12-inch by 4-inch cabinet with a back-board located in the electrical room. From this cabinet a ¾-inch conduit to the patrol desk and the ¾-inch conduit to the officers' room on the second floor shall be run. The feed for emergency lights for Ladder 15 shall be picked up at the west wall at the location of the old Ladder 15 patrol desk. Install a ¾-inch conduit from this point to the new patrol desk. Install two fluorescent fixtures at the sinks in the locker room, controlled by a single pull switch. Fixtures shall be similar to those in the officers' rooms. Install a new receptacle in recreation room connected to Cabinet LB at the location designated for the electric clock. Install a duplex receptacle in the electric room in the basement. \$417.45.

Addition No. 2.—Furnish and install new lintel over rear door opening into the proposed paint shop, and raise height of door opening. Also, remove shutter over opening in rear of basement and install double hung window, \$225.50.

Addition No. 3.—Furnish and install two signs designating companies quartered in fire station, \$154.

Deduction No. 1.—The specifications carry \$500 to cover furnishing of hardware. The price of \$460 has been obtained by the contractor for this hardware, and therefore a deduction of \$40 is made in the contract.

Original contract, \$49,337; total of additions Nos. 1, 2, and 3, \$796.95; total contract with additions, \$50,133.95; deduction No. 1, \$40; total contract with additions and deduction, \$50,093.95.

The additional electrical work was not included in the original specifications but should be done in accordance with the recommendations of the Superintendent of the Fire Alarm Division in order to provide for better lighting facilities in the fire station.

The new lintel is to replace badly rusted lintels now over rear door opening into proposed paint shop. The height of door opening will be raised in order that all types of fire apparatus may enter. The window to be installed in basement will admit more light.

The two signs to be installed over the main doors will designate the companies quartered in the station.

Although the foregoing is in addition to the work contemplated in the original contract, it is incidental thereto.

Approval has been given to the following addition to and deductions from the contract of J. S. Kelliher, dated April 8, 1947, for alterations and additions to Engine House 41, located at 16 Harvard avenue, Brighton.

Addition No. 6.—Furnish labor and material for installation of two signs designating companies quartered in fire station, \$111.10.

Deduction No. 1.—The specifications carried an allowance of \$500 covering the furnishing of finished hardware. The contractor has submitted a price of \$94.45 covering this hardware, and the balance is deductible from the contract, \$405.55.

Deduction No. 2.—Omission of all granolithic base specified to be installed on the apparatus room floor, \$45.

Total contract, \$18,471; total of additions Nos. 1, 2, 3, dated May 13, 1947, \$4,197; total of additions, Nos. 4, 5, dated August 1, 1947, \$4,052.76; addition No. 6, \$111.10; total contract

with all foregoing additions, \$26,831.06; deductions Nos. 1 and 2, \$450.55; total contract with all additions and deductions, \$26,381.31.

The two signs are to be installed over the two main doors of the fire station, in order that the identities of the companies quartered in the fire station will be known to the public.

Although the installation of the signs is in addition to the work contemplated in the original contract, it is incidental thereto.

EXTENSION OF CONTRACTS.

FIRE DEPARTMENT.

James S. Kelliher has been granted an extension of time for the performance of a contract for alterations and additions to Fire Station Engine 41, located at 16 Harvard avenue, Brighton. The contract is dated April 22, 1947, and was to have been completed within 90 days after date of the Mayor's approval. His Honor Mayor Curley having signed the contract April 22, 1947, the date of completion in accordance with the contract was July 21, 1947. The completion of the work has been delayed considerably because of additional work requested in the contract by this department. An extension of time for the performance of the work under the contract is requested until September 22, 1947.

PUBLIC WORKS DEPARTMENT.

C & R Construction Company has been granted an extension of the time of completion of the contract for laying high pressure fire pipes in North street and Richmond street, City Proper, approved by the Mayor on June 12, 1947. This extension is requested from August 25 to November 30, 1947, for the reason that the contractor was delayed in securing skilled help necessary for the performance of this work.

TRANSFERS OF APPROPRIATIONS.

The Temporary Mayor has approved the following requests for transfers of appropriations in accordance with the provisions of section 3B of the amended City Charter and for the reasons as below explained:

HOSPITAL DEPARTMENT.

Sanatorium Division.

From B-39, General Plant, \$1,250, to C-3, Electrical, \$1,250.

The transfer to C-3 is being requested to enable us to order electrical water cooling equipment for our dining rooms through the City of Boston Supply Department.

The surplus in B-39 comes about because we had originally planned to repair our old equipment out of this item. Upon investigation, however, it appears that we can save approximately \$1,000 by purchasing new electrical equipment in preference to putting in new tanks and piping for the old equipment which is connected with our brine system.

INSTITUTIONS DEPARTMENT.

Steamer "Stephen J. O'Meara."

From D-3, Fuel, \$25, to D-8, Laundry, Cleaning, Toilet, \$25.

To provide for soap and polish for the remainder of the year. Prices have been higher than we anticipated and Requisition No. 37 is being held by the Auditor. We anticipate sufficient balance under D-3 to provide for this transfer.

Long Island Hospital.

From B-39, General Repairs, \$2,000, to E-13, Miscellaneous Material, \$2,000.

To provide for necessary equipment parts and materials for clothing and bedding for the remainder of the year. Prices have been higher than we anticipated, and Requisitions Nos. 677, 727, 738, 757, 760, 811, 874, 895 and 905 are being held on account of insufficient funds. There will be sufficient balance under B-39 to provide for this transfer.

POLICE DEPARTMENT.

From C-3, Electrical Equipment, \$3,000, to C-16, Wearing Apparel, \$3,000.

To adjust deficit. From information received from our Property Clerk, it would appear that transfer from the item suggested may be made at this time.

PRINTING DEPARTMENT.

From A-1, Permanent Employees, \$5,000, to A-2, Temporary Employees, \$5,000.

From C-2, Machinery, \$200, to C-17, Miscellaneous Equipment, \$200.

From D-16, Miscellaneous Supplies, \$50, to D-8, Laundry, Cleaning and Toilet, \$50.

The above reallocations are necessary to provide for trainee apprentices appointed since the passing of the budget; to provide for replacing of mats in the monotype machines; and to provide for the increased cost in the laundry, cleaning and toilet supplies.

PUBLIC WORKS DEPARTMENT.

Sanitary Division.

From D-11, Gasoline, Oil and Grease, \$150, to D-8, Laundry, Cleaning, Toilet, \$150.

D-8 funds needed to cover present deficit of about \$20, and estimated requirements to end of year, including \$50 for garage soap and cleaning compounds.

From B-6, Hire of Trucks, \$1,000 to B-4, Transportation of Persons, \$1,000.

B-4 funds needed to cover estimated requirement to the end of 1947—\$500. To cover traveling expenses for anticipated visits to public works installations in other cities—\$500.

STREET LAYING-OUT DEPARTMENT.

From D-16, Miscellaneous Supplies, \$250, to F-11, Workmen's Compensation, \$250.

In order to reimburse George Gillen, a retired employee of this department, in the sum of \$250 for money expended for medical services rendered; under the provisions of G. L., chapter 152, section 30, it is necessary to procure said funds from D-16, where it is believed there will be a surplus at the end of the current year for the purchase of Rectigraph Paper.

FIRE DEPARTMENT ORDERS.

General Order No. 58.

I. DANIEL J. SULLIVAN.

It is with deep regret that the Fire Commissioner announces the death, on August 29, 1947, of Ladderman Daniel J. Sullivan of Ladder Company 11. Ladderman Sullivan was appointed to the Fire Department on April 1, 1918.

The funeral was held from the John F. Sullivan Funeral Home, 360 Market street, Brighton, at 8 a. m., Tuesday, September 2, 1947, followed by services at St. Anthony's Church at 9 a. m.

The Chief of Department made the customary detail to act as funeral escort, and the members of Ladder Company 11 were excused from duty to attend the services.

II. TRANSFERS.

The following transfer, which became effective at 8 a. m., Wednesday, September 3, 1947, is hereby announced:

Lieut. Arthur W. Howard, from Engine 40 to Ladder 4.

The following transfers, which will become effective at 8 a. m., Wednesday, September 10, 1947, are hereby announced:

Lieut. Winthrop S. Robbins, from Ladder 7 to Rescue 2.

Lieut. Arnold L. Snell, from Rescue 2 to Ladder 7.

Hoseman Owen J. Coyne, from Rescue 3 to Engine 4.

P. F. George E. Murphy, from Engine 25 to Ladder 8.

Hoseman Vincent F. Finneran, from Engine 20 to Engine 39.

III. BOSTON FIREMEN'S RELIEF FUND.

A report has been received from the chairman of the balloting committee of the Boston Firemen's Relief Fund, giving the following results of the election of members of the corporation held on Monday, September 8, 1947:

For A Three-Year Term.

District Chief John A. Morrissey, 871, elected; Ladderman John P. McLaughlin, 834, elected; Capt. James F. McFadden, 808, elected; Lieut. John F. H. Fox, 813, elected; Lieut. George E. Graney, 575; Hoseman William H. McClellan, 537; Hoseman John J. McCorkle, 519; Ladderman John C. Kabachus, 547; Owen F. Hughes, Boston Protective Department, 30.

The balance of the votes were scattered and not of a sufficient standing to be recorded.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

WILLIAM F. QUIGLEY,
Acting Chief of Department.

LAND-TAKING IN CHARLESTOWN.

The Temporary Mayor has approved the vote of the Board of Street Commissioners for the taking of land for sewerage works, to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following-described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Charlestown and are bounded as follows:

A parcel of land, owners unknown, being the private way known as Monument lane, bounded:

Northeasterly by Bunker Hill street, ten and 2-100 feet; southeasterly by the southeasterly line of said Monument lane,

two hundred seventy-five and 1-100 feet; southwesterly by Concord street, ten and 2-100 feet; and northwesterly by the northwesterly line of said Monument lane, two hundred seventy-four and 95-100 feet; containing twenty-seven hundred and fifty square feet, more or less.

The sewerage works to be constructed are as follows: 275 linear feet of 10-inch pipe sanitary sewer.

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works in Monument lane, Charlestown district, under the order of the Board of September 4, 1947, and awards no damage therefor.

Owners unknown, 2,750 square feet, nothing.

CIVIL SERVICE EXAMINATIONS. (STATE AND CITY SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

STENOGRAPHIC SERVICE.

FOR STATE AND CITIES AND TOWNS OUTSIDE OF BOSTON AND VICINITY, OCTOBER 4, 1947.

FOR STATE, BOSTON, AND CITIES AND TOWNS IN THE VICINITY OF BOSTON, OCTOBER 18, 1947.

The last date for filing applications for both of the above examinations will be Monday, September 15, 1947, at 5 p. m.

Open to males and females.

This examination is held to fill entrance stenographic positions, which have the title of Junior Clerk and Stenographer in the State service, and various titles, such as Stenographer, Junior Stenographer, Junior Clerk and Stenographer, etc., in the cities and towns.

On October 4, 1947, the examination will be held in various centrally located cities. On October 18, 1947, the examination will be held in Boston and persons who reside within commuting distance will be notified for examination on this day. All persons must appear for examination at the place and time designated in the notices mailed to each applicant by the Division of Civil Service.

Persons qualifying in the examination may have their names placed on the State list, as well as on the list for the city or town in which they have domicile.

Salary: For the State service, the entrance salary is \$1,380 a year; the maximum salary is \$1,740 a year.

In the cities and towns, the salary varies.

Vacancies: From time to time.

Duties: Under immediate supervision, to take notes from dictation and transcribe them on the typewriter; to do miscellaneous typing and routine clerical work of ordinary difficulty; and to perform related work as required.

Entrance Requirement: Applicants who have not reached their sixteenth birthday on the date of examination will not be eligible.

Subjects and Weights: Training and experience, 1; clerical tests (including spelling, arithmetic, following written directions, filing, and word knowledge), 1; stenography, 3; total, 5.

The dictation will be given at the following rates of speed: 80, 100, and 120 words a minute, the dictation at each rate of speed consisting of a letter of about 300 words in length. Each applicant may select any one or two of the three speed tests for transcription. If an applicant transcribes two tests, both are marked and the applicant is given the higher of the two marks. The transcription is marked for both speed of dictation and accuracy.

Passing Requirements: Applicants must obtain at least 70 per cent in accuracy of transcription of at least one dictation and in each subject in order to become eligible.

SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

BOSTON HOUSING AUTHORITY.

CONSTRUCTION OF VETERANS' HOUSING DEVELOPMENTS.

The City of Boston, acting by and through the Boston Housing Authority, pursuant to the provisions of chapter 372 of the Acts of 1946, as amended by chapter 479 of the Acts of 1947, will receive sealed bids for the construction of three veterans' housing developments located as follows: Sawyer avenue and Downer street, Ward 13, Dorchester district, Tileston and Windsor streets, Ward 18, Mattapan district, and Pershing road, Ward 19, Jamaica Plain district, City of Boston, Mass., until one o'clock p.m., Eastern Standard Time, September 30, 1947, at the office of the Boston Housing Authority, 10 Post Office square, Boston, Mass., at which time and place all bids will be publicly opened and read aloud. A duplicate copy of the proposal, without bid security, shall be left with the City Auditor previous to the time named for opening of bids.

The successful bidder will be required to furnish a Performance and Payment Bond as set forth in the specification.

Attention is called to the fact that not less than the minimum wage rates as set forth in a schedule contained in the specification must be paid on this project. Attention is also called to the requirements relating to Workmen's Compensation and conditions of employment.

Contract documents, including drawings and specifications, will be on file at the office of the Boston Housing Authority, 10 Post Office square, Boston, Mass., on September 17, 1947. Copies of the documents may be obtained by depositing \$10 in the form of a certified check or cash with the Boston Housing Authority, for each set of documents so obtained. The amount of the deposit will be refunded to each person who returns all the documents in good condition within ten days after opening of bids. The proposal form calls for separate bids for each of the three projects.

Sub-bids will be taken on the following portions of the work:

1. Heating.
2. Lathing and Plastering.
3. Plumbing.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest so to do. The City of Boston also reserves the right to reject all bids of the sub-bidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws. The City of Boston reserves the right to accept any one or more of the proposals contained in the bids of the general and sub-contractors and to award a contract or contracts as it deems for its best interests.

Cash, certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company, shall be submitted with each bid as follows:

1. By general bidders in the amount of five (5) per cent of the Base Proposal.

2. By sub-bidders listed under Item 2 of the General Contractor's Bid Form in not less than 5 per cent of the sub-bidder's bid price.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Boston Housing Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Boston Housing Authority.

BOSTON HOUSING AUTHORITY,
JOHN CARROLL, Chairman.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN BIRCHCROFT ROAD, WARD 18, FROM PINWOOD STREET TO 105 FEET NORTHWESTERLY; FLORIAN STREET, WARD 19, FROM WYVERN STREET TO SOUTHBORNE ROAD; LEWISTON STREET, WARD 18, FROM SAFFORD STREET TO EDWARDSON STREET; AND ROSEBERY ROAD, WARD 18, FROM GREENFIELD ROAD TO TAUNTON AVENUE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Birchcroft road, Ward 18, from Pinwood street to 105 feet northwesterly; Florian street, Ward 19, from Wyvern street to Southbourne road; Lewiston street, Ward 18, from Safford street to Edwardson street; and Rosebery road, Ward 18, from Greenfield road to Taunton avenue. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Birchcroft Road, Ward 18, from Pinwood Street to 105 Feet Northwestly; Florian Street, Ward 19, from Wyvern Street to Southbourne Road; Lewiston Street, Ward 18, from Safford Street to Edwardson Street; and Rosebery Road, Ward 18, from Greenfield Road to Taunton Avenue," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of FRIDAY, SEPTEMBER 26, 1947, with a certified check for THIRTY-FOUR HUNDRED (3,400) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Clearwater Drive, Ward 17, from Groveland Street 735 Feet Easterly; Lark Street, Ward 17, from Old Colony Avenue 85 Feet Northeastly; Lebanon Street, Ward 13, from Alexander Street to Magnolia Street; Niles Street, Ward 22, from Parsons Street, Easterly for 260 Feet; Paula Road, Ward 17, from Clearwater Drive, Northerly for 200 Feet; Tesla Street, Ward 18, from River Street to Edgewater Drive; and Webley Street, Ward 21, from Armington Street to Playground," and left at Room 508, fifth floor, City Hall Annex before 12 m. of THURSDAY, SEPTEMBER 25, 1947, with a certified check for TWENTY-SEVEN HUNDRED (2,700) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PUBLIC BUILDINGS DEPARTMENT.

INVITATION FOR PROPOSALS FOR ALTERATIONS AND RENOVATIONS TO THE CHARLESTOWN MUNICIPAL BUILDING, BUNKER HILL AND LEXINGTON STREETS, CHARLESTOWN, MASS.

The Superintendent of Public Buildings of the City of Boston, hereinafter referred to as the Awarding Authority, invites sealed proposals for alterations and renovations to the Charlestown Municipal Building, Bunker Hill and Lexington streets, Charlestown, Mass.

Proposals will be received until 12 o'clock noon, Thursday, September 25, at the office of the Awarding Authority, Room 1005, City Hall Annex, at which time and place they will be opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$300, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after September 15, 1947, at the office of the Awarding Authority upon payment of 50 cents.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, September 22, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

JAMES E. SULLIVAN,

INVITATION FOR PROPOSALS FOR PAINTING IN PEABODY BUILDING, SURGICAL BUILDING, MATERNITY AND GYN BUILDING, THORNDIKE BUILDING, MEDICAL BUILDING, AND WARD 1 OF PAVILION 3.

The Trustees of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invite sealed proposals for painting in Peabody Building, Surgical Building, Maternity and GYN Building, Thorndike Building, Medical Building, and Ward 1 of Pavilion 3, of the Boston City Hospital, 818 Harrison avenue, Boston, Mass.

Proposals will be received until Friday, September 19, 1947, at 12 o'clock noon, Eastern Daylight Saving Time, at the office of the Superintendent of the Boston City Hospital, 818 Harrison avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the architect, the John M. Gray Company, 175 High street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Superintendent of the Boston City Hospital, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid, filed with the Superintendent of the Boston City Hospital.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Specifications may be obtained at the office of the architect, the John M. Gray Company, 175 High street, Boston, Mass. A deposit of \$25 in cash or a certified check will be required for each set of specifications, and this deposit will be returned to the bidders upon receipt of said specifications in good condition by the architect.

A performance bond, issued by a surety company satisfactory to the Awarding Authority in the full amount of the contract, will be required of the successful General Contractor.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Awarding Authority.

CONSTRUCTION OF VETERANS' HOUSING DEVELOPMENT.

The City of Boston, acting by and through the Boston Housing Authority, pursuant to the provisions of chapter 372 of the Acts of 1946, as amended by chapter 479 of the Acts of 1947, will receive sealed bids for the construction of a veterans' housing development located on the southerly side of River street in the Mattapan district, City of Boston, Mass., until one o'clock p. m., Eastern Standard Time, October 1, 1947, at the office of the Boston Housing Authority, 10 Post Office square, Boston, Mass., at which time and place all bids will be publicly opened and read aloud. A duplicate copy of the proposal, without bid security, shall be left with the City Auditor previous to the time named for opening of bids.

The successful bidder will be required to furnish a Performance and Payment Bond as set forth in the specification.

Attention is called to the fact that not less than the minimum wage rates as set forth in a schedule contained in the specification must be paid on this project. Attention is also called to the requirements relating to Workmen's Compensation and conditions of employment.

Contract documents, including drawings and specifications, will be on file at the office of the Boston Housing Authority, 10 Post Office square, Boston, Mass., on September 17, 1947. Copies of the documents may be obtained by depositing \$10 in the form of a certified check or cash with the Boston Housing Authority, for each set of documents so obtained. The amount of the deposit will be refunded to each person who returns all the documents in good condition within ten days after openings of bids.

Sub-bids will be taken on the following portions of the work:

1. Heating.
2. Lathing and Plastering.
3. Plumbing.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest so to do. The City of Boston also reserves the right to reject all bids of the sub-bidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

Cash, certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company, shall be submitted with each bid as follows:

1. By general bidders in the amount of five (5) per cent of the Base Proposal.
2. By sub-bidders listed under Item 2 of the General Contractor's Bid Form in not less than 5 per cent of the sub-bidder's bid price.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Boston Housing Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Boston Housing Authority.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,

(Sept. 13.) Commissioner of Public Works.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING SUGAR.

The Supply Department of the City of Boston invites proposals for furnishing sugar for city departments, as specified in proposals which may be obtained at the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and plainly marked "Proposal for Sugar."* *There will be a charge of twenty-five cents (\$0.25) for each proposal.* The bids will be publicly opened and read Tuesday, September 23, 1947, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

TEMPORARY MAYOR JOHN B. HYNES LEADS BOSTON CITIZENS IN EXERCISES IN COMMEMORATION OF THE SIGNING OF THE CONSTITUTION — SHARES IN CELEBRATING THE 160TH ANNIVERSARY OF MOMENTOUS EVENT — CALLS ON ALL TO REDEDICATE SELVES TO PRECEPTS, TENETS, AND IDEALS THAT MADE POSSIBLE GOVERNMENT OF A PEOPLE NOW GROWN TO BE THE GREATEST AND FOREMOST NATION IN THE WORLD — RECALLS FACT THAT BOSTON PLAYED A LEADING ROLE IN FRAMING OF DOCUMENT AND ITS ADOPTION.

The following were the remarks of Temporary Mayor John B. Hynes at Boston's observance of Constitution Day, on Boston Common, Wednesday evening, September 17, 1947, at 9 p. m.:

We are gathered here this evening on historic Boston Common to observe the 160th anniversary of the signing of the Constitution of the United States and to rededicate ourselves to those precepts, tenets, and ideals which made of that document the most wonderful basic instrument of government ever conceived by man.

Throughout the length and breadth of our country this day has been appropriately observed by great gatherings such as ours here tonight in Boston. It has been celebrated in our public and parochial schools. It has been commemorated by the prayers of a grateful people in churches of all faiths and creeds.

It is most fitting that this be so, for the Constitution is a document of all our people, a truly inspired and human document, which has guaranteed us the right to live, to be free in public expression, religious observances, intellectual pursuits, and in our quest for culture and happiness.

Under it our great nation became of age. Under it we have expanded and grown until we have become the richest, most powerful, and most progressive country on earth. Moreover, it has become a symbol of happiness, prosperity, and liberty to peoples of other lands.

The citizens of Boston have a right to pardonable pride because of the important part played by men of Boston in framing and signing the Constitution. Among the signers were Nathaniel Gorham and Rufus King of Massachusetts, and also men who were born here but were representing other states — such men as Benjamin Franklin, Boston's gift to Pennsylvania and the nation, and Roger Sherman of Connecticut, a native of Newton.

It was not an easy task to draft a document which would be acceptable to the delegates who attended the Constitutional Convention of 1787 in Philadelphia. They started their deliberations on May 12 of that year. For weeks discord and angry argument prevented progress, for the membership included men of all ages from all walks of life. At one point they were so far apart that, on motion of Benjamin Franklin, they adjourned for three days to try and bring harmony out of a chaotic mess.

The wiser heads eventually prevailed. Compromises were effected, and at last the task was done. On September 17, 1787, the "Father of his Country," President George Washington, a Deputy from Virginia, was the first of 39 signers to attach his signature to the immortal document.

Our Constitution has lived from that day to this. It will continue to live only if the generations of today pledge themselves to preserve, maintain, and protect it. Such, in effect, is the oath of the President of the United States. It should also be the solemn oath of all of us, as true American citizens, who appreciate and love our great democracy, which the Constitution, 160 years old today, has made possible for you, for me, and please God, for all those who will follow us.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

NATHAN HASKELL DOLE.

BOSTON'S MAYOR AIDS IN LIVING COST FIGHT.

On September 12 Temporary Mayor Hynes issued the following:

The officials of the City of Boston are quite alarmed at the extraordinary increase in food prices. It now appears that the budgets of the Institutions and Hospital Departments of the city will not be sufficient to take care of the increased cost of food.

It seems to me that these runaway prices on the basic necessities of life, such as foods, must be controlled by drastic Federal action if the average person is to be able to make both ends meet. Persons on fixed income, such as those who work for the city, state or government, are even now pressed to meet the current prices and in order to meet those prices many individuals are required to forego other necessities of life. Demands will be made upon all government agencies, with a good deal of justification, for increased wages unless the spiraling prices take a downward turn.

I am informed that beginning September 16, and running through the 17th and 18th at 10 a. m. each morning in the Federal Building, hearings will be held by a Senatorial Committee on the price structure. I think all those in the community who have any suggestions to make, or complaints to air, should attend these hearings. The City of Boston is now cooperating with the Department of Justice and will report to that department any evidences of price fixing which come to our attention.

Unless there is a check upon high prices for food, the children of America will not receive the nourishment that growing bodies require. I am of the opinion that our Federal authorities should take prompt and appropriate action in this matter before it is completely out of hand.

RIGHTS TO STRUCTURE.

The Temporary Mayor has approved the following request:

BOSTON, September 9, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MAYOR HYNES,—By an order of the City Council of the City of Boston passed August 18, 1947, and passed again September 3, 1947, and approved by the Temporary Mayor of the City of Boston September 4, 1947, the Temporary Mayor of the City of Boston was authorized to grant a license by an instrument in writing satisfactory in form to the Law Department to Alessandro Zanetti and Caterina Zanetti, husband and wife as tenants by the entirety, their heirs and assigns, to locate, construct, and maintain a structure over sewerage works of the City of Boston situated in private lands on Bowman street in the Dorchester district.

Inclosed is an instrument of license prepared by the Law Department of the City of Boston whereby the above referred to order of the City Council may be executed. This license has been approved as to form by me as Corporation Counsel and is transmitted to you herewith for your approval, signature, seal, and acknowledgment.

After execution thereof, please return the inclosed instrument to this office, and I will arrange for the delivery of same to Alessandro and Caterina Zanetti.

Very truly yours,

JOSEPH A. SCOLPONETI,
Corporation Counsel.

MAYOR DISCONTINUES VOTING MACHINE EMPLOYEES.

His Honor the Temporary Mayor on September 17 sent the following letter:

MR. WILLIAM A. MOTLEY, JR., *Chairman,*
Board of Election Commissioners,
111 City Hall Annex, Boston, Mass.

DEAR SIR,—I am returning herewith the recommendations made by you to extend the employment of four Voting Machine Custodians.

I am of the opinion that any necessary work to be performed in connection with the maintenance of voting machines can be done by Assistant Registrars permanently employed by your Department. Consequently, I have no objection to the continued employment, as Voting Machine Custodians, of John J. Reilly and John Mayr, both of whom are permanently employed as Assistant Registrars.

The extension of appointments you have sent me indicate that the present authority extends to September 20th. Will you kindly notify the four individuals concerned that their appointment will discontinue at that time? I also believe that the employment of the other four individuals as Voting Machine Custodians should also be discontinued on that day.

If it appears that additional persons are required for the maintenance of voting machines, I would recommend that, in the future, such individuals be designated from the permanent force of your own Department.

Respectfully,
J. B. HYNES,
Temporary Mayor.

NO DAMAGES AWARDED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the taking of an easement for sewerage purposes in Colwell avenue, Brighton district, and the construction of sewerage works therein, under the order of the Board of September 10, 1947, and awards no damages therefor.

Owners unknown, 4,800 square feet, nothing.

THE STAR-SPANGLED BANNER.

Temporary Mayor John B. Hynes of Boston, on September 12, issued the following public statement:

One hundred and thirty-three years ago tomorrow, September 13, 1814, and continuing through the night and early dawn, there was born the Star-Spangled Banner, which later, by Act of Congress, was designated as the National Anthem, on March 3, 1931.

We all love the inspiring National Anthem. From early childhood, through adolescence and later life, to our dying day, it is an integral part of our very being. We take it as a matter of course — something that has been with us all our lives. And yet, not one in a hundred among us, could tell you the story of its origin.

It is worth recounting. Here it is:

The Star-Spangled Banner was written by Francis Scott Key. He was graduated from St. John's College, Annapolis, Maryland, and was practicing law in Baltimore during the War of 1812.

A warm friend of his, a doctor, was a prisoner aboard an English ship in the harbor of Baltimore in 1814, and Key, the young lawyer, resolved to obtain his release. With a flag of truce and a letter from the President (James Madison), he rowed out to the British ship.

Key's request and his credentials were honored, but he and his friend were detained aboard ship because a bombardment of Fort M'Henry was about to begin. Throughout that bombardment Key's eyes were fastened upon the Stars and Stripes which were flying over the ancient fort. A night of suspense followed. Then, in the dim haze of early morning, Key saw that "the flag was still there."

While still aboard the enemy ship, he wrote the first verse of the song which was to become immortal, the "Star-Spangled Banner." On the following day he and his doctor friend were put ashore, and he soon completed the other verses. They were published in full a day or two later in the *Baltimore American*, September 21, 1814.

Francis Scott Key, in his brave, tempestuous and extreme loyalty, gave us a heritage to consider, to abide by and to live up to.

"Oh say, does that Star-Spangled Banner yet wave

O'er the land of the free and the home of the brave?"

MESSAGE BY TEMPORARY MAYOR JOHN B. HYNES FOR CONSTITUTION DAY, SEPTEMBER 17, 1947.

Wednesday, September 17, marks the 160th anniversary of the writing of the Constitution of the United States.

On that day, I urge that all the citizens of Boston, and especially the civic and military organizations, participate in a celebration which will be nation-wide in scope, signifying our appreciation of that great document, the Constitution, wherein is guaranteed life, liberty, and the pursuit of happiness.

The Constitution of the United States has frequently and aptly been referred to as the most wonderful document ever conceived by the mind of man.

In the framing and in the adoption of the Constitution, the citizens of Boston played a very important part. On this, the 160th anniversary of the birth of the Constitution, I ask all our citizens to

recall the events incident to the framing of this most famous document and attend or participate in the exercises to be held on historic Boston Common on Wednesday, September 17, at 8 p. m.

OBJECTIONS RAISED BY BUSINESS MEN TO TAKING OF LAND FOR OFF-STREET PARKING.

His Honor, the Temporary Mayor, on September 12, received the following letter:

BOSTON, September 8, 1947.

HIS HONOR THE MAYOR, City Hall, Boston, Mass.

SIR, — We, the undersigned, all being persons of business organizations directly affected by the proposed taking of land and buildings situated on Lincoln, Essex, and Columbia streets for the purpose of creating a municipally owned garage, respectfully submit for your consideration our objections to seizure of our premises.

First. — On Friday, September 5, 1947, we appeared in a body before the Boston Real Estate Board to protest the seizure of the property. The records of that meeting will testify to the innumerable hardships that would be caused by such seizure. We have testified, briefly, that the cost of moving and lack of available space, at reasonable rental, would eliminate some of us from business, others of us unable to find large enough area at a reasonable rate of rent would have to leave the City of Boston and seek quarters elsewhere, in some surrounding city, out of our trade district, in an area foreign to our customers. We want to protect and carry on, in our present site, the business we have labored to create. We like Boston. We want to stay here. We have served the city well, some of us for over 50 years.

Second. — We object to this site being chosen when one block removed there is a more desirable, more spacious, and less congested site available. Essex street is the main artery from Copley square to the South Station, already heavily burdened with traffic. Garage exit or entrance on Essex street would create further hazard. Columbia street is a narrow one-way street, and approached only by making a sharp left turn from Bedford street, also a narrow one-way street. Columbia street is too narrow to accommodate an entrance or exit for a garage. Columbia street is impassable to traffic most of the day because of truck deliveries and pick-ups. Huge trucks block the street continually. The majority of these trucks would still be there, if our buildings were removed, since they serve the many other business tenants on the street. Lincoln street is already overlaid from Essex street to Summer street and blocked, or partially blocked, most of the day by truck delivery to the multiple business firms located in that small area. Entrance and exit on this street would further congest a present bottleneck. Many times throughout the day traffic is backed up on Essex street waiting to turn left and proceed up Lincoln street.

Third. — If the city still desires our business site after consideration of the above, we ask that the city defer action on this site temporarily. The building and use of these garages is a new venture for the city. The construction and use of the two garages already approved will provide the city with definite knowledge and experience in this field. We feel that after such experience our site would not then be chosen.

Fourth. — Our business site which the city proposes taking is comprised of 21,343 square feet of land, with an assessed valuation of \$257,800. We ask the city to go only one block away and take the Kingston, Lincoln, and Beach site which consists of 37,524 square feet of unoccupied space, with an assessed valuation of \$225,000. The city would then acquire almost twice the area, at a saving to the taxpayers and the city of \$32,800. A garage here would not only serve your present desired purpose during the day, but would also relieve a congested Chinatown, theater, and club district at night.

We realize that any site chosen would probably meet with objection by those affected. But, choosing our site affects nine tenants, and nine business firms. Choosing the site we propose, only one block removed, affects merely a site now used as an open-air parking space. No business need be moved or destroyed. Would not the latter lead to as great a good with less evil?

We ask your personal inspection of the above areas mentioned as we feel you would readily confirm our statements. We realize experts were chosen to select these sites, and we do not question their honest intent. We ask that they reconsider, with regard to the above statements, their selection of a site.

Lastly, we would record the fact that we are in favor of off-street parking facilities. We would like congestion relieved. We do not feel, however, that business and property owners should be forced to abandon the city in favor of traffic relief, particularly when nonbusiness sites are available and equally adequate.

LAND-TAKING FOR OFF-STREET PARKING.

The following action by the Board of Real Estate Commissioners has been approved:

Boston, September 10, 1947.

Whereas, The Board of Real Estate Commissioners of the City of Boston at a meeting held on January 16, 1947, pursuant to and acting under the provisions of Chapter 474 of the Acts of 1946, passed the following vote:

"Voted, That under Chapter 474, Sec. 1, Clause A, of the Acts of 1946, the following locations in the City of Boston be and hereby are determined to require public off-street parking facilities.

1. The area bounded by Congress, Purchase, Broad and Milk Streets, in the City of Boston.
2. The area bounded by Congress, Purchase, Summer, Washington and Milk Streets, in the City of Boston.
3. The area bounded by Summer, South, Beach and Washington Streets, in the City of Boston"; and

Whereas, The determination provided in the aforesaid vote was approved by the City Planning Board of the City of Boston, February 20, 1947, approved by the Boston Traffic Commission of the City of Boston, February 27, 1947, and approved by the Mayor of the City of Boston, March 14, 1947; and

Whereas, The Board of Real Estate Commissioners of the City of Boston at a meeting held on March 12, 1947,

"Voted, That subject to a proper survey and further investigation of the individual parcels contained within the site, and subject to the approval of the Mayor, the Board hereby selects the following site to be taken by condemnation proceedings for use of public off-street parking facilities. This site being within the area bounded by: Summer, South, Beach and Washington Streets, in the City of Boston, as follows:

19-59 Lincoln Street, Boston;
12-16 Columbia Street, Boston;
144 Essex Street, Boston,

which is a location already approved by the Planning Board and the Traffic Commission under the requirements of the Act for off-street parking facilities"; and

Whereas, Said vote was approved by the Mayor of the City of Boston, March 14, 1947; and

Whereas, The Board of Real Estate Commissioners of the City of Boston at a meeting held on August 13, 1947,

"Voted, That subject to the approval of the Mayor, the Board hereby selects the following site to be taken by condemnation proceedings for use of public off-street parking facilities. This site being within the area bounded by: Summer, South, Beach and Washington Streets, in the City of Boston, as follows:

19-59 Lincoln Street, Boston;
12-16 Columbia Street, Boston;
144 Essex Street, Boston,

which is a location already approved by the Planning Board and the Traffic Commission under the requirements of the Act for off-street parking facilities"; and

Whereas, Said vote was approved by the Temporary Mayor of the City of Boston, August 19, 1947; and

Whereas, The Board of Real Estate Commissioners of the City of Boston at a meeting held on August 13, 1947,

"Ordered, That due notice be given that this Board is of the opinion that public necessity requires the taking of land, including buildings or structures standing upon or affixed thereto, for the purposes of the establishment of public off-street parking facilities on a site within the following bounds: Southerly by Essex Street, by three measurements, sixty-three and 74-100 feet and eleven and 61-100 feet and fifty-nine and 80-100 feet; westerly by Columbia Street, one hundred sixty-three and 79-100 feet; northerly by land of Patrick Callahan and land of A. W. Perry, Inc., sixty-two and 01-100 feet; westerly by land of A. W. Perry, Inc., eight and 64-100 feet; northerly by land of A. W. Respectfully yours,

LEO F. CURLEY,
Commissioner.

TREASURY DEPARTMENT.

Boston, September 12, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR,—Because of the time required by bank note companies,

arrangements must now be made for the preparation and engraving of coupon bond certificates in anticipation of debt to be issued on or about December 1, 1947, to meet the cash requirements of the various loan accounts for the balance of the year.

At this time it is impossible to determine the exact amount of the proposed issue, as various factors will enter the picture, such as the progress of the housing program and the other various construction projects.

It is my intention to order 8,000 blue coupon bond certificates bearing one sheet

of coupons without the fill-in of the purpose, interest rate, and maturity, and at the time of the issue, when the exact amount of the loan, the purposes, interest rates, and maturities are known, to arrange for the filling-in of those details on the exact number of certificates required.

The Vose-Swain Engraving Company, 530 Atlantic avenue, Boston, have been doing this work for this office for over twenty years and have the necessary engraved plates in their possession. Their work has always been satisfactory, and we have found that their prices have been substantially lower than other bank note companies. They have also been able to prepare the permanent certificates within the necessary time, thus avoiding the necessity of our incurring double expense by issuing temporary certificates.

They have quoted this office the following prices for delivery on December 1, 1947:

Eight thousand blue border coupon bond certificates bearing one sheet of coupons, at 39½ cents each.

Fill-in of purposes, interest rates, and maturities for certificates bearing one sheet of coupons:

Lots of 500 or less, \$50; lots of 501 or more, 9 cents each; for each purpose or interest rate, \$20; for each maturity per purpose, \$2.

Fill-in of purposes, interest rates, and maturities for certificates bearing two sheets of coupons:

Lots of 500 or less, \$62.50; lots of 501 or more, 11½ cents each; for each purpose or interest rate, \$20; for each maturity per purpose, \$2.

Representatives of the American Bank Note Company have been asked to bid on this work, and, after giving consideration to it, have informed us that they are not in a position to bid because, among other things, they cannot meet our delivery requirements.

I therefore respectfully request your approval to award without advertising a contract to the Vose-Swain Engraving Company for the preparation of 8,000 blue border coupon bond certificates bearing one sheet of coupons at a price of 39½ cents each, with fill-in on an undetermined number of certificates at the prices quoted above.

Very truly yours,

HENRY F. BRENNAN,
City Treasurer.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

M. S. Kelliher Company has been granted an extension of time for completion of the contract for alterations at the John Marshall School, contract approved July 7, 1947. Completion date to be extended from September 15, 1947, to December 15, 1947. This extension is requested for the reason:—due to the delay in fabrication of structural steel for the boilers.

Boston Chimney and Tower Company has been granted an extension of time for completion of the contract for rebuilding chimney at the James A. McDonald School, Charlestown. Completion date to be extended from September 3, 1947, to October 1, 1947. This extension is requested for the reason:—extra work not called for in contract.

Nicholas Bello has been granted an extension of time for completion of the contract for interior and exterior painting at the George T. Angell School, contract approved August 11, 1947. Completion

date to be extended from September 3, 1947, to October 6, 1947. This extension is requested for the reason:—difficulty in securing satisfactory materials.

John Leonard has been granted an extension of time for completion of the contract for interior painting at the Julia Ward Howe School. Completion date to be extended from September 3, 1947, to October 31, 1947. This extension is requested for the reason:—insufficient time allowed to complete work.

R. Tweed & Son have been granted an extension of time for completion of the contract for interior and exterior painting at the John Cheverus School, contract approved June 30, 1947. Completion date to be extended to October 1, 1947. This extension is requested for the reason:—additional work not called for in contract.

R. Tweed & Son have been granted an extension of time for completion of the contract for interior painting at the Michelangelo School, contract approved August 11, 1947. Completion date to be extended from September 3, 1947, to October 1, 1947. This extension is requested for the reason:—due to additional work not called for in original contract.

CONSTRUCTION WORK.

The Temporary Mayor has approved the request of the Public Works Department for the following construction work:

Eleven catch-basins, two manholes, thirteen connections in Tobin road, Kerna road, Florian street and Goethe street, West Roxbury; Newbury street, Commonwealth avenue and Kenmore street, Roxbury; and Ridgemont street, Brighton, at an estimated cost of \$4,720.

A sanitary sewer of 10-inch pipe in Gallivan Boulevard, between 180 feet east of Wilmington avenue and 50 feet westerly, in the Dorchester district, at an estimated cost of \$500.

A surface drain of 12-inch pipe, seven catch-basins and connections in Clearwater Drive, between 50 feet east of Paula road and 157 feet easterly, in the Dorchester district, at an estimated cost of \$3,900.

A sanitary sewer of 15-inch pipe in East Newton street, between Harrison avenue and 240 feet southeasterly (to existing sewer), in the City Proper district, at an estimated cost of \$5,300.

A surface drain of 15-inch and 12-inch pipe, sanitary sewer of 10-inch pipe, and four catch-basins and connections in Ruskindale road, between Blake street and Wood avenue, in the Hyde Park district, at an estimated cost of \$19,800.

ADDITIONS TO CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Boston Chimney and Tower Company have been allowed to make the following addition to the contract for the James A. McDonald School: For cutting out loose mortar in crack, cleaning out and pointing same. Renew six lightning rod clips and 20 feet of ½-inch copper cable. Spot pointing all open joints in chimney. For this extra work you will add to your contract the sum of \$75, and the amount of \$75 will be added therefor, making the account as follows: Contract price, \$1,535; total additions, \$75; amount of contract, \$1,610.

R. Tweed & Son have been allowed to make the following addition to the contract for the John Cheverus School:

Paint 125 square yards of badly discolored and dirty corkboard in various rooms as directed. Apply two coats of filler and one finish coat, color to match color of room. For the work you will add the sum of \$93.75 to your contract, and the amount of \$93.75 will be added therefor, making the account as follows: Contract price, \$4,867; total additions, \$93.75; amount of contract, \$4,960.75.

POLICE DEPARTMENT ORDERS.

General Order No. 934.

The annual ball of the Boston Police Relief Association will be held in the Boston Garden, Thursday evening, December 11, 1947.

The proceeds of the ball, as members of the department know, are added to the funds of the association and are used for the payment of sick and death benefits to members of the association and their families, which funds, at the present time, are insufficient to meet the demands made upon the association.

It is the desire of the Commissioner, the Superintendent and the Board of Directors of the association that all members of the Force interest themselves and make a special effort to dispose of the tickets for the ball, and thereby make it such a success that the finances of the association will be put on a sound basis, so that the good work, accomplished by the association in assisting its members in time of sickness or death since it was organized in 1871, may be continued.

The tickets for the ball will be distributed to each station by the treasurer, Lieut. Harrington B. Wyand, Division 1, who will receive a receipt therefor. Captains of divisions will distribute the tickets to their officers and keep a correct list of the number of tickets given to each man. Each officer will make a daily return to his captain of the number of tickets he has sold, together with the name and address of the purchaser, and will return the money received to his captain.

All officers will be held strictly responsible for tickets allotted to them.

Captains will collect each day all money received by officers in the sale of tickets and will forward to the Superintendent by morning mail the following day all of such money. A correct list containing the ticket numbers, together with the

names and addresses of purchasers of tickets, shall be kept on file at the various divisions. In this way, it is expected that a complete canvass of the city will be made and a substantial increase in the sale of tickets will be accomplished.

Cash received by commanding officers will be converted into a check, made payable to Harrington B. Wyand, treasurer, B. P. R. A., and forwarded to the Superintendent's office.

All tickets that remain unsold on December 12, 1947, will be collected by the captain of each division and returned to Lieutenant Wyand who will furnish a receipt therefor.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 935.

Patrolman George Francoeur, Division 6, honorably discharged veteran of World War I; having arrived at the age of forty-six years; having been in service of the Boston Police Department for twenty years; and having requested retirement under provisions of section 57, chapter 32, General Laws (Ter. Edit.), as amended, it is hereby

Ordered, His Honor the Temporary Mayor having approved the same, Patrolman George Francoeur will be retired from active duty in the Police Department; effective Tuesday, September 16, 1947, at 5.45 o'clock p. m.

PROCEEDINGS OF CITY COUNCIL.

Wednesday, September 3, 1947.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p. m., President KELLY in the chair. Absent, Councilors Coffey and Scannell.

The meeting was opened with the salute to the Flag.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Constable, for the term ending April 30, 1948, authorized to serve civil process upon filing of bond: Herman M. Finer, 12 Willowood street, Dorchester.

Weigher of Coal, for the term ending April 30, 1948: Chester K. Wickes, 699 Hyde Park avenue, Roslindale.

Weighers of Goods, for the term ending April 30, 1948: Joseph P. Kenney, 52 Church street, Dorchester; Richard J. Ryan, 14 Hummock road, Quincy, and James J. Durkan, 29 Harvard avenue, Brookline.

Severally referred to the Committee on Constables and Confirmations.

IMPROVEMENTS FOR CAMP MCKAY.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Boston Housing Authority relative to your order of April 28, 1947, concerning recreational facilities at Camp McKay, Dorchester.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Boston Housing Authority,
August 19, 1947.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mayor Hynes,—This Authority is in receipt of your memorandum enclosing an order in Council of April 28, 1947, introduced by Mr. Hannon, relative to providing recreational facilities and an assembly hall at Camp McKay, Dorchester.

A query has been made to the School Buildings Department for the purpose of obtaining a portable school building for recreational purposes. We have been informed by the School Buildings Department that originally they had under their supervision 240 portable school buildings. At the present time they have only nine buildings, and these are being used for schoolroom purposes.

Application for playground equipment has been made to the Federal Public Housing Authority, and they have not been able to procure the requested equipment to date.

Very truly yours,

JEREMIAH F. SULLIVAN,
Acting Executive Director.

Placed on file.

VETERANS' HOUSING PROGRAM.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Boston Housing Authority relative to your order of May 19, 1947, concerning eligibility requirements for single and two-family houses being constructed for veterans.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Boston Housing Authority,
August 19, 1947.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mayor Hynes,—This Authority is in receipt of your memorandum enclosing an order in Council of May 19, 1947, introduced by Mr. Linehan, relative to making provisions for World War II veterans to move into single and two-family homes being constructed who are presently residing in the low rent housing developments and who have been given eviction notices because of excess income.

This is to advise you that the Authority has not as yet drawn up specific eligibility requirements for the single and two-family program.

Very truly yours,

JEREMIAH F. SULLIVAN,
Acting Executive Director.

Placed on file.

TRANSFER OF OLD COLONY HOUSING PROJECT TO BOSTON HOUSING AUTHORITY.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Boston Housing Authority relative to your order of July 14, 1947, concerning the reserving of the Old Colony Housing Project for low income families.

Respectfully,
J. B. HYNES,
Temporary Mayor.

Boston Housing Authority,
August 19, 1947.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mayor Hynes,—This Authority is in receipt of your memorandum enclosing an order in Council of July 14, 1947, introduced by Mr. Linehan, requesting this Authority to make application to the Federal Public Housing Authority to reserve the Old Colony Housing Project for low income families.

You are advised that the Wolcott Bill, so called, which is evidently the basis of the order in Council, was not passed at the last session of the Congress. It would therefore appear that there is no immediate action necessary on this order.

Very truly yours,
JEREMIAH F. SULLIVAN,
Acting Executive Director.

Placed on file.

ERECTION OF HOUSING PROJECTS, NORTH END, WEST END, AND SOUTH END SECTIONS.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Boston Housing Authority relative to your order of July 14, 1947, concerning the erection of housing projects in the North, West, and South Ends of Boston.

Respectfully,
J. B. HYNES,
Temporary Mayor.

Boston Housing Authority,
August 19, 1947.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mayor Hynes,—This Authority is in receipt of your memorandum enclosing an order in Council of July 14, 1947, introduced by Mr. Russo, requesting this Authority to consider the advisability of erecting projects in the North End, West End, and South End sections of Boston.

The Authority is making an examination of all available land in the City of Boston. As of this date it has been unable to locate any land which would be suitable in either the North or the West Ends.

It is the intention of the Authority to construct a low income project in the South End at as early a date as it can.

Very truly yours,
JEREMIAH F. SULLIVAN,
Acting Executive Director.

Placed on file.

MONTHLY REPORTS FROM BOSTON HOUSING AUTHORITY.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1947.
To the City Council.

Gentlemen,—I forward herewith communication from the Boston Housing Authority relative to your order of August 4, 1947, concerning a progress report of construction of one- and two-family houses.

Respectfully,
J. B. HYNES,
Temporary Mayor.

Boston Housing Authority,
August 19, 1947.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mayor Hynes,—This Authority is in receipt of your memorandum enclosing an order in Council of August 4, 1947, introduced by Mr. Linehan, relative to a progress report once a month relative to the construction of one- and two-family houses by this Authority on the city program.

You are advised that this Authority will be pleased to report to your Honor at such times and in such form as your Honor may request.

Very truly yours,
JEREMIAH F. SULLIVAN,
Acting Executive Director.

Placed on file.

Office of the Mayor, August 28, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department relative to your order of August 18, 1947, concerning the repainting of the plaque containing the names of World War II veterans from Dorchester, located in the park reservation at Bradlee and Algonquin streets, Dorchester, Ward 17.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, August 26, 1947.

J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—The veterans' memorial board on Park Department property on Bradlee street grass plot at Washington street, Dorchester, was erected by the air raid wardens of that district. It was not city-sponsored. The names on the board are kept up by private individuals.

The top scroll part of the board is constructed of five thicknesses of plywood. The weather has got in between these pieces of plywood, and it is curling and breaking off. If it is to be properly maintained, this deteriorated memorial top board with scroll will have to be replaced. It should be in one piece and one thickness. A sign painter would have to do the new board with the stars and lettering in gold leaf. In the rear of the board is a flagpole which should be painted.

I visited the site with a contractor who quoted a price of \$125 to renew the scroll board, do all painting, lettering, and gold leaf work on the memorial, and to paint the flagpole.

In talking with the Auditing Department, I was told that it might be ruled that the city's funds cannot be expended on property built from private funds.

In conclusion, I feel that, first, the City Law Department should rule whether the city's money can be spent for this work, and, second, if it can be and it is deemed advisable to take over the maintenance of these privately built memorials, that money be appropriated for just this purpose, as it is not one memorial board that needs attention, but a dozen or more privately built and privately operated now on city-owned land.

Respectfully yours,
JOHN J. MURPHY,
Deputy Commissioner.

SHOWER-BATH FACILITIES IN SCHOOL-YARDS, PARKS AND PLAYGROUNDS.

The following was received:

City of Boston,
Office of the Mayor, August 26, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the School Committee relative to your order of August 18, concerning the use of shower-bath facilities in schoolyards and other school property.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
School Committee, August 22, 1947.

Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Sir,—An order of the City Council, passed at the meeting of August 18, 1947, requesting "the Boston School Committee, through his Honor the Mayor, to turn on all shower facilities in schoolyards and in other school property under their jurisdiction during the hot weather for the benefit of children," has been received.

At the conference of the School Committee held on June 13, 1947, the committee approved the suggestion of the Director of Physical Education that showers be turned on from 10.30 to 11.30 a. m. on warm mornings, and from 2.30 to 3.30 p. m. on warm afternoons, during the summer vacation, in schoolyards having outdoor shower facilities. These showers are under the supervision of the custodian in charge of the building having these facilities.

It would seem, therefore, that no further action is necessary at this time.

Very truly yours,
AGNES E. REYNOLDS,
Assistant Secretary.

APPROPRIATION FOR CELEBRATION OF "REDEDICATION WEEK."

The following was received:

City of Boston,
Office of the Mayor, September 3, 1947.
To the City Council.

Gentlemen,—On September 17, 1947, the 160th anniversary of the signing of the Constitution, a national year of rededication by all citizens of the United States to the American heritage of freedom, will open. During the year, the Freedom Train, with three exhibit cars containing more than 100 of the famous original documents which have marked the development of individual liberties in this country from Colonial days to the present, will travel through the 48 states of the Union, stopping in 300 communities for public display.

This train will visit Boston during the week of October 5-12, and the city has been requested by the American Heritage Foundation to designate this period as "Rededication Week" and to conduct a series of daily programs in which every citizen will be able to take part, in a renewed understanding of his personal liberties and a rededication to the American heritage in every aspect of his daily life.

The committee which I have appointed to arrange for the observance of "Rededication Week" is now at work in the formulation of an appropriate program. The nature and extent of this program has not as yet been finally determined. In my opinion, it is desirable that the committee should be empowered to expend funds in an amount sufficient to warrant a proper and adequate observance by the city. I therefore submit herewith an order authorizing the expenditure of a sum not in excess of \$7,500 for this purpose, said expenditure to be charged to the Contingent Fund. I respectfully recommend adoption of this order by your Honorable Body.

Respectfully,
JOHN B. HYNES,
Temporary Mayor of Boston.

Ordered, That the committee appointed to arrange for the proper observance of "Rededication Week" be authorized to expend under the direction of the Mayor in the prosecution of its duties a sum not in excess of seventy-five hundred dollars (\$7,500), said sum to be charged to the Contingent Fund.

Referred to the Executive Committee.

VETO MESSAGE AND NEW ORDINANCE AND ORDER ON MARKET LEASES.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1947.
To the City Council.

Gentlemen,—For technical reasons I return herewith, without my signature and disapproved,

the ordinance adopted by your Honorable Body on August 18, 1947, relative to market leases.

Through an oversight the ordinance purported to amend a section in the Revised Ordinances of 1925, which ordinances are no longer in existence.

Your attention is also called to the fact that, from the opening of Faneuil Hall Market in 1826 up to the present time, the leases have been so executed that they all would expire on the same definite date. By this arrangement the opportunity is afforded the Mayor and City Council at the time for renewal of the leases to make a general increase or decrease in the rentals of all the leased premises according to existing conditions.

I submit herewith an ordinance which is in proper form to cover the situation.

In addition to the ordinance it appears to be necessary to remedy another complication. On February 24, 1947, the City Council, with the approval of the Mayor, authorized the Superintendent of the Public Buildings to renew the leases, at a 25 per cent increased rental, to date from October 1, 1946. Due to certain legal complications the Superintendent has been unable to execute the leases, and the lessees have been tenants-at-will since last October. To meet this complication I also recommend the passage of the accompanying order.

Both the ordinance and the order should be adopted without delay, in order that the renewed leases and increased rentals may be effective by October 1, 1947.

Respectfully,
JOHN B. HYNES,
Temporary Mayor.

City of Boston,

In the Year Nineteen Hundred and Forty-Seven.
An Ordinance Concerning Faneuil Hall Market Leases.

Be it ordained by the City Council of Boston, as follows:

Chapter twenty-five of the Revised Ordinances of 1947 is hereby amended by striking out section 9 and inserting in place thereof the following:

SECTION 9. The Superintendent of Public Buildings shall lease, from time to time, by instruments approved as to form by the Corporation Counsel and approved in writing by the Mayor, the stalls, cellars, and second floor in Faneuil Hall Market for terms of three years from October 1, 1947, and at the expiration of such leases for further terms of three years, at the rents established by the City Council and upon such other terms and conditions as may be approved by the Corporation Counsel and the Mayor.

Whereas, Due to legal difficulties in executing the so-called Faneuil Hall Market leases in compliance with the order passed in City Council, February 24, 1947, increasing rental rates by 25 per cent, the occupants of said market have been tenants at will since October 1, 1946;

Ordered, That the Superintendent of Public Buildings be authorized, with the approval of the Mayor, to make such leases at the rates specified in the said order of February 24, 1947, for a term of three years from October 1, 1947.

Ordinance and order referred to the Executive Committee.

LICENSING OF AUTOMATIC AMUSEMENT DEVICES.

The following was received:

City of Boston,

Office of the Mayor, September 3, 1947.

To the City Council.

Gentlemen,—On the recommendation of the Police Commissioner, I submit herewith a proposed ordinance covering the licensing of automatic amusement devices. The draft as submitted follows closely the provisions of an ordinance adopted by the Cambridge City Council on December 16, 1946. I am informed that during the current year Cambridge will receive in revenue from the licensing of these devices an amount in excess of \$3,000. On this basis it would seem reasonable to assume that adoption of the proposed ordinance in Boston would mean additional revenue in the neighborhood of \$25,000 annually. In addition to the revenue aspects of the proposed ordinance, there is also the control and regulation of the use of these various automatic amusement devices which would be secured under the rules and regulations which would be established as a part of the license procedure. I submit herewith the communication of the Police Commissioner which accompanied the proposed ordinance. I recommend favorable consideration by your Honorable Body of the ordinance as submitted.

Respectfully,
J. B. HYNES,
Temporary Mayor of Boston.

City of Boston,
Police Department, August 11, 1947.

Hon. John B. Hynes,

Temporary Mayor of Boston.

Dear Sir,—The automatic amusement device commonly known as "pinball machine" is in operation throughout the city in restaurants, public halls, stores, places of amusement, and practically every place where members of the public congregate.

According to a recent decision handed down by the Supreme Judicial Court of Massachusetts on January 7, 1946 (Com. vs. Sidney Wolbarst, 319 Mass. 291), an ordinance prohibiting the possession and control of automatic amusement devices was held repugnant to existing Statute Law and unconstitutional. It appears from the discussion in this case that devices of this type, for amusement only, "should not be deemed unlawful."

The problem presented to the Police Department in relation to this type of amusement seems to concentrate on the use of these machines by children of all ages. There is no doubt in my mind that the frequent use of "pinball machines" by children of tender years is detrimental to their formative period, and it appears quite necessary that the use of this type of amusement should be regulated by the proper licensing authority.

Therefore, after an exhaustive study of the laws relating to amusement devices, I have drawn a proposed amendment to the Revised Ordinances of 1925 of the City of Boston, which you will please find enclosed.

Prompt action on this important matter by the City Council will not only bring new revenue to the city but will greatly assist law enforcement in the proper regulation of automatic amusement devices.

With kind personal regards, I am
Very truly yours,
T. F. SULLIVAN,
Police Commissioner.

City of Boston,

In the Year Nineteen Hundred and Forty-seven.

An Ordinance Concerning Automatic Amusement Devices.

Be it ordained by the City Council of Boston, as follows:

The Revised Ordinances of 1947 are hereby amended by adding thereto the following chapter:

CHAPTER 42.—CONCERNING AUTOMATIC AMUSEMENT DEVICES.

SECTION 1. For the purpose of this chapter, an automatic amusement device is hereby defined as any mechanism whereby, through the insertion of a coin or token, any apparatus is released or set in motion or is put in a position where it may be set in motion for the purpose of playing any game, including, but not exclusively, such devices as are commonly known as pinball machines, marble games, diggers, grab machines, baseball or football machine games, target machines and horse racing machines.

SECT. 2. No person shall, except in accordance with a license granted by the mayor, maintain, operate or permit to be operated or maintained in any restaurant, public hall, store, place of amusement or any other place to which members of the public may resort, any automatic amusement device.

SECT. 3. Licenses granted for the maintenance, possession and operation of such automatic amusement devices shall be issued annually to expire on December thirty-first of each year. The fee for such license shall be twenty-five dollars per year for each device.

SECT. 4. The mayor shall make rules and regulations for the use of such automatic amusement devices by the holders of licenses and he may require, from time to time, the furnishing of reports concerning the ownership of such devices or any interest therein, receipts for the use of such devices and any other information which he may deem pertinent concerning such devices and their use and operation.

SECT. 5. No person holding a license for the use of any such automatic amusement device shall use or permit the same to be used for the purpose of gambling in any manner whatsoever, either directly or indirectly.

SECT. 6. No licensee under this chapter shall permit a minor to operate an automatic amusement device without the written consent of his parent or guardian.

SECT. 7. Automatic amusement devices shall be so installed on the premises described in the license as to be in open view at all times while in operation. They shall at all times be available for inspection by the mayor and the police commissioner for the city of Boston or their authorized agents. Licenses shall not be valid to protect the holders thereof in a building or place other than that designated in the license, unless consent to removal is granted by the mayor.

SECT. 8. Any violation of the provisions of this ordinance or of chapter 136 of the General Laws shall be cause for revocation of licenses for all devices owned or controlled by licensee.

SECT. 9. Any person, firm or corporation violating the provisions of this ordinance shall be subject to a penalty not exceeding twenty dollars for each offense.

Referred to the Committee on Ordinances.

TRANSFER OF APPROPRIATION.

The following was received:

City of Boston,

Office of the Mayor, September 3, 1947.
To the City Council.

Gentlemen,—I am in receipt of the accompanying letter from the City Auditor setting forth the fact that an additional appropriation of \$7,500 will

be required to cover during the balance of the current fiscal year the compensation authorized under chapter 580 of the Acts of 1947 for the Temporary Mayor. I submit herewith an order providing for the transfer of this amount from the Reserve Fund and respectfully recommend its adoption by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor of Boston.

City of Boston,

Auditing Department, August 27, 1947.
Hon. John B. Hynes,

Temporary Mayor of Boston.

Dear Sir,—Since your induction as Temporary Mayor, the compensation authorized for your services under chapter 580 of the Acts of 1947 has been paid from the appropriation for A-2, Temporary Employees, in the budget for Mayor, Office Expenses. When this appropriation was originally authorized, it was not contemplated that it would be utilized to bear such charges. As a result, the appropriation is now practically exhausted. To cover your services as Temporary Mayor during the balance of the current year, an additional appropriation of \$7,500 will be required. I suggest that this amount be provided by a transfer from the Reserve Fund.

Respectfully,
CHARLES J. FOX,
City Auditor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$7,500, to the appropriation for Mayor, Office Expenses, A-2, Temporary Employees, \$7,500.

Referred to the Executive Committee.

TRANSFER OF APPROPRIATIONS, COUNTY BUILDINGS.

The following was received:

City of Boston,

Office of the Mayor, September 3, 1947.
To the City Council.

Gentlemen,—The enclosed request for transfer of appropriations, together with the accompanying order, is forwarded for consideration and adoption by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Buildings Department, B-39, General Repairs, \$7,000, to the appropriation for County of Suffolk, County Buildings, B-39, General Repairs, \$7,000.

Referred to the Executive Committee.

APPROPRIATION FROM PARKMAN FUND INCOME.

The following was received:

City of Boston,

Office of the Mayor, September 3, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners, requesting the appropriation of \$45,000 from the income of the George F. Parkman Fund, to be expended under the direction of the Board of Park Commissioners for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1947 budget estimates of the personal service requirements of the Park Department included an estimate of the total income of \$180,000 from the Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887.

I submit herewith an order appropriating the sum of \$45,000, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,

Park Department, September 3, 1947.
Hon. John B. Hynes,

Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the

George F. Parkman Fund the sum of \$45,000, which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on
January 12, 1887, Maintenance and
Improvement of..... \$45,000

When making up the budget estimates for the year 1947, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1947, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Very respectfully yours,

JOHN J. MURPHY,
Chairman.

Ordered, That the sum of \$45,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on
January 12, 1887, Maintenance and
Improvement of..... \$45,000

Referred to the Parkman Fund Committee.

TRANSFER OF APPROPRIATION FOR PUBLIC CELEBRATIONS DIVISION.

The following was received:

City of Boston,
Office of the Mayor, September 3, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached request from the Acting Director of Public Celebrations, requesting an additional appropriation of \$15,000 to cover expenditures for the balance of the year.

The original appropriation recommended by the Mayor when submitting the budget for 1947 was reduced \$15,000 by the City Council, or from \$90,000 to \$75,000.

It is apparent from the explanation contained in the attached request that the additional sum of \$15,000 is necessary to carry on the functions of the Public Celebrations Division for the balance of the year, and I recommend consideration and passage of the accompanying order transferring the sum of \$15,000 from the Reserve Fund for this purpose.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Office of the Mayor, September 2, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Mr. Mayor,—Your permission and authorization to seek an additional appropriation of \$15,000 is hereby requested for the Department of Public Celebrations, to cover expenditures for the balance of this year. The originally prepared budget for this department found every item pared to a minimum by the Director of Public Celebrations, but even after paring down these items the Council cut an amount of \$15,000 from the budget.

At the present time there is approximately a balance of \$8,000 in the funds of the Department of Public Celebrations for the remainder of this year. Of this amount \$5,000 will be required for salaries for the remainder of this year, and there is approximately \$5,000 in bills outstanding—leaving a deficit of \$2,000.

The anticipated celebrations expenditures of the department for the remainder of this year are as follows:

September 1, 1947, Labor Day, \$1,500; September, Commander Jack Barry Day, \$300; October 12, 1947, Columbus Day, \$3,000; November 11, 1947, Armistice Day, \$1,500; December, 1947, Christmas celebrations, \$1,500—\$7,800; plus additional funds for bills outstanding, \$2,000; total, \$9,800.

Besides these expenditures the Department of Public Celebrations is going to be asked again this year, as they were last year, to assume the bills for the Halloween parties run by the Park Department throughout the entire city, the approximate cost for same being \$5,000. Therefore, between the public celebrations planned for the rest of this year and the proposed Halloween parties we will have to obtain this additional money. The matter as presented has been discussed with the Director of Public Celebrations and meets with his approval. Above total, \$9,800, plus \$5,000—net total, \$14,800.

Respectfully submitted,

PETER J. CLOBERTY,
Acting Director of Public Celebrations.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Special Appropriation, Reserve Fund, \$15,000, to the appropriation for Special Appropriation, Public Celebrations, \$15,000.

Referred to the Executive Committee.

STREET RAILWAY LINES IN HYDE PARK.

The following was received:

City of Boston,
Office of the Mayor, September 3, 1947.
To the City Council.

Gentlemen,—By the terms of the Acts of 1947, chapter 544, and pursuant to action taken thereunder by the Metropolitan Transit Authority, public control of the Boston Elevated Railway Company ceased on August 29, 1947, and the entire assets of that company have been acquired and will be operated in the future by the Metropolitan Transit Authority. The lease from the City of Boston to the Boston Elevated Railway Company of the so-called Hyde Park Lines, which were acquired by the city pursuant to the Statutes of 1923, chapter 405, ended, by its own terms, at the termination of public control. Provision was made for a new arrangement with respect to the operation of these lines by the Metropolitan Transit Authority in section 16 of Statutes 1947, chapter 544. That section provides as follows:

"If this section shall be accepted by vote of the city council of the city of Boston, hereinafter called the city, approved by the mayor, and a certificate evidencing such acceptance shall be filed with the state secretary, the authority and the city shall be deemed to have entered into a contract for the use of the lines of street railway in that part of Boston formerly Hyde Park included in the existing contract for use between the city and the company dated August twenty-third, nineteen hundred and twenty-three, of certain properties acquired under the provisions of chapter four hundred and five of the Acts of nineteen hundred and twenty-three upon the same terms and conditions as contained in said contract for use, for a term extending until such time as the bonds of the city issued under authority of said chapter four hundred and five shall have been paid, and into a further contract that when all such bonds have been paid title to the properties included in said contract for use shall vest in the authority free from any further payment or liability to the city of Boston."

As you will note, the acceptance of that section would amount to the writing of a new lease with the Metropolitan Transit Authority on the same terms and conditions as the previous lease. Such new lease will continue until the payment of all bonds of the city issued under authority of the Statutes of 1923, chapter 405, for the original acquisition of the Hyde Park Lines. I am informed that the last of those bonds will mature in 1981. On the payment of such last maturing bonds the lease will terminate, and title to the Hyde Park Lines will pass, without further payment, to the Metropolitan Transit Authority.

The acceptance of section 16 has been recommended by the Transit Commission and by the Law Department. I recommend, therefore, the passage by your Honorable Body of the attached order.

Respectfully,

JOHN B. HYNES,
Temporary Mayor.

City of Boston,
Law Department, September 3, 1947.
Hon. John B. Hynes,

Temporary Mayor of Boston.
Dear Sir,—I have considered the letter of the Transit Department dated August 18 which you transmitted to me on August 20. In that letter, the Transit Department recommends the acceptance by the city of section 16 of the Statutes of 1947, chapter 544.

After full consideration of the question which I have discussed on several occasions with the Transit Commission, I am inclined to concur in their recommendation that section 16 be accepted by the city.

Very truly yours,

JAMES W. KELLEHER,
Assistant Corporation Counsel.

City of Boston,
Transit Department, August 18, 1947.
Hon. John B. Hynes,

Temporary Mayor of Boston.
Dear Sir,—The following is a report made pursuant to your Honor's request under date of July 28 that the Transit Department make a report on the acceptance of section 16 of chapter 544 of the Acts of 1947.

This chapter creates the Metropolitan Transit Authority, which has notified the Elevated that the authority elects to purchase the assets, property, and franchise of the company and, therefore, at 12 noon, August 29, public control of the Elevated comes to an end, and with it the contract between the city and the Elevated for the use of the Hyde Park Street Railway.

However, it is provided in said chapter that the city, by accepting section 16, may continue with the Transit Authority the existing contract.

It is the opinion of the Transit Department the city would do better to make a choice, which we do not regard as dubious, of accepting section 16 than by refusal to accept, thereby ending its contract for the continued use of the Hyde Park Street Railway.

It has been pointed out to us by the Law Department that the Legislature undoubtedly intended that all the outstanding Hyde Park bonds issued by the city should be paid at maturity and that the rentals should not end until the last installment of interest and the last remaining obligations amounting to \$15,000 have been paid to the bondholders. The date for final payment of bonds and rentals is May 1, 1981, at which time title to the railway passes from the city to the Transit Authority.

The Act does not state the manner and date of payment, and this omission has raised a doubt which we do not share but which, it is said, might result in the early payment of the \$15,000 and the concurrent termination of the rental.

The city, we think, should assert its rights under the contract which it has with the Elevated for the use of the Hyde Park Street Railway. It should do this not only for the protection of its taxpayers who have been called upon to meet heavy continuing Elevated deficits, but also for the reason that no precedent may be set up for the ultimate loss of rentals on subways and tunnels owned by the city.

Yours respectfully,

MALCOLM E. NICHOLS,
Chairman.

Boston, August 19, 1947.

The financial picture, so far as the city is concerned, on the Hyde Park Street Railway is as follows:

The total cost of this project to the city for construction was \$337,000. From the first year the city started to collect rentals from the Boston Elevated Railway, the rental charge was never sufficient to even offset the interest on the bonds. As of December 31, 1947, there is a deficit of \$57,260.21, the difference between the rentals from 1925, \$256,397.29, and the interest charges, \$313,657.50. If the Boston Elevated continues to pay the yearly rental on this project until all bonds are retired, there still will be a deficit of \$43,511.80. The total cost of construction plus the interest paid from 1925 to 1981 amounts to \$676,184.37; less the total rentals from 1925 to 1981, \$632,672.57—\$43,511.80.

Ordered, That section 16 of chapter 544 of the Acts of 1947, "An Act providing for the creation of the Metropolitan Transit Authority and the Acquisition and operation by it of the entire assets, property and franchises of the Boston Elevated Railway Company," be, and the said section hereby is, accepted.

PROPOSALS FOR SEWERAGE WORKS IN KEYSTONE STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Keystone street, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Keystone Street, West Roxbury," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of THURSDAY, OCTOBER 2, 1947, with a certified check for FIVE HUNDRED (500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

AIRCRAFT MATERIAL PRODUCTION 41 PER CENT OF TOTAL AUTOMOTIVE WAR JOB.

Behind current attempts to knock Germany out of the war by means of airpower, stands the teamwork of the automotive industry, which has done much to get bombers in the air over Hitler's domain.

The motor industry, starting as a scrub team in the aircraft field a year before Pearl Harbor has since attained major league stature.

In the two years since December 7, 1941, the industry's output of bombers and fighters has constantly soared. Measured in dollar volume, it rose from \$400,000,000 annual rate of production on the day of the Jap's assault to \$4,300,000,000 on the second anniversary of that "day of infamy."

The same upward spiral took place in deliveries of all forms of war materials by automotive plants. When Pearl Harbor news struck, they had reached an annual production rate of \$1,777,000,000 for all forms of military requirements: aircraft, military vehicles, tanks, guns, ammunition, marine engines and other equipment. Today the annual production rate tops the \$10,000,000,000 mark.

CREATES ARBITRATION BOARD TO SETTLE INDUSTRIAL LABOR DISPUTES.

The city council of Toledo, Ohio, recently approved an "industrial relations charter" which creates a labor-management citizens' committee of 18 appointed by the Mayor. The charter is recommended by the Toledo City Council for adoption by representatives of industry and labor in the city. The preamble states: "Industrial harmony means more than the elimination of strikes, slow-downs and lock-outs. It means a practical, common-sense recognition of the rights of both employers and employees, the mutuality of their interests, and the importance of their joint responsibility to the citizens as a whole, whose interests transcend the presumed rights of any group."

Fifty-seven new manufacturing firms are recorded for the Metropolitan Boston area for the first four months of 1947, furnishing employment to an estimated 460 persons, according to the Department of Commercial and Industrial Affairs of the Boston Chamber of Commerce. Experience has shown that many of the new manufacturers continue to grow, so the early reports are not to be considered as giving their potential employment strength.

The Department recorded eight new manufacturing firms for April, with expansions of plants of three other concerns.

Proposals will be received until 12 o'clock noon, Thursday, October 2, at the office of the Awarding Authority, Room 1005, City Hall Annex, at which time and place they will be opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$500, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after Monday, September 22, 1947, at the office of the Awarding Authority upon payment of 50 cents.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Monday, September 29, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

No. 39

TEMPORARY MAYOR JOHN B. HYNES URGES STATE AID IN HOUSING SITUATION FOR VETERANS — APPEARS BEFORE SPECIAL LEGISLATIVE COMMITTEE ON TRAFFIC, HOUSING, RECREATION, AND STREET LIGHTING IN BOSTON, TO PROPOSE AMENDMENT TO STATE HOUSING LAW; ANNUAL PAYMENTS FROM VETERANS' SERVICES FUND TO COMMUNITIES, TO MEET COSTS OF HOUSING PROGRAMS; AND MEMORIALIZATION OF CONGRESS FOR BENEFICIAL CHANGES IN TAFT-WAGNER-ELLENDER HOUSING BILL, TO EASE PRESENT BURDENSOME COSTS THAT HANDICAP ALL EFFORTS TOWARD PROPER HOUSING CONDITIONS.

At the hearing before the legislative committee on veterans' housing and kindred matters relating to Boston, Temporary Mayor John B. Hynes delivered the following address:

Mr. Chairman and Members of the Commission.

As Temporary Mayor of Boston, I believe that the biggest and most important tasks confronting our city involve the solution of its traffic and housing problems, and we are now in the process of spending millions of dollars to improve both our traffic and housing facilities, both problems which your commission is considering.

In appearing at your hearing today, I do so with two purposes—to outline what Boston is doing to help improve its critical housing situation and to offer some suggestions for possible steps through which the state might aid Boston and other local communities.

As you ladies and gentlemen of this commission, of course, realize, housing is a national problem, and one that should be approached on the national and state levels. In Boston, for example, it is far too vast for the city alone to solve without extensive help from the state and federal governments.

It may well be stated that not enough is being done in Boston to provide additional housing facilities for the families of veterans and others who are in desperate need of living quarters, but the blunt fact of the matter is that the city is now in the process of doing as much as it can possibly afford to do, possibly even more than it can afford from a financial standpoint. As Temporary Mayor, I do not feel that I could commit the city to any greater expenditure of money than is now planned.

We are now in the midst of a program for the construction of \$10,000,000 worth of one- and two-family homes for the families of veterans. In addition, we are prepared to go ahead with the long-delayed Cathedral Project in the South End as a veterans' development, if we are unable to persuade the federal government to construct it as a low income project, and for reasons which I will explain later I am hopeful that it will be possible to build it as a federal project. In addition, money has been allocated for the erection of other multiple housing.

City's Losses Estimated.

In all, the expenditure of some \$20,000,000 for permanent housing has been authorized, with the prospect that the city's financial loss from the venture may ultimately amount to as much as a third of that sum. I am certainly not overstating the situation when I say that Boston cannot afford to absorb the bulk of that loss, and there is bound to be some loss, whether it proves more or less than a third of the total outlay.

As was the case in the early stages of the war, when many persons were unable to understand why it took so long for the armament output from our plants to increase from a trickle to a flood, the mere appropriation of money can't provide housing overnight. Our program has been beset by many obstacles, some of a technical nature, others caused by shortages of labor and materials. It has taken time to iron them out.

We hope to have a fairly substantial number of one- and two-family houses ready for occupancy by the time the snow flies, and a much greater number under construction.

As a matter of statistics, there are approximately 210,000 dwelling units in Boston, in approximately 85,000 structures. In 1940, 42,000 dwelling units were classed as substandard by the federal government, and it is very doubtful that number has been lowered any during the past seven years.

It is conservatively estimated that from 15,000 to 20,000 additional dwelling units are urgently needed to prevent a further decentralization, which Boston cannot afford. The greatest need is by families of veterans of World War II, in the income group whose earnings are in the vicinity of \$50 per week, who for the most part want to rent homes rather than to purchase them. In this latter regard I might point out that Boston is essentially a city of rent-payers. Only one out of every five families own the homes they live in, as compared to an average of three out of every five in a city such as Newton.

One step I believe this commission should take is to recommend to the Legislature that it memorialize Congress for the enactment of either the Taft-Wagner-Ellender Bill or some other measure of a similar nature.

(Continued on page 1091.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

TEMPORARY MAYOR JOHN B. HYNES URGES STATE AID IN HOUSING SITUATION FOR VETERANS.

(Continued from page 1089.)

MEASURE NECESSARY.

Virtually all authorities on housing agree that such a measure is necessary for the purpose of not only relieving the housing shortage in the low income levels, but also to rebuild our cities, to stop the force of blight, to redevelop neighborhoods, to make the fullest use of existing streets, utilities, and schools, and to prevent the decentralization of cities. Enactment of a new federal law, providing for the use of government credit and subsidies, is necessary to meet that problem in the proper manner.

One of the provisions of the Taft-Wagner-Ellender Bill is "to assist the several states and their political subdivisions in eliminating slums and blighted areas and providing maximum opportunity for the redevelopment by private enterprise of land in such areas. Financial aid shall be extended to localities for the assembly, clearance, and preparation of such land for redevelopment."

Passage of such legislation would offer an opportunity for the rehabilitation of many run-down areas at a minimum cost to the city and restoration of the areas with predominantly privately operated taxable enterprise. In the heat of the discussions over the housing phases of the bill, that portion of it was generally overlooked, but it is one which might mean much to a city such as Boston.

I feel that the adoption of a resolution by our General Court urging the passage of that bill might prove very helpful.

Two proposed low income projects, one in South Boston and the other in the South End, which would provide apartments for about 1,400 families, have been stalled for several years, first by the war, and more recently by the inability to overcome legal technicalities, so that the federal government could finance a major part of the expense. It is now estimated that those two projects will cost in the vicinity of \$14,000,000, and, if they were built under the provisions of the so-called McCarthy Amendment to the U. S. Housing Act of 1937, the city's share of the expense would be in the vicinity of \$5,250,000.

We are going ahead with plans for the Cathedral Project in the South End, and we will build it either as a low rent project under the McCarthy Law or a veterans' housing project under the provisions of our State Veterans' Housing Law.

BY EMINENT DOMAIN.

At the present time we are following two alternative plans, and I have instructed the City Law Department to start eminent domain proceedings to seize the land from the federal government, in the event it proves necessary for us to build it as a veterans' project.

We are hopeful that details can be worked out so that it will be constructed as a low rent project with federal assistance, since that would lower the amount of money the city would have to expend on that particular development and increase the amount that could be spent for one- and two-family houses.

One reason we are anxious to have it undertaken as a federal project is that the state law provides that dwellings built under our Veterans' Housing Act be sold at the end of five years.

There is no certainty, of course, that real estate values will hold to their present level for the next five years. The probability is that they will not. If the city erects a project with over 500 apartments under present building costs, and then has to sell that development after a five-year period, it is extremely likely that it might have to take a substantial loss. Obviously, we want to avoid that if we can.

If future developments are such that we must undertake the Cathedral Project in the South End as a veterans' housing project rather than as a federal low income project, I would urge that your commission recommend to the Legislature that it be exempt from the provisions of the law requiring its sale after five years.

I can understand that the five-year provision was written into the law to keep the cities and towns out of the real estate business, but Boston is being forced into the real estate business to provide housing that is critically needed, and the investment of the taxpayers' money in such projects should be safeguarded to the fullest possible extent.

Next, let me point out that existing state legislation—chapter 372 of the Acts of 1946, as amended by chapter 479 of the Acts of 1947—places the entire financial burden of providing veterans' housing on municipalities in the first instance.

Only when cities and towns have disposed of all the houses constructed and operated by them, does the Commonwealth reimburse them to the extent of one half of any loss incurred by the community, with the stipulation that such reimbursement cannot exceed one tenth of the total expenditure by the municipality.

AID TO CITIES AND TOWNS.

I believe that cities and towns could be more readily induced to provide veterans' housing if the state made its credit available in the first instance and if the state's share of any loss by the municipalities was greater.

I would suggest that your commission recommend those two steps to the Legislature, as well as the elimination of the existing stipulation that the state's contribution will not exceed one tenth of the amount spent by the city or town.

Your commission, in my opinion, should also propose that the state make available to cities and towns, starting in 1948, a total of \$1,600,000 annually for a ten-year period from the Veterans' Services Fund.

That would amount to \$16,000,000 over the 10 years, the sum the Governor last year stated would be available from the Veterans' Services Fund for reimbursement to cities under the amendments to chapter 372 of the Acts of 1946.

The use of this \$1,600,000 annually would avoid or reduce substantial tax levies by municipalities for housing, would encourage the immediate production of housing, and would involve no outlay by the Commonwealth in excess of the amount originally anticipated, with no additional borrowing or taxes by the Commonwealth.

Such a bill might well include a provision that none of its benefits would be available to a city or town unless a program was launched within a comparatively short time after the effective date of the legislation.

By way of explanation, let me give you an example of how that might work out in Boston.

BOSTON AN EXAMPLE.

Assume that Boston has a \$20,000,000 municipal program of veterans' housing. If the state, beginning next year, made an annual payment of \$400,000 to the city from the Veterans' Services Fund, the total payment to the city over the ten-year period would be \$4,000,000, or one fifth of the city's outlay.

This \$400,000 annual payment would make available to Boston 2 per cent of its initial borrowing, enough for interest and partial amortization, and would avoid the necessity of including any amount in Boston's tax rate for housing.

Since this money is available in the Veterans' Services Fund, the state would not be called upon to find additional revenue to make the payments.

If cities and towns throughout Massachusetts were given annually, for a ten-year period, 2 per cent of their initial expenditure for permanent veterans' housing, and if the total payment by the Commonwealth were the \$1,600,000 annually which is available, we could have \$80,000,000 worth of housing started by municipalities during the next year.

This would not only provide a very substantial number of dwellings for the families of our veterans, but would also create property that would yield tax revenues as soon as the houses were sold by the cities and towns.

Another recommendation which occurs to me has to do with the one- and two-family houses we are putting up in Boston. As I pointed out earlier, the state law authorizing the construction of those dwellings requires that they be sold at the end of five years. I believe it is sound to specify that the city not retain them indefinitely, but it also seems to me that, if the city is able to sell them immediately at cost and without a loss, it should be permitted to do so, and that the law should be changed to include that provision.

STRONG REASONS.

There are two strong reasons for proposing that amendment to the state's Veterans' Housing Law. First, the money could be put back into a revolving fund for the construction of additional dwellings if they were still needed. Secondly, while we want to provide just as much of the necessary housing as possible, we also have a responsibility to keep the city's financial loss at the lowest possible point.

We don't know what the real estate market will be five years from now, and, as I stated earlier, the probability is that one- and two-family houses will not bring the prices that they command today.

There are many families of veterans who are anxious to purchase homes immediately and move into them.

Now I don't recommend necessarily that all the dwellings we put up be sold at once. Some could be sold and some rented. But, as matters now stand, the city must wait for five years before selling any of the houses, and it does not appear to me that is entirely sound.

To review for just a moment what the city has done and is doing to provide additional houses, let me state that it has spent approximately \$400,000 for some 765 temporary dwelling units. It is now in the midst of a \$20,000,000 program for the creation of permanent housing.

We have cooperated, wherever and whenever it was possible to do so without injuring the city, with private industry in its attempts to put up residential property. I am informed that it will not be long before the first of the apartments in the John Hancock Insurance Company Village in West Roxbury will be ready for occupancy. A fairly substantial number of new homes also are in process of construction by private builders in various parts of Boston.

I believe the city is doing everything it can to help itself with respect to this most vital problem, probably even a little more than it can actually afford to do from a financial standpoint, and that it is doing enough on its own behalf to warrant more substantial help from the Commonwealth.

Housing and traffic are Boston's two most critical problems. They are the problems which are receiving the major share of our attention and the major allocation of available funds. They are at the top of our agenda, and I believe they should be at or near the top of the agenda of matters to which the Legislature will give attention at its coming session.

EAST INDIAN OFFICIAL THANKED FOR FELICITATIONS.

On September 15 the Temporary Mayor made public the following letter:

BOSTON, September 15, 1947.

HON. SUDHIR CHANDRA RAY CHAUDHURI,
Mayor, Calcutta, India.

DEAR MR. MAYOR,—I wish to acknowledge, with sincere thanks, the kindly greetings you have conveyed to the City of Boston, through your personal envoy and representative, Dr. B. N. Dey, D.Sc. (Eng'g, Glasgow), Engineering Advisor to the Corporation of the City of Calcutta.

As you suggest, our respective municipalities have much in common, and there is every reason why there should be an exchange of views between our two peoples "leading to the growth and stimulation of a better municipal civic administration in the world."

We, of Boston, as liberty-loving citizens of the world's greatest democracy, rejoice with you that Free India has at last become a living reality. We wish you the best that life, good government, peace and good will can bring to your country and to all your people.

Sincerely yours,

JOHN B. HYNES,
Temporary Mayor.

TEMPORARY MAYOR'S MESSAGE ON REDEDICATION WEEK.

The system of government which we enjoy as Americans is being tested by historic events of a critical period in the history of the world.

These times call for loyalty to American traditions and faith in the principles of government under which we live.

A national program of "Rededication" to American ideals and political principles has been undertaken by a nonpartisan citizens' group known as The American Heritage Foundation, sponsored by the Attorney General of the United States, and is designed to create a greater awareness of the special blessings of our American heritage and to arouse more active participation by all in the affairs of government. I therefore earnestly solicit the interest of all citizens in Rededication Week in Boston, which will extend from October 5 to 12.

I urge all citizens and organizations in the city to participate in the ceremonies and events in connection with Rededication Week.

I suggest that as many citizens as can do so visit the "Freedom Train" which will be in Boston on October 11 and 12.

I have directed that a series of events sponsored by the Rededication Week Committee should be held in observance of this period, which gives opportunity to us all to reflect upon the blessings that we enjoy under our American system, and to make a personal resolve to further the fulfillment of these high principles, not only here, but throughout the world.

NOTICE FOR SNOW DUMPING.

Notice is hereby given that the City of Boston, by its Commissioner of Public Works, has made application to the Port of Boston Authority for permission to dump snow and ice into the tidewaters of Boston Harbor during the winter of 1947-1948 from the following locations:

Warren Bridge, Charlestown; Charlestown Bridge; Dorchester avenue, from Congress street to Dorchester Avenue Bridge; Public Works Department wharf, 636 Albany street; Long Wharf and T Wharf, Atlantic avenue; Atlantic avenue, at various points between Rowe's Wharf and Eastern avenue, from scupper in sidewalk; Sleeper street at Northern avenue, on South Boston side of Fort Point Channel; Leverett street, at viaduct (Lomasney Park); Mystic River, from Charlestown Playground; Chelsea Creek, from Condor street, between Putnam and Glendon streets, East Boston; Dover Street Bridge; Northern avenue, South Boston, between Pier 2 and Pier 4 of New York, New Haven & Hartford Railroad Company; Battery street, City Proper, at former location of North Ferry; Border street, East Boston, at former location of North Ferry. Monday, September 29, at 10.30 a. m., and this office, have been assigned as the time and place for hearing all those interested in this petition.

DIPHTHERIA WARNING.

The Board of Health has issued the following warning to parents to protect their children against diphtheria:

"Diphtheria is still a menace to the community," said Dr. John H. Cauley, Boston's Health Commissioner. "Up to September 18 of this year, there have already been 154 resident cases of diphtheria in the city. This is more than twice as many cases as were reported in Boston during the same period in 1946."

Dr. James A. Keenan, director of school hygiene for the Boston public schools, joined with Doctor Cauley in urging all those who have responsibility for the health of children to obtain protective inoculations for these children either through the public, parochial or private schools, from their own physician, or at the health unit clinics.

Diphtheria is a preventable disease and can be eliminated as a menace to the health of the city by proper protection of all susceptible children and adults. During the last two years, there has been a persistent increase in the number of cases of diphtheria. Parents, therefore, are advised to take advantage of the program of immunization which is now being conducted in the public and parochial schools to protect children against diphtheria.

CIRCULAR LETTER NO. 19.

CITY OF BOSTON,
MAYOR'S OFFICE, September 16, 1947.
To the Heads of Departments.

GENTLEMEN,—I call your attention to a provision in the Ordinances which designates the City Messenger to have the care and custody of books and public documents printed for or by order of the City Council, and a further provision that they shall be distributed under the direction of the Committee on Printing.

It is my opinion that departmental books, pamphlets, or documents of any character can be distributed, with expedition, through the City Messenger's Department, which now does a very excellent job in this respect.

I therefore suggest that all department officials having any of the above-mentioned books, etc., for distribution so inform Mr. William J. O'Donnell, the City Messenger, who will make arrangements for the distribution.

Respectfully,

J. B. HYNES,
Temporary Mayor.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 943.

Sergt. Joseph I. Connors, Patrolmen Thomas F. Hickey and Thomas M. Leonard, and Marine Fireman James H. West, all of Division 8, Harbor Police, are hereby commended for their courage and devotion to duty in effecting the rescue of seven persons from the waters of Boston Harbor after an explosion and fire had occurred in a motorboat in which they were occupants.

In the early evening of Saturday, September 20, 1947, while the above named were on patrol duty in the patrol boat "William H. McShane" in the Reserve Channel, Boston Harbor, they observed smoke and flames coming from an inbound motorboat. The patrol boat immediately proceeded to its assistance. As they neared the stricken vessel a violent explosion occurred on board and seven persons jumped from the burning deck into the water to escape the fire.

Sergeant Connors, quickly realizing the danger to these persons from the burning gasoline on the water, and disregarding the possibility of injuries to himself and his crew, maneuvered the patrol boat between the burning vessel and the group in the water, and then he and his crew proceeded to rescue these seven persons.

The promptness with which these men acted in this emergency, and the excellent seamanship which they displayed under trying conditions, undoubtedly were responsible for saving the lives of these people. It gives me great pleasure to recognize the outstanding service which they performed.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

FIRE DEPARTMENT ORDERS.*General Order No. 60.***FIRE PREVENTION WEEK.**

In recognition of the Proclamation of the President of the United States and the Proclamation of His Excellency the Governor of the Commonwealth of Massachusetts, Fire Prevention Week is being observed in the City of Boston from October 5 to October 11, inclusive.

An organized campaign to emphasize the importance of fire prevention is being undertaken for the tenth consecutive year by the Boston Fire Department, by means of a series of activities concentrated into the Fire Prevention Week period.

Fire stations shall be open to the public between the hours of 12 noon and 9 p. m., for inspection of the premises and for the conveyance of information concerning fire department functions and fire prevention matters. When citizens come to a station during Fire Prevention Week the man on house patrol shall summons the commanding officer who should be available and ready to either show the visitors around the quarters and to answer questions regarding the department, or to have a suitable person assigned to this duty.

Children under 12 years of age should not be allowed in the fire stations unless accompanied by adults.

Canvas signs giving notice that Fire Prevention Week is in progress should be displayed from fire stations. Most stations have these signs in their possession from exhibitions of previous years, and it is the responsibility of company officers to see to it that these signs are kept in good condition from year to year. Signs should be displayed from Saturday, October 4 to Saturday, October 11, inclusive.

District chiefs are required to take an active interest in the fire prevention program in the following manner:

A. By arranging special visits to plants and large industrial premises in their districts during the week and arranging to have a special fire drill held during Fire Prevention Week, particularly where there are now fire brigades already existing. Notices of the date of the fire drill held, and the rating of the drill as either "fair,"

"poor," or "good," should be forwarded to the Fire Prevention Division so that a summary may be made of the number and location of industrial fire drills conducted in the City of Boston during Fire Prevention Week, on each day of the week.

B. All public and private schools within each district should be visited by a District Chief or such officers as may be detailed by the District Chief to assist in this work. School fire drills are to be held, and permission should be obtained for the presentation of a five-minute talk on the subject of fire and fire prevention at an assembly of the pupils. Such talks should not be read from any manuscript or printed pamphlet, but should be delivered directly by the District Chief or by some uniformed member of the Fire Department capable of presenting such a talk effectively and properly.

C. Home inspection blanks should be supplied to various school principals or head masters for distribution and collection by the teacher-fire counselor of the building. Collection of the filled-out home inspection blanks from teacher-counselors by the Fire Department is an important feature of the use of these forms and should not be neglected. A list of the schools from which such forms have been collected should be forwarded to the Fire Prevention Division on or before October 24.

D. Officers assigned by the District Chief to deliver addresses in schools likewise should be assigned to attend Rotary Club, Kiwanis, Board of Trade and other neighborhood and local organization functions, including women's clubs meetings in the district held during the week, or if no meeting is scheduled during the week, to attend any meeting held during the month of October. Chief officers should know the various representative social organizations in the community and should keep a list of them for reference at such times when fire prevention messages of importance to the community are to be conveyed to such organizations quickly.

1. All members of the department off duty are requested to come to the Bowdoin Square Fire Station at 9.30 a. m., Saturday, October 4, 1947, for the purpose of marching in a parade along Tremont street and Boylston street to the Charles Street entrance of Boston Common, where an exhibition in first aid will be conducted.

2. There is no event of more importance to the Fire Department in establishing its fire prevention program than this parade, and any fireman who has the interest of the department at heart will come and take part in this parade, so that the public of the city will realize that our fire prevention messages are sincere, and not merely words designed for display purposes. The public has an opportunity to see the Fire Department on parade once each year. If a large number of members parade then, a good impression is created. If a small response of men results, the department will not stand as well as it deserves in the estimation of the thousands who witness the parade.

3. Once a year firemen are asked to make this contribution to a fire prevention program of the nation. They are privileged to bring their own families to witness the parade and first aid exhibition on Boston Com-

mon, and this enables them to acquaint members of the family with the type of men in the Fire Department and the kind of work performed by firemen in this city. Response this year is requested for 9.30 a. m., Saturday, October 4, 1947, at the Bowdoin Square Fire Station. Parade starts promptly at 10 a. m.

Throughout the week all firemen are to pay special attention to the observance of fire hazards and to the duty of observing and locating fire hazards along the route followed by them in their coming to and going from daily work. Dilapidated buildings, rubbish accumulations, and other hazards should be reported to the Fire Prevention Division. The public expects uniformed members of the Fire Department to know something about fire prevention work and to have an interest in this subject, since they are public employees engaged in this field. Firemen, therefore, during Fire Prevention Week, should have this subject uppermost in their minds and they should not pass by any fire hazard at any time without making a note of it for reference to the Fire Prevention Division. In short, every uniformed man in the Fire Department is a fire prevention inspector at all times.

An extensive program of radio broadcasts, news releases, store window displays, and public exhibitions has been arranged for Fire Prevention Week, notice of which will appear through the usual channels.

By order of Fire Commissioner RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

CREATES ARBITRATION BOARD TO SETTLE INDUSTRIAL LABOR DISPUTES.

The city council of Toledo, Ohio, recently approved an "industrial relations charter" which creates a labor-management citizens' committee of 18 appointed by the Mayor. The charter is recommended by the Toledo City Council for adoption by representatives of industry and labor in the city. The preamble states: "Industrial harmony means more than the elimination of strikes, slow-downs and lock-outs. It means a practical, common-sense recognition of the rights of both employers and employees, the mutuality of their interests, and the importance of their joint responsibility to the citizens as a whole, whose interests transcend the presumed rights of any group."

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN BRAYTON ROAD, WARD 22, FROM BRECK AVENUE TO NEWTON LINE, AND UNDINE ROAD, WARD 22, FROM LAKE STREET 785 FEET NORTHWESTERLY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Brayton road, Ward 22, from Breck avenue to Newton line, and Undine road, Ward 22, from Lake street 785 feet northwesterly. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Brayton Road, Ward 22, from Breck Avenue to Newton Line, and Undine Road, Ward 22, from Lake Street 785 Feet Northwestery," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of FRIDAY, OCTOBER 10, 1947, with a certified check for FIFTEEN HUNDRED (1,500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSALS FOR SEWERAGE WORKS IN CUMMINGTON STREET, BETWEEN HINSDALE STREET AND BLANDFORD STREET, ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Cummington street, between Hinsdale street and Blandford street, Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Cummington Street, between Hinsdale Street and Blandford Street, Roxbury," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of WEDNESDAY, OCTOBER 8, 1947, with a certified check for FOUR HUNDRED (400) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

HIGH TRIBUTE PAID TO OFFICERS AND MEMBERS OF ALEPPO TEMPLE, ANCIENT ARABIC ORDER, NOBLES OF THE MYSTIC SHRINE, AT LUNCHEON AT HOTEL STATLER BY TEMPORARY MAYOR JOHN B. HYNES — ASKS THEY CONSTITUTE THEMSELVES AND THEIR ORDER TO BE GOOD WILL AMBASSADORS IN EFFORT TO MAKE BOSTON THE CONVENTION CITY OF THE COUNTRY — DISCUSSES PROBLEMS THE CITY HAS TO FACE IN MATTERS OF HOUSING, TRAFFIC, AND FINANCES — ASKS THAT ORDER'S MEMBERS INTEREST THEMSELVES IN SEEING THAT STATE AIDS IN BEARING PART OF BURDENS INFLICTED ON CITY WITHOUT ITS CONSENT.

The following is the address of Temporary Mayor John B. Hynes at the luncheon of Aleppo Temple of the Mystic Shrine at the Hotel Statler on September 30:

Mr. Chairman, Officers and Members of Aleppo Temple, Ancient Arabic Order, Nobles of the Mystic Shrine, and Their Guests.

It is a distinct pleasure to be here today as Temporary Mayor and bring to this gathering the greetings of the City of Boston. I am frank to admit when I was first asked to come here today I resisted the invitation because I feel that, because of my brief tenure, I should be seen a whole lot less and heard a whole lot less than the regularly elected Mayor. However, when I realized that my very good and valued friend, the Past Potentate of Aleppo Temple, and now the Present Imperial Oriental Guide, Judge Robert Gardiner Wilson, thought it proper for me to be here, I hastened to accept the invitation. At any rate, who am I to argue with a judge?

I recall that, a few days after I had been designated by the Legislature to be the Temporary Mayor, I was faced with the immediate problem of obtaining a speaker for the traditional Fourth of July Oration at Faneuil Hall. It is customary to obtain the orator for this occasion many months, or even a year, in advance, but when I took office late in June no arrangements had been made for an orator. Confronted with this situation, I turned to Judge Wilson and asked him if he would not, on less than a week's notice, prepare an oration and deliver it at Faneuil Hall on July 4. The good and honorable judge, realizing my predicament and realizing, too, that the great tradition at Faneuil Hall should not be broken, graciously consented to be our speaker. He delivered a very masterful oration, which, of course, is customary for him to do, and he therefore pulled me out of a very embarrassing and vexatious position. For his kindness and for his prompt response to the call of public duty, I want once again to express my deep and sincere appreciation to the Honorable Robert Gardiner Wilson, your Imperial Guide.

Before I say anything at all about the City of Boston and its problems, I think it is fitting to say that even to rank outsiders the name of Aleppo Temple is synonymous with good deeds and with charitable accomplishments. The order to which you gentlemen belong and which is represented here in this area by the Aleppo Temple is known throughout the length and breadth of our land for its activities, and especially for its help to the underprivileged, the sick, the crippled, and the aged. The Shriners of America have great reason to be proud of what they have done, and what they are doing, individually and collectively, for the children of our nation, and I want you to know that those of us who are not members of your great organization look upon you with unconcealed pride and affection, because there is no greater form of charity, no matter under what auspices it is carried on, than the charity which restores to health and vigor the sick and crippled children who otherwise would go through life with handicaps too severe to carry.

Grateful for Gifts.

I think I should also, at this time, express the appreciation of our city to the Aleppo Temple for the annual gift of an animal to our Franklin Park Zoo. This year you are giving us a camel, the symbol of the Shrine, and in past years you have given us an eland, an African elk, a chimpanzee, and two other camels. In good time the menagerie at Franklin Park will be there through the generosity of your membership. We thank you for these gifts in our official name, and in the name of the children of Boston.

One thing more I would like to mention is this — the Shriners of America play a very important part in the life of our country, and in every part of our country your members hold responsible positions in business, industry, the professions, and in public life. It would be nice if your local temple would do a little missionary work for our city with your Brother Shriners, so that our city might become the convention mecca of the country. You know, Boston has received some unpleasant publicity in some of our national magazines, and we all know here that much of that criticism has been exaggerated and much of it has been unfair. Boston is still a great old city.

It has the charm, the historical associations with the past, and yet it is a thriving, modern metropolitan area with per capita assets higher than any other area in the United States. We are in the most delightful section of the country with respect to recreation and outdoor enjoyment. We have many, many attractions, too numerous for me to mention here, which make our city and our community the most interesting one in our land. I appoint you each as good will ambassadors for Boston. Everyone wants to see Boston before the Angel Gabriel toots his horn, and I think you gentlemen here can do much to make that urge a reality.

(Continued on page 1108.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

SPEARHEADED BY TEMPORARY MAYOR JOHN B. HYNES, CITY OFFICIALS, AND LEADING CITIZENS, BOSTON PREPARES TO ENTERTAIN FREEDOM TRAIN AND ITS PRECIOUS HISTORIC DOCUMENTS—TEMPORARY MAYOR CALLS FOR WEEK OF REDEDICATION TO PRINCIPLES OF PATRIOTISM, FILLED WITH EVENTS OF A PATRIOTIC NATURE, INCLUDING LUNCHEONS, BANQUETS, RALLIES ON COMMON, AND ENDING WITH PATRIOTIC PARADE ON SUNDAY, FOLLOWING ARRIVAL OF TRAIN FOR TWO-DAY INSPECTION.

Temporary Mayor John B. Hynes will front the observance of Rededication Week, beginning Monday, October 6, with the arrival of the Freedom Train, with one of the most complete and priceless exhibits of historic American documents ever assembled. The train is already in New England, and will be due at the North Station on Saturday, October 11, and the South Station on Sunday, October 12.

In connection with the observance, Temporary Mayor John B. Hynes has issued the following message:

"The system of government which we enjoy as Americans is being tested by historic events of a critical period in the history of the world.

"These times call for loyalty to American traditions and faith in the principles of government under which we live.

"A national program of 'Rededication' to American ideals and political principles has been undertaken by a nonpartisan citizens' group known as the American Heritage Foundation, sponsored by the Attorney General of the United States and endorsed by the President of the United States. This program is designed to create a greater awareness of the special blessings of our American heritage and to arouse more active participation by all in the affairs of government. I therefore earnestly solicit the interest of all citizens in Rededication Week in Boston, which will extend from October 5 to 12.

"I urge all citizens and organizations in the city to participate in the ceremonies and events in connection with Rededication Week.

"I suggest that as many citizens as can do so visit the 'Freedom Train,' which will be in Boston on October 11 and 12.

"I have directed that a series of events sponsored by the Rededication Week Committee should be held in observance of this period, which gives opportunity to us all to reflect upon the blessings that we enjoy under our American system, and to make a personal resolve to further the fulfillment of these high principles, not only here but throughout the world."

TRAIN DECORATED.

Painted red, white and blue, the seven cars contain some 130 famous and important documents, including the original of the Bill of Rights, George Washington's copy of the Constitution of the United States, and copies of the Declaration of Independence, the Emancipation Proclamation, the Magna Carta, the Mayflower Compact, the first printed letter of Columbus on his discovery of America, and the United Nations Charter.

The papers, all under bulletproof glass, are under guard by a detachment of United States Marines, and may be viewed during the Boston visit when the train is opened for public inspection October 11, on the Nashua Street track at the North Station, and on Sunday on track 10 at the South Station, from 10 a. m. to 10 p. m. on both days.

The tour is financed by private subscription through the American Heritage Foundation, a nonprofit patriotic organization.

PARADE FEATURES.

In the parade there will be four lines of march, converging on the Common. One will start in Boylston street near Copley square; another in Beacon street; a third from the State House; and the fourth from a spot to be chosen in downtown Boston.

United States Senator Lodge will be principal speaker at exercises on the Common's parade grounds.

The Rededication Week Observance Committee is headed by Temporary

Mayor Hynes as honorary chairman, with John Breen, former Boston Housing Authority executive, as active chairman.

One of the parade lines will consist entirely of war veterans and will include units of all veterans' organizations and their auxiliaries.

THE FREEDOM PLEDGE.

I am an American. A free American.
Free to speak — without fear,
Free to worship my own God,
Free to stand for what I think right,
Free to oppose what I believe wrong,
Free to choose those who govern my country.
This heritage of Freedom I pledge to uphold
For myself and all mankind.

The Freedom Train and its valuable documents of American history will arrive at the North Station October 11, to be greeted by Governor Bradford and Boston school children. It will be open to public inspection at the station from 10 a. m. to 10 p. m., then will be moved to the South Station October 12 for inspection at the same hours there.

TEMPORARY MAYOR JOHN B. HYNES PAYS HIGH TRIBUTE TO OFFICERS AND MEMBERS OF ALEPPO TEMPLE, ANCIENT ARABIC ORDER, NOBLES OF THE MYSTIC SHRINE.

(Continued from page 1105.)

Now, as you gentlemen perhaps know, I was made Temporary Mayor of Boston the latter part of June of this year. I have been running the city government since that time on a sort of day-to-day basis, attempting to keep the wheels of government moving smoothly and attempting to advance the city's interests and meet the city's problems as they arise. Under the circumstances, and the uncertain tenure of my appointment, it is not possible, nor advisable, for me to formulate any long-range programs which might entail the entering upon an entirely new policy in the city administration. I don't wish to imply that I have merely sat in the chair and watched the tide ebb and flow. Not at all!

When I took office, many matters were in the initial stage of action. Many other activities had been planned, but little had been done. Many other things had been considered, but no action at all had been taken, and it has been my purpose to finish the things that had been started, and to give impetus to those things which had not been started, or only considered. In this connection, I find myself in somewhat the same predicament as the short-term prisoner at Deer Island who began knitting a sweater when his term started and developed a serious case of heeby-jeebies as his term neared the end, with the sweater only half done.

PROBLEMS DEMANDING SOLUTION.

In the consideration of the problems confronting the city, the Mayor must give weight to two factors—first, what the city *should* do about them, and second,

what the city *can* afford to do about them. Now, in the course of a month, many suggestions for conducting the affairs of the city come to a Mayor. Some of these suggestions come from persons of doubtful mentality, and some come from well-meaning citizens. Many of these suggestions are very excellent ones for improving the city service, but invariably they are expensive and, if we adopted all of them, or even part of them, the tax rate of the city would be somewhere between \$75 and \$100.

In the final analysis, the city's financial position is not much different from your financial position. We would like to do many things, and, perhaps, so would you. You would like to paint your home every year, to get a new car every year, to have a nice summer place, to send your children to the best schools, to clothe your wife in a manner that makes the neighbors envious and her happy, and to have a different suit for each day of the week. Now, most of you do not do all those things because you cannot afford it, and that is the reason, too, why the city cannot do a lot of things. We simply cannot afford it! You have very likely and very frequently heard people ask why the city does not go forward on many improvements which are needed. But, gentlemen, the cost of government today is high, and, were our city to do all the things we know should be done for the service of our community and our citizens, I am afraid when the tax bill came around each year you would be searching for the Mayor to hang him on the nearest sour apple tree.

In Boston today, as in many of our older large cities, there are two very acute, pressing problems. The first, of course, is the housing problem, and the second is the traffic problem. Now, for a moment I want to talk about each of these problems. Because of the war and the lack of construction, our nation faces a deficit in new homes which is variously estimated in the millions. In order to break the dam and provide shelter for some of the boys who spent the best years of their youth in the service of our country, the City of Boston is now engaged in a program for the building of veterans' homes at a total cost of \$20,000,000.

That program calls for the expenditure of \$10,000,000—for the building of two-family houses in various sections of our city, the building of a large project in the South End of our city, which was abandoned at the start of the war, and the building of smaller multifamily projects in various sections of the city. Under the emergency legislation permitting the city to enter into the field of housing construction, these homes must be sold by the city at the end of five years. Of course, we will not get this \$20,000,000 back.

A lot depends on the market five years from now. A lot depends on where we build these homes. But it is inevitable we shall lose some of our investment, and perhaps one third of that \$20,000,000 will eventually be lost to the city. Now, here is a function of our city which is a little bit out of the ordinary functions of the city government. But, in a period such as this, when private capital cannot, because of shortages and high prices, meet the demand for homes at reasonably moderate prices, it is necessary that your city government, or some other agency of government, provide these homes and subsidize the rental of them.

ENCOURAGING BUILDERS.

We are not in competition with private builders. In fact, we are doing all in our power to encourage private building. The city or the state, or even the federal government, cannot meet the great demands for housing. What we can do as a duly constituted body politic, what we should do, and what we *must* do, is to break through the jam and get some housing constructed. It is an expensive adventure for our municipality, but I am sure that there are but few among us who will not agree that it is the duty of every arm of government to extend credit, and sustain losses if necessary, in order to give the boys who fought for the American way of life a chance to live it.

Now a word or two about our traffic situation. There is hardly any word in the language which fits the snarled-up mess which is typical of downtown Boston during a business day. Of course, we are an old city with narrow, winding streets that begin for some unknown reason at one place and end, for some other equally unknown reason, at some other place. For this reason, and for other reasons, our problem in Boston is like that of no other city. As long as 25 years ago, it was realized that something of a radical nature must be done to permit a free flow of traffic in Boston, if we hope to hold up our heads as a great metropolitan city.

As long ago as 1924, a major central artery coming through from the north of Boston down through the Haymarket Square area to the Atlantic Avenue-Fort Hill area and over the Albany Street tracks to the south of Boston was proposed. Since that time the problem has become more pressing each year, and what it will be like when everybody who wants an automobile can get one is frightening to the imagination. Now, at the present time, studies are being made to determine the flow of traffic in and out of Boston, and the results of these studies and other related studies now being made will be presented to the Legislature next year.

Two major traffic improvements are at issue: (1) the Central Artery with a second tunnel to East Boston, and (2) the construction of a bridge over Boston Harbor. Both of these major improvements have very excellent advantages. Some experts prefer the Central Artery. Some experts prefer the bridge. Personally, though I favor one over the other, I am willing to accept whichever seems the best as the result of the studies now being made. At any rate, it is confidently expected that this year, after a generation of argument and contention, something will be done in the Legislature to help Boston and the Greater Boston area. You know, for many years Boston was crying for help to solve the major traffic problems, and the state turned its back upon us. We tried to show that Boston was the nerve center of our community and even of the New England states, and we tried to impress upon the state authorities that Boston must be aided in this problem.

SHARING TRAFFIC BURDEN.

Because of its very size and expense, it was obvious that it could not be undertaken by the city. It is pleasing now to note that, in the major traffic improvements contemplated, the resources of the Commonwealth and the resources of the federal government, plus a minor share by the city government itself, will be

joined to make this improvement possible, and, gentlemen, this is a very comforting thing to know, because Boston should not be considered an orphan or a stepchild of the state and should not be left to stew in its own juice, which was long the attitude of many persons in the Commonwealth because, as you well know, a prosperous, progressive Boston will mean a prosperous, progressive Commonwealth for all. As Senator Saltonstall so aptly said when he was Governor, "Boston is the bread basket of the state"—and when the bread basket is bare and barren there is little joy or happiness in the family circle.

Now, what is Boston itself doing to help out in the traffic problem? We are authorized to spend \$5,000,000 for off-street parking facilities, and we are on the way to the construction of three of these facilities in the downtown area. We are widening some of our streets by the expediency of narrowing sidewalks. We are eliminating the bad bottleneck at Sullivan square. We are eliminating the bad bottleneck at Dorchester avenue and Broadway. We are going to put in parking meters, a very successful venture in all other cities that have them. We are, in short, doing those intermediate things which must be done in conjunction with the major traffic improvements which will be authorized by the Commonwealth, and, if we do not do these things, Boston and our adjoining cities and towns will suffer, because today a great deal of the business in America is done on wheels, and, unless traffic can flow freely and inexpensively through our area, both business and pleasure traffic will avoid that area. We have been a great area since the very birth of this country. With a little more vision, a little more courage, a little more of the spirit to keep our area in the front line in our country, and a little less shortsightedness, we can hold our place in the sun, and that is our duty, not only for ourselves, but for those who will follow after us and take our places in this, the spawning ground of a great and powerful nation.

Let me now say a few words about the great cost of government. It costs the City of Boston as much for a loaf of bread as it does anybody else. Everything we buy, everything we do, is higher today than it was last year or even last month. Since the end of the war, the city has been trying to get its plant in shape. You know, for a great many years, because of the depression and the cost of the war, we are faced with doing these things at extremely high prices. For instance, all during the war years and prior to the war years, no equipment was bought by the city to speak of. Last year and this year we are expending, by loan authorization, a total of \$3,000,000 just for equipment, which includes fire, police, public works, hospital, and all sorts of office equipment.

We are constructing streets that have been neglected. We are repairing and improving buildings on which practically nothing was done for years. We are doing a great many things now that were necessary some years ago but which are now acutely essential, and the cost of all these things we are doing is extremely high, and there is no need for me to explain the causes for these increases. Mr. Taft of Ohio has taken that upon himself, and far be it for me to presume upon his preserves. All you gentlemen know about prices; you run into them in your own business. Now, let me give you an example of how rising costs affect the city. Last year, in salary adjustments

alone, which were necessary because of rising costs, the city was required to appropriate an extra \$6,000,000. The salaries of teachers were increased. The people voted a 48-hour week for members of the Fire Department, which meant the employment of approximately 500 new men, and almost all other city employees were given a \$200 increase in salary at the beginning of the year. These are continuing costs to be borne this and each succeeding year.

LEGISLATIVE ACTION.

The Legislature passed an act last year providing for a 40-hour work week for all public employees in the Commonwealth. That act was accepted by the City Council at yesterday's meeting. To institute the 40-hour week in Boston means an additional expenditure of about \$1,000,000. The members of the Fire Department, who traditionally have received the same salary as the members of the Police Department, expect, and will very likely be granted, a \$300 increase, to bring them up to the salaries of the policemen. That alone will cost an additional \$500,000 next year. I have recently received a telegram from the Central Labor Union, requesting that consideration be given to the immediate 20 per cent increase in the salaries of all employees. Such an increase given to the city, school, and county employees would call for a yearly increase of \$7,000,000 a year more. You can readily see that rising costs are having a decided effect upon the cost of your city government and very likely will have a further effect upon next year's cost of government. I would be the miracle man of the century if I told you that, in view of all these rising costs, rising demands, and rising requirements of the city, the tax rate will remain stationary. It is going to cost you more to run your business and your home in 1948 under present conditions than it did in 1947, and, unless there is a downward trend in prices, it is very likely going to cost the city a good deal more to run its government than it did in 1947, and not even Calvin Coolidge, if he came back to earth, could do much about it.

You might like to know that at the present time the financial position of the city is rather strong and rather bright. Our outstanding debt is lower today than it has been for any other time in the past 15 years. Our collections are higher than they have ever been before, and this despite the fact that the tax rate of the city is quite high, to say the least. There are those city officials, however, who are not blind to the possibilities of the future, and I assure you, despite many favorable conditions that now exist, we are not living in a fool's paradise. Wherever and whenever we can economize in city government, we are attempting to do so. But the kind of economies we can make in the face of the extraordinary costs of present-day government seem almost too insignificant to mention.

We are organized as a municipal corporation to provide for service to the citizens, and those services have been inaugurated and carried on because of the demands of our citizens. Whenever a service of the city which has been retained for any length of time is diminished, or whenever a suggestion is made that a certain service be eliminated, a roar goes up from various quarters which makes it impolitic to go forward, and you gentlemen need not be told that under our present form of city government politics usually rule the roost. The city government is

a very large going concern. It expends in the course of a year approximately \$80,000,000. From year to year, it seems to have thrust upon it more and more activities which add to the cost of government and, strangely enough, seem to expand from year to year, also. I am not unduly pessimistic as to the future of our city government. We seem to have a resiliency and a bounce that defy the laws of gravitation. But I do say that there is cause for concern, unless our city government is extremely careful in what it undertakes to do, how it undertakes to do it, and unless the tendency to broaden city activities is kept in check.

HOLDING IN CHECK.

During my tenure as Temporary Mayor, I cannot do much more than keep the city going and refrain from adding any additional burdens to the cost of government. I hope to leave the city government in as good, or better, condition when I leave this office I now hold than when I entered upon it. I never had any illusions about the office of the Mayor. I know from past experience and observation what a tremendous burden it is for any one man to carry. And it becomes more burdensome each year. There is too much expected of a Mayor under our present form of charter, and there is too little time in a day for him to do what is expected of him. I think most men take the office of Mayor with the intention of doing a good job for the city. But few men really know the tremendous amount of work which the office demands of one individual. Very often the important problems of the city cannot be given the right amount of attention, because of the multitude of minor things which consume the time of a Mayor. So, gentlemen, when you are inclined to criticize the man who sits down there at City Hall, please be a little kindly in your thoughts, because with thousands of employees and with scores of related and unrelated activities and with a thousand and one problems arising in the course of a year or a month, your Mayor is pretty hard put to find the time and the energy to meet the demands of the office. And when he attempts to meet the demands made upon him to appear at various places to speak, or to be seen, he finds himself in the middle of a whirlpool from which there seems to be no way out.

I have many recommendations I would like to make concerning changes in our city government, but I do not choose to make them today, nor do I think it appropriate to make them while I am in this temporary position. But now that I know the Mayor's Office from the inside, I can assure you gentlemen that many times when you criticize a Mayor you should have pity on him, instead. Now, gentlemen, in closing let me say that many of you here could make worth-while suggestions concerning the conduct of our city government. And, if you think you have one that will help me, I will be very happy to receive it. Tell me how we can save money without curtailing any of our essential municipal services, and tell me how to increase the efficiency of our government without increasing the cost of government.

You gentlemen have a real stake in the City of Boston, whether you live here or outside the city limits. I know you would like to have pride in this great old city and for that reason I do not think you should hesitate to make suggestions which will make for a better city govern-

ment. It is men like you here who can provide the force which can lead to competent and efficient city government. Remember, it is your government. It is not the government of any select group of politicians, or anybody else. It is the government of all the people of our city. You have a right and a duty to speak up and say what you think of our municipal government. Remember, the voice of the people is still the most powerful force in the securing of good government. Silence might be golden sometimes, but not when your city and its future is at stake. Thank you for having me here. I hope what I have said has not bored you, and I wish for your wonderful organization many, many more years of productive accomplishments in the field in which you have done such remarkable work.

Our Lord has said that charity is the greatest of all the virtues.

That being so, I salute you as men who should have no trouble going through the eye of the needle.

NAMING OF STREETS FOR VETERANS.

The following letter was sent to the City Council by Temporary Mayor John B. Hynes:

BOSTON, September 25, 1947.

To the City Council.

GENTLEMEN,—The committee appointed in 1946 to recommend the naming of certain intersections in the city in memory of deceased veterans has forwarded me a recommendation, as herewith attached, that nine intersections in various parts of the city be named for veterans who sacrificed their lives during the period of World War II in order that liberty and freedom might exist in the world.

I understand the committee has made its recommendations after considering various proposals, and has attempted, in so far as possible, to name intersections in honor of local heroes.

I submit herewith separate orders for the naming of each intersection as recommended, and I respectfully request approval of these orders by your Honorable Body.

Respectfully,

JOHN B. HYNES,
Temporary Mayor.

TEMPORARY MAYOR'S ACTION ON LAND SALE.

The following is the Temporary Mayor's statement on the matter of land sale in Hyde Park:

Before I took office as Temporary Mayor, the sale of the whole tract of land at Hyde Park was impending.

Through the urging of Councilor Cantwell, I postponed the proposed sale early in July and, together with the Housing Authority and Councilors Cantwell and Linehan, I viewed the land in question for the purpose of determining whether or not some part or all of it would be suitable for veterans' housing development.

The Housing Authority decided that the more desirable portion of the land situated on high ground could be developed by the Authority for the building of two-family homes for veterans, and I understand that a contract will shortly be made for the construction of 38 two-family homes on this particular part of the land. As far as I know, the sale of this remaining land was legally accomplished. As I understand it, the remaining portion was duly advertised and sold at public auction. If it appears, however, that the transaction is faulty in any respect, I will take steps to void the sale. I am asking the Acting Corporation Counsel, Mr. James Kelleher, to look into all legal aspects of this matter.

STATEMENT ON CHILD SAFETY WEEK.

The following were the radio remarks on Thursday night, September 25, of Temporary Mayor John B. Hynes on Child Safety Week:

I am very happy to be here tonight to participate in the observance of Child Safety Week. As the father of five children I have a deep interest in every effort made to protect them and all other children, whoever and wherever they may be.

You have heard, or will hear, from Governor Bradford, Registrar of Motor Vehicles King, and others who emphasize safety on our highways. I heartily endorse what they say. However, I am adding these few words—"safety in the home."

Safety in the home means TEACHING and TRAINING of children. It requires patience, but it pays rich dividends in lives saved. Tell them how to cross streets, how to be alert to traffic from all directions, how to protect themselves when they fall. Keep harmful and poisonous substances out of their reach. Simple things, but effective.

Longfellow once wrote an immortal poem, the first lines of which are:

"Between the dark and the daylight,
When the night is beginning to lower,
Comes a pause in the day's occupations
That is known as the children's hour."

Let us all strive to keep such thoughts uppermost in our minds, not just now, but always, for the first duty of all parents is the care, supervision, and protection of our children.

INFORMATION ON PUBLIC EXPENDITURES.

The Temporary Mayor on September 26, issued the following statement:

The Massachusetts Recess Commission on Public Expenditures is studying public expenditures with a view to the reduction of government costs. I have received a letter from Senator Harris S. Richardson, chairman of the commission, in which he states, "A reply setting forth your opinions and suggestions, and those of your associates, would be helpful and appreciated." Specifically, the commission desires to determine what government services at state, county, or municipal level can be eliminated or curtailed, made more efficient, or be provided at less cost.

I will appreciate it if you will earnestly consider the problem faced by the commission and submit to me in writing by October 15 any suggestions or ideas which, in your opinion, may be helpful to the commission in working out its recommendations for submission to the Legislature. In working out these suggestions, it will, undoubtedly, be desirable for you to consult employees in your department who, because of key positions held or length of service, may be in a position to offer aid and advice.

As municipal officials and employees, we can not ignore the urgent necessity of maintaining government costs at reasonable levels. I therefore request that the subject matter of this circular letter not be treated lightly but that each and every department head endeavor to cooperate to the fullest in furnishing the type of information and suggestions requested by the Recess Commission.

CIRCULAR LETTER NO. 20.

CITY OF BOSTON.

MAYOR'S OFFICE, September 23, 1947.

Notice to Department Heads.

GENTLEMEN,—In connection with the 1948 session of the Massachusetts General Court, I shall appreciate your giving immediate consideration to legislation which you think might be beneficial to your department or to the City of Boston generally.

From your experience you may feel that particular obstacles to the efficient functioning of your department might be removed or that the welfare of the community in general might be enhanced by the introduction of new legislation or a specific change in existing legislation.

I would like to have your recommendations and suggestions no later than October 10, 1947. Any ideas will be welcome, but it will be of much greater help if your suggestions are specific and if, as far as possible, they are submitted in the form of drafts of the actual bill which you think should be introduced.

Respectfully,

J. B. HYNES,

Temporary Mayor.

MAYOR WELCOMES DELEGATES
TO HOLY NAME SOCIETY
• CONVENTION.

The following were the Temporary Mayor's remarks to the visiting delegates of the Holy Name Society Convention between 8 and 10 p. m. on Wednesday, October 1:

Mr. Chairman, Your Excellency Archbishop Cushing, Reverend Clergy, Invited Guests, and Delegates to the Holy Name Convention.

It is a sincere pleasure for me as Temporary Mayor of Boston to bring to the membership of the Holy Name Society the official greetings of the City of Boston, and the greetings of all its citizens. As a humble member of your great organization, I also extend to you my personal greetings.

To you, the representatives of the 3,500,000 men who comprise the Holy Name Society, let me say that we here in Boston are happy and honored that you are with us.

I think you will find us a kindly and understanding people. I know you will meet with thousands of your Brothers-in-Christ who, like yourselves, spiritually and courageously give obedience to the Commandment that tells us we must not take the name of the Lord God in vain.

Boston for the next few days is your host city. You will find it a city where the clean of heart, the pure of mind, the observers of God's Laws, abound in great numbers.

Do not misunderstand me. We are not a city of undefiled angels. We have our share of those who have disregard, and show disrespect, for our laws, but essentially this is a community of home-loving, God-fearing men and women who render unto Caesar things that are Caesar's, and unto God the things that are God's.

Here in Boston where long ago the Puritan worshipped God according to a stern and unrelenting code, and here where the lamp of liberty was first lighted, you will find a deep, abiding love of country and you will also find a deep, abiding acknowledgement that all things begin and end with the Almighty.

We hope you will like us. We hope you will profit by and enjoy your visit with us. We know we will be enriched by your presence.

In the name of all our citizens, I welcome you to our ancient and historical city. I salute you as members of a great fraternity who respect and revere the name of the Ruler of the Universe. I salute you as men of undiluted faith—and I join with you in saying "Blessed Be His Holy Name."

NAPEEN BOUTILIER,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 944.

Patrolman Earl R. Coutu of Division 10 is hereby commended and granted one week additional vacation for his courage and devotion to duty in effecting the arrest, while off duty, of a man who had assaulted and attempted to rape a woman in the Roxbury district.

In the early morning of September 20, 1947, while Patrolman Coutu was operating his automobile on Huntington avenue, his attention was attracted by the screams of a woman. He immediately stopped and observed a woman coming from the lawn of a near-by building and a man running toward him.

Patrolman Coutu jumped from his automobile and confronted the man, who pointed a revolver at him and pulled the trigger twice with no resultant explosion. He struggled with him, but the prisoner succeeded in breaking away and fled. The officer managed to overtake him and grappled with him again, in spite of receiving several blows on the face and head with the butt of the revolver, which temporarily stunned him. Despite his injuries he knocked the prisoner to the ground, and at this point officers from Division 16 arrived, and the man was placed under arrest.

Patrolman Coutu's prompt response to a call for assistance and the courageous and unflinching manner in which this comparatively new police officer faced and subdued a dangerous criminal with a revolver is highly praiseworthy. It gives me great pleasure to recognize this fine police work and make it a part of his permanent record.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 945.

Sergt. Martin P. Kelly and Patrolmen John C. Cawley and Joseph H. Kelly, all attached to Division 15, are commended for meritorious duty performed on September 19, 1947, in connection with the capture of two of three convicts who had escaped from State's Prison.

The Commissioner is pleased to recognize and commend these officers for their keen observation and devotion to duty shown in the prompt apprehension of these dangerous felons.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 946.

Transfer of the following-named person from Superintendent's Office (armed service roll) is hereby ordered; effective Monday, September 29, 1947, at 7.45 o'clock a. m.:

Patrolman Leonard R. Brener, to Division 10.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 947.

The Licensing Board for the City of Boston is required by law to act within 30 days on applications forwarded to the Police Department for investigation and report.

Henceforth, in lieu of the original applications being forwarded to the various police divisions for report, a printed form will be forwarded, the subject matter of which will be reported upon promptly and returned through the regular channels.

The Acting Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

WITHHOLDING TAX ON TEMPORARY EMPLOYEES.

The following was received:

City of Boston,
Office of the Mayor, September 12, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Law Department relative to your order dated August 4, 1947, concerning Federal Withholding Taxes from the salaries of temporary city employees.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Law Department, September 10, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Sir,—You forwarded to me a copy of the City Council order of August 4, 1947, requesting this department to confer with the Federal Internal Revenue Department regarding the legality of withholding tax from the wages of temporary city employees whose gross yearly wages are less than \$500 per year.

I have conferred with the Internal Revenue Service and have ascertained that every employer, the City of Boston not excepted, is required to deduct and withhold such tax under the Tax Payment Act of 1943. The fact that temporary employees would receive from the city a gross income not to exceed \$500 for the year would not exempt their wages from the withholding tax.

Very truly yours,
JOSEPH A. SCOLPONETI,
Corporation Counsel.

REPAIRS TO OLD ENGINE HOUSE NO. 27.

The following was received:

City of Boston,
Office of the Mayor, September 3, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Law Department relative to your order dated August 4, 1947, concerning the legality of the city's undertaking repairs to the old engine house No. 27 on Elm street, Charlestown, now under lease to the Disabled American Veterans' Post No. 71.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Law Department, August 28, 1947.
Mr. J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Mr. Connors,—On August 4, 1947, you transmitted to me for consideration and report an order of the City Council "that his Honor the Mayor be requested to seek an opinion from the City of Boston Law Department as to the legality of the city undertaking repairs to the old engine

house No. 27 on Elm street, Charlestown, now under lease to the Disabled American Veterans' Post No. 71."

As I understand the matter, the veterans' post is in complete possession of the premises as tenant at will. In my opinion the city has, in these circumstances, the power to make repairs, but is under no duty to do so.

Yours very truly,
JOSEPH A. SCOLPONETI,
Corporation Counsel.

TREES FOR PLAYGROUND AT OAK SQUARE.

The following was received:

City of Boston,
Office of the Mayor, September 11, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department relative to your order of September 3, 1947, concerning the planting of trees along the borders of the playground at Oak square, Brighton.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, September 9, 1947.
J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—I acknowledge your memorandum of September 8 with attached order from the City Council requesting the Park Commission to plant trees about 12 feet apart, along the borders of the playground at Oak square, Brighton.

A contract has been let to dig 25 tree holes within the area of the Oak Square Playground, Brighton. The tree pits will then be filled with loam and later this fall, at the proper time, trees will be planted along the border of the playground, about 40 feet apart, which has worked out as a satisfactory distance for the placing of trees.

Very truly yours,
JOHN J. MURPHY, Chairman.

TRAFFIC CONDITIONS AT EDWARD EVERETT SQUARE.

The following was received:

City of Boston,
Office of the Mayor, September 4, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Police Commissioner relative to your order of August 18, 1947, concerning the assignment of traffic officers daily to circle at Edward Everett square, Dorchester, and Massachusetts avenue, between the hours of 7 a. m. and 10 p. m., for the protection of motorists and pedestrians.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Police Department, September 3, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Mr. Mayor,—In reply to your communication of August 22 concerning Council order of August 18, 1947, as follows:

"Requesting the Police Commissioner to assign traffic officers daily to circle at Edward Everett square, Dorchester, and Massachusetts avenue, between the hours of 7 a. m. and 10 p. m., for the protection of motorists and pedestrians,"

please be advised that instructions have been issued for the assignment of a traffic officer at the above location during the hours mentioned.

Respectfully yours,
THOMAS F. SULLIVAN,
Police Commissioner.

SALE OF OLD THOMAS STREET SCHOOLHOUSE.

The following was received:

City of Boston,
Office of the Mayor, September 3, 1947.
To the City Council.

Gentlemen,—On July 23 of this year, I submitted to your Honorable Body a message and order recommending the sale of the old Thomas Street Schoolhouse at public auction for \$500. Since that time, I have learned that the Public Buildings Department, as recently as 1946, expended approximately \$1,700 in this building for improvements.

In view of this, I do not feel that the building should be sold for this sum, as stated in the order before your Body. The building is now occupied under lease by a Veterans of Foreign Wars organization, and I believe the present situation should continue.

I, consequently, withdraw the order submitted to your Honorable Body on the date above-mentioned, and request that your Honorable Body take no further action in this matter.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Public Buildings Department,
September 2, 1947.

Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Mr. Mayor,—Referring to our telephone conversation regarding the purchase of the old Thomas Street Schoolhouse by a veteran organization in the proposed sum of \$500, I have to inform you as follows:

During the year 1946 this department spent approximately \$1,700 in this building for carpentry and painting. After completion of the above work the post occupying the premises offered to purchase the quarters in the sum of \$500. At that time I informed his Honor James M. Curley, of the offer. He felt, as I did and do now, that the offer was inadequate in view of our expenditure

of \$1,700 and that the department and the city would be open to justifiable criticism.

I trust that the above explains my attitude in this matter.

Respectfully yours,
JAMES E. SULLIVAN,
Superintendent of Public Buildings.
Referred to the Committee on Public Lands.

DUTCH ELM DISEASE.

The following was received:

City of Boston,
Office of the Mayor, September 15, 1947.
To the City Council.

Gentlemen,—The dreaded Dutch Elm Disease has finally reached the southerly part of Boston, and it is absolutely essential that steps be taken to bring this disease under control. Of the approximate 250,000 trees of all kinds within the boundaries of Boston, it is estimated that about 75,000 of these trees are elms, so that Boston, without its elms, would be at least, in part, a ghost town.

The chairman of the Park Department, as set forth in the attached communication, estimates it will cost \$130,000 to remove 200 dead or diseased elms, and trim all dead branches of 10,000 others. As approximately one half of this estimate is for work to be done on private property, the Law Department has been requested to render an opinion as to whether or not the control of this elm disease, and the removal of the trees on public and private properties, must be borne entirely by the city.

In compliance with the request of the chairman of the Park Department for \$10,000 for the initial start on this work, I am forwarding herewith an order transferring this sum from the Reserve Fund to the Park Department, and recommend consideration and passage of this order by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, September 10, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Sir,—I respectfully request that an appropriation of \$10,000 be made immediately available for the purpose of meeting the initial cost in our effort to control the Dutch Elm Disease in Boston.

There is no known cure for the disease, but there are certain methods for keeping it under control and giving a measure of protection to noninfested trees. When trees are found to be diseased they must, in most cases, be taken down and burned. That is the only effective method of destroying the beetle and preventing the spread of the deadly fungus to other trees. All elm trees should be trimmed of all dead branches so as to put them in as healthy a condition as possible.

We have estimated that the following work should be done on public and private properties before April 1, 1948:

Two hundred dead or diseased elms to be removed at \$150, \$30,000; 10,000 (minimum number) elms to be trimmed at \$10, \$100,000; total, \$130,000.

The amount of \$10,000 herein requested is only for the initial start on this work.

Respectfully yours,
JOHN J. MURPHY, Chairman.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Special Appropriation, Reserve Fund, \$10,000, to the appropriation for Park Department, B-42, Miscellaneous Services, \$10,000.

Referred to the Executive Committee.

APPROPRIATION FOR AUTOMATIC TRAFFIC CONTROL SIGNALS.

The following was received:

City of Boston,
Office of the Mayor, September 15, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Traffic Commissioner requesting that the sum of \$25,000 be transferred to the appropriation "Automatic Traffic Control Signals in Various Sections of the City." The present appropriation for this purpose is allocated to the program for installing traffic signals at nineteen intersections in various parts of the city. There are other important locations requiring traffic signals which are not represented in the current program. The Traffic Commissioner estimates that these additional installations will cost \$25,000, and I am, therefore, forwarding an order appropriating the sum of \$25,000 from the Special Account, Sales of City Property, and recommend passage by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Traffic Commission, September 12, 1947.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir,—This department is presently installing traffic signals at nineteen (19) intersections. The cost of these signals has used all of the funds in the non-revenue appropriation "Automatic Traffic Control Signals in Various Sections of the City."

The intersections to be signalized are spread throughout the city but lack of additional funds has prevented us from including important locations in several sections which are not represented in the current program.

The estimated cost of this program is \$25,000. I respectfully request that this amount be transferred from available sources to "Automatic Traffic Control Signals in Various Sections of the City."

Very truly yours,
LEO F. CURLEY, Commissioner.

Ordered, That under the provisions of section 63 of chapter 44 of the General Laws the sum of twenty-five thousand dollars (\$25,000) be, and the same hereby is, appropriated from the Special Account, Sales of City Property, to be expended under the direction of the Traffic Commissioner as follows:

Automatic Traffic Control Signals in
Various Sections of the City, \$25,000
Referred to the Executive Committee.

LAND-TAKING IN BRIGHTON.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Brighton, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Colwell avenue, bounded:

Easterly by another part of Colwell avenue, thirty feet; southerly by the southerly line of said avenue, one hundred and sixty feet; westerly by another part of said avenue, thirty feet, and northerly by the northerly line of said avenue, one hundred and sixty feet, containing forty-eight hundred square feet, more or less.

The sewerage works to be constructed are as follows: 150 linear feet of 10-inch pipe sanitary sewer.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on the northerly and southerly sides of Colwell avenue, beginning at a point approximately one hundred and sixty-four feet west of Chestnut Hill avenue and extending westerly for a distance of one hundred and twenty-nine feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against them; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1306, Sewerage Works, Colwell Avenue, Brighton, June 19, 1947, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department," and on file in the office of this department.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby

taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Hyde Park, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Joyce road, bounded:

Westerly by Wood avenue, thirty and 8-100 feet; northerly by the northerly line of Joyce road, four hundred twelve and 71-100 feet; easterly by George street, thirty and 7-100 feet, and southerly by the southerly line of Joyce road, four hundred eight and 58-100 feet, containing twelve thousand three hundred and ninety-two square feet, more or less.

The sewerage works to be constructed are as follows: 380 linear feet of 10-inch pipe sanitary sewer and 375 linear feet of 12-inch pipe surface drain.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Joyce road will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1307, Sewerage Works, Joyce Road, September 4, 1947, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Lot.	Amount.
1. Mario Corsi.....	\$689 42
2. Bessie Myers.....	617 16
Total.....	\$1,306 58

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works in Joyce road, Hyde Park district, under the order of the Board of September 22, 1947, and awards no damages therefor.

Owners unknown, 12,319 square feet, nothing.

LAND-TAKING IN BOSTON PROPER.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the discontinuance of a proposed way (or extension of Kilmarnock street), Boston Proper district, between Van Ness street and Brookline avenue, bounded and described as follows:

The highway named Kilmarnock street is hereby discontinued, between Van Ness street and Brookline avenue.

Said part of said highway as hereby discontinued is bounded:

Southerly by Van Ness street, fifty feet; westerly by the westerly line of said Kilmarnock street as hereby discontinued, sixty-four and 91-100 feet; southerly by the southerly line of said Kilmarnock street as hereby discontinued, twenty-one and 29-100 feet; northwesterly by Brookline avenue, one hundred thirteen and 2-100 feet, and easterly by the easterly line of said Kilmarnock street as hereby discontinued, by two measurements, sixty-five and 83-100 feet and seventy-eight and 9-100 feet.

Voted, That this Board determines that no person sustains damages in his

estate by the making of the public improvement consisting of the discontinuance of a part of Kilmarnock street, Boston Proper district, as a highway, between Van Ness street and Brookline avenue, under the order of the Board of September 22, 1947 and awards no damages therefor.

LAND-TAKING IN BOSTON PROPER.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the discontinuance of the established building line on the southeasterly side of Brookline avenue, Boston Proper district, between Lansdowne street and Boylston street.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the discontinuance of the building line on the southeasterly side of Brookline avenue, Boston Proper district, between Lansdowne street and Boylston street, under the order of the Board of September 22, 1947, and awards no damages therefor.

BOSTON HOUSING AUTHORITY.

CONSTRUCTION OF VETERANS' HOUSING DEVELOPMENT.

The City of Boston, acting by and through the Boston Housing Authority, pursuant to the provisions of chapter 372 of the Acts of 1946, as amended by chapter 479 of the Acts of 1947, will receive sealed bids for the construction of a veterans' housing development located on River street, in the Mattapan district, City of Boston, Mass., until one o'clock p. m., Eastern Standard Time, October 23, 1947, at the office of the Boston Housing Authority, 10 Post Office square, Boston, Mass., at which time and place all bids will be publicly opened and read aloud. A duplicate copy of the proposal, without bid security, shall be left with the City Auditor previous to the time named for opening of bids.

The successful bidder will be required to furnish a Performance and Payment Bond as set forth in the specification.

Attention is called to the fact that not less than the minimum wage rates as set forth in a schedule contained in the specification must be paid on this project. Attention is also called to the requirements relating to Workmen's Compensation and conditions of employment.

Contract documents, including drawings and specifications, will be on file at the office of the Boston Housing Authority, 10 Post Office square, Boston, Mass., on October 9, 1947. Copies of the documents may be obtained by depositing \$10 in the form of a certified check or cash with the Boston Housing Authority, for each set of documents so obtained. The amount of the deposit will be refunded to each person who returns all the documents in good condition within ten days after opening of bids.

Sub-bids will be taken on the following portions of the work until twelve o'clock noon, Eastern Standard Time, October 21, 1947:

1. Heating. 2. Lathing and Plastering.
3. Plumbing.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest so to do. The City of Boston also reserves the right to reject all bids of the sub-bidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

Cash, certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company shall be submitted with each bid as follows:

1. By general bidders, in the amount of five (5) per cent of the Base Proposal.
2. By sub-bidders listed under Item 2 of the General Contractor's Bid Form in not less than 5 per cent of the sub-bidder's bid price.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Boston Housing Authority and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Boston Housing Authority.

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PROPOSALS FOR DEMOLISHING AND REMOVING BUILDINGS LOCATED AT LINCOLN STREET, ESSEX STREET AND COLUMBIA STREET, BOSTON.

The Board of Real Estate Commissioners of the City of Boston, acting under the authority granted it by chapter 474 of the Acts of 1946 and every other authority it hereunto enabling, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States for demolishing and removing buildings and structures located at and numbered 140-144 Essex street, Boston; 12-16 Columbia street, Boston, inclusive, up to the retaining wall dividing 12 Columbia street and the adjoining building.

Forms of proposals may be obtained at Room 809, City Hall Annex. Each proposal shall be inclosed in an envelope, sealed and marked "Proposal for Demolishing and Removing Buildings and Structures Located at and Numbered 140-144 Essex Street, Boston; 12-16 Columbia Street, Boston, Inclusive, up to the Retaining Wall Dividing 12 Columbia Street and the Adjoining Building," and left at Room 809, eighth floor, City Hall Annex, before 12 noon of October 20, 1947, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids.

A bond of a surety company, duly licensed to do business in Massachusetts, will be required in the sum of ten thousand dollars (\$10,000), to secure the due performance of the contract.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained upon application therefor at the office of the Board of Real Estate Commissioners.

Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract.

The undersigned reserves the right to reject any or all proposals.

BOSTON HOUSING AUTHORITY.

CONSTRUCTION OF VETERANS' HOUSING DEVELOPMENT.

The City of Boston, acting by and through the Boston Housing Authority, pursuant to the provisions of chapter 372 of the Acts of 1946, as amended by chapter 479 of the Acts of 1947, will receive sealed bids for the construction of a veterans' housing development located in the Hyde Park district, City of Boston, Mass., until one o'clock p. m., Eastern Standard Time, October 22, 1947, at the office of the Boston Housing Authority, 10 Post Office square, Boston, Mass., at which time and place all bids will be publicly opened and read aloud. A duplicate copy of the proposal, without bid security, shall be left with the City Auditor previous to the time named for opening of bids.

The successful bidder will be required to furnish a Performance and Payment Bond as set forth in the specification.

Attention is called to the fact that not less than the minimum wage rates as set forth in a schedule contained in the specification must be paid on this project. Attention is also called to the requirements relating to Workmen's Compensation and conditions of employment.

Contract documents, including drawings and specifications, will be on file at the office of the Boston Housing Authority, 10 Post Office square, Boston, Mass., on October 9, 1947. Copies of the documents may be obtained by depositing \$10 in the form of a certified check or cash with the Boston Housing Authority, for each set of documents so obtained. The amount of the deposit will be refunded to each person who returns all the documents in good condition within ten days after opening of bids.

Sub-bids will be taken on the following portions of the work until twelve o'clock noon, Eastern Standard Time, October 20, 1947:

1. Heating.
2. Lathing and Plastering.
3. Plumbing.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest so to do. The City of Boston also reserves the right to reject all bids of the sub-bidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

Cash, certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company shall be submitted with each bid as follows:

1. By general bidders, in the amount of five (5) per cent of the Base Proposal.
2. By sub-bidders listed under Item 2 of the General Contractor's Bid Form in not less than 5 per cent of the sub-bidder's bid price.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Boston Housing Authority and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Boston Housing Authority.

BOSTON HOUSING AUTHORITY,
JOHN CARROLL, Chairman.

TEMPORARY MAYOR HYNES OPPOSES GIVING POWER TO RECREATION BOARD — TELLS SPECIAL LEGISLATIVE COMMISSION ON RECREATION IN BOSTON THAT ITS FUNCTIONS SHOULD REMAIN ADVISORY AND COORDINATING, THAT IN THESE FUNCTIONS THERE WERE POSSIBILITIES FOR MUCH GOOD — FEELS THAT IN COMING YEAR PARK DEPARTMENT WILL GET BACK ON FULL PREWAR FOOTING WITH TRAINED STAFFS FOR ALL FUNCTIONS TO TAKE CARE OF BROADEST HEALTH BUILDING ACTIVITIES FOR YOUTH OF CITY.

Temporary Mayor John B. Hynes presented the following statement on Boston's recreation program before special legislative commission studying traffic, housing, recreation, and street lighting in Boston at the hearing at the State House on Tuesday, October 7:

I assume that this commission wants to know what Boston is doing in the way of providing an organized recreation program for the children of the city.

At the outset, perhaps I should state that for a number of years — during the depression and then during the war — not much was done by the City of Boston to promote and expand its recreational activities.

From time to time considerable criticism has been directed at city officials for not maintaining a more adequate recreation program. But in fairness it should be pointed out that during the depression there was a tremendous financial drain on the city, and during the war it wasn't possible to do much to furnish organized play and recreation for the children.

So during these years, first for reasons of economy, and later through sheer necessity, a good deal less was done in the way of promoting recreational activities than had been done in the years prior to the depression. That situation, of course, was not unique to the Park Department. Virtually all municipal departments were forced to trim their sails and curb their undertakings.

Now, two years after the end of the war, we are beginning to restore our recreation program and to do some of the things that we didn't do or couldn't do for almost two decades, for it is close to 20 years since Boston first began to feel the strain of the great depression.

May I also state that in my opinion there is nothing wrong with Boston's recreation program that more adequate funds will not cure. I am satisfied that if the city's Park Department is given sufficient money with which to work it will conduct a completely satisfactory recreation program. From the point of view of the Mayor, it boils down to a question of how much we should spend for recreation.

Opinions Differ.

That, incidentally, is a question on which there may be a wide difference of opinion. As Temporary Mayor, I feel that Boston should provide a reasonably adequate recreation program for its children, but there are many demands upon the city for expenditures of money, and there is a limit to the amount of funds we can spend.

The likelihood is that I will not draft the city's 1948 budget, but if I do I will allow a sum sufficient to conduct an adequate recreation program.

I would like to refer briefly to the Board of Recreation, which at the present time is functioning in a very limited way. I have the highest regard for the members of that board, who serve without pay, and I know some of them not only have given liberally of their time and energy but have even spent their own money in order to promote recreational opportunities for the children of our city and to contribute to their happiness and welfare.

As a matter of fact, I don't know of any one person in Boston who has worked harder on behalf of the children than Thomas J. Turley, the chairman of that board, and, of course, on the Park Commission at the present time we have Joseph Lee, also a member of the Recreation Board, whose paramount interest is to improve the recreational opportunities for Boston boys and girls.

As I understood the functions of the Recreation Board, it was set up as a coordinating body between the Park and School Departments to serve in a supervisory and advisory capacity. As a coordinating body, it had potentialities for much good.

FINANCE COMMISSION, AFTER INVESTIGATION, FINDS SALES OF UNDEVELOPED FORECLOSED REAL ESTATE AT AUCTION IN AUGUST IN NEPONSET VALLEY PARKWAY VICINITY WERE PERFECTLY LEGAL — PRICES FAIR TO CITY — FURTHER PUBLICITY MIGHT HAVE BEEN DONE BUT NOTHING LEGALLY IRREGULAR ABOUT TRANSACTIONS COULD BE NOTED — ANNOUNCES FINDINGS IN COMMUNICATIONS TO TEMPORARY MAYOR HYNES.

On October 3 the Finance Commission addressed the following letter to Temporary Mayor John B. Hynes:

Boston, October 3, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

SIR,— The Finance Commission has reviewed the procedure of the Board of Foreclosed Real Estate in the sale at public auction on August 22, 1947, of five parcels of undeveloped property in the vicinity of Cottage street and the Neponset Valley Parkway in Readville.

The Commission examined Mr. Paul F. Liston, counsel, and Mr. John F. Millerick, engineer of the Boston Housing Authority, in regard to an investigation of the parcels by the Housing Authority. It had been suggested that this property might be taken for housing for veterans. The Commission also examined Chairman Irving Lewis of the Board of Foreclosed Real Estate, who prepared the sale and conducted the auction; and Acting Corporation Counsel James Kelliher, representing the Law Department, which prepared the deed and passed on the legality of the sale.

It appears that these parcels were acquired by the Real Estate Department by foreclosure of tax title. There are five separately assessed parcels. The statistics in regard to them follow:

PARCEL.	Area (Square Feet.)	Tax Sale Date.	Date of Decree.	Amount Due City.	Assessed Value.	Sale Price.
Neponset River Parkway, Hyde Park BUYER — Security Homes, Inc. Signed, Richard F. Casey.	454,250	April 29, '42	May 2, '47	\$2,710 71	\$9,100	\$4,000
Lots 6-11 Cottage Street, Hyde Park BUYER — Francis J. Callahan, 6 Beacon Street. Deeded to Security Homes, Inc.	24,800 (Lots 6 and 11) (Lots 7-8-9-10)	Dec. 7, '32 Aug. '26, 30	Nov. 15 '43 Aug. 2, '38	\$815 22	\$1,100	\$300
Lots 145-169 Van Brunt Street, Hyde Park BUYER — Francis J. Callahan, 6 Beacon Street. Deeded to Security Homes, Inc.	117,900	Dec. 7, '32	Nov. 21, '41 Sept. 16, '38 Aug. 2, '38 July 27, '38	\$1,461 77	\$2,600	\$1,250
Lots 178-202 Van Brunt Street, Hyde Park BUYER — Francis J. Callahan, 6 Beacon Street. Deeded to Security Homes, Inc.	134,469 (Lot 178) (Lot 179 to 194, Inc.) (Lots 195-202)	Jan. 12, '23 Dec. 7, '32 Aug. 26, '30	July 19, '42 Nov. 21, '41 Aug. 2, '38 Aug. 7, '38	\$1,474 92	\$2,500	\$1,250
Lots 27-30 and 33-40 Wolcott Road, Hyde Park These parcels were purchased by Gustos Janises. 49 Cottage Street, Hyde Park. Deeded to above and wife, Alice M. Janises.	48,000 (Lots 27-39) (Lot 40)	Dec. 7, '32 Aug. 26, '30	Dec. 26, '41 Nov. 26, '41 Sept. 7, '38	\$687 46	\$1,200	\$600

The facts in the situation appear to be that a sale of the property was advertised by the Board of Foreclosed Real Estate in four Boston Sunday newspapers, the sale to be conducted on August 7, 1947, at the Brookline Street Municipal Building, which has been used for similar auctions. As the result of instructions given by the Mayor, it was announced to those who appeared at the place of sale on the advertised date that the sale was postponed for two weeks and that the postponed auction would be held at

the Brookline Street Municipal Building on August 21. Meanwhile, also on instructions from the Mayor, the Housing Authority was asked by the Foreclosed Real Estate Department if it desired the property for veteran's housing.

On the date of the postponed auction, August 21, not having received final reply from the Housing Authority, Mr. Lewis, as auctioneer, announced to those who attended the auction at the Brookline Street building that the sale would be postponed until the next day, August 22.

On August 22, after the Real Estate Board had received word from the Housing Authority that it did not desire these particular parcels, the sale was held. The buyers were as shown in the foregoing statistics.

The representatives of the Housing Authority who were examined by the Finance Commission stated that though they considered adjoining land good building land, subsequently acquired it, and are now preparing to build houses for

TEMPORARY MAYOR HYNES, AT ADVERTISING CLUB LUNCHEON STARTING OBSERVANCE OF REDEDICATION WEEK, CALLS ON ALL CITIZENS TO TAKE TIME OUT FROM OCCUPATIONAL PURSUITS TO COUNT BLESSINGS ENJOYED BY ALL IN THIS FREE COUNTRY AND TO RESOLVE THAT THEY SHALL CONTINUE—SAYS EACH HAS DUTY TO GUARD, PROTECT, AND PRESERVE THE FREEDOMS THAT ARE OURS.

The following were the remarks of Temporary Mayor Hynes at the luncheon of the Advertising Club at the Hotel Statler, Tuesday, October 7, during Rededication Week program:

Gentlemen of the Advertising Club.

My remarks today will be very brief, for I do not wish to infringe upon the time of the main speaker, Congressman McCormack, however, I feel I should express the official gratitude of the City of Boston to the Advertising Club and its members for the wonderful cooperation you are giving and will give during this Rededication Week here in Boston.

To such a highly intelligent group as this, I think there is little need to explain what Rededication Week is all about. In its simplest terms it means this: An opportunity for all of us to reaffirm and repledge our allegiance to America and to the American principles of government. To some, Rededication Week might seem a little strange, a little unnecessary, and almost bordering on the panicky, but, gentlemen, in the light of recent events, we cannot help but realize we are living in a most critical period.

We must realize that millions of half-famished, hopeless peoples of Europe are pliable and fertile pawns in a system of government which seeks to break down and destroy all the principles we hold as sound and sacred.

Great civilizations of the past have flourished and have died, and though we say it cannot happen here, yet we all know that history has a habit of repeating itself. Our nation has survived wars, pestilences, and famine, and we have gone

on to become the greatest and the strongest nation in the history of the world.

God has been good and kind to America, and God has given us a free will, the will to live in peace and harmony among ourselves, the will to enjoy freedom and liberty and justice, and the will, if we choose, to forsake these blessings because we are too shortsighted, too busy, too enwrapped in our daily pursuits to give any time or thought to the duty we owe as citizens. God has proposed that—let us not dispose.

During the remainder of this week, various exercises will be held in our city, designed to focus attention on our form of government and its divinely inspired principles of freedom, justice, and equality, and more importantly, to remind our citizens that each of us has a duty to guard and protect and preserve the freedoms that are ours.

Whenever freedom and liberty has been an issue, Boston has never failed to take its place in the forefront. We are starting this week out auspiciously by this luncheon, and we will end it with an exhibition of priceless historical documents in the Freedom Train on Saturday and Sunday. I am hopeful that at some time during this week of Rededication, each individual and each organization will do as you gentlemen are doing today, taking time from ordinary pursuits to reflect upon our blessings as American citizens and our responsibilities as free men in one of the few free countries left in the world.

FINANCE COMMISSION REPORT.

(Continued from page 1127.)

veterans on it, they did not believe it would be economical for them to build on these other particular parcels.

Their objection was principally that the topography of the major part of these parcels and the actual condition of them were obstacles to economical building by the Housing Authority; in addition, they found a serious obstacle in the matter of providing sewerage. The area within the parcels (except for three house lots at the corner of Cottage street and Neponset Valley Parkway) is on a level with the sewer in the Neponset Valley Parkway which would make it impossible to take sewerage from the area in question without completely altering the topography of it. To overcome this obstacle would necessitate an expense that the Housing Authority considered it would be unjustified in incurring.

In regard to the prices paid, the Finance Commission believes that in view of the circumstances it was fair to the city to sell at that price. No claim has been

advanced that anyone other than the eventual buyer was willing to pay more than or as much as the prices for which the sale was made.

To complete the picture, it is necessary to say that this area was plotted and planned by the town of Hyde Park more than twenty years before Hyde Park in 1912 became annexed to Boston, and although it was assessed the minimum amount as lots planned, it was never developed in accordance with the plan.

The Commission discussed the procedure of the sale from a legal standpoint with Mr. Kelliher and is satisfied that there was nothing legally irregular about the transaction.

It appears that the question of justifiable criticism in this instance comes down to whether or not some public announcement, besides the notice to those who appeared at the original sale, should have been made. Since sale of foreclosed real estate is public business, the Commission is of the opinion that some further publicity than the mere announcement of postponement at the advertised sale time

might well be obtained in the event of a postponement; also, for the same reason, the Commission is of the opinion that prompt announcement of all such sales, giving the name of the buyer and the price, should be made.

Respectfully submitted,

EDWARD F. MULLEN, *Chairman*,
ALEXANDER WHEELER,
LEO J. DUNN,
FREDERICK W. ROCHE,

TEMPORARY MAYOR HYNES CALLS FOR MORE EQUITABLE ADJUSTMENT OF AUTO INSURANCE RATES.

Temporary Mayor John B. Hynes, commenting on the proposed increase from \$50.30 to \$52.30 in compulsory insurance for private passenger automobiles in Boston, said:

"It seems to me that the present system of fixing the automobile insurance rates is grossly unfair to a city such as Boston and should be changed to a more equitable method.

"In all justice the rate should be uniform for the entire state, and the Legislature should correct the situation at its next session.

"I am directing the City Law Department to make a study of the facts and figures on which the State Insurance Department bases the proposed \$2 increase in rates for Boston to determine whether there is any ground on which we can oppose the rate at the hearing to be held October 15.

"It may or may not be that the increase can be justified under the present unfair method of computing the insurance rates. The solution, of course, lies in changing the system of computation."

TEMPORARY MAYOR PROVIDES FOR BURIAL OF RETURNING HERO DEAD.

Hon. John B. Hynes, Mayor of the City of Boston, has taken great interest regarding the return of the bodies of the boys who sacrificed their lives in World War II, and that are being brought home for burial at this time.

He has set apart a suitable lot in Mount Hope Cemetery, Mattapan, Mass., in size and location to be used for the burial of all veterans who were residents of Boston, and who served honorably during World War II.

Mayor Hynes personally issues an invitation to all the next of kin and to the families of these boys to contact Col. David J. Brickley, Commissioner of the Veterans Services, 14 Oliver street, Boston, for information regarding the interment of their bodies in World War II lot in Mount Hope Cemetery, Mattapan, Mass., also to contact Mr. Frank T. Pedonti, Supervisor of Veterans Graves Registration, Room 37, City Hall, Boston, Mass., for information regarding the headstone which will be furnished for all their graves by the government.

TEMPORARY MAYOR JOHN B. HYNES OPENS THE HEART OF BOSTON TO ATTORNEY GENERAL THOM C. CLARK IN WELCOME TO MAN WHO WAS INSPIRED TO ORGANIZE THE FREEDOM TRAIN AND REDEDICATION WEEK—DELIVERS HOSPITALITY ADDRESS AT LUNCHEON OF CHAMBER OF COMMERCE TO WASHINGTON OFFICIAL—IN SEMISERIOUS VEIN HE RECOUNTS EFFORTS TO GET CHAMBER AND ITS LEADERS TO ASSUME RESPONSIBILITY FOR CELEBRATIONS AND PLEDGES CITIZENS OF BOSTON TO ANY DEGREE OF LOYALTY THE COUNTRY MIGHT DEMAND.

The following were the remarks of Temporary Mayor John B. Hynes at the luncheon of the Chamber of Commerce tendered to Attorney General Thom C. Clark at the Copley-Plaza Hotel on October 8:

GENTLEMEN.—Sometime very early in August, when I had been Temporary Mayor for only a few weeks and still in the blissful throes of a mayoral honeymoon, I received considerable correspondence and a voluminous brochure from the American Heritage Foundation, concerning a national program of rededication to the ideals of free government. A quick and casual perusal of the correspondence and brochure seemed to indicate that somebody at some time would be required to do a whole lot of work.

Well, August in Boston was a hot month, the burdens of the Mayor's office were just beginning to poke their annoying heads through the honeymoon haze, and I was also just beginning to go home nights with the dawning conviction that the fellow who wrote the words "uneasy lies the head that wears the crown" was a pretty smart bloke.

At any rate, I decided that the best course of action, at least for a time, would be a course of inaction—and that, gentlemen, I submit, showed a quick adaptability to the ways of men in high public office who, when they don't know what to do or what to say, do nothing and say nothing. I was learning fast.

Of course, I wrote very polite letters to Mr. Winthrop W. Aldrich, Chairman of the Board of Trustees of the American Heritage Foundation, and to Mr. Thomas D'Arcy Brophy, President of the Foundation, assuring these gentlemen that Boston was officially interested in the national program of rededication. Polite letters, but a little on the *caveat emptor* style.

That being out of the way, I settled down to the large and little problems that beset a mayor and make him feel like a bird in a cage—and just about as free.

Only a few days later—how fast the mails can be at times—I received another letter from the Foundation, stating that Rededication Week in Boston would be October 5 to October 12, and also stating that the area representative of the Foundation would call upon me to acquaint me with the details of the program.

The area representative must have been in the postman's bag, because he popped in on the wake of the letter, and promptly confounded me with my ignorance of the Foundation's program—the truth is I hadn't read the voluminous brochure up to that time—astounded me with his

spirit, his enthusiasm, and his super-salesmanship, and actually hounded me to get going on the Boston program.

I listened in rapt and more or less discreet silence, for forming in my mind was the sly thought that this was a wonderful program for the Chamber of Commerce to take hold of, rather than the city government.

So, the next day, serene and confident that he would jump to the bait, I called the President of the Chamber of Commerce, Mr. Michael T. Kelleher, and told him of the program—not the part about the work, but enough to excite, as I thought, his sense of civic responsibility.

Gentlemen, you chose a very good president. He knows all about the Greeks bearing gifts. Not only did I not convince him to take over this program of rededication, but, before he got through talking with me, I was champing at the bit to get the program rolling under the official auspices of the city.

Well, gentlemen, and in a more serious vein, Boston did agree to participate in the national program of rededication—and why not?—for here it was in our old, historical city that the first blood was shed for the freedoms and liberties which we now enjoy, and, all too often, take too lightly.

It is not my purpose at today's luncheon to give reasons why this program was instituted. Your chief speaker today, the Honorable Thom Clark, Attorney General of the United States, is here, and, as I understand it, this program was conceived in his able and fertile mind.

Suffice it for me to mention that Rededication Week has two main purposes: (1) to remind our citizens of their heritage of freedom, their rights, and their privileges, and (2) to bring home to each citizen his obligations to protect and preserve his heritage of freedom, his rights, and his privileges.

There is an old adage which goes something like this—"There is none so blind as he who will not see."

We know that today most of the world is teetering on the brink of absolute chaos. We can't be blind to that condition. We can't hide our heads in the golden sands of a strange sort of prosperity, while our brother humans—all made in the same image and likeness of God as you and I, and all as entitled to share in God-given rights as you and I—suffer in hopeless despair, and become potential cogs in that

atheistic form of government that seeks to spread itself all over the world.

This is our week here in Boston; our week to reaffirm our devotion to the principles of our free government; our week to renew our pledge of allegiance to that form of government; our week to show once again that whenever the freedoms, the rights, or the liberties of our citizens are endangered—from whatever the source—the citizens of Boston will not be found wanting.

Mr. Attorney General Clark, Boston is still Boston, and here, where our freedoms were nurtured and born they will never die. That, sir, is my official report to you.

TEMPORARY MAYOR HYNES TELLS SPECIAL LEGISLATIVE COMMISSION ON RECREATION IN BOSTON THAT HE IS OPPOSED TO GIVING BROAD POWER TO RECREATION BOARD.

(Continued from page 1125.)

CONFLICT ENGENDERED.

Early in its existence, however, the board branched out and entered into the active field of recreation, becoming an operating unit more or less in direct competition with the Park Department. It is only fair to explain, incidentally, that that was done under the instructions of a former Mayor.

Under the law which established the Recreation Board it was obviously intended that the School and Park Departments would cooperate with it and turn over to it some of the activities traditionally handled by those departments.

Unfortunately, but as frequently happens, neither of those two departments was anxious to surrender any of its authority and power, and the relations of the Recreation Board with the Park and School Departments were not always harmonious.

Unfortunately, too, the Recreation Board at one time had expanded its activities to the point where it had something like 140 employees who were doing work which in the past had been done by the Park Department—when it had been done.

Now I am convinced that the idea, the objective, and the intention of those responsible for the creation of the Board of Recreation were entirely sound. I personally favor the continuation of this board. But I believe its place in the recreational scheme should remain more or less advisory. If there is to be any broadening of the city's activities in the field of recreation, it should be accomplished through the established agency which has control of the parks and playgrounds of the city.

AGAINST MANDATORY POWERS.

I understand the suggestion has been made to your commission that the Recreation Board be vested with certain mandatory powers. That proposal seems to me to be a bit unwise. If I could be assured that the caliber of the members of the Recreation Board would always be as high as it is at the present time, I might go along with that proposal. But, of course, no such assurances can be offered, and we don't know whether it would be sound to place such authority in the hands of future boards.

Now, may I outline briefly what was done by our city in a recreation way during the past summer under the direction of the Park Department. To provide

organized recreation and play for the children throughout the city the Park Department hired about 140 experienced physical education instructors, men and women trained in playground work.

The program cost us in the vicinity of \$55,000, which is not an exorbitant expenditure. The 140 supervisors were hired on a temporary basis, and on September 15, at the close of the playground season, they were dropped from the city's pay roll.

An important point, I think, is that they did not become permanent additions to the city's pay roll. They worked only for the period they were needed. According to the reports made to me, their work was entirely satisfactory, and we feel reasonably certain that it will be possible in future years, through colleges and other agencies, to obtain an adequate number of men and women trained in this particular field, who will be able to conduct the summer program of the Park Department without increasing the number of year-round employees.

The Park Department, of course, has a staff of permanent employees who are trained in all phases of recreation work, and I am satisfied that its organization can adequately service the department for any of its present or immediate needs.

DIVISION OF ACTIVITIES.

I might also inform the commission that at the present time we have under discussion a subdivision of activity in the Park Department. It has been at least tentatively decided that the department might operate more efficiently if its activities, which cover a wide scope, were divided into several divisions, one of which would be a recreation division. That matter is still under discussion, and I expect that in the near future we will have decided upon an entirely new method of operation in the department.

The City of Boston, I can assure this commission, is fully aware of its responsibility to provide ample recreational facilities for our children and for young men and women.

Like every other activity, however, we must cut our cloth to the pattern, and we must consider our recreational program in its proper place among all the functions which the municipal government must perform.

There is wide room for improvement and for the development and expansion of recreational activities. Of that there is no doubt. I wholeheartedly subscribe to the belief that the energies of the young should be channeled into healthy and wholesome recreational endeavors rather than in a direction which causes grief and trouble for both parents and children.

The city has a responsibility in this respect, and we will try to meet it. I am satisfied, on the whole, that our Park Department is fully aware of that responsibility and desires to meet it. And, as I stated earlier, I feel that the only thing needed to make possible a satisfactory and widely diversified recreational program is an appropriation large enough to carry it forward.

IMPROVEMENTS ANTICIPATED.

In that respect, I cannot speak for anybody but myself, and in all probability I will not have a voice in determining the amount of the appropriation that will be made for that purpose next year.

But I am confident that with the war over, with trained personnel available, and with necessary materials and equipment on the market, our Park Depart-

ment and its recreation activities next year will show an improvement over this year, and this year was a great deal better than last year.

In closing, Mr. Chairman and members of this commission, may I say that the city has many problems. It has many faucets through which the money of our taxpayers must flow. All those faucets cannot be turned on at full force at one time, and there is a limit to the amount which can flow through those faucets.

In short, an expenditure of public funds is necessary to meet every problem confronting the city. We can't spend as much money as we would like on any one of them. That is true of recreation. We want to give the children of the city a good recreation program. But we must keep our expenditures for that purpose within reasonable bounds. I have tried to do both things. Thank you.

TEMPORARY MAYOR HYNES SHARES, IN BEHALF OF CITIZENS, IN FIFTIETH ANNIVERSARY OF FOUNDING OF NORTHEASTERN UNIVERSITY AND DEDICATION OF MILLION-DOLLAR STUDENT CENTER.

At the observance of Northeastern University's fiftieth anniversary and the dedication of new student center, Temporary Mayor Hynes, in behalf of the city, spoke as follows:

Mr. Chairman, President Ell, Attorney General Clark, Speaker Willis, and Other Distinguished Guests from All Parts of Massachusetts and New England.

I am very happy to be here this afternoon, as Temporary Mayor of Boston, to bring the official greetings of our city to Northeastern University on the occasion of its fiftieth anniversary, and to participate in the dedication of this beautiful million-dollar student center.

I have just come from the parade of the Holy Name Society, which has been going on since 10.30 this morning and will continue until after dark tonight.

Under the banner of God some 100,000 men filled with holy zeal are marching through our streets.

Here in this great university thousands of young men are marching toward knowledge, toward the goal of education, which makes—with an appreciation of the omnipotence of God—the complete man.

In the 50 years of its existence, Northeastern University has made a notable record. The citizens of Boston have every reason to be proud of it, for it is primarily a community college, with more than 80 per cent of its students living at home and commuting daily.

When it first came into being, it was opened as a law school. Dr. Frank Palmer Speare was its first president, and it is significant that there have been but two, as the present incumbent, President Carl S. Ell, most worthily succeeded him.

In the beginning the university was located in rented quarters. It had 1 director, 4 part-time teachers, and 40 students. Today it has 163 full-time instructors and a part-time staff of 192. The student body numbers more than 7,000 in diploma and degree courses, and there are 2,000 special students.

The growth of Northeastern has been healthy and steady. To its original law school it has added, from time to time, colleges of engineering, business administration, and liberal arts. It has an evening school of business and evening courses in liberal arts. Huntington Day School for boys and the Lincoln Schools are affiliated with it.

Northeastern is especially noted for its plan, in which it was a pioneer, for cooperative education by day and adult education by night, which permits able and ambitious students of limited financial means to obtain quality education. The wheels of education rarely stop turning in this great university.

In closing, I wish to congratulate Northeastern University and everyone connected with it. Great as its progress has been, I feel it has merely reached the threshold of far greater expansion and service.

This great, growing institution is a vital, throbbing part of our community life. Boston is proud to number it among its chief civic assets, and happy to know that this university will continue to mould the minds and the character of our citizens of tomorrow.

TEMPORARY MAYOR'S ADVISORY COMMITTEE ON HOUSING.

The following persons are labor representatives selected to serve on the Mayor's Advisory Committee on Housing:

Edward I. Kelley, President, Building and Construction Trades Council of the Metropolitan District, 321 Tremont street, Boston.

Francis O'Toole, General Agent, Building and Construction Trades Council of the Metropolitan District, Room 24, 108 Massachusetts avenue, Boston.

E. A. Johnson, Secretary-Treasurer, Building and Construction Trades Council of the Metropolitan District, Room 24, 108 Massachusetts avenue, Boston.

Ralph B. Steeves, General Agent, Carpenters District Council, 470 Stuart street, Boston.

James J. Dunne, Business Agent, Laborers Union, Local Number 223, 127 Dover street, Boston.

John F. Brophy, Business Agent, Pipe Fitters Association, Local 537, U. A. Room 559, 206 Essex street, Boston.

REPORT OF THE CITY COLLECTOR AS OF OCTOBER 3, 1947.

It is significant that, due to decreased charges for water, \$750,000 less was collected in the current year than in 1946.

Receipts from properties held in tax title were \$1,100,000 more last year than in 1947 as all available residential property held by the city was redeemed by the owners at the beginning of the real estate boom.

The increases in 1947 have been in miscellaneous receipts, mainly in higher collections from the state of \$700,000 and a \$300,000 increase in hospital collections. There is also noted a \$400,000 gain in motor vehicle excise taxes and a \$1,000,000 increase in receipts of real estate, personal and poll taxes.

Total receipts, 1947 (39.239 per cent), \$57,988,778.68; 1946 (39.588 per cent), \$57,617,976.38.

STATE AND CITY TO JOIN IN MEMORIAL SERVICES AT ARENA AND ON COMMON TO HONOR HEROES WHO LOST LIVES IN WORLD WAR II.

Temporary Mayor John B. Hynes on October 5 announced that the commonwealth is joining with the city in holding memorial services in the Boston Arena and on Boston Common, on Sunday, October 19, to honor the heroes of the city and the state who lost their lives in World War II.

The inspiring ceremonies are being timed a few days in advance of the arrival back home of the first of the thousands of bodies of those who made the supreme sacrifice in all parts of the world, for burial in their native communities. Newspapers, churches, service groups, veterans' organizations, and civic leaders are joining in this mass tribute to the sons and daughters of Massachusetts who gave their lives for their country.

The events of the day are scheduled to begin at 2 p. m., when a military procession, headed by units from the Army, Navy, Marine Corps, and the Massachusetts National Guard, followed by post commanders of various military organizations in Boston's Metropolitan area, together with their colors and color guards, will form at the South Armory in Irvington street, Back Bay. The solemn parade will proceed along Huntington avenue to Massachusetts avenue, and thence to the Arena, where the memorial services will begin at three o'clock.

Meanwhile, an honor guard from the Army, Navy and Marine Corps will take up positions at Boston's Memorial Plaque on the Common, facing Tremont street, where wreaths are to be placed. Several squadrons of airplanes will circle overhead. Just as the services in the Arena are ending, a salute will be fired on the Common by an Artillery piece of the Massachusetts National Guard, followed by the sounding of "Taps" by selected buglers.

Temporary Mayor Hines, as active chairman of the special committee organized for the occasion, has named Governor Robert F. Bradford as honorary chairman. The Mayor's committee is headed by Frank T. Pedonti, Supervisor of Veterans' Graves Registration for the City of Boston, Colonel David J. Brickley, Boston's Director of the Department of Veterans' Services, and Major General William I. Rose, of Yankee Division fame, Superintendent of the City Supply Department.

John D. Crowley, Sr., member of the Cambridge Board of Health, and former National Commander of the "40 and 8," is chairman of the committee on arrangements for the Arena services. Speakers from all walks of life will take part in the program.

Archbishop Richard J. Cushing will be represented by the Reverend William B. Foley, former Catholic chaplain in the Burma Area during the war, and present Administrator of the Cathedral of the Holy Cross. Very Reverend Edwin J. van Etten, Dean of St. Paul's Cathedral, Episcopal, will be the representative of Bishop Norman B. Nash. Rabbi Herman H. Rubenovitz, president of the Greater Boston Rabbinical Association, will represent the Jewish faith.

The Disabled American Veterans have made arrangements for transportation of disabled veterans from the various hospitals in Greater Boston to the Arena services.

Among the members of the Mayor's committee, in addition to those mentioned, are the following:

John J. Sullivan, State Commander of the American Legion; William Halisey, State Commander of the Veterans of Foreign Wars; Charles Allen, State Commander of the American Veterans' Committee of World War II (Amvets); Anthony Tieso, State Commander of the Disabled American Veterans; Jackson J. Holtz, State Commander of the Jewish War Veterans of the United States; James Mansfield, State Commander of the Army and Navy Legion of Valor; William E. McCann, Jr., State Commander of the United Spanish War Veterans; Commandant Michael DeMarco of the Marine Corps League; Colonel Fred E. Pereira, executive secretary of the Ancient and Honorable Artillery; and H. Guy Watts, national secretary of the Yankee Division Veterans' Association.

Representatives of fraternal organizations on the committee include Samuel Wragg, Grand Master of the Grand Lodge of Masons of Massachusetts; John F. Malley, past Grand Exalted Ruler of the Benevolent and Protective Order of Elks; Justin A. Duncan, Potentate of the Aleppo Temple, Shriners, and Joseph I. Francis, State Deputy of the Knights of Columbus.

Hon. Francis J. Good, Superior Court Justice, has been named chairman of the program committee. Chief usher at the Arena will be Colonel Ralph W. Robart, Past National Commander of the Army and Navy Legion of Valor and holder of the Distinguished Service Cross from the time of World War I. Neal Shea of Governor Bradford's office and William Pote, general manager of radio station WMEX, which will broadcast from the Arena from 3.30 p. m. to 4.30, p. m. are also members of the committee.

Lucille Manners, noted concert and radio soprano, will be soloist at the exercises. Miss Manners, who will travel here from her home in Short Hills, New Jersey, is scheduled to open the program at the Boston Arena with the "Star-Spangled Banner." At another point on the memorial program, Miss Manners plans to sing the immortal "Ave Maria." Still another rendition by Miss Manners will be "The Lord's Prayer."

Start of the impressive day's program is scheduled at 2 p. m., with the formation of units from the Army, Navy, Marine Corps, and Coast Guard at South Armory, Irvington street, Back Bay.

The procession will move from Irvington street to Huntington avenue, thence to Massachusetts avenue, and into the Arena in St. Botolph street, in time for the indoor service at three o'clock.

Honorary chairman of the day will be Governor Robert F. Bradford, while Temporary Mayor John B. Hynes of Boston will be the active chairman of the planning group, which includes leaders from all walks of life.

PUBLIC HEALTH ASSOCIATION CONVENTION FOR BOSTON IN 1948.

On October 8 the Temporary Mayor issued the following statement:

I have been informed today in a telephone conversation with the Health Commissioner of Boston, Dr. John H. Cauley, that the 1948 convention of the American Public Health Association,

now meeting at Atlantic City, will meet in Boston during the week of November 8.

This association has a membership of approximately 11,000, representing the United States, Canada, Mexico, and various foreign countries. It is one of the best and most desirable organizations to come to a city for convention purposes, and we are very happy that they have chosen Boston as the site of their 1948 assembly.

TEMPORARY MAYOR ASKS CITIZENS TO HALT ALL ACTIVITIES FOR ONE MINUTE ON OCTOBER 11.

Temporary Mayor Hynes has issued the following call to citizens:

I call upon all the citizens of Boston to reflect for one brief minute on Saturday, October 11, from 12 noon to 12.01, on the freedoms and liberties we enjoy under our free government.

I call upon all merchants to stop activities in their various places of business and upon all industrialists and others to stop work at the time appointed and, if possible, have the Pledge of Allegiance to our Flag delivered by someone in their respective establishments.

The Metropolitan Transit System will stop running for one minute on Saturday, and I am calling upon the Fire Department to ring bells and blow whistles during the short period of time to be set aside. All radio stations will broadcast at the same time the tolling of the original Liberty Bell, and I would also request that all churches toll their bells at the same time. If our theaters in the city can arrange it, I also call upon them to tune in to the radio broadcast of the ringing of the Liberty Bell.

This is one of the outstanding exercises of Rededication Week. I hope all in the city will join in this very brief demonstration of our love and devotion to our country.

AMENDED DAMAGES.

The Temporary Mayor has approved the following votes of the Board of Street Commissioners:

Voted. That the order of the Street Commissioners and Mayor of June 23, 1947, determining damages caused by the making of the public improvement consisting of the taking in fee of 5,856 square feet of land for playground purposes in Tremont street, be, and the same hereby is, amended, by striking from said order the amount \$1 awarded to Gertrude L. Fox in said order and inserting in place thereof the amount \$12,689.28; that the amount \$12,689.28 be, and the same hereby is, awarded to Gertrude L. Fox for the damages so sustained.

Voted. That the order of the Street Commissioners and Mayor of June 23, 1947, determining damages caused by the making of the public improvement consisting of the taking in fee of 5,304 square feet of land for playground purposes in Tremont street, Roxbury, be, and the same hereby is, amended, by striking from said order the amount \$1 awarded to Annie Fox and Charles J. Fox in said order and inserting in place thereof the amount \$3,341.52; that the amount \$3,341.52 be, and the same hereby is, awarded to Annie Fox and Charles J. Fox for the damages so sustained.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Temporary Mayor.

INSTITUTIONS DEPARTMENT.

Upon September 17 the Temporary Mayor approved a contract with the Peabody Construction Company for the construction of a brick and concrete garage, repair pit and concrete ramps at the Long Island Hospital, Boston Harbor. Bids, opened September 11, were as follows:

Peabody Construction Company, \$26,885; Construction Units, Inc., \$28,979; J. A. Singarella, \$29,700; Park Construction Company, Inc., \$29,900; M. S. Kelleher Company, \$39,736.

OVERSEERS OF PUBLIC WELFARE.

Upon September 15 the Temporary Mayor approved a contract with John D. Ahern Company for painting and tinting ceilings at the Central Office Administration Building, 43 Hawkins street, Boston. Bids, opened September 3, were as follows:

John D. Ahern Company, \$2,659; Joseph G. Gazzola, \$2,785; C. Dale Garbutt, \$3,130; Federal Painting and Decorating Company, \$3,350; Kabot Painting Company, \$3,450; National Painting Company, \$3,470; R. Tweed & Son, \$4,347; Nickolas Bello, \$4,500; Patrick J. Sullivan, \$5,150; E. J. Noel Company, \$5,777.

PUBLIC BUILDINGS DEPARTMENT.

Upon September 23 the Temporary Mayor approved a contract as requested in the following letter:

BOSTON, September 23, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR,—On August 6 proposals were publicly opened for alterations and renovations to the South End Municipal Building, Shawmut avenue and West Brookline street, Boston. These proposals were rejected because the lowest bidder who conformed to form of specifications as required was Rossano Construction Company, 401 Border street, East Boston, in the sum of \$16,455, which amount exceeded the appropriation.

This job was again readvertised, changes were made in the electrical work and the asphalt floor was carried as a separate proposal. Bids were opened September 9, 1947, with the following result:

Item 1.—Peabody Construction Company, \$5,828; A. Piotti Company, \$5,595; Rossano Construction Company, \$5,843; Sciaba & Co., \$5,995; J. A. Singarella, \$5,802; M. Slotnick Corporation, \$7,142; M. Solimando, \$5,255.

Item 2.—Peabody Construction Company, \$7,845; A. Piotti Company, \$7,935; Rossano Construction Company, \$7,935; Sciaba & Co., \$7,985; J. A. Singarella, \$7,935; M. Slotnick Corporation, \$7,845; M. Solimando, \$7,935.

Floors.—Peabody Construction Company, \$940; A. Piotti Company, \$800; Sciaba & Co., \$884; J. A. Singarella, \$1,450; M. Slotnick Corporation, \$924; M. Solimando, \$840.

Total.—Peabody Construction Company, \$13,673; A. Piotti Company, \$13,530; Rossano Construction Company, \$13,778; Sciaba & Co., \$13,980; J. A. Singarella, \$13,737; M. Slotnick Corporation, \$14,987; M. Solimando, \$13,190.

M. Solimando, 51 Ceylon street, was the lowest bidder, including the separate

proposal for floors in the sum of \$14,030, which is within the appropriation.

It was observed that while there was no change in either the heating or the iron work specifications, there was a wide discrepancy between sub-bids submitted August 6, 1947, and September 9, 1947, as follows:

September 9, heating, \$1,411.
August 6, heating, \$640.
September 9, iron work, \$599.
August 6, iron work, \$199.

As I felt these bids of September 9 excessive and as only one sub-bid was obtained in each of these crafts, I rejected these sub-bids with the advice of the Law Department under authority granted me in General Laws, chapter 149C, section 44 cs.

I so notified these sub-bidders of my decision and invited them to bid along with three (3) other bidders. Bids were opened September 19, with the following results:

Heating—J. M. McCusker, \$640; P. J. Riley Company, \$885; Ricciardelli Company, \$940.

Iron Work—P. J. Dinn, \$200; L. Antonelli, \$212.

From the above results acceptance of P. J. Dinn's bid of \$200 for the iron work and the bid of J. M. McCusker will effect a saving to the city of \$1,170.

In accordance with above I respectfully ask permission to award a contract to M. Solimando Company, 51 Ceylon street, Dorchester, rejecting the sub-bids submitted by them for iron work and heating, and substituting J. M. McCusker, 17 Chestnut avenue, Jamaica Plain, as heating contractor, and P. J. Dinn & Co., 278 Dover street, Boston, as iron work contractor.

This will effect a saving of \$1,170, and change the amount of M. Solimando Company's contract, including the separate proposal for the floor, from \$14,030 to \$12,860.

Considering all the above facts I feel that the interests of the sub-bidders are protected, the general contractor is not affected at all and the city is protected against exploitation.

Very truly yours,

JAMES E. SULLIVAN,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT.

Upon September 8 the Temporary Mayor approved a contract with John F. Shea Company, Inc., for resurfacing various bridges at an estimated cost of \$22,514. The work is to be commenced on a date to be specified on a written order from the commissioner and shall be fully completed within two months from that date. The following bids were received September 4:

John F. Shea Company, Inc., \$22,514; Marinucci Brothers & Co., \$23,460; Martin J. Kelly Company, Inc., \$24,910.

Upon September 8 the Temporary Mayor approved a contract with James A. Susi for sheet asphalt pavement in Argyle street, Walnut street and Wessex street, Ward 16, at an estimated cost of \$22,718. The work to be done under this contract is to be completed December 31, 1947. The following bids were received September 3:

James A. Susi, \$22,718; Martin J. Kelly Company, Inc., \$23,433.50; A. Singarella & Son, \$23,611.50; S. J. Tomasello Corporation, \$24,425; Warren Brothers Roads Company, \$24,733.50; Dooley Brothers, Inc., \$26,708.50.

Upon September 8 the Temporary Mayor approved a contract as indicated in the following letter:

BOSTON, September 5, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—On July 29, 1947, bids were publicly opened and read on proposals for furnishing industrial and medical gases to the various city departments as follows:

Since the administering of medical gases is extremely technical, conferences were held at the Boston City Hospital in order to obtain proper recommendation of awards. In accordance with the findings, I would respectfully request that permission be granted me to award contracts to the lowest bidders as indicated below, with the following exceptions:

On Item 7 and Item 10 calling for 800 tanks of oxygen "D" size and 200 tanks of gas mixture "D" size, respectively, it is requested that permission be granted me to award Item 7 to the S. S. White Dental Manufacturing Company at a price of \$2.23 per tank and Item 10 to the same company at a price of \$3.37 per tank. These awards are in accordance with the recommendations received from the Boston City Hospital.

Total amount of awards is as follows: Linde Air Products Company, \$6,172.60; S. S. White Dental Manufacturing Company, \$3,424.96; New England Gas Products Company, \$996.60; Ohio Chemical Manufacturing Company, \$324.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Bids were as follows:

Item 1. 80 Tanks Acetylene, 275 Cubic Feet to Tank, Per 100 Cubic Feet.—New England Gas Products Company, 2.18 cents*; The Linde Air Products Company, \$2.30.

Item 2. 28 Tanks Acetylene, 32 Cubic Feet to Tank, Per Tank.—New England Gas Products Company, \$1.25*.

Item 3. For Refrigeration, 160 Tanks Carbonic, Pure Bone Dry, 99.5 Per Cent Pure, 50 Pounds to Tank, Per Pound.—New England Gas Products Company, 5.5 cents*.

Item 4. 12 Tanks Cyclopropane, 100 Gallons to Tank, Per Tank.—The Ohio Chemical Manufacturing Company, \$27*; New England Gas Products Company, \$27; Puritan Compressed Gas Corporation, \$27.

Item 6. 28 Tanks Oxygen, 55 Cubic Feet to Tank, Per Tank.—New England Gas Products Company, \$1.50*.

Item 7. 800 Tanks Oxygen, "D" Size, Per Tank.—The Ohio Chemical Manufacturing Company, \$2.25; New England Gas Products Company, \$2; The S. S. White Dental Manufacturing Company, \$2.23*.

Item 8. 8 Tanks Nitrous Oxide, "G" Size, Per Tank.—The Ohio Chemical Manufacturing Company, \$24.30; New England Gas Products Company, \$24.30; The S. S. White Dental Manufacturing Company, \$23.62*.

Item 9. 200 Tanks Nitrous Oxide, 250 Gallons to Tank, Per Tank.—The Ohio Chemical Manufacturing Company, \$4.05; New England Gas Products Company, \$3.94; The S. S. White Dental Manufacturing Company, \$3.89*.

Item 10. 200 Tanks Gas Mixture, "D" Size, Per Tank.—The Ohio Chemical Manufacturing Company, \$3.37; New England Gas Products Company, \$3; The S. S. White Dental Manufacturing Company, \$3.37*.

It is understood that 2 per cent cash discount for payment in ten days will be deducted from prices quoted.

* Contract awarded.

† Thirty-five per cent of the total can now be supplied with "Cascade" oxygen and on that volume and any additional part of the total so supplied we quote 60 cents per 100 cubic feet delivered, which price is quoted for "Cascade" oxygen or for cylinder oxygen in lieu of "Cascade" oxygen, pending installation of a "Cascade" oxygen unit, viz.: 35 per cent of 4,000 cylinders by 244 cubic feet per cylinder by 60 cents per 100 cubic feet equals \$2,049.60. On the remainder, which must be supplied in cylinders until piping is completed and some of which will be supplied in cylinders permanently, we quote a price of 65 cents per 100 cubic feet delivered, viz.: 65 per cent of 4,000 cylinders by 244 cubic feet per cylinder by 65 cents per 100 cubic feet equals \$4,123.60.

Upon September 9 the Temporary Mayor approved a contract with the U. S. Pipe and Foundry Company for furnishing cast-iron water pipe to the Water Division of the Public Works Department. Total amount of contract was \$85,700.

Bids were as follows:

5,000 Feet 4-Inch Pipe, Per Foot.—U. S. Pipe and Foundry Company, \$1.15*; Warren Pipe Company of Massachusetts, Inc., \$1.05.

5,000 Feet 12-Inch Pipe, Per Foot.—U. S. Pipe and Foundry Company, \$4.32*; Warren Pipe Company of Massachusetts, Inc., \$3.98.

Cash Discount, 10 Days.—U. S. Pipe and Foundry Company, net; Warren Pipe Company of Massachusetts, Inc., net.

Remarks.—Prices quoted are firm not subject to any freight, escalator or price adjustments; prices quoted are those in effect this date, August 14, 1947, any increase will be for city account and based on Warren's prices in effect at time of shipment.

Delivery.—U. S. Pipe and Foundry Company, shipment to start in nine months and completed in twelve months after receipt of order, subject to delays beyond our control; Warren Pipe Company of Massachusetts, Inc., delivery of 4-inch pipe to start March 15, 1948, completed two months thereafter; delivery of 6-inch and 12-inch pipe to start February 15, 1948, completed six weeks thereafter; delivery of 8-inch pipe to start March 1, 1948, completed two months thereafter.

* Contract awarded.

TRANSIT DEPARTMENT.

Upon September 17 the Temporary Mayor approved a contract with Tractors', Inc., for cranes, Rapid Transit facilities, East Boston district. Bids, opened September 12, were as follows:

Browning Crane and Shovel Company, Browning T 15, truck, gasoline, 35-foot boom, price per crane, \$20,059, delivery, October, 1947.

Builders' Equipment and Supplies Company, Wayne, truck, gasoline, 35-foot boom, price per crane, \$14,578, delivery, 15 to 30 days, 1 to 3 machines.

Tractors', Inc., Lorain, T.L. 20, crawler, Waukesha 6 cylinder BZ, 35-foot boom, price per crane, \$11,710, delivery, 30 to 60 days.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Temporary Mayor has approved contracts with firms, commercial houses, contractors, etc., for furnishing supplies,

labor, etc. Communications from the heads of the departments interested were as follows:

HEALTH DEPARTMENT.

BOSTON, September 18, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR,—On October 1, 1947, the contract between the City of Boston and the Animal Rescue League for the quarantining and releasing of animals known to have bitten some person, or animal, will expire. This contract, renewed annually, is in effect since 1941.

The present contract rate is \$5,200 a year, payable at certain specified times, to be set forth in a contract, duly executed.

The Animal Rescue League is the only organization in Boston equipped to perform these services and it is my opinion, therefore, that there is no necessity for advertising.

Your approval is respectfully requested, therefore, to make a contract with the Animal Rescue League, for one year from October 1, 1947, at \$5,200 a year, and to authorize me to dispense with advertising.

Yours respectfully,

JOHN H. CAULEY, M. D.,
Health Commissioner.

SUPPLY DEPARTMENT.

BOSTON, September 5, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—This office is in receipt of a requisition from the Sumner Traffic Tunnel, Public Works Department, calling for two Taller-Cooper toll register treadles, 9 feet long.

It is respectfully requested that permission be granted me to award an order to the Taller-Cooper Company, 75 Front street, Brooklyn, New York, without public advertisement, as the above named company is the only manufacturer of these treadles. No advantage, in my opinion, would be gained from a public advertisement for bids.

Total amount of award is \$1,390.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, September 5, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—This office is in receipt of a requisition from the Water Division of the Public Works Department calling for various sizes of Smith sleeves.

The A. P. Smith Manufacturing Company, East Orange, New Jersey, is the only manufacturer of this patented article, and I would respectfully request that permission be granted me to award a contract to the above-named company, without public advertisement, at the prices shown below:

Fourteen only 6-inch by 4-inch Smith sleeves, \$13.10 each; fourteen only 10-inch by 4-inch Smith sleeves, \$31.20 each; eight only 10-inch by 6-inch Smith sleeves, \$34.15 each; eight only 10-inch by 8-inch Smith sleeves, \$39.20 each; ten only 12-inch by 4-inch Smith sleeves, \$34.85 each; fourteen only 16-inch by 8-inch Smith sleeves, \$60.10 each.

Total amount of contract is \$2,466.90 less one half of 1 per cent for payment within ten days. Since the A. P. Smith Manufacturing Company are the only

manufacturers of these items no advantage would accrue from a public advertisement for bids.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, September 16, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR.—On May 27, 1947, bids were publicly opened and read in this office for various automobiles and trucks for the city departments.

Item 11 of this proposal called for the purchase of two 5-ton dump trucks, as per specifications, less trade-ins of three old Mack trucks and one Ford. General Motors Corporation is the lowest bidder on this item. However, the Park Department has expressed a desire for a late model White truck in order that they may test the performance of same with other models of trucks and in view of this I would respectfully request that permission be granted me to make the following awards on this item:

To the White Motor Company—one new 5-ton dump truck at a price of \$6,885.38, less a trade-in of one 1936 Mack 5-ton truck, Park Department No. 17, \$350; less trade-in No. 72, \$100; total of \$450; net amount of contract, \$6,435.38.

To the General Motors Corporation—one 5-ton dump truck at a price of \$6,202.69; less a trade-in of one Mack 1936 1½-ton truck, Park Department No. 16, \$280; less turn-in of one 1936 Ford 1½-ton dump truck, \$20; total of \$300; making a net total of \$5,902.69.

I would respectfully request that this award be granted without further public advertising.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, September 16, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR.—Permission is respectfully requested to award an order, without publicly advertising for bids, to the J. L. Gleason & Co., 207 Bent street, Cambridge, Mass., for furnishing to the Fire Department the following:

Eighteen Gleason special hand operated take-up reels designed to fit the various size compartments of the three lighting trucks, as follows: Six reels 11½-inches height, 28 3-16 inches by 12¼ inches; six reels 15-inch height, 16 inches by 12¼ inches; six reels 15-inch height, 18 inches by 12¼ inches, at a total price of \$1,602 net.

These reels are an integral part of the equipment for the new lighting plant trucks which the Fire Department is about to put in operation, and as the J. L. Gleason & Co. is the only listed manufacturer of reels in Boston and having a reputation for manufacturing reels of high quality, in my opinion, no advantage would accrue from public advertisement. There is a further advantage to the city in that the J. L. Gleason & Co. is the only one who could meet specifications and make delivery within a period from four to five weeks from date of order.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, September 22, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR.—Under date of September 4, 1947, bids were publicly opened and read in this office for furnishing lumber to the various city departments. No bid was received on Item 3-E for 60 pieces of 3 by 5 by 29 feet to 35 feet long Oregon fir rift on wide face, approximately 3,840 board feet.

The Cowan Lumber Company can now furnish this material for \$1,248.

It is requested that I be granted authority to issue an order for this material without further advertising to the Cowan Lumber Company, Boston, Mass. As the amount involved is not over \$2,000 no formal contract will be necessary.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, September 29, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR.—Your approval is requested to award a contract, without public advertisement, to the Welsbach Street Lighting Company for furnishing the following to the Street Lighting Service of the Public Works Department:

2,000 No. 47 gas lamp globes (glass), \$1.95 each; 1,000 No. 30 gas lamp domes (glass), \$1.65 each.

This material is for the operation of street gas lights. As the Welsbach Street Lighting Company carry this material in stock and as it is unobtainable from any other source at the present time, it is respectfully requested that you approve the awarding of a contract to the above company.

The total amount of the contract will be \$5,550.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, September 30, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR.—On September 8, 1947, your Honor approved a request from this department for an amendment to the current contracts with the White Fuel Corporation and the Staples Coal Company, doing business as City Fuel Company, for furnishing bituminous coal to the various city departments, to allow an increase of \$1.25 per net ton in the price of both run of mine and nut and slack bituminous coal.

Through an error by the contractor, the Staples Coal Company, the item of bituminous stoker coal was one of the items designated as taking an advance of \$1.25 per net ton but they have notified this department, under date of September 24, that the proper amount of advance on this particular item should be \$1.50 per net ton.

This department has investigated and found that the price of \$1.50 per net ton advance on bituminous stoker coal is correct and for that reason I would request permission to increase the price of this item by 25 cents per net ton making the total advance \$1.50 per net ton.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

ADDITIONS TO CONTRACT.

FIRE DEPARTMENT.

Approval has been given for the following addition to the contract of Construction Units, Inc., for the erection of a new fire station for Engine 8, Ladder 24, at 392 Charter street, Boston. The contract is dated July 16, 1947.

Addition No. 1.

Furnish labor and materials for the construction of a penthouse on the above-mentioned building in which will be housed the chemical laboratory of the Fire Department, as follows:

Steel, labor, \$670; gyp-steel or concrete roof plank, material, \$350, labor, \$280; insulating, material, \$100, labor, \$75; facing tile and terra-cotta walls, material, \$1,064, labor, \$1,430; cement base, material, \$25, labor, \$120; carpenter work, material, \$945, labor, \$490; copper-covered door and frame, material, \$115, labor, \$35; steel sash and screens, material, \$1,048, labor, \$210; acoustic tile ceiling, material, \$480; labor, \$300; total material, \$4,127; total labor, \$3,610; insurance on labor 13 per cent, \$469.30; material, \$4,127—\$8,206.30; overhead 10 per cent, \$820.63—\$9,026.93; profit 10 per cent, \$902.69—\$9,929.62. Subs': Plumbing, \$1,500; heating, \$1,615; electrical work, \$1,200; asphalt tile floor, \$360; roofing and metal, \$1,734; steel and iron, \$2,699—\$9,108; profit, \$910.80—\$10,018.80. Total, \$19,948.42. Original contract, \$172,000; total contract with addition No. 1, \$191,948.42.

The penthouse will be located on the roof of the new fire station and is required to house the chemical laboratory operated by the Fire Department in which our chemist will keep all his laboratory equipment and materials and perform his required duties.

The laboratory was formerly located at 24 Purchase street, Boston, in a building owned by the City of Boston but the building has been sold and the chemist has had to remove his equipment out of said building.

After a thorough inspection of Fire Department buildings none could be found which could house the laboratory and inasmuch as the Fire Department is badly in need of a chemical laboratory it appears that a penthouse in the new fire station offers the best solution to the problem.

Although the foregoing is in addition to the work contemplated in the original contract it is incidental thereto.

CONSTRUCTION WORK.

The Temporary Mayor has approved the requests of the Public Works Department for the following construction work:

A surface drain of 12-inch pipe and one catch-basin in North avenue, between Keystone street and 130 feet northwesterly (to existing conduit), in the West Roxbury district, at an estimated cost of \$2,000.

Forty-two drop inlets, 300 feet of minor drains, five catch-basins, rebuild one manhole, dismantle five catch-basins, convert forty-two catch-basins to manholes, rebuild eight manholes, and four catch-basins in Columbus avenue, between Arlington street and Northampton street, in the City Proper district, at an estimated cost of \$14,099.

A surface drain of 10-inch pipe and five catch-basins in Keystone street, between North avenue and Upland street, in the West Roxbury district, at an estimated cost of \$9,000.

546 NEW INDUSTRIES ON NYC SYSTEM.

A record number of new industries located in a single year on the lines of the New York Central System, of which the Boston & Albany Railroad is a part, was established during 1946.

The 1946 record totals 546 new industries, and it is estimated that they will produce annually an approximate volume of 204,900 carloads of freight traffic, or the equivalent of that produced by a major city.

The location of these new businesses in the territory served by the New York Central demonstrates the continuing growth of that great manufacturing section of the United States, extending through the north-central and northeastern states.

Severally referred to the Committee on Constatables and Confirmations.

LEVERETT STREET, ONE WAY.

The following was received:

City of Boston,
Office of the Mayor, September 23, 1947.
To the City Council,
Gentlemen,—I transmit herewith communication from the Traffic Commissioner in answer to your order of July 7, 1947, concerning the making of Leverett street one way.
Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Traffic Commission, September 19, 1947.
Hon. John B. Hynes,
Mayor of Boston.
Dear Sir,—In reply to Council order requesting the Boston Traffic Commissioner to consider the advisability of making Leverett street one way, from Charles street to Green street, please be advised that this matter was submitted to a meeting of the Boston Traffic Commission on Wednesday, September 17, 1947, and it was unanimously voted to make Leverett street one way as requested.
Respectfully submitted,
LEO F. CURLEY, Commissioner.
Placed on file.

INSTALLATION OF TRAFFIC LIGHTS, WARD 13.

The following was received:

City of Boston,
Office of the Mayor, September 17, 1947.
To the City Council,
Gentlemen,—I transmit herewith communication from the Traffic Commissioner relative to your order of August 18, 1947, relative to the installation of traffic lights at Savin Hill and Dorchester avenues, and at Quincy street and Blue Hill avenue, Ward 13.
Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Traffic Commission, September 15, 1947.
Hon. John B. Hynes,
Mayor of Boston.
Dear Sir,—In reply to Council order of August 18, 1947, requesting the Boston Traffic Commission to proceed with the installation of traffic lights at Savin Hill avenue and Dorchester avenue, and at Quincy street and Blue Hill avenue, please be advised that it is the intention of this department to signalize both of these intersections within the next few months.
Respectfully submitted,
LEO F. CURLEY, Commissioner.
Placed on file.

USE OF FAIRVIEW CEMETERY BY WORLD WAR VETERANS.

The following was received:

City of Boston,
Office of the Mayor, September 24, 1947.
To the City Council,
Gentlemen,—I transmit herewith communication from the chairman of the Park Department relative to your order of September 3, 1947, concerning the setting aside of a portion of Fairview Cemetery, Hyde Park, for the use of veterans of World War I and World War II.
Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, September 23, 1947.
J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—I desire to acknowledge your memorandum of September 8, 1947, with inclosure, order from the City Council that the Park Commissioner be directed by his Honor the Mayor to set aside for the use of veterans of World Wars I and II, a portion of the Fairview Cemetery in Hyde Park.

I have given the matter careful consideration and decided it would not be a wise policy to establish more than one lot in over one cemetery for the veterans of World Wars I and II.

At the present time we have such a lot in Mount Hope Cemetery. It is large enough to take care of all the veterans of Boston who wish to be buried in a lot set aside and maintained by the City of Boston.

Another veterans' lot in another section of the city could easily result in other requests for the same consideration in all the sections of the city.

Very truly yours,
JOHN J. MURPHY, Chairman.

INCREASED PENSIONS.

The following was received:

City of Boston,
Office of the Mayor, September 22, 1947.
To the City Council,
Gentlemen,—I transmit herewith communication from the Boston Retirement Board relative to your order dated September 3, 1947, concerning the granting of an increase in pensions to compensate for the increased cost of living.
Respectfully yours,

J. B. HYNES,
Temporary Mayor.
City of Boston,
Retirement Board, September 22, 1947.
J. Joseph Connors,
Chief Clerk, Mayor's Office.
Dear Sir,—In reply to the order of the City Council requesting the Mayor to direct the Retirement Board to grant an increase in pension to retired employees, the Board is obliged to call attention to the fact that the amount of the individual pensions is determined by statute and the Board has no power to increase them.
Very truly yours,
W. J. DOYLE, Chairman.

INCREASED COMPENSATION, PUBLIC WORKS DEPARTMENT WATCHMEN.

The following was received:

City of Boston,
Office of the Mayor, September 24, 1947.
To the City Council,
Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of September 15, 1947, concerning an increase in compensation for the watchmen of the Department of Public Works, to compensate for the increased cost of living.
Respectfully yours,
J. B. HYNES,
Temporary Mayor.
City of Boston,
Public Works Department,
September 23, 1947.

Hon. John B. Hynes,
Temporary Mayor of Boston.
Dear Mr. Mayor,—In regard to the inclosed Council order of September 15, 1947, requesting the Commissioner of Public Works to provide an increase in compensation for the watchmen of that department to compensate for the increased cost of living, the position of watchman in this department is usually reserved for older men from whom we no longer expect too much in the way of heavy work.
Their employment is very light, and they are classified as laborers, and are paid the same as the laborers who are out on the street doing heavy work.
Mayor Curley last January provided an increase for all employees for the purpose of compensating them for the increased cost of living. We cannot increase this group without increasing the entire labor department.
Respectfully yours,
ROBERT P. CURLEY,
Commissioner of Public Works.
Placed on file.

HOLIDAY COMPENSATION, DIVISION 16 HOSTLERS.

The following was received:

City of Boston,
Office of the Mayor, September 23, 1947.
To the City Council,
Gentlemen,—I transmit herewith communication from the Police Commissioner with respect to your order of September 15, 1947, concerning holiday compensation for hostlers in Division 16.
Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Police Department, September 22, 1947.
Temporary Mayor John B. Hynes,
Boston, Mass.

Dear Mr. Mayor,—I return herewith order of the City Council dated September 15, 1947, as follows:

"Ordered, That the Police Commissioner be requested, through his Honor, the Mayor to devise some plan whereby the men employed as hostlers in Division 16 might be given time off or compensation for work on holidays."

Instructions have been given to the commanding officer of Division 16 to allow these hostlers time off for working on holidays.

Respectfully yours,
T. F. SULLIVAN,
Police Commissioner.

TRANSFER OF FIRE DEPARTMENT PROPERTY TO PUBLIC BUILDINGS DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, September 24, 1947.
To the City Council,
Gentlemen,—I am informed by the Fire Commissioner that he no longer has any use for the land and building at 201 Cabot street, formerly occupied by Engine Company 13.
He recommends that this building be transferred to the Superintendent of Public Buildings.
In view of the fact that the Superintendent of Public Buildings has many requests for buildings of this sort for quarters for veterans' posts, I believe the recommendation of the Fire Commissioner should be followed, and I, therefore, respectfully request adoption of the accompanying order by your Honorable Body.
Respectfully,

J. B. HYNES,
Temporary Mayor.
City of Boston,
Fire Department, September 22, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.
Dear Sir,—Subject to your Honor's approval I will turn over to the Department of Public Buildings the building and land at 201 Cabot street, corner of Whittier street, Roxbury, formerly occupied as a fire station by Engine Company 13, of this department.
The Fire Department has not used this building as a fire station for several years. It is now unnecessary as a fire station and a needless expense to the Fire Department.
It is my understanding that the Department of Public Buildings intends to lease the building to veterans' posts.
Respectfully yours,
RUSSELL S. CODMAN, JR.,
Fire Commissioner.

Whereas, The Fire Commissioner having determined that the land and building at 201 Cabot street, corner of Whittier street, Roxbury, formerly occupied as a fire station by Engine Company 13, are no longer required for Fire Department purposes;

Ordered, That said land and building are hereby transferred from the Fire Department to the Care, Custody and Control of the Public Buildings Department.

Referred to the Executive Committee.

SIDEWALKS ON I STREET, WARD 7.

The following was received:

City of Boston,
Office of the Mayor, September 26, 1947.
To the City Council,
Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of September 15, 1947, concerning the installing of granolithic sidewalks on I street, South Boston, from East Sixth street to Columbia road, Ward 7.
Respectfully yours,

J. B. HYNES,
Temporary Mayor.
City of Boston,
Public Works Department,
September 25, 1947.
Mr. J. Joseph Connors,
Chief Clerk, Mayor's Office.
Dear Sir,—I return herewith order in City Council requesting the Commissioner of Public Works to install granolithic sidewalks on I street, South Boston, from East Sixth street to Columbia road, Ward 7, and I regret to advise you that, at the present time, there are no funds available for this type of work.
Very truly yours,
ROBERT P. CURLEY,
Commissioner of Public Works.

NAMING OF INTERSECTIONS FOR DECEASED VETERANS.

The following was received:

City of Boston,
Office of the Mayor, September 25, 1947.
To the City Council.

Gentlemen,—The Committee appointed in 1946 to recommend the naming of certain intersections in the city in memory of deceased veterans, has forwarded me a recommendation, as herewith attached, that nine intersections in various parts of the city, be named for veterans who sacrificed their lives during the period of World War II in order that liberty and freedom might exist in the world.

I understand the committee has made its recommendations after considering various proposals, and has attempted, insofar as possible, to name intersections in honor of local heroes.

I submit herewith separate orders for the naming of each intersection as recommended, and I respectfully request approval of these orders by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Street Laying-Out Department,
September 22, 1947.

Hon. John B. Hynes,
Temporary Mayor of Boston.

Referred to Executive Committee.

CHANGING NAME OF PARK STREET SUBWAY STATION.

The following was received:

City of Boston,
Office of the Mayor, September 26, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the General Manager of the Metropolitan Transit Authority concerning your order of September 3, 1947, regarding the changing of the name of the Park Street Subway Station to Boston Common Station.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

Metropolitan Transit Authority,
Park Square Building,
September 25, 1947.

Mr. W. J. Malloy,
Assistant City Clerk.

Dear Sir,—After careful consideration of the request of the Boston City Council that the name of the Park Street Station be changed to "Boston Common," the public trustees of the Metropolitan Transit Authority decided to postpone making any change in the name.

The linking up of the Park Street and Boylston Street Stations, both of which serve the Common, by means of a platform so that these two stations would be one, is an improvement suggested for the future. The Legislature has directed the public trustees of the Authority to make a study of this improvement.

Should the improvement be authorized by the Legislature, a new name for the combined station would then be considered.

Very truly yours,

EDWARD DANA,
General Manager.

ADDITIONAL APPROPRIATION FOR CONTINGENT FUND.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1947.
To the City Council.

Gentlemen,—I am advised by the City Auditor that the original appropriation for the Contingent Fund is practically exhausted, and that at least \$50,000 will be required for ordinary charges against this fund during the balance of the year.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Special Appropriation, Reserve Fund, \$50,000, to the appropriation for Special Appropriation, Contingent Fund, \$50,000.
Referred to the Executive Committee.

ACCEPTANCE OF DEED OF CONVEYANCE OF CHARLESBANK LAND.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1947.
To the Honorable City Council.

Gentlemen,—Under the authority of chapter 371, Acts, 1929, the Commonwealth of Massachusetts, Metropolitan District Commission, extended and enlarged the Charlesbank Park and Playground by filling in the Charles River Basin adjacent to said park and playground and lying between Longfellow Bridge and the Charles River Dam.

The area of land added to the Charlesbank Park and Playground by this filling is approximately 322,475 square feet or approximately 7.40 acres.

The Metropolitan District Commission was authorized and directed to convey this area of filled land to the City of Boston to be used for park and playground purposes. In 1934 the Metropolitan District Commission presented to the City of Boston a deed of conveyance of said land. This deed of conveyance was not presented to the Mayor and Council for acceptance and I am informed that the original deed has been lost and cannot now be found. The Metropolitan District Commission has authorized and executed a confirmatory deed and delivered this confirmatory deed to the City of Boston.

In order for the City of Boston to be the possessor of the legal title to this area of land it is necessary that the City Council give approval to the accompanying order which in effect accepts the deed of conveyance, places the property in the care, custody and control of the Park Department and directs that the deed be recorded in the Registry of Deeds.

I request your consideration and passage of the accompanying order.

Respectfully,
J. B. HYNES,
Temporary Mayor.

Whereas, Pursuant to the provisions of chapter 371, Acts, 1929, the Metropolitan District Commission did widen Charlesbank Park and Playground by filling in the Charles River Basin between Longfellow Bridge and the Charles River Dam; and

Whereas, It is provided in section 6, chapter 371, Acts, 1929, as follows: "Section 6. The commission is hereby authorized and directed to convey in behalf of the commonwealth to the city of Boston so much of the land to be made by filling in the basin as will be bounded on the southeast by the Charlesbank park and playground to be used for park and playground purposes"; and

Whereas, The Metropolitan District Commission in accordance with the terms of said section 6, chapter 371, Acts, 1929, in 1934 delivered to the City of Boston a deed of said lands; and

Whereas, The said deed delivered to the City of Boston by the Metropolitan District Commission in 1934 was not presented to the Mayor and Council for acceptance and as said deed has been lost or destroyed and cannot now be found; and

Whereas, The Metropolitan District Commission has executed and delivered a confirmatory deed of said lands to the City of Boston; now, therefore, it is hereby

Ordered, That the deed of the Commonwealth of Massachusetts, Metropolitan District Commission, dated September 18, 1947, conveyed to the City of Boston approximately 322,475 square feet of land situated at the Charlesbank Park and Playground under the authority of chapter 371, section 6, Acts, 1929, be, and the same hereby is, accepted; and it is hereby further

Ordered, That the said parcel of land be, and the same hereby is, placed in the care, custody and control of the Park Department of the City of Boston to be used for park and playground purposes; and it is hereby further

Ordered, That the Corporation Counsel of the City of Boston be, and he hereby is, directed to file for recording said deed in the Registry of Deeds for the County of Suffolk.

Referred to the Executive Committee.

TRANSFERS OF APPROPRIATIONS.

The following was received:

City of Boston,
Office of the Mayor, September 29, 1947.
To the City Council.

Gentlemen,—The inclosed request for transfer of appropriations, together with the accompanying orders, are forwarded for consideration and adoption by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Special Appropriation, Park and Playground Improvements, etc., \$253.64, to the appropriation for Park Department, B-28, Expert, \$253.64.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Special Appropriation, Reserve Fund, \$3,775, to the appropriation for City Council, B-42, Miscellaneous Services, \$3,775.

REPAVING OF CERTAIN WARD 4 STREETS.

The following was received:

City of Boston,
Office of the Mayor, September 26, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of September 15, 1947, concerning the repaving with smooth type asphalt pavement the following streets in Ward 4:

Westland avenue, St. Stephen street, Falmouth street, West Newton street, Belvidere street.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Public Works Department.
September 25, 1947.

Mr. J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—I return herewith order in City Council requesting the Commissioner of Public Works to repave the following-named streets in Ward 4:

Westland avenue, St. Stephen street, Falmouth street, West Newton street, Belvidere street.

Please be advised that this work will be given consideration by the Highway Division of the Public Works Department.

Very truly yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

REPORT OF SPECIAL COMMISSION ON DIVIDING SUFFOLK COUNTY INTO DISTRICTS.

The following was received:

Boston, September 24, 1947.

To the City Clerk.

Dear Sir,—The Special Commission created under the authority of chapter 182 of the Acts of 1947, charged with the duty of dividing Suffolk County into districts and assigning forty-six (46) representatives thereto, herewith presents its report.

The bi-partisan Special Commission of five members was appointed by His Excellency, Robert F. Bradford. It consisted of Arno I. Drew of West Roxbury, Thomas W. Hoag of Dorchester, Elizabeth W. Pigeon of East Boston, Mary A. Tomasello of Dorchester, and J. Leo Meehan of Revere.

The members of the Special Commission qualified on June 5, 1947, organized by electing Arno I. Drew chairman, and chose former representative George P. Anderson of Boston as secretary. The Commission held a public hearing on September 17, 1947, in the State House, Boston, and later in executive session by a unanimous vote agreed upon its report, which is herewith presented. The figures on the number of legal voters in a given district used in this report are extracted from the State Census of 1945.

This report is also communicated to the Board of Election Commissioners of Boston, and to the City Clerks of Boston, Chelsea, and Revere, and to the Town Clerk of Winthrop.

The Commission creates twenty-five (25) districts and assigns a total of forty-six (46) representatives to the respective districts as follows:

First Suffolk District, Ward 1, Boston, having 22,712 legal voters, two representatives.

Second Suffolk District, Ward 2, Boston, having 12,783 legal voters, one representative.

Third Suffolk District, Ward 3, Boston, having 19,547 legal voters, two representatives.

Fourth Suffolk District, Ward 4, Boston, having 16,880 legal voters, two representatives.

Fifth Suffolk District, Ward 5, Boston, having 19,010 legal voters, two representatives.

Sixth Suffolk District, Ward 6, Boston, having 12,285 legal voters, one representative.

Seventh Suffolk District, Ward 7, Boston, having 17,101 legal voters, two representatives.

Eighth Suffolk District, Ward 8, Boston, having 11,480 legal voters, one representative.

Ninth Suffolk District, Ward 9, Boston, having 13,299 legal voters, one representative.

Tenth Suffolk District, Wards 10 and 11, Boston, having a total of 30,074 legal voters, three representatives.

Eleventh Suffolk District, Ward 12, Boston, having 19,679 legal voters, two representatives.

Twelfth Suffolk District, Ward 13, Boston, having 14,412 legal voters, one representative.

Thirteenth Suffolk District, Ward 14, Boston, having 27,960 legal voters, three representatives.

Fourteenth Suffolk District, Ward 15, Boston, having 14,352 legal voters, one representative.

Fifteenth Suffolk District, Ward 16, Boston, having 18,808 legal voters, two representatives.

Sixteenth Suffolk District, Ward 17, Boston, having 19,344 legal voters, two representatives.

Seventeenth Suffolk District, Ward 18, Boston, having 23,745 legal voters, three representatives.

Eighteenth Suffolk District, Ward 19, Boston, having 17,876 legal voters, two representatives.

Nineteenth Suffolk District, Ward 20, Boston, having 23,116 legal voters, three representatives.

Twentieth Suffolk District, Ward 21, Boston, having 24,105 legal voters, three representatives.

Twenty-first Suffolk District, Ward 22, Boston, having 17,884 legal voters, two representatives.

Twenty-second Suffolk District, Wards 1 and 3, Chelsea, having a total of 8,362 legal voters, one representative.

Twenty-third Suffolk District, Wards 2, 4, and 5, Chelsea, having a total of 12,505 legal voters, one representative.

Twenty-fourth Suffolk District, Wards 1, 2, 3, 4, and 5, Revere, having a total of 17,673 legal voters, two representatives.

Twenty-fifth Suffolk District, Town of Winthrop, having 10,076 legal voters, one representative.

Respectfully submitted,

ARNO I. DREW, Chairman,
THOMAS W. HOAG,
MARY A. TOMASELLO,
J. LEO MEEHAN,
ELIZABETH W. PIGEON.

REPORT OF FINANCE COMMISSION ON RESULT OF STRAYER SCHOOL SURVEY.

The following was received:

City of Boston,

Finance Commission, September 23, 1947.

To the Honorable the Mayor and City Council.

Gentlemen,—When the Strayer Survey Report was released in October of 1944, its many recommendations in the several areas of the school system immediately set off a series of defenses and recriminations; in some quarters there were expressions of approval. Because of the controversial attitude of the school authorities at that time and to some extent during the intervening months since then, there has been a doubt in the public mind as to whether any action has been taken or any manifestation of approval by the school authorities of the recommendations of any of the reports. It has even been assumed in many quarters that the recommendations have been completely ignored. The purpose of this communication is to report what action has been taken, what the attitude of the school authorities now appears to be, and what reasons are advanced in those cases where no action has been taken and is not intended to be taken.

Before proceeding to a consideration of the specific recommendations found in this 1,100-page report, a few general observations are in order. One general effect, and one of the most satisfactory results of the Survey Report, has been an awakening of interest in the subject of school administration in Boston; in addition, those interested in the continuous evaluation of such administration are now provided with a complete set of guideposts. Besides the stimulation of wide public interest, teacher interest has been formulated and brought to bear on many phases of the educational problem. One strong evidence of this is furnished in the Report of the Education Committee of the Boston Teachers Alliance, the largest organization among the teachers, containing recommendations for the improvement of classroom instruction. In many instances the Survey Report gave impetus to

corrective action, which, although previously recognized as desirable, had awaited such an occasion to overcome the inertia holding back such a step.

Three broad divisions of the Survey Report may be recognized: administration; the physical aspects of the system, such as plant; the educational area. In the first two there is little dispute in most quarters as to the desirability of the major recommendations (for instance, functional assignment of Assistant Superintendents, operation and maintenance of buildings, personnel administration, cafeterias, salaries, and school financing, etc.). In the area of educational objectives, however, and in that of teaching methods, there is some diversity of opinion as to the merits of many recommendations.

It should be remembered that the Survey was not undertaken as an economy program per se. If the possibility of savings appeared in the course of surveying the vast educational program of the city, so much the better; the primary objective, however, was to determine whether the organization, administration, and teaching in the system were most conducive to the realization of the end product of the system, for which more than \$18,000,000 is annually expended, viz., the best education of the children of Boston.

It should also be remembered that many of the recommendations entailed such a drastic revision of the status quo that only an unwarranted optimism could expect their immediate adoption. On the other hand, there were many recommendations that could be expected to be immediately adopted; in fact, many of these have been adopted, as will be noted later in this communication.

It should also be noted that many features of the Boston school system came in for high praise in the Survey. However, we are concerned here only with those gaps and imperfections which are indicated in the Survey Report as calling for correction.

One encouraging observation made on interviewing various heads of departments was the thorough assimilation of that section of the report applicable to their respective departments, and the general disposition of most department heads to implement those recommendations which were possible within the present operating framework and fiscal limitations.

This report follows the same sequence of topics found in the Survey Report. Obviously, it is impossible within the compass of this comparatively brief review to cover all the observations and recommendations found in the original 1,100-page volume. An effort has been made, however, to cover all important recommendations and many of the minor suggestions. The method of presentation here followed is the statement of the recommendation, followed by a statement of what has been done or is in the process of being done, and what is the reason advanced in those cases where no action has been taken.

Organization and Administration at the Top Level.

Recommended: That the method of nominating and selecting the members of the School Committee be changed.

Result: The Finance Commission introduced legislation to this end, but its efforts were defeated by the organized opposition of the present school authorities.

Recommended: That the Board of Schoolhouse Commissioners be dissolved and its powers transferred to the School Committee.

Result: This recommendation was never carried out; in fact, legislation to authorize it was not considered. It represents such a drastic change that considerable initiative would first have to be generated. Although it is a much disputed point, many Survey Report recommendations are based on the premise of such reorganization.

Recommended: That the Superintendent of Schools be made the chief executive officer of the School Committee and of the school system, with the power to nominate his immediate assistants and, through appropriate agencies, all other employees of the School Committee.

Result: This recommendation was enacted into law (Chapter 497, Acts of 1946) at the instance of the Finance Commission, and represents the greatest single organizational achievement. Its importance lies in the fact that, with the Superintendent in possession of such extensive authority, many of the other recommendations of the Survey Report may become realities through the use of this newly created authority.

Recommended: That all administrative boards should be dissolved.

Result: It has not been done. This was recommended originally in a 1931 Survey under the Finance Commission auspices and repeated in the Strayer Report.

Recommended: That the Board of Superintendents be continued as an advisory and quasi-judicial board.

Result: By chapter 497, Acts of 1946, this board has been stripped of its executive or administrative authority. When directed by the Superintendent, it may become a trial board for employees of the School Committee.

Recommended: That the Assistant Superintendents be relieved of their geographic responsibilities and each assigned to perform one of the major administrative functions necessary to the operation of the schools. These assignments would be: elementary schools; secondary schools; adult education and special services; curriculum

development and instructional improvement service; personnel service; business and housing service.

Result: No action has been taken on this matter as yet. Nevertheless, it is one of the steps most strongly urged to be taken by many of the officials within the school system. It is viewed by many as the key to the most effective functioning of the educational program. The explanation given of the failure of the school authorities to adopt this idea is that the step supposes special qualifications in personnel which are not readily obtainable.

Recommended: That the Board of Examiners be given statutory status so as to permit independence of action. With this as a starting point, it was intended that a personnel department would be developed to carry out all the recognized functions of such a department, such as the selection, promotion, and dismissal of personnel, the development of suitable classification and pay plans, and all other functions relating to personnel. Such a department was intended to cover both instructional and noninstructional personnel.

Result: Legislation to effectuate such a development has not yet been introduced and is a primary crying need. This step is needed to straighten out the present scrambled personnel situation and remove the School Committee from control over personnel administration below the policy-making level.

Recommended: That more space be secured for administrative offices.

Result: No action was taken on this recommendation.

The Administration of Business Affairs.

The situation in the Business Manager's office, so far as carrying out the survey recommendations is concerned, is complicated by several facts:

1. The present Business Manager has been in office only a few months.
2. The previous wide latitude of the Business Manager has been narrowed by the legislation which accords full executive power to the Superintendent.
3. Some of the recommendations of the Survey Report are predicated on the absorption of the School Buildings Department by the School Committee, a development previously indicated as difficult of attainment.

However, within the framework of these limitations the present Business Manager has demonstrated a firm disposition to follow the recommendations of the Survey Report.

Recommended: That mechanized methods in accounting, budgeting, auditing, and reporting be adopted where indicated; that many changes in inventory control and other accounting procedures are needed. All these needed changes are fully described in the Survey Report.

Result: The present Business Manager has taken the initiative in this matter by requesting and securing the services of a widely experienced commercial department head in the school system to work with him in putting into operation the changes in accounting procedure outlined in the Survey Report.

Recommended: That more operating space in the Business Manager's office be provided.

Result: A plan for utilizing another floor of the building has been worked out, after a space-study by the engineer of the School Committee.

Recommended: That a typewriter repair shop be set up.

Result: A typewriter mechanic was engaged and the unit broadened to include a salvage plan.

Recommended: The reduction of a squad of six men to repair books.

Result: One has now retired, and his place is left vacant; book repair work is being contracted for; and the Business Manager states that, as opportunity permits, the squad will be further reduced.

Recommended: That, in the matter of the annual audit of the accounts of the School Committee, the determination of a certified public accountant be thrown open to bids, and that such outside auditor shall emphasize whatever financial practices he finds unsound.

Result: The Business Manager has done this.

Recommended: That the budget be required to be submitted at the beginning of the year, and that the format of the budget be changed and the general organization of that document.

Result: As to the time of submission of the budget, the need was partially met by the enactment of legislation proposed by the Finance Commission. As to the other budgetary recommendations, the Business Manager states that he intends to follow them, but adds that he assumed office while the current budget was in process of adoption and he had no opportunity to undertake the changes recommended.

Recommended: That action be taken to eliminate stock surpluses.

Result: The Business Manager has appointed a field agent to inspect storerooms and work toward preventing such surpluses.

Finance Commission Note: The Survey Report made the following statement: "The Business Manager and his purchasing section are to be commended for the good results obtained in purchasing good materials at very favorable prices." However, several recommendations were made in the areas of timing of purchases, quantity and advance buying, and printing costs. The Business Manager answers that he follows market conditions closely in buying and tries to consolidate

purchases as much as possible. The development of this latter step is dependent also on an improved system of inventory control and analysis of use, which is awaiting installation; storage facilities constitute another limiting factor.

With respect to printing costs, there appears to be no alternative to use of the City Printing Department. Nevertheless, the Survey Report contends that city printing charges are too high.

Building Operation and Maintenance.

1. Operation.

Recommended: That the operation and maintenance of school buildings be placed under an "Assistant Superintendent in charge of business affairs and buildings," as part of the proposal of functional assignment of Assistant Superintendents.

Result: This has not been done; it assumes absorption of the School Buildings Department by the School Committee to be completely carried out.

Recommended: That a classification plan be adopted for schoolhouse custodians; that such a plan would group them into possibly two groups; those who supervise the work of four or fewer than four subordinates, and those who supervise five or more subordinates.

Result: Instead of following such a plan, a committee of custodians obtained approval of the School Committee of a salary plan containing 28 different schedules, i.e., each school was placed in one of 28 different weekly salary rates, running from \$46 to \$100 per week, and graduated by the square foot area of the school.

Recommended: That more mechanical appliances be used in custodial work.

Result: Failure to appropriate for this purpose has prevented its development.

Recommended: That an intensive study to learn the custodial manpower requirements of the system, standard of housekeeping, and duties be made.

Result: This recommendation has not been followed.

Recommended: That custodians perform the very minor maintenance jobs which spring up in the operation of any building, and which are performed by almost all custodians in other types of buildings, thus effecting a saving of probably \$50,000 annually.

Result: This has not been done.

Recommended: That more skillful custodial workers be selected, and that a training program be undertaken.

Result: While the selection of the workers is primarily the function of the State Civil Service Division, special training after selection is the responsibility of the School Committee. Nevertheless, no training program has been undertaken.

Finance Commission Note: It would appear that, in order to correct conditions in the custodial area, this group should be under the final jurisdiction of the Superintendent (instead of under the School Committee as they are at present); the personnel department proposed in the Survey Report would handle all the personnel questions involved.

2. Maintenance.

Recommended: That a corps of mechanics be employed to cut down the volume of work given to contractors.

Result: The recommendation has not been adopted. Representatives of the School Buildings Department insist that, based on past experience, it would cost more to maintain a group of mechanics; that the scattered geography of the city and the variability of the work dictate the feasibility of engaging a local repairman, rather than sending a staffman from headquarters.

Recommended: That safe means of exit from all buildings be undertaken, as well as the removal of potential fire hazards.

Result: A program in these directions has been vigorously pursued.

Recommended: That sanitary facilities should be improved (such as the installation of hand-washing facilities in particular schools now lacking them).

Result: The School Buildings Department answers that this has not been done in those schools because of the experience that such fixtures are quickly destroyed in frequent outbursts of vandalism. This condition appears to vary from school to school and is a matter of local discipline.

Planning, Construction and Use of School Buildings.

Recommended: The Survey Report pointed out that "the outstanding need with regard to Boston's school building procedures is one of comprehensive and continuing long-range planning." It was further recommended that a permanent technical staff be set up to gather, organize, and interpret information on school housing needs, present and future. Such a staff would comprehensively replan and redistrict the present school plant and plan for its future.

Result: There is no evidence that this has been done. Neither is there any evidence that there has been any research in educational planning for future schools. Such research as has been done has been on special projects, rather than on any comprehensive scale.

Finance Commission Note: Before comprehensive surveying gets under way certain clarifications of policy should be made. The Survey

Report pointed out some of these needed clarifications: number of pupils per school, size of district, whether coeducation should be observed city-wide. To these should be added the determination of whether the 6-3-3 system (intermediate or junior high) is to be retained in its present incomplete form, fully carried out, or eventually dropped. The observation made in the Survey Report that thousands of pupils of intermediate grade are in high schools and elementary schools still holds. This matter is brought up because it is a key point in future school planning and efficient rehousing, and because it is now apparently in a state of flux.

Recommended: That 35 elementary schools be closed immediately.

Result: Since that time 17 of these 35 schools have been closed, and 4 more are under study.

Finance Commission Note: The Survey Report analyzed each district in the city and made both short-term and long-term recommendations, whereby the per cent of utilization of elementary school buildings would be substantially increased, the average age of the buildings reduced, the average school building score increased, the average capacity increased, and substantial savings in expenditures for operation and maintenance realized. To what extent the school closings and other interim developments have progressed in these directions is not known, and would require further study.

Food Service in the Schools.

Recommended: That the present policy of paying workers for 52 weeks, although they only work 39, be discontinued; that job classifications and wage schedules be set up.

Result: These recommendations have not been adopted.

Recommended: That lunchroom workers be required to demonstrate their ability before being hired.

Result: The only testing of this class of employees is by the Civil Service Commission in establishing an eligible list. Representatives of the School Committee claim that they often obtain employees from this list who are unsatisfactory, but that there is nothing they can do about it.

Recommended: That in all schools where a sufficient equipment and labor supply is available the type A lunch be served.

Result: This is being followed.

Finance Commission Note: Recommendations relating to menu and cost, storage of low-cost milk, teaching of lunchroom values, integration of lunch program and health program, improvement of equipment, purchasing methods, record keeping, centralization of purchasing, are also being followed. In brief, virtually all the recommendations are being followed with these exceptions: those relating to personnel, and that relating to abolition of concessionaires (five schools still have concessionaires).

For the current year some activities have been curtailed for lack of funds. These include five child care centers, eleven hot lunch units, and four special class centers (in spite of the finding in the Survey Report that the most persistent health problem found on physical examination was malnutrition).

Special Education.

The Survey Report emphasizes the importance of special classes when it states that "no phase in the field of education is probably of more importance or greater concern than that of providing for the individual differences among children and youth of the schools."

Recommended: That the present method of selection for admission to special classes should be changed and different criteria set up. "The present method of selection is causing rather severe criticism among some masters and teachers who feel that the special classes are being used to a large extent as a dumping ground for children who are remedial cases, underprivileged, or who present any problem."

Result: All psychometric testing is now under the Department of Investigation and Measurement. Previously, a child could be assigned pending examination; now the examination must come first.

Recommended: That recreational experience of an educational and social nature, sports, teams, and individual games be developed.

Result: The only progress made in this direction is that permission has been obtained to use the facilities of the Robert Gould Shaw House playground and gymnasium.

Recommended: That three of the four buildings used, which house 500 defective children, should be condemned as special class centers.

Result: Of the three recommended for closing, two were actually closed; the third was found to be serviceable after a certain amount of renovation.

Recommended: That the Director of Special Classes be responsible to only one Assistant Superintendent, instead of to three as at present.

Result: Nothing has been done to change the situation.

This condition stems from the repeatedly mentioned non-functional assignment of Assistant Superintendents which still obtains.

Recommended: That teachers be transferred to the intermediate schools from special class center to care for the special class groups being formed there.

Result: This is being followed.

Recommended: That there be courses of study prepared to meet the needs of these students; that more emphasis be placed on vocational training and on domestic tasks for girls; that better teaching equipment be added.

Result: Men have now been assigned to introduce and supervise handcraft and home mechanics, as well as gardening; courses in cooking and household arts have been provided; new visual aids for instruction have been added, including sound movies, daylight lanterns, maps, and globes.

Recommended: That provision for remedial reading be improved.

Result: All new types of reading materials have been selected after conference with publishers, and a list supplied to the teachers. These materials emphasize low vocabulary and high interest levels.

Recommended: Cooperation with outside interests, such as garages, filling stations, and shops to supply work for boys.

Result: The Director maintains that the department is not only active in finding jobs for graduates but follows them into the job for a period of five years, and uses the results obtained as a basis for curriculum direction.

Physically Handicapped Children.

The Survey Report adjudged the Horace Mann School for the Deaf, where the acoustically handicapped are cared for, as perfect.

On the other hand, in the programs for the hard-of-hearing at several gradations, for conservation of eyesight, and for speech improvement and remedial reading, several changes were recommended. At the time of preparation of this report it was impossible to determine to what extent such recommendations had been carried out.

Facilities for Solving Disciplinary Problems.

The Survey Report criticized the lack of adequate provisions for service to pupils who present individual problems of maladjustment in which the emphasis is on some aspect of personality, behavior, or school achievement.

Recommended: That a central staff agency be set up to handle such cases.

Result: In October, 1945, the Division of Juvenile Adjustment, headed by a trained professional in the field, was set up in the Bureau of Child Accounting, with a staff of seven, including five teachers of juvenile adjustment, one clinical psychologist, one attendance supervisor.

Recommended: That a definite formulation of policy concerning commitment to the Godwin School, which is the disciplinary school, be established; that every boy suggested for placement in the school be referred to this new bureau for complete case study; that every attempt be made to help correct the child's difficulty through dealing with educational, physical, social, or personality handicaps discoverable through examination.

Result: That these recommendations have been followed is evidenced by the Superintendent's Circular No. 70, issued November 1, 1945, which reads as follows:

"To Principals of Schools and Districts:

The School Committee has established the Division of Juvenile Adjustment in the Bureau of Child Accounting. . . . In order that principals may have clearly in mind the types of problems that should be referred to the Division, they are asked to separate all cases into two categories: (1) problems of behavior, personality, or emotional maladjustment. These are henceforth to be referred to the head of the Division of Juvenile Adjustment.

(2) Problems which are purely educational and of a curricular nature, such as those involving a question of ability or of a discrepancy between ability and performance, etc. These are to be referred to the Department of Educational Investigation and Measurement."

Finance Commission Note: According to the report of the executive in charge of the Division of Juvenile Adjustment, during the school year 1946-47 this division gave service to 1,028 children—401 girls and 627 boys. The vast majority were referred by teachers, principals and headmasters, parents, clergymen, social agencies, et al. Of 282 cases referred by the attendance department, court appearance was requested in 106 cases; transferred to the disciplinary school in 42 cases; general study in 134 cases. After service by this division, only 27 went to court; 13 were referred to the disciplinary school. Moreover, such dispositions would probably not have been necessary had this division been established years ago, when these cases were in their early stages of difficulty development.

Further developments in juvenile adjustment program as recommended by the Survey have yet to be carried out, but these are relatively minor, and it is clear that very substantial progress has been made in the right direction.

As regards "Special Services" as a whole, the Survey Report observed as follows: "The outstanding deficiency which the Survey sees is a lack of coordination among the agencies which are selecting the candidates for any special service." That deficiency now appears to have been substantially removed.

Health and Physical Education, Recreation.

Recommended: The Survey Report deplored the separation of the Department of School Hygiene

and the Department of Physical Education, and proposed that a unified department embracing both present departments be organized to administer health education, physical education, and recreation.

Result: A new bureau charged with the teaching of health and safety was set up, and a director appointed—but set apart from the School Hygiene Department and Physical Education Department, so that, instead of the unitary organization recommended, the organization is spread farther apart.

Health Instruction.

Recommended: This function was criticized as in a deplorable stage, with many untrained health teachers and inadequate texts, although acknowledging that an interest in revision was evolving. It was recommended that teacher-training and course of study be simultaneously improved; that a bureau of health instruction be organized.

Result: The Survey Report appeared to have served the purpose of stimulating and giving direction to a new program. The following steps have been taken by the new director:

1. A poll of teacher opinion and experience in this field was taken and analyzed.
2. A list of practices and objectives was drawn up in April, 1945.
3. At this point in the evolution of the program, extensive control has been placed in the hands of the headmasters, and general control with the director.
4. Parents have been addressed through printed literature.
5. A "Guide for Health Instruction" in Grades 9 through 12 has been published.
6. A program of teacher-training has been started.

Finance Commission Note: Briefly, the program is still in an evolutionary and, in some phases, experimental stage, but the division appears to have established a direction and pattern. However, the recommended unitary organization of health education and physical education has not been realized.

Physical Education.

Recommended: That all new elementary schools be constructed with suitable gymnasias, but in all old buildings one or more classrooms be remodeled for physical education purposes.

Result: There have been no new buildings constructed; there has been no alteration for this purpose in the old buildings.

Recommended: That recess periods be kept intact and not used for academic purposes.

Result: It is contended that it is the regular practice to keep such periods intact.

Recommended: In fair weather, play yards be used for physical education periods.

Result: This is being done. Reference to this practice may be found in the foreword in the 1946 Revised Course Outline.

Recommended: That an extensive retraining program providing for the preparing of one or more teachers in each elementary school in this field be undertaken.

Result: No action taken because of expense involved in extending teaching staff.

Recommended: Increase in length of physical education period in the first six grades.

Result: Approaching recommended time according to course outline.

Recommended: Less emphasis on formal exercises; more on games, dances, etc.

Result: Course Outline indicates adoption of this principle.

Recommended: That all new intermediate schools have lockers and showers.

Result: There has been no new construction.

Recommended: That lockers and showers be installed in old buildings.

Result: No action taken. The director states that funds have not been available.

Recommended: Reducing formal exercises in intermediate schools.

Result: It is contended that this is being done.

Recommended: A daily period of physical education of not less than 45 minutes in intermediate schools.

Result: It is claimed that the gymnasias facilities are inadequate for the carrying out of this recommendation.

Recommended: That new program be prepared without waiting for better facilities.

Result: This has been followed; both intermediate and senior high schools will have a continuous, coordinated course which has been tried experimentally and tailored to fit the limited facilities of the various schools. This course is being printed and will be ready for the fall term.

Recommended: All future appointments to the physical education staff be made from a list of those who have completed the major in physical education.

Result: An examination was held and a list established in June to replace teacher-physical instructors with qualified physical instructors, all of whom have Masters' degrees in physical education.

Recommended: That uniforms be worn by physical education teachers.

Result: This is now prescribed.

Recommended: Transfer older teachers of physical education to more suitable positions.

Result: Two have been transferred to the teaching of health education.

The Survey Report reviewed the recommendations made in an Athletic Survey Committee Report of 1935 and found itself in agreement with many of the 1935 proposals. It found that only two of the twelve recommendations of that report had received favorable action. The Survey Report recommended favorable action on eight of these twelve recommendations. Of these eight recommendations of the Survey Report, four have received favorable action. These include: the appointment of an associate director for girls' activities; appointment of men in charge of boys' activities in the intermediate schools; the inauguration of a tennis tournament; the reintroduction of intramural sports.

The remaining four of the eight recommendations on which no action has been taken are: special qualifications for play teachers; provision for adequate facilities for physical education; abolition of military drill when proper athletic facilities are secured in intermediate schools; use of swimming pool at Roxbury Memorial High School.

The Survey Report states that "much that could be done must await an improvement in facilities." It appears that, within the limitations of facilities provided, the Survey Report recommendations in this field have, in the main, been followed.

However, the Department of Physical Education is helpless against the kind of fiscal policy which developed during the current year. The summer playground program was suspended through a budget cut of over \$50,000. Subsequently, the Mayor permitted the Park Department to carry on such a playground program on park grounds through provision of a like amount of funds. Thus the organization set up to operate this program was compelled to suspend activity, while another organization had to be set up in the Park Department.

Guidance in the Schools.

The Department of Vocational Guidance is one of several divisions in which the director has been recently appointed. The present director, although on the staff for 25 years, has been director for only about eight months. The general objectives of this department may be said to be the counseling, placement, and follow-up of pupils through educational and vocational guidance. A comparison of Survey Report recommendations and action taken follows:

Recommended: That cumulative pupil personnel records adequate for the purpose of guidance be developed and put into use.

Result: Although this recommendation is echoed by many others in the system, including those who would have occasion to use such an amplified form, the director defends the present abbreviated form as ideal. The recommendation has not been adopted.

Recommended: That individual vocational and educational counseling be introduced into intermediate schools.

Result: This department has prepared a comprehensive plan on the subject which is now in the hands of the Superintendent.

Recommended: That the program be extended in the high, Latin, and vocational schools.

Result: This awaits an extension of staff.

Recommended: Provision of occupational and educational information, to influence not only individual choice but school offerings as well.

Result: The following publications have been released: In December, 1946, a multicolored schedule providing information on courses, subjects, and vocational implications for the seventh, eighth, and ninth grades was published; in 1945 "A Guide to the Choice of a Secondary School" was published, with information on boys' and girls' courses, where provided, subjects required, schools for which the courses prepare, and vocations to which the courses lead.

Recommended: Further information on job opportunities and occupational information.

Result: This department is now publishing a series of studies of occupations, each occupation treated separately in a pamphlet, for use by counselors, teachers, and students. As for job opportunities, the director states that he spends much time in the field, securing placement.

Recommended: That members of the Central Guidance Office should offer in-service training in techniques and procedures of educational counseling at the secondary school level.

Result: This refers to a program which had been allowed to lapse, but which the new director plans to reopen.

Recommended: That the testing program in the recommended Bureau of Group Tests of the Division of Instructional Research be developed to the point where tests taken for guidance will be available.

Result: Pending the establishment of such a division, the Vocational Guidance Department has a fine working relationship with the present Department of Educational Investigation and Measurement.

Recommended: That follow-up studies be made and evaluated to a greater extent in considering curriculum revisions and changes, and as a basis of choice of subjects; such follow-up studies be made of all youth who graduate or drop out, at intervals of one, three, and five years after pupils have left school.

Result: Studies have been made on the one-year and five-year post school level, and the results given to the Superintendent. To carry the project further would require an increased staff.

Finance Commission Note: While it is acknowledged that the guidance program in all schools is not uniformly of the highest order, it seems clear that progress is being made along most of the lines laid down by the Survey Report.

It will be noted that one of the by-products of the guidance program should be that of curriculum revision, but that development can hardly be realized most effectively without the reorganization which would result in a division of instructional research, a step which has yet to be taken.

Vocational Education.

Many of the recommendations in this field were in the direction of expansion of services. It was urged that, to facilitate freedom of choice among the various trade-training programs of the comprehensive high schools, transportation to a high school outside of the student's home district be furnished. It was also urged that the Brandeis Vocational School be fully developed into an opportunity school for all working youths and adults of Boston. Addition of recently developed features of the electrical trades, including refrigerator repairs, radio installations, radar, etc., in the curricula of the trade schools and training for the garment trades, the baker's trade, the barber's trade, the chef's trade, and the dyeing, cleaning, and laundry industries were also urged. The development of the Mechanic Arts High School into a post high school training school for junior industrial technicians was advocated, as well as the establishment of a regional school as a final development of this project for the metropolitan area.

Such recommendations, while commendable and proper, because of their expansionist character must wait for a less stringent financial situation for their full realization. However, some parts have been accepted, such as the baker's trade-training program.

Apart from the recommendations for expansion, the following recommendations also appeared:

Recommended: That all activities in the field of vocational training be placed under one Assistant Superintendent.

Result: Another instance of needed functional assignment; it has not been done.

Recommended: That a director be appointed to head up each of the major fields of vocational education.

Result: It is felt by school officials that the present four supervisors at the intermediate directing level cover the field satisfactorily.

Recommended: That the matter of placing students in the mechanic arts program, on the assumption that they possess manual aptitudes in the absence of scholastic aptitudes, be studied thoroughly.

Result: The requests made of the Department of Educational Investigation and Measurement for mechanical aptitude tests indicates a growing interest in this matter. According to the Harvard Report, "General Education in a Free Society," this attitude of ready referral to the manual arts field is typical of most cities.

Recommended: That the practical arts program at the elementary level be improved in creativeness.

Result: According to the director a new supervisor has been appointed to emphasize creativeness at this level.

Finance Commission Note: Several recommendations which would increase the number of cooperative part-time students and the volume of school shopwork have not been acted upon. It is contended that present equipment is now being used 100 per cent.

The other major phase of vocational education considered in the Survey Report was that of business education, and this was examined in detail. Many recommendations were made, but have not been carried out. Moreover, the first step in the success of the new program outlined in the recommendations of the Survey Report would be the appointment of a Director of Business Education; that post is still vacant. The probability is that this body of recommendations will be ignored until that step is taken.

Instructional Research.

A section of the Survey Report considers the field of curriculum development and instructional research. First, it recommends a reorganization which would facilitate such development and research. This recommendation has not been adopted.

However, there has been progress in this direction due to the efforts and interest of the various department heads, masters, and teachers. The key department in this progress is the Department of Educational Investigation and Measurement. The Survey Report criticized the isolated position of this department and its failure to coordinate with related fields. Although it is still in an isolated position organizationally, nevertheless the observation of the Survey Report relative to its activity no longer holds. It now works closely with the Department of Vocational Guidance, Special Classes, Juvenile Adjustment, and the various individual masters and teachers in the system.

A list of tests recommended in the Survey Report as suitable for appraisal are now on the approved list of the department and are being used and applied as suggested.

The volume of requests from masters and teachers for testing has increased sharply. The Survey Report observation that high schools have not been active in this field does not hold today.

Over 12,000 tests were given in May of 1946 in the high schools. In September, 1946, 87,000 achievement tests were administered.

Several factors appear to be present in this new interest in testing: the Survey Report, the activity of the new director (who has been director a relatively short time), and contact with testing in the Armed Services by many teachers.

Most of the recommendations in the Survey Report appear to be in the process of being carried out within the limitations of the present organizational pattern. Although structural changes as recommended in the Survey Report will be necessary to organically influence curriculum development and instructional research as envisaged in the Survey Report, this department is already influencing curriculum development on a voluntary basis. The departments of Kindergarten and Vocational Guidance have both recently used this department in revising their curriculum.

Adult Education.

In this field, little has been done along the lines recommended in the Survey Report, because evening schools and allied activity have come to a virtual standstill because of the drop in enrollment, accompanied by a corresponding cut in appropriation.

The recommendations of the Survey Report become something for the future when circumstances warrant the development of Adult Education and its related activities. This particularly applies to the recommendation for a school for adults which would be open all day and carrying a very extensive curriculum. Although the basic reorganization recommended in the Survey Report has not been adopted, it need not wait for the program expansion indicated above. This reorganization supposes changing the position of Director of Evening Schools to Director of Adult Instruction, in keeping with the broad concept of adult education. Such director together with the Director of Adult Associations (at present the Director of Extended Use of Schools) would function under the Assistant Superintendent to be appointed in charge of Adult Education and Special Services.

The Director of Evening Schools disagrees with the recommendations of the Survey Report on the following points:

Recommended: It was recommended that principals of evening schools be taken from the ranks of civic leaders.

Result: The director claims this has proved to be unsatisfactory in the past, providing the possibility of a patronage system, and overlooking the need of trained teachers.

Recommended: The Survey Report criticized the practice of limiting an evening school teacher to three years and a principal to five years.

Result: The director defends the practice. He claims evening school training is used as a testing ground and carries points of executive credit toward appointment. The reason for the time limitation is that continued day and evening work over a long period of time may affect both health and quality of work.

Recommended: The Survey Report made the point that day school teachers may not be good adult teachers.

Result: The department answers that the principles of subject development are the same, that only the adjustment of point of interest to an adult viewpoint must be changed; furthermore, there is a control over the teacher's effectiveness by the fact that she is removable, and without tenure.

An essential difference between the School Department viewpoint and that of the Survey Report is that the former does not wish to go outside present teaching ranks, while the latter emphasizes a separate corps.

Personnel.

The critical area of personnel administration, probably the most critical of the whole administrative area, came in for comprehensive analysis in the Survey Report. It was pointed out that "the Superintendent has no single officer of intermediate responsibility assigned to make a continuous study of personnel problems, to assemble data, and to keep him informed." The summary significance of personnel administration is brought out in the following paragraphs taken from the Survey Report:

"The needs of the several branches of the school system for personnel are properly determined by the number of pupils, the class size, the educational program in each type of school, and the skill of the administrator in charge. All of these factors count in Boston. But they count lightly when compared with the weight of the obsolete rules of the school committee as to the numbers of teachers that may be employed, an obsolete plan of organization for administration, and the absence of adequate personnel accounting. The result in Boston is low average class size, a great excess in the number of classes that are too large or too small for efficient work, and excessive expenditures for instruction, due to pupil-teacher ratios that are generally too low.

"Sound administration of Boston's schools, as recommended elsewhere in this report, would make it possible to carry out the present educational program, with the present number of

pupils to eliminate most classes that are too large or too small, and to reduce the number of teachers required.

"In the face of a declining school enrollment, sound child accounting and sound personnel accounting and expert administration are needed, both for the sake of economy and in order to maintain standards of instruction."

The Survey Report found that until a personnel department is properly set up the following matters cannot be satisfactorily adjusted and administered: selection, qualifications, appointment, promotion, and proper number of teachers; personnel record-keeping; orientation of young teachers; required number of temporary teachers (this matter assumes current importance in view of the recently enacted "tenure" law); appraisal of personnel policies; teacher grievances; biennial rating weight; retirement allowance as factor in retirement; interpretation of ratings; classification and qualifications of noninstructional personnel.

Recommended: To secure satisfactory personnel administration, that the Board of Examiners be established on a secure basis of tenure; that the Superintendent assign an Assistant Superintendent to the administration of personnel, exclusive of work performed by the Board of Examiners, and support him in the performance of this work by four directors: one as administrative assistant, with the Assistant Superintendent; one in charge of personnel records, accounting, and research; one in charge of orientation (already established as the Department of Practice and Training); one in charge of personnel counseling.

Result: None of these steps has been taken, not even the introduction of legislation to secure the independent status of the Board of Examiners.

The crying need of personnel administration removed from the School Committee is only too well demonstrated in the minutes of the School Committee meetings.

The fact is that there has been a great reduction in the size of the teaching staff of the Boston schools since the publication of the Survey Report. Reduced enrollment, both natural and war-induced, accompanied by deaths, retirements, and resignations in the teaching staff, operated to effect this reduction. This is commendable economy; but it does not answer the need for the scientific method of adjustment of personnel size which the recommended personnel accounting system would provide.

Salaries and Salary Policies.

The Survey Report summarized the salary situation as follows: With respect to salaries of teachers, "The immediate task before the Boston School System is to develop an instructional salary schedule effective for the three groups of personnel which have previously been described. What already exists in the name of a salary schedule can hardly serve the purpose longer. The history of the salary wranglings of the Board of Apportionment and the School Committee, which have been viewed by the survey staff this year, leads it to no other conclusion than that much of the difficulty lies in the woeful shortcomings of existing policies. THE BOSTON SALARY SCHEDULE IS NOT A SCHEDULE, IT IS A SERIES OF MULTIPLE AND POORLY RELATED SALARY SCALES. It requires a major overhauling."

(The Report then directs attention to the lines of development which should be followed.) The Report adds, however:

"In a large city such as Boston with deep-seated salary traditions, no ideal salary schedule can spring full bloom from any single attempt at revision. On the other hand, many of the elements of truly effective salary policy may have to be gradually introduced and perfected. This most certainly does not mean the piecemeal revision of the type heretofore practised. It means a continuity of approach to an effective overall and long-term plan. But even such a plan does not stay effective with changing conditions, any more than effective salary policy can be achieved by the present processes of accretion to parts without reference to the whole. What is needed is a functional assignment for leadership in salary policy which may be continuing in effectiveness, as well as immediately resultant in something better."

The action taken in the salary field has been as follows:

1. The School Committee went on record in favor of a single salary schedule.
2. The question of "equal pay for equal work" will appear as a referendum at the next city election.
3. Increases taking effect April 1, 1947, of \$600, \$500, \$400, and \$120 were granted for various salary groups, the increase running inversely to the amount of salary received. This was apparently a "cost of living" adjustment; it certainly did not partake of a scientific revision of salary schedule as contemplated by the Survey Report.

Whatever beginnings of progress in the area of instructional salaries may have been made since the Survey Report, the noninstructional salary picture (clerical, secretarial, custodial, and maintenance) remains unchanged. Here the primary lack is a proper classification and wage plan. The custodial salary schedule is a striking

case. A perusal of the minutes of the School Committee reveals the lack of uniformity in the other noninstructional positions which still persists.

Elementary, Intermediate, and Senior High Schools.

1. Elementary.

Educational Program.

(This is taken to mean the educational objectives, curriculum, and teaching method, as distinguished from "administration.") When the Survey Report was released, a defense of the status quo was issued by the Director of Elementary Education, and this still expresses substantially the current attitude. One of the few concessions made by this department is agreement with the idea of heading up elementary education under an Assistant Superintendent, exclusively assigned. The director disagrees with such criticisms as lack of flexibility in the curriculum, lack of achievement measurement, and with the advisability of a continuous progress policy in the matter of promotion. However, progress has been made in the field of tests and measurements, as indicated in the section of this report dealing with that department.

Administration and Organization.

An administrative policy recommended but not adopted is contained in the following quotation from the Survey Report: "Boston must either raise the entrance age to kindergarten and thus to first grade, or provide a 2-year kindergarten experience for the majority of its children. To continue the present practice is to violate the established understandings of child growth and development." Recommendations relating to an improved cumulative record system and report card were echoed by the education committee of the Teachers Alliance; these ideas have not been developed.

In the matter of class size, the following quotation is significant: "It is strongly recommended that further adjustments in class size be undertaken. Boston should look ahead to classes not exceeding 32 pupils in Grades 4 to 6, and a somewhat smaller number in Grades 1 to 3. Boston's problem of class size is complicated by the fact that there are so many small buildings. When the recommendations of the Survey Staff on redistricting and abandonment of certain buildings are carried out, there will be greater opportunity for adjustments in class size." As mentioned elsewhere, 17 of the 35 school buildings recommended by the Survey Report for immediate closing have been closed, and 4 more are under study. These closings have been gradual in volume and lengthy intervals have elapsed between them, often due to the pressure of the citizenry in the vicinity of the school. More closings may be expected in the future. To what extent these closings have affected class size as well as cost of building, maintenance, and operation, is not readily ascertainable, but such results must naturally follow.

2. Intermediate.

The Survey Report defines the purpose of the intermediate school as follows:

"The intermediate school has the double purpose of carrying forward general education and providing the basis for later specialization through the sampling of a wide variety of activities from which choices for further education and even for life work may be made."

The elements of the intermediate school program cited in the Survey Report are guidance, administrative organization, curricula, pupil housing, and class size.

Guidance.

The Survey Report observed that "there is no program of individual counseling and guidance in the intermediate schools."

Result: An "over-all program of guidance for the intermediate school" has recently been prepared by the Guidance Department and submitted to the Superintendent.

Administrative Organization.

The Survey Report recommended that the organization and administration of all schools for youth from eleven or twelve to seventeen or eighteen years of age, including both junior and senior high schools, shall be assigned to one Assistant Superintendent.

Result: This has not been done. The recommendation that schools at this level be called junior high schools instead of intermediate schools has been followed.

Curriculum.

The Survey Report observed: "The curricula reveal a number of weaknesses. Election or assignment to a curriculum in schools for youth is made in the last weeks of the elementary school course. Election or assignment is by curricula and not by subjects. Differentiation begins upon entrance to the intermediate school, and the pupil usually continues in the same curriculum throughout the three years he spends in the school. Principals generally recognize this situation as a negation in large measure of the controlling objectives of the Junior High School." This leads to the broad recommendation, previously expressed, "that the development of curricula for all schools, the supporting courses of study, and plans for the improvement of teaching be assigned to one assistant superintendent, supported by a Director of Instructional Research."

Result: This situation is still in status quo.

Class Size and Pupil Housing.

The Survey Report made the following observations: "Average class size in the intermediate schools of the City of Boston is 31.3, and in the seventh and eighth grades of elementary schools, 30.8. This is low. However, there are too many classes below 30 and over 35. More than 3,000 younger youth (intermediate age) in the City of Boston are enrolled in elementary schools — schools for children, rather than schools for youth. The intermediate schools of Boston have room for 2,000 to 6,000 more pupils, but they are not as well located to serve the 3,000 pupils still left in the elementary schools as school authorities would like them to be."

"The high and Latin schools of the city now enroll more than 3,500 pupils in Grades 7, 8, and 9. They have an additional capacity of from 4,000 to 12,000 pupils. Many of these schools are so located that they could accommodate most of the 3,000 pupils still left in Grades 7 and 8 of the elementary schools."

In another place the Survey Report states: "All of the younger youth in the public schools of Boston should be enrolled within a year or two in the existing intermediate and high schools of the city. This will involve the creation of two or more six-year schools in addition to the Latin schools. . . . Average class size should be increased to 32-33, and most classes over 35 and under 30 should be eliminated."

Result: There appears to have been no important change made in this picture. As mentioned in another section, the unsettled state of this problem goes beyond the housing of intermediate grades, and is a key consideration in the comprehensive housing picture. As a matter of fact, informed opinion has it that many more buildings could be closed and perhaps ten districts eliminated if the educational program were to revert to the 8-4 program (eight-year elementary and four-year high) and if the present relatively unsettled intermediate scheme were abandoned. This would also insure the maximum utilization of the best buildings.

3. Senior High Schools.

Educational Program.

The Survey Report lists 13 recommendations which form the broad basis for its treatment of "schools for youth." These include recommendations for an over-all educational postwar plan for all youth; for providing a salable skill to insure employability; for emphasis on health and physical education; for guidance; for a "junior college"; for educational service to the metropolitan area; and for the appointment of Assistant Superintendents to head up the program on a functional basis.

Result: These recommendations appear to be desiderata unchallenged by the school authorities and teaching body in the main. However, there are two recommendations which appear to run counter to the Boston educational viewpoint. One seems to imply that it is regrettable that particular students take only a fraction of the courses offered in the high schools. The reaction of many school people in Boston is that it is regrettable that students take so many.

The Survey Report, besides emphasizing a wide offering and wide individual selection of courses, also deplores continual teacher direction of the pupils and urges increasing responsibility by the pupils in deciding what ought to be done, and in planning the work. In the Boston school official viewpoint, the teacher rules supreme in the classroom, and pupil responsibility and participation in planning are assigned to extracurricular activities which are supposed to be integrated with the regular school program.

The above divergence of outlook is really the well-known conflict in educational philosophy between the modernist and the traditionalist, with Boston representing the latter viewpoint. Both viewpoints have strong backing. The modernist viewpoint has a wide acceptance in many school systems throughout the country. The traditionalist viewpoint, on the other hand, has recently been championed in many educational reports.

Apparently, in this matter one must be either a modernist or a traditionalist; and, indeed, the choice would appear to affect both curriculum and teaching methods. But to urge the adoption of a viewpoint and educational philosophy in this particular matter, which is at variance with what seems to be Boston's traditionalist viewpoint, would be to urge the abandonment of one disputed position and to assume an equally disputed position.

However, even within the framework of Boston's present educational philosophy there is vast room for the many improvements in the organization and administration of the educational program recommended in the Survey Report.

High School — Administration and Organization.

Recommended: Appointment of assistant principal in all schools for youth, one for every 500 pupils.

Result: This is not followed.

Recommended: Guidance counselor for every 360 pupils.

Result: At present, one in each high school; two in English High.

Recommended: That the number of department heads be reduced; that one (called a chairman of department) be appointed for every five or more full-time teachers.

Result: Although the basis followed is the number of pupil hours, and not the number of teachers, a similar result has been obtained, since the number of pupil hours generates the number of teachers. Whether the reduction would be greater under the recommended procedure is not known. However, the following reduction has taken place:

June, 1942	110
June, 1945	104
June, 1946	103
June, 1947	93

(These figures refer to presently filled positions, not to positions existing.)

Recommended: That coeducation be the general policy.

Result: Beginning in the fall of 1947 coeducation will be universal at the intermediate level, thus leaving only the comprehensive high schools the exceptions to the rule.

On several other points in relation to organization and administration, figures were not available to determine to what extent recommendations have been carried out. These included: 1) average class size in all academic subjects; 2) teaching loads in periods per week.

Recommended: Changes in the Latin School curriculum.

Result: Not adopted because the Latin School faculty supports its present curriculum.

CONCLUSIONS.

A perusal of this report will reveal that many of the recommendations of the Survey Report have been favorably acted upon. In some cases only a start has been made; in others there has been solid progress. Where a sufficient reason for failing to take action has been advanced by the school authorities, that has been noted. Financial and physical limitations have restricted progress in some directions. Inertia and adherence to an habitual pattern have played their part.

Many forward-looking steps taken, along the lines laid down in the Survey Report, have been due to the individual efforts of the several department heads, with the final approval of the Superintendent.

There are, however, many steps of major importance yet to be taken. At least two enact new legislation: 1) providing a new method of bringing a school committee into being; 2) creating an independent status for the Board of Examiners.

Other needed steps (not requiring legislation) include:

1. The dissolution of the several administrative boards still functioning. Inasmuch as the Rules of the School Committee set up these boards, indicated action would be up to the committee.
2. The functional assignment of Assistant Superintendents as described in the Survey Report, a step generally regarded as of prime importance and fundamental in any reorganization. This is in the province of the Superintendent.
3. The reorganization necessary to control the operation of buildings, custodial service, fuel control, and related activities under final authority of the Superintendent has not been undertaken. It is worth noting that those factors which generated the coal controversy of 1945 are still operating. In April, 1945, the Finance Commission, in answer to a request from the School Committee to investigate the matter of alleged inferior coal used in school heating, found that the very factors described by the Survey Report as critical defects underlay the situation under investigation. These defects were: lack of an organization which would provide a continuous and direct control over the use as well as the procurement of coal; the poor firing methods employed by many custodians; and the need of suitable training.
4. The very vital matter of the planning and utilization of the school buildings, with all their implications of distributing maximum use, class size, required teacher strength, cost of building operation and maintenance, etc., has yet to be attacked in a comprehensive manner. Not have certain policies which must underlie such a project been clarified.
5. The need for providing the Superintendent with adequate data for efficient personnel administration through a proper system of personnel accounting.
6. It will be noted that there are still recommendations to be adopted in many specific fields: guidance, special education, food service, school hygiene, etc., as are indicated in those respective sections of this report. It is of first importance, however, that those reorganizations and reassignments at the top level be effected which will secure the operating basis necessary for improvement, e.g., in the field of curriculum research the grouping of several functions under the headship of an Assistant Superintendent.

Renewed effort must be made along the lines of that section of the Survey Report which made out a strong and detailed case for increased state aid to Boston schools. The proposition was referred to a legislative commission. In so far as Boston is concerned, the Commission produced the following results:

1. It developed a formula for distribution of state funds on a basis of per pupil and average membership. It is estimated that Boston, under such a formula, would receive some \$2,500,000 to \$3,000,000.
2. It developed a formula of aid for the construction of new buildings, emphasizing the abandonment of old buildings.

The Legislature, however, declined to accept these proposals, the dispute raging chiefly over the method of financing. However, the blueprints have been made; if a satisfactory means of financing can be achieved, the formula can be made into law and some of the needed relief secured for housing.

Such outside aid would have met the cost of expansion recommended in the Survey Report, both those relating to salaries and those providing for expansion of educational service. Meanwhile, possible savings might be found in the direction of internal change—maximum utilization of school buildings, optimum class size, pupil-teacher ratio, control over noninstructional personnel; in short, the maximum use and optimum size of plant and personnel.

Finally, while the foregoing report has shown progress in some matters and to some extent, as a matter of fact on many of the recommendations, no action has been taken. Therefore, on many important steps action is imperative. It is imperative at this time because of several forces now set in motion.

It is expected by many observers that the high wartime birth rate will shortly show itself in increased enrollment in the primary grades; also that changed economic conditions and an expanded vocational program will increase enrollment at the secondary level. It is estimated that salary increases will have added probably over \$2,000,000 to the annual budget; a favorable vote on the "equal pay for equal work" referendum will add over another \$1,000,000; modernization of plant will further enlarge appropriations. In the light of such expansion, not only will increased state aid be necessary, but organization and administration must be made as efficient as possible, while still pointed toward desirable educational objectives.

REPORT OF COMMITTEE ON PARKMAN FUND.

Coun. LANE, for the Committee on Parkman Fund, submitted the following:

Report on message of Mayor and order (referred September 3, 1947) appropriating \$45,000 from income of George F. Parkman Fund to be expended under direction of Park Commissioners—that same ought to pass.

The report was accepted, and the question came on the passage of the order. The order was passed, yeas 14, nays 0.

WELCOME TO HOLY NAME SOCIETY.

Coun. HURLEY offered the following:

Whereas, The Holy Name Society is now holding its convention in the City of Boston after a lapse of 40 years; and

Whereas, The purpose of the Holy Name Society is the preservation of the principles and teachings of the Holy Redeemer Jesus Christ, whose creed is the practice of charity and respect of thy fellowman; and

Whereas, His Holiness, Pope Pius XII, the Vicar of Christ on Earth, Supreme Head of the Holy Name Society, has devoted his life, his energy, and every possible resource at his command for the establishment of a lasting peace on earth and good will to men policy throughout the world; and

Whereas, His Excellency, our own beloved Archbishop, Richard J. Cushing, whose kindly hand has so unselfishly been offered to the sick, the infirm and underprivileged, and who in his charity has offered refuge and hope to the forgotten and downtrodden, and who has instilled a lively confidence in them, is the Director of the Holy Name Society in the Archdiocese of Boston and host to the visiting Holy Name Societies; therefore, be it

Resolved, That the Boston City Council in meeting assembled, September 29, 1947, unanimously welcomes the Holy Name Societies to the City of Boston and wholeheartedly commends the purpose of the convention, which is the promotion of a higher standard of character and living amongst all people; and be it further

Resolved, That the Boston City Council in meeting assembled, September 29, 1947, do hereby urge His Excellency, Archbishop Richard J. Cushing, to impress on the delegates to the Holy Name Convention that the City of Boston is

honored to have them as our guests and respectfully request that they favor us with their convention next year.

The Board of Real Estate Commissioners of the City of Boston, acting under the authority granted it by chapter 474 of the Acts of 1916 and every other authority it hereunto enabling, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States for demolishing and removing buildings and structures located at and numbered 7 and 9 Federal Court, Boston, up to the retaining wall dividing 7 and 9 Federal Court and the adjoining building; 115 Federal Street, Boston, 262 to 274 Devonshire Street, Boston, inclusive, up to the retaining wall dividing 274 Devonshire Street and the adjoining building.

Forms of proposals may be obtained at Room 809, City Hall Annex. Each proposal shall be inclosed in an envelope, sealed and marked "Proposal for Demolishing and Removing Buildings and Structures Located at and Numbered 7 and 9 Federal Court, Boston, up to the Retaining Wall Dividing 7 and 9 Federal Court and the Adjoining Building; 115 Federal Street, Boston, 262 to 274 Devonshire Street, Boston, Inclusive, up to the Retaining Wall Dividing 274 Devonshire Street and the Adjoining Building," and left at Room 809, eighth floor, City Hall Annex, before 12 noon of October 20, 1947, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city, if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids.

A bond of a surety company, duly licensed to do business in Massachusetts, will be required in the sum of ten thousand dollars (\$10,000), to secure the due performance of the contract.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained upon application therefor at the office of the Board of Real Estate Commissioners.

Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract.

The undersigned reserves the right to reject any or all proposals.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 39

SATURDAY, OCTOBER 18, 1947.

No. 42

TODAY, WHEN CREED OF AMERICANISM IS BEING ASSAILED FROM SO MANY QUARTERS, THERE IS NEED FOR REAFFIRMING OF A VIGOROUS, UNSHAKABLE UNITY OF ALL FREE AMERICANS, TEMPORARY MAYOR JOHN B. HYNES TELLS PUBLIC OFFICIALS AND EMPLOYEES DURING REDEDICATION WEEK RALLY ON BOSTON COMMON — EXPRESSES PLEASURE THAT THOSE IN GATHERING DEMONSTRATED SUCH DEEP INTEREST IN PERPETUATION OF FREE GOVERNMENT — WARNS THAT ETERNAL VIGILANCE IS ONLY SAFEGUARD AGAINST PERILS INTERNAL AND FOREIGN.

In his address before an assemblage of public officials and employees on Boston Common on Thursday, October 9, Temporary Mayor John B. Hynes spoke as follows:

One of the features of our celebration here in Boston of Rededication Week is this meeting of public officials and public employees. I thank you all for being here, for I know that you, as a group, have a deep appreciation of what free government means and a deep interest in the perpetuation of free government.

Rededication Week serves the purpose of stimulating a more active and intelligent interest in the fundamental principles of our democracy and that is the main purpose of all the exercises which are being held during this week and which will culminate by the exhibition of priceless historical documents on Saturday and Sunday next at the Freedom Train.

Every one of us, of course, is proud of his heritage as an American. But do we really know what that heritage implies? That is a question for every citizen to ponder, because, unless we understand the privileges — and the obligations — of our democratic way of life, we cannot claim to be good Americans.

Democracy must be known before it can be lived — it must be understood before it can be appreciated. So, if we are to perpetuate the American tradition, every new generation must study the foundations and the ideals of our democracy, and must become convinced of its superiority over all other forms of government.

Eternal Vigilance Needed.

The perpetuation of the American tradition demands eternal vigilance — not only against the peril of attack by foreign foes, but also against the evil of dangerous influences menacing from within.

What are some of these dangerous influences? Selfishness — ignorance of what Americanism means — indifference to civic responsibility — the incessant demand for one's rights without regard to one's corresponding duties, and so forth. The list is unfortunately extensive, and not the least serious of these internal dangers is the insidious menace of intolerance.

Our Declaration of Independence reaffirmed the truth that all men are created equal — equal in the sight of God, equal in their natural rights, equal before the law. That ideal of equality is one of the cornerstones of the republic.

We are, it is true, a people of diverse origins and of diverse persuasions, but by virtue of our American citizenship we must subscribe unreservedly to the underlying principles of the Constitution and the Bill of Rights. It was the way of life guaranteed by this Charter of Liberty that attracted to America all those who were seeking religious freedom, equality of opportunity, and the right to pursue happiness. Unless that way of life is guaranteed to every American citizen, the high purposes of the Founding Fathers will be nullified.

No Patience for Disturbers.

One of the most sacred tenets of our form of government is repudiated, therefore, when self-seeking individuals or groups attempt to stir up antagonisms among our people. As Americans, we should have no patience with such efforts — rather must we all live and work together in a harmonious endeavor to attain our common destiny as free citizens of a free nation. Otherwise, we shall weaken our unity as a people — and when we weaken our national unity we are inviting the enemies of democracy to attack us.

Under the stress of war, and faced with a common danger, we subordinated our personal interests and views to the needs of our country. National unity sprang from national necessity — there was no distinction of race, or creed, or color in our determined effort to preserve the American way of life.

Today, when the creed of Americanism is being assailed from so many quarters, there is equal need for the reaffirming of a vigorous, unshakable unity of all true Americans. So, from this Rededication Week, let us take the salutary lesson that our free institutions will remain ours to enjoy only if we stand united as Americans all — united in our common allegiance to the heritage symbolized by the Freedom Train — united in our determination to preserve for our children and our children's children the priceless privileges of citizenship in "The Land of the Free and the Home of the Brave."

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

RIGHTS AND FREEDOMS OF CITIZENS OF AMERICA ONE OF GREATEST BLESSINGS AMERICA OFFERS, TEMPORARY MAYOR JOHN B. HYNES TELLS LABOR MANAGEMENT CONFERENCE SPONSORED BY INDUSTRIAL RELATIONS COUNCIL OF METROPOLITAN BOSTON—CALLS ATTENTION TO FACT THAT MEETING IS BEING HELD AT MOST APPROPRIATE TIME, WHEN CITIZENS ARE REDEDICATING THEMSELVES TO THE IDEALS ON WHICH COUNTRY WAS FOUNDED—URGES LABOR AND MANAGEMENT JOIN IN COMMON CAUSE OF SECURITY AND WELFARE FOR ALL WHEN DANGERS THREATEN.

The following were the remarks of Temporary Mayor John B. Hynes at the Labor Management Conference sponsored by the Industrial Relations Council of Metropolitan Boston in the main ballroom of the Hotel Bradford on October 10:

Ladies and Gentlemen.

I am very happy to be here tonight as the official representative of the City of Boston, and happy once again to welcome to our city Mr. Philip Murray, the president of the Congress of Industrial Organizations. I think it very appropriate that this Autumn Convention of the Industrial Relations Committee of Metropolitan Boston is being held during this Week of Rededication here in Boston, and I am extremely pleased to announce that your committee has harmonized its plans with our Rededication Week exercises.

What are we trying to accomplish during this Week of Rededication exercises?

We are reminding our citizens of the development and significance of their rights and freedoms; and we are reminding our citizens, too, of the obligations resting upon each of us to preserve those rights.

THE BENEFIT OF FREEDOM.

It is a comforting thought to be a free man in a free country, especially at times such as this, when freedom, as we know it, is but a dream and mirage to millions of our fellow human beings. It is a comforting thought to know we can meet in assembly, such as this, and speak our minds without fear; stand up for the things we think are right; oppose the things we believe are wrong—even as you gentlemen oppose acts of the Congress with which you disagree. It is a comforting thing to know we can worship God in our own way and according to our individual beliefs. These are some of our God-given rights, and without them man, no matter what his material assets may be, is bankrupt indeed. Without them man is like a creature without a soul, traveling in an orbit of darkness and despair.

The rights we cherish and the freedoms we prize so highly can wither and die on the vine, unless we continue to be watchful and vigilant in their preservation.

The man who labors has long since found out that he must fight to hold his rights, and there are men in this room who can well remember when the laboring man and woman were accorded but few of the rights that organized labor has so persistently fought for over many generations.

But there is another side to the rights that we possess, and that is the obligations that run with those rights.

Through all the generations that have passed, the men and women who welded this country into a unified whole assumed rigid obligations as citizens. They did not cry incessantly of their rights and shirk the responsibilities that were theirs, nor should we, if our great nation is to continue as the strongest free government in the world.

LESSONS OF WAR.

The lessons of the last war have taught us that we can subordinate our personal interest and views to the needs of our country. It is true we have problems of magnitude today—international problems that plague and cast the shadow of anxiety over the homes of America.

National and domestic problems, like the relations between capital and labor, cause us to wonder, at times, if national unity can ever be achieved, except during the stress of war.

It is a reasonable supposition that it can, for men in labor and men in capital are intelligent, thoughtful men, for the most part—men imbued with the spirit of true Americanism—and willing to join in the common cause whenever the security or welfare of our country is endangered.

These are a few of the thoughts for us to ponder over during this Week of Rededication, for all is lost unless we hold fast to the principles of the free government under which we live.

I wish to thank Mr. Jack Hurwitz, the chairman of this Fall Meeting Committee, and to also thank all of your members for your generous cooperation and contribution to the Rededication Week exercises, and, in closing, I wish to express my personal admiration for your great president, Mr. Philip A. Murray, who is a shining example of the kind of man that makes America great. He is a man of the people and he is a man of God. I think your organization is made greater the longer he sits as your president.

TEMPORARY MAYOR GREETSDR. CHAIM WEITZMAN DURING BOSTON GARDEN RALLY IN INTEREST OF AID FOR PALESTINE.

During the Boston Garden rally in the interest of aid for Palestine, Temporary Mayor Hynes spoke as follows:

I am happy to officially represent the City of Boston here tonight, and happy to report to this wonderful audience that the city employees are doing more for your fund this year than they did last year.

I wish to welcome to Boston Dr. Weitzman, here on the platform, and to tell him that he is beloved by not only the Jews of Boston, but by many, many others of different racial strains. When a man is a good man—good in the full sense of the word—he cannot help being admired and respected by all.

Let me also publicly say what I have already said in writing to another great and good man—Rabbi Joshua Loth Liebman. Boston is glad he is staying with us—our city will be better for it.

This great gathering can mean only one thing—success for your drive—a drive in which all our citizens should be willing to help. Charity knows no creed, no color, no race. It was the Lord Himself who said charity is the greatest of all virtues.

What you are doing is God's work—and it is my hope and fervent wish that He will open the hearts of all so that your goal will not only be reached, but surpassed a hundredfold.

DR. CHARLES F. WILINSKY, BOSTON OFFICIAL, CHOSEN HEAD OF AMERICAN PUBLIC HEALTH ASSOCIATION FOR 1948—CONVENTION CHOSE THE CITY OF BOSTON FOR ITS NEXT ANNUAL ASSEMBLY.

His Honor the Mayor received the following telegram from Dr. John H. Cauley, Health Commissioner, who attended the 75th annual meeting of the American Public Health Association at Atlantic City:

Hon. John B. Hynes, Mayor of Boston.

I AM HAPPY TO INFORM YOU THAT DR. CHARLES F. WILINSKY, EXECUTIVE DIRECTOR OF BETH ISRAEL HOSPITAL AND DEPUTY HEALTH COMMISSIONER FOR BOSTON WAS UNANIMOUSLY CHOSEN PRESIDENT-ELECT OF THE AMERICAN PUBLIC HEALTH ASSOCIATION AT THEIR 75TH ANNUAL MEETING NOW BEING HELD AT ATLANTIC CITY. DR. WILINSKY WILL ASSUME THE DUTIES OF PRESIDENT AT THE NEXT ANNUAL MEETING OF THE ASSOCIATION TO BE HELD AT BOSTON IN NOVEMBER, 1948. THE AMERICAN PUBLIC HEALTH ASSOCIATION HAS A MEMBERSHIP OF OVER 11,000 PUBLIC HEALTH OFFICES, SANITARIUMS, AND TEACHERS OF PUBLIC HEALTH IN LEADING UNIVERSITIES OF NORTH AMERICA.

SCHEMERS.**

The following is the address of Temporary Mayor Hynes on Sunday afternoon, October 12, at the Boston Common:

Ladies and Gentlemen:

We are gathered here today on historic Boston Common in the final exercises of Rededication Week.

All during this week we have been participating in a national program which will extend over a period of a year.

The purpose of that program, in its simplest form, is this—to remind our citizens of their heritage of freedom, their rights and their privileges, and—to bring home to each citizen that with his rights and privileges he has obligations if he is to protect and preserve his heritage.

It is evident to all of us that today most of the world is teetering on the brink of absolute chaos. We can't be blind to that condition. We can't be unaware of or be unthankful to a bountiful Providence, who smiles upon America at a time when millions of our brother humans—all made in the same image and likeness of God as you and I—and all as entitled to share in God-given rights as you and I—suffer in hopeless despair as unfortunate victims of the sins and follies of Godless schemers.

**TEMPORARY MAYOR WELCOMES
ITALIAN-AMERICAN SOCIETY
TO BOSTON FOR ANNUAL
DINNER.**

Upon welcoming and conveying the greetings of the City of Boston to the Italian-American Charitable Society on the occasion of its annual dinner on Sunday, October 12, at the Copley-Plaza Hotel, Temporary Mayor John B. Hynes spoke, in part, as follows:

I am honored to bring to this gathering, and to the Italian-American Charitable Society, which plays such a notable part in the affairs of our community, the official greetings of the City of Boston.

On this twelfth day of October, four centuries and a half after the discovery of this continent, it is fitting that we pay homage to one of Italy's most famous sons—and America's first citizen—Christopher Columbus.

It was his genius and perseverance that opened up this continent—a continent which has become the haven of all those who seek the blessings of liberty, freedom, and justice.

It is well for us to recall that the first act of Christopher Columbus when he reached these shores was to plant the

Yesterday and today, the Freedom Train has been in Boston and in that train are documents that tell the story of America. I hope you have seen those documents and have been as impressed and as thrilled as I was, because written into those documents is the great spirit that has made America the wonderful nation it is today. We cannot help but realize as we think about those documents, of the sacrifices, of the hardships, and the blood that was shed so that you and I and all those who come after us will enjoy and profit from the blessings that are found in our free government.

It is our duty as citizens of today to protect those blessings—to make certain that this haven here in America of free men shall always continue to be the home of freedom, of liberty, of justice, of equality.

This then, is the significance of Rededication Week, and I am sure you and I are all better for it, and I am sure you and I will want and will strive to make our nation a better nation for those who will follow us, so that this shall always remain "The Land of the Free and the Home of the Brave."

Cross of Christ on the virgin soil of the new continent—and it has occurred to me many times that the reason our land has been so fruitful and so bountiful is because it was first dedicated to the honor and glory of God.

We are ending today, here in Boston, a week of rededication exercises, in which all of us were asked to reaffirm and repledge our allegiance to the principles of our free government.

What a priceless heritage it is to be an American citizen—and what a priceless heritage it is for you men of Italian descent to not only share in the glories of our own country, but also to share in the century-old glories of Italy.

History's pages abound with the names of great statesmen, soldiers, scholars, sculptors, artists, musicians, which Italy has given to the world—not to speak of the saintly and stalwart Vicars of Christ who sprung from the soil of your fatherland.

Yes, Italy has been a great country, and from it have come thousands upon thousands of decent, God-fearing men and women whose sons and daughters have played a noble, generous, significant part in the greatness that is America's.

The shadows that hang over the land of your fathers will one day—and, please

God, soon—pass away. The soul and the spirit of Italy is not dead. It lives, and it is men like you here tonight who will give strength to that soul and determination to that spirit, so that once again Italy will take its rightful place among the leading nations of the world.

I salute you, my friends of the Italian race, and I bring to you the good wishes and the gratitude of your fellow Bostonians for all that you have done in the spiritual and material growth and welfare of our great old city.

Iddio Conserva L'Italia!

**TEMPORARY MAYOR REPLIES
TO FINANCE COMMISSION
ON VOTING MACHINES
MATTER.**

The following letter was, on October 15, sent to Mr. Joseph K. Collins, Chairman of the Boston Finance Commission:

MR. JOSEPH K. COLLINS, *Chairman,*
Boston Finance Commission, Boston,
Mass.

DEAR SIR,—I have your communication relative to the proposed purchase of voting machines. As stated in your letter, it would appear that the decision to purchase additional voting machines was made January, 1947, at a meeting of the Election Commissioners and Mayor Curley. Recently, bids were asked from the two major concerns in this field. To date, I have received no recommendations from the Election Commissioners, nor have I discussed the matter with that Board.

As far as I am concerned, a decision to purchase additional voting machines would be made during my tenure as Temporary Mayor only after I was completely satisfied that: (1) The efficiency of the Election Department would be increased, and the interest of the public served, and (2) The purchase is essential as a matter of policy.

Generally, it is my thought that, for various reasons, voting machines should be installed in each precinct of the city and that such installations should be made from year to year until the entire city is covered. I cannot quite agree with you that these are an "expensive innovation" any more than the purchase of calculating or tabulating machines and other modern equipment, that the city is now installing in various departments, are "expensive innovations."

The city has already embarked on a policy of installing these voting machines, and to defer a further purchase until such time as Plan E might be accepted in Boston might very well result in many years' delay before any further machines are obtained. It would seem from the present temper of the citizens of our city that there is much objection to the feature of Plan E which calls for preferential voting, although there is some evidence that the features of Plan E which call for a smaller City Council and a City Manager have many supporters.

Your communication will be considered as part of the study of the entire matter of policy with regard to the purchase and use of voting machines. At the present time, my mind is open in the matter, and before I take any final action, I will, of course, discuss it with you and the members of your Commission.

Respectfully,

JOHN B. HYNES,
Temporary Mayor.

GEORGE ROBERT WHITE FUND PRECLUDED FROM ERECTING HOME FOR MUSEUM OF NATURAL HISTORY—CORPORATION COUNSEL JOSEPH A. SCOLPONETI RENDERS RULING ON REQUEST OF TEMPORARY MAYOR HYNES, POINTING TO CONFLICTS BETWEEN EXPRESSION AND PURPOSE DELINEATED IN BENEFACTOR'S WILL AND PROPOSALS OF THOSE PUTTING FORWARD THE PROJECT—JOINT CONTROL OF ANY PUBLIC BENEFACTION INVOLVING USE BY CITIZENS IS BARRED.

The following letter was received on October 14 by Temporary Mayor John B. Hynes from the Corporation Counsel of the City of Boston:

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—I have your letter of August 28, 1947, requesting a report upon the proposed use of the net income of the George Robert White Fund for the construction of a natural history museum. From the enclosures which accompanied your letter and which I am returning herewith, it appears that, when constructed, the museum would be leased for a fixed period to the New England Museum of Natural History. That corporation would care for and maintain the building during the term of the lease as well as install the exhibits and conduct the museum. The corporation would also construct and operate a planetarium on adjoining land owned by it.

The use of the George Robert White Fund income for the building of a natural history museum was discussed in a communication sent by former Corporation Counsel Henry Parkman, Jr., to George L. Driscoll, secretary of the George Robert White Fund, under date of April 6, 1940, a copy of which is enclosed. The proposal at that time contemplated that the city itself would care for and maintain the building after construction, and that the New England Museum of Natural History would be responsible simply for the materials, equipment, and exhibits essential to the conduct of the museum. As you will note, Mr. Parkman had grave doubt that the proposal before him satisfied the condition in George Robert White's will in joint undertakings. In my opinion, there is even greater doubt that the present proposal fulfills this condition.

As is evident from the provision immediately following in the will, that "each work established under this gift . . . shall always bear in a conspicuous place a suitable inscription identifying it as erected or established from the said George Robert White Fund." Mr. White intended that the works established from the fund should stand as monuments to his memory. The prohibition against a joint undertaking was inserted to guard against any frustration of this intent, and it is to be construed accordingly. Under the present proposal, the New England Museum would apparently have, during the term of the lease, exclusive possession and control of the museum building and conduct therein a museum in conjunction with its own adjoining planetarium. The likely result would be that in the public mind the entire project would be merged and considered as a monument to the glory of the New England Museum. In

such case, the project could plainly not be said to effectuate Mr. White's intent.

The present proposal is also open to another objection. It is expressly stated in the will that "Any work or works established from the Fund may be improved, extended, enlarged, or added to from time to time, but the current expense of their care and maintenance shall be borne by the City." The will was obviously drawn with the utmost care and each word selected with due regard to its precise meaning. Plainly, in the provision just quoted, the word "shall" was deliberately chosen in contrast with the preceding "may," and thus is to be interpreted in its mandatory sense. It follows that the current expense of the care and maintenance of a work established from the Fund must be borne by the city. Any proposal providing for care and maintenance of the New England Museum would thus be in violation of the will. If the city is not willing or able to bear the expense of care and maintenance, the Museum, in my opinion, may not be established.

As you undoubtedly realize, the Probate Court with the Supreme Judicial Court, not the Corporation Counsel, is the final arbiter of cases of this kind. If, after considering the possible objections to which attention has been called, the Trustees desire to press the matter, a petition for instructions may be filed in the Probate Court.

Respectfully yours,

JOSEPH A. SCOLPONETI,
Corporation Counsel.

STATEMENT OF TEMPORARY MAYOR JOHN B. HYNES ON FORTY-HOUR WORK WEEK.

I have approved the action of the Boston City Council in accepting chapter 649 of the Acts of 1946 entitled "An Act Authorizing a 40-Hour Work Week for Employees of Cities and Towns." I take this action with the full realization that a shorter work week for all employees of the City of Boston is justified, particularly in view of the fact that the employees of the Commonwealth are now on a 5-day week, all banks have received authority to close on Saturday and a good many industrial and mercantile establishments are on a shorter work week.

In most departments of the city no complications will arise from the establishment of a 40-hour week, but in those in which it does, and especially in the

Hospital and Institutions Departments where there is a shortage of employees, particularly nurses, I have authorized the payment of overtime to all those who are required to work beyond the 40 hours. No patient in our hospitals or institutions must be neglected because of the operation of this Act and if any are, the Act should be changed.

Because of the unusual complications arising from the initial application of this Act, it is impossible to forecast accurately how many additional employees will be required and what the actual cost will be.

It is estimated that approximately 655 additional employees will eventually be necessary to establish a 40-hour week for all employees. Two hundred and seventy of these will be added during the balance of this year and 385 will be gradually added next year as they become available from Civil Service thus dispensing with a great deal of the overtime.

The estimated cost of these additional employees together with overtime payments in the Hospitals and Institutions Departments will figure about \$225,000 for the balance of this year, and on an equal basis will figure about \$1,100,000.

A continuing study will be made, however, during the next few months, so that by the time the annual budget is submitted, it will be possible to more accurately determine the additional cost necessary to establish the 40-hour work week on an annual basis. The only way by which the actual cost of the 40-hour week will be known is by the experiences over a period of a year.

NATIONAL FLOWER WEEK PROCLAMATION.

The Society of American Florists, chartered by Special Act of Congress for the purpose, has designated the period of November 2 through the 9th, as National Flower Week.

As Temporary Mayor of the City of Boston, I wish to add my voice to the great chorus of our people, everywhere, who will pay homage to one of God's greatest gifts to His people, the colorful, beautiful—and sweet—flowering plant or shrub, of whatever variety.

Out of Boston, years ago, came the popular slogan, "Say It With Flowers." From childhood to the grave we have been and are flower-conscious. We love the tinted blooms and pleasing aroma which flowers bring into our lives. They inspire lofty thoughts and happy memories in human hearts. They bring joy, serenity and solace—like religion—into the souls of men where sordid realities at times seem overwhelming.

So here's to you, flower of mine and of yours. May you bloom in our hearts forever.

WHITE FUND TRUSTEES TAKE NATURAL HISTORY MUSEUM CASE TO COURT.

The Trustees of the White Fund are glad to have received the opinion of the Corporation Counsel with respect to the proposed establishment of a natural history museum. However, the Trustees believe that the matter should receive the consideration of the Probate Court in accordance with the vote adopted by the Trustees at their meeting on September 17. The Trustees have asked the Corporation Counsel to prepare a petition to be submitted to the Probate Court for instructions.

CIRCULAR LETTER NO. 22.

CITY OF BOSTON,

MAYOR'S OFFICE, October 7, 1947.

To the Heads of All Departments.

GENTLEMEN.—President Truman has called upon the people of the United States to reduce food consumption, in order that we might help sustain the lives of millions of half-famished people in Europe. The President has expressly requested that curtailment in the use of food be accomplished in the following four ways:

1. The cutting on the feeding of grain to the livestock. (This would apply to Deer Island.)
2. Meatless Tuesdays.
3. No eggs and poultry on Thursdays.
4. Reducing bread by at least one slice a day.

You are directed to take whatever action is necessary to assure the success of the President's program. It is realized that this program is open to exceptions in cases where special diets are required, but, in the main, all department officials concerned should promptly arrange to follow the recommendations of the President.

Respectfully,

J. B. HYNES,
Temporary Mayor.

SCHOOL LANDS TO BE SOLD.

At a school land meeting in the office of the Mayor on October 15, at 11 a. m., it was decided that the following lands were to be sold:

Property on Hamilton and Hawthorne streets, and Hyde Park avenue, Hyde Park, to the Boston Housing Authority.

Piece of land adjoining the Robert Treat Paine School in Dorchester (containing approximately 12,000 square feet, to the George Robert White Fund.

Rosemont and Tileston streets (land containing approximately 31,000 square feet) to the Boston Housing Authority.

Union street, Brighton (land containing approximately 67,280 square feet) to the Boston Housing Authority.

ASKS THAT PURCHASE OF MORE VOTING MACHINES BE DEFERRED.

The Finance Commission of the City of Boston has addressed the following letter to Temporary Mayor Hynes:

BOSTON, October 14, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

SIR,—The Finance Commission has inquired into the proposal of the Board of Election Commissioners to purchase a second lot of voting machines, and, having requested you to defer final action in this matter temporarily, now desires to express its views on the subject.

The Commission has conferred with the Election Commissioners and has obtained from them directly their reasoning in the matter. It appears that the decision to purchase another number of machines was made in January, 1947, at a meeting of the Election Commissioners and Mayor Curley. Subsequently, in March, 1947, the Finance Commission communicated with the City Council on this subject pointing out that in the event of the adoption of a Plan E charter with preferential voting, voting machines could not be used in municipal elections. The Plan E

movement has every indication of remaining a live issue in Boston for several years.

It now gives this additional reason for opposing any such purchase. This is no time to indulge in expensive innovations. The proposed purchase of voting machines would cost approximately \$650,000. Election functions have been carried on for many years without voting machines, and no great harm can come from deferring further installations.

The 1947 tax rate reached an all-time high. An increase in the tax rate is generally expected for 1948. Most municipal administrators realize that basic costs of government will increase substantially in the next few years. Therefore, it is no time for the city to buy more voting machines when there is no immediate and pressing necessity.

Respectfully submitted,

JOSEPH K. COLLINS, *Chairman*,
ALEXANDER WHEELER,
LEO J. DUNN,
FREDERICK DEANE,
EDWARD F. MULLEN.

The Finance Commission.

ROBERT E. CUNIFF,
Secretary.

Twelve Principal Clerks, \$2,800-\$2,900-\$3,000-\$3,100.

Eight Senior Clerks, \$2,300-\$2,400-\$2,500-\$2,600-\$2,700.

Eighteen Clerks, \$1,400-\$2,200 (\$100 annual increments).

Under this schedule, the employees affected have been classified into seven grades according to the duties and responsibilities of their respective positions. Within each grade the sliding-scale principle has been incorporated by providing for minimum and maximum salaries. Maximum salaries in the several grades have been established on a fixed percentage of the total compensation received by the head of the department as City and County Auditor.

Advancement from the minimum rate to the maximum rate will be regulated by the intermediate steps indicated in the schedule. Salary advancement within a grade shall be limited to one increase a year. Vacancies occurring within grades shall be filled by the promotion of the eligible senior employee from the next lower grade who, if receiving the maximum salary of the lower grade, shall enter the higher grade at the minimum rate. If the promotion occurs before the maximum salary of the lower grade has been reached, the employee will con-

tinue through the remaining intermediate steps of the lower grade before advancing to the minimum rate of the higher grade. In all promotions, the anniversary date for advancement within the new grade shall be the date on which the minimum of the new grade is received.

In order to recognize length of service, employees in the three lower grades shall, upon reaching the third, sixth and tenth anniversaries of the date of their receiving the maximum salary fixed for the grade they hold, be given a step-rate increase of \$100, but such increase shall not be deemed to represent any change in assignment of work, or increased authority or responsibility. If an employee is promoted to a higher grade subsequent to having received one or more "length of service" increments, he shall enter the new grade at the same salary rate being received at the time of promotion.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Temporary Mayor.

BOSTON HOUSING AUTHORITY.

Upon September 19 the Temporary Mayor approved a contract with the

F. C. Power Corporation for bituminous dry yards, roads and planting work, Alsen Field, Dorchester. The following bids were received:

Old Colony Construction Company of Quincy: Base Proposal No. 1, \$17,207.50; Base Proposal No. 2, \$16,590.

F. C. Power Corporation: Base Proposal No. 1, \$16,770; Base Proposal No. 2, \$27,110.

The bid of the Old Colony Construction Company of Quincy is obviously in error as the work under this bid is to include the work under Base Proposal No. 1. What this bidder meant by his bid was that his bid on Base Proposal No. 2 is to be added to his bid on Base Proposal No. 1. If this is done it means that this company is not the low bidder.

FIRE DEPARTMENT.

Upon October 6 the Temporary Mayor approved a contract in accordance with the following request:

BOSTON, October 3, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Your Honor's permission is requested to award a contract to Daniel Russell Boiler Works, 103 Boston street, Dorchester, Mass., without advertising, for retubing the No. 3 boiler in

the Maintenance Division of this department at a cost of \$2,200 per annum.

The work to be done is as follows:

Furnish all labor and material for removing old tubes and installing 164 new tubes; new tubes to be No. 12 gauge, 2½ inches in diameter and to be seamless steel or electronite. All tubes shall be installed in a workmanlike manner and to the satisfaction of the engineer-in-charge. Hydrostatic test shall be applied in accordance with the standards of the Massachusetts Department of Public Safety, Division of Inspection. Following this test heads of tubes in fire box shall be seal welded by a certified welder and a second hydrostatic test shall be made to determine tightness of welding. No welding is to be calked and any defective weld is to be chipped out and rewelded.

The following bids were received in connection with this work: Daniel Russell Boiler Works, Inc., \$2,200; the Hodge Boiler Works, \$2,350.

The foregoing are the only two boiler companies in the city from which this department could obtain a price for re-tubing the boiler.

The boiler concerned has been inspected by the State Boiler Inspectors and inspectors of the Maryland Casualty Company, which company insures the boilers. They have notified us that between 50 and 60 tubes show signs of having been leaking at the bottom. They further state that the ends of all tubes are becoming thin and that they should be replaced.

The boiler concerned is used for supplying heat, hot water and steam to the Maintenance Division and Headquarters Buildings of the Fire Department, and also to the Dover Street Baths and laundry of the Park Department.

As this is an emergency repair job, no advantage would be gained by the city through public advertising for bids inasmuch as the repair work would be delayed and it does not appear that we could obtain a price lower than \$2,200 for doing this work in a proper and safe manner. Inasmuch as the two remaining boilers in the Maintenance Division cannot continually supply the demands made upon them, it is absolutely necessary that the No. 3 boiler be placed in operating condition as soon as possible as it is logical to assume that we will have need of heat in the three above-mentioned buildings in the near future.

Respectfully yours,

RUSSELL S. CODMAN, Jr.,
Fire Commissioner.

HOSPITAL DEPARTMENT.

Upon October 7 the Temporary Mayor approved a contract with John F. Bradley for painting six buildings at the Boston City Hospital. Bids, opened Friday, September 19, were as follows:

Upon September 25 the Temporary Mayor approved a contract with William P. Herlihy for excavating and loaming at Evergreen Cemetery, Brighton. Bids, opened Tuesday, September 23, were as follows:

William P. Herlihy, \$4,962.50; Marinucci Brothers & Co., \$5,414; M. McGinnis Company, \$6,960.

PUBLIC BUILDINGS DEPARTMENT.

Upon September 26 the Temporary Mayor approved a contract with J. A. Singarella for alterations and renovations to the Charlestown Municipal Building. Bids, opened September 23, were as follows:

Item 1.—A. Piotti, \$9,912; M. Solimando, \$6,695; Rossano Construction Company, \$5,565; J. A. Singarella, \$5,513.

Item 2.—A. Piotti, \$4,157; M. Solimando, \$4,157; Rossano Construction Company, \$4,157; J. A. Singarella, \$4,157.

Total.—A. Piotti, \$14,069; M. Solimando, \$10,852; Rossano Construction Company, \$9,722; J. A. Singarella, \$9,670.

Alternate.—A. Piotti, \$250; M. Solimando, none; Rossano Construction Company, \$342; J. A. Singarella, \$150.

The low bidder is J. A. Singarella, of 15 Bay street, Dorchester. The alternate bid of \$150 is to be added to his bid making a total of \$9,820.

Upon October 6 the Temporary Mayor approved a contract with the Rossano Construction Company for new shower room for use with the new gymnasium at South Boston Municipal Building. Bids, opened October 2, were as follows:

M. Solimando, \$7,411; A. Piotti Company, \$6,779; Rossano Construction Company, \$6,540.

PUBLIC WORKS DEPARTMENT.

The Allied Engineering Corporation have been allowed to amend their contract in accordance with the following letter:

BOSTON, September 2, 1947.

ALLIED ENGINEERING CORPORATION, 739 Boylston Street, Boston, Mass.

Subject: VPH: Change Order G-2, Item G-2, Saratoga Street, East Boston. Six Houses.

GENTLEMEN,— In connection with your contract with the City of Boston, acting by and through the Boston Housing Authority, under Statute of 1946, chapter 372, as amended, dated July 8, 1947, for the general construction of six houses at Saratoga street, East Boston, the following change is ordered: 4½ yards of rock encountered on the site.

An equitable adjustment of the contract price and the contract time is established as follows: The contract price is increased \$54.15. The contract time is not changed.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of the City of Boston are in no way prejudiced by this order.

3. All claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

Acknowledgment of this order is requested.

Very truly yours,
JOHN F. MILLERICK,
Chief of Construction,
Boston Housing Authority.

ALLIED ENGINEERING CORPORATION,
739 Boylston Street,
Boston, Mass., August 26, 1947.

MR. JOHN F. MILLERICK, Boston Housing Authority, 10 Post Office Square, Boston, Mass.

DEAR SIR.— In regard to the Saratoga street, East Boston Project:

We encountered a piece of ledge measuring 4½ yards, which had to be moved from the cellar of house No. 5 and buried below subgrade. This rock removal will be an extra at the rate of \$12 per yard, or a total charge of \$57.

A credit of 60 cents per yard for this quantity of 4½ yards or a total credit of \$2.85. This deduction is based on the rate for deductions of machine excavation left at site.

The net amount of this extra therefore amounts to \$54.15.

Very truly yours,
ALLIED ENGINEERING CORPORATION,
ROBERT E. BESSETTE, President.

The Temporary Mayor has approved the changes in contract as ordered in the following letter:

BOSTON, July 31, 1947.

CONSTRUCTION UNITS, INC., 294 Washington Street, Boston, Mass.

Subject: VPH: Change Order G-6, Item G-6, Liversidge No. 1: Twenty 2-Family Houses.

GENTLEMEN,— In connection with your contract with the City of Boston, acting by and through the Boston Housing Authority, under Statute of 1946, chapter 372, as amended, dated April 9, 1947, for the general construction of twenty 2-family houses at 291 River street, Mattapan, the following change is ordered: Remove the stone wall along River street to a depth that will allow at least a foot of covering over remaining foundation stones.

An equitable adjustment of the contract price and the contract time is established as follows: The contract price is increased \$300. The contract time is not changed.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of the City of Boston are in no way prejudiced by this order.

3. All claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

Acknowledgment of this order is requested.

Re: Veterans' Housing, 291 River Street,
Mattapan, Mass.

Attention: Mr. John Millerick.

GENTLEMEN,—On June 13 we quoted you a price of \$300 for removing the stone wall along the River street side.

We wish to make it clear that this price includes removing the stone so that there will be at least a foot of loam covering any stone that is buried. This will probably vary from one to three feet, according to the size stone encountered.

Very truly yours,

CONSTRUCTION UNITS, INC.,
By CHARLES A. MOGAVERO.

The Temporary Mayor has approved the request for a change in contract as contained in the following letter:

BOSTON, August 22, 1947.

ALLIED ENGINEERING CORPORATION, 739
Boylston Street, Boston, Mass.

Subject: VPH: Change Order G-1,
Item G-1, Saratoga Street, East
Boston. Six Houses.

GENTLEMEN,—In connection with your contract with the City of Boston, acting by and through the Boston Housing Authority, under Statute of 1946, chapter 372, as amended, dated July 8, 1947, for the general construction of six houses at Saratoga street, East Boston, the following change is ordered: Install back-band mouldings on the windows of all the houses.

An equitable adjustment of the contract price and the contract time is established as follows: The contract price is increased \$290. The contract time is not changed.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of the City of Boston are in no way prejudiced by this order.

3. All claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

Acknowledgment of this order is requested.

Very truly yours,

Chief of Construction,
Boston Housing Authority.

Allied Engineering Corporation,
739 Boylston Street,
Boston, Mass., August 20, 1947.

MR. JOHN F. MILLERICK, Boston Housing
Authority, 10 Post Office Square,
Boston, Mass.

DEAR SIR,—It has been suggested to us that the Boston Housing Authority would like to have back-band moulding installed around windows of all the homes now under construction on the East Boston Project.

We estimate the cost of putting on the back-band at the following rates: House Plan 200, \$40; House Plan 201, \$60; House Plan 202, \$45.

This would make an additional extra for back-band on these houses totaling \$290.

Please advise us at once if you wish us to go ahead with this moulding as it should be done right away if it is going to be done at all.

Very truly yours,

ALLIED ENGINEERING CORPORATION,
RICHARD J. SINNOT,
Secretary.

EXTENSION OF CONTRACTS.

FIRE DEPARTMENT.

Approval has been given to grant an extension of time to the Rossano Construction Company, Inc., for the performance of a contract for alterations and additions to fire station, Engine 14, located at 27 Centre street, near Eliot square, Roxbury. The contract, dated April 8, 1947, was to have been completed within 90 days after the Mayor's approval April 22, 1947. The date of completion, in accordance with the contract was July 21, 1947. The completion of this work has been delayed considerably because of the fact that the contractor has been unable to obtain the electrically operated overhead doors and the mechanism involved for the operation of said doors. Additional work requested by this department has also delayed completion of the contract. Request is hereby made for an extension of time for performance of the work under the contract until November 18, 1947.

HOSPITAL DEPARTMENT.

Sanatorium Division.

The M. S. Kelliher Company has been granted a further extension of the contract whereby it is agreed that the words "125 days" as appearing in Article II of the contract for alterations and repairs to Building E, Sanatorium Division, Boston City Hospital, Mattapan, be stricken out and the word and figures "September 15, 1947," be substituted in their place.

PENAL INSTITUTIONS DEPARTMENT.

Robert A. LaCentra Company has been granted an extension of the contract for repairs to the plumbing in Hill Prison, House of Correction, Deer Island, from September 12, 1947, to January 10, 1948.

PUBLIC WORKS DEPARTMENT.

The West End Iron Works have been granted an extension of time for the completion of the contract for building the Old Colony Avenue stairway to December 31, 1947. This extension is requested for the reason that the subcontractor has been unable to make delivery of the abrasive tread.

John Deveney & Co. have been granted an extension of time for the completion of the contract for building sewerage works in Tenean Creek, Victory road and Freeport street, Tenean street and Old Colony Parkway, Dorchester, from September 30, 1947, to December 31, 1947. This extension is requested for the reason that there have been delays in deliveries on steel, lumber, etc., due to strikes and production schedules of the steel mills.

George J. Bartley Company has been granted an extension of time for the completion of the contract for miscellaneous alterations, painting, etc., in the ventilation buildings of the Summer Tunnel, to October 15, 1947. This extension is requested for the reason that the contractor has been delayed in obtaining the proper tiling for the ceiling work.

Charles A. Maguire & Associates have been granted an extension of time for the completion of the contract from October 31, 1947, to March 31, 1948, for engineer's services, sewage treatment plant for the Boston main drainage system. This extension is requested for the reason that it is necessary to con-

tinue tests on the raw sewage at Calf Pasture in order to determine the chlorination and sludge digestion requirements.

SUPPLY DEPARTMENT.

Approval has been given to extend the completion date of the contract with the Warren Foundry and Pipe Corporation from April 30, 1947, to July 1, 1947. The Warren Foundry and Pipe Corporation have now completed deliveries under this contract which were delayed due to the difficulty in securing the necessary materials.

CONTRACTS AMENDED.

INSTITUTIONS DEPARTMENT.

The Commercial Refrigeration Company of Boston have been allowed to amend the contract for supplying and installing refrigeration equipment for four walk-in chests and the mortuary, Long Island Hospital, Boston Harbor, as follows: By substituting as the date of completion of the work "September 30, 1947," in place of "June 30, 1947." The refrigerating company has had difficulty in obtaining the spare direct motor as required in the specifications. They now have the motor.

The M & R Construction Company have been allowed to amend the contract for the designing, furnishing plans and the furnishing and installation of oil burning equipment, including storage tanks and pumps for the Power Plant at Long Island Hospital as follows:

A.—Additional Work.

Item 1.—To provide additional docking facilities at the back wharf at Long Island for tying up oil tanker: Drive and wrap two 7-pile dolphins of 60-foot oak piles on south side of dock; drive and secure two mooring piles for tying up, and plank over the present drop with 3-inch plank and the necessary 6-inch by 12-inch stringers, all as directed, for the sum of \$3,500.

Item 2.—To provide a 3-inch steam line to run concurrently with oil fill line from wharf to tanks and power house: Estimated cost under proposed change, \$4,912—4-inch pipe, \$1,080; 3-inch pipe, \$1,200; fittings and valves, \$650; labor, \$1,000—\$3,930; insurance and overhead, \$982: Estimated original cost per specifications, \$2,622.50—See page 3, 2d paragraph, under "Heaters": Pipe, \$1,300; fittings, \$300; labor, \$500; insurance and overhead, \$522.50. By order of Fire Commissioner RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

General Order No. 66.

1948 GREATER BOSTON COMMUNITY FUND.

His Honor, Temporary Mayor John B. Hynes, through the City Employees Group Chairman, has asked that all city employees participate in the 1948 Greater Boston Community Fund Campaign, in order to raise funds to aid 330 hospitals, health services, and social agencies.

The American Red Cross is not included in the foregoing, as in all probability a separate drive will be conducted in 1948 for this organization.

The quota for the Fire Department has been set at \$3,500.

Form letters issued by Mr. Henry F. Brennan, Chairman of the Committee for City Employees, are being distributed with this order. The letter contains a schedule of suggested contributions in accordance with the amount of salary received. In order to raise the quota assigned to the Fire Department, it is hoped that each employee will find it possible to contribute the equivalent of at least one day's pay to the fund. If possible, a larger donation according to the schedule attached would be most welcome.

In order that the sacrifice will not impose hardship upon the contributors, it has been arranged that the total sum contributed by each individual may be divided into 20 equal payments, beginning January 5, 1948.

Pledge cards are being distributed to the department today. Company commanders and heads of department branches are requested to personally interview each member of their commands, including employees on sick and injured leave, and ask them to make a contribution. All pledge cards are to be made out, including the stub, segregated by companies, and are to be returned to the Fire Commissioner on or before October 27, 1947. Do NOT DETACH STUB. However, completed cards should be sent to Headquarters as soon as possible before October 27, and company commanders should not hold a number of completed cards while awaiting completion of one or two others. Members are requested to place their company numbers on the upper right-hand corner of both the card and stub which is

attached. In no cases are deductions to be made from the pay roll. Company commanders and heads of department branches, for their own information, will make a list of all who pledge a contribution to the fund.

Each week on the regular pay day the money donated will be collected from contributors by company commanders and solicitors in department branches who will forward the receipts to Headquarters once each week. Miss Mary C. Kelley has been assigned by the Fire Commissioner to accept the money and give receipts therefor. Delivery of money at Headquarters can be made between the hours of 9 and 11 a. m. Literature concerning the Community Fund is being distributed to the department.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 951.

I am pleased to publish for the information of the department the following letter received from Police Commissioner Arthur W. Wallander, New York City:

The Police Commissioner,
City of New York,
October 7, 1947.

HON. THOMAS F. SULLIVAN, *Commissioner of Police*, Boston 16, Mass.

DEAR COMMISSIONER SULLIVAN,— Please permit me to extend my personal thanks and the thanks of the members of this department for the very fine reception accorded the representatives of the New York City Police Department who attended the National Holy Name Society Convention in Boston on Sunday, October 5, 1947.

Upon their return to New York our boys had nothing but the highest praise for the manner in which they were received and entertained by the officials and men of the Boston Police Department. Please tell them of our deep appreciation.

If there is ever any way in which this fine spirit of cooperation can be reciprocated, please call on us, for we will be most happy to be of service.

With kindest personal regards and best wishes, I am,

Sincerely yours,

ARTHUR W. WALLANDER,
Police Commissioner.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 952.

The following circular letter received from his Honor, Temporary Mayor J. B. Hynes, is published for the information of the department:

Circular Letter No. 22.

CITY OF BOSTON,
MAYOR'S OFFICE, October 7, 1947.

To the Heads of All Departments.

GENTLEMEN,— President Truman has called upon the people of the United States to reduce food consumption, in order that we might help sustain the lives of millions of half-famished people in Europe. The President has expressly requested that curtailment in the use of food be accomplished in the following four ways:

1. The cutting on the feeding of grain to the livestock. (This would apply to Deer Island.)
2. Meatless Tuesdays.
3. No eggs and poultry on Thursdays.
4. Reducing bread by at least one slice a day.

You are directed to take whatever action is necessary to assure the success of the President's program. It is realized that this program is open to exceptions in cases where special diets are required, but, in the main, all department officials concerned should promptly arrange to follow the recommendations of the President.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Members of the department are requested to give their wholehearted cooperation to the recommendations of the President.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 953.

Under the provisions of General Laws (Ter. Ed.), chapter 31, section 16A, the Director of Civil Service having approved transfer of Patrolman William E. Penwarden, Division 10, to the Capitol Police Force, Office of the State Superintendent of Buildings, Commonwealth of Massachusetts; the said Patrolman William E. Penwarden will terminate his services in the Boston Police Department at 7.45 o'clock a. m., Wednesday, October 15, 1947.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

NAMING OF FIRE BOAT FOR JAMES F. MCTIGHE.

The following was received:

City of Boston,
Office of the Mayor, October 3, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Fire Commissioner relative to your order of September 29, concerning the naming of one of the new fire boats in honor of James F. McTighe.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Fire Department, October 2, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Mr. Mayor,—I acknowledge receipt of the City Council order requesting that one of the new fire boats be named in honor of James F. McTighe.

Inasmuch as the present fire boats are named after World War I veterans, it might seem more appropriate to give consideration to a deceased veteran of World War II who was a former member of this department.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

Placed on file.

TRANSPORTATION OF SCHOOL CHILDREN FROM COLUMBIA VILLAGE.

The following was received:

City of Boston,
Office of the Mayor, October 3, 1947.
To the City Council.

Gentlemen,—I submit herewith communication from the School Committee with reference to your orders of September 3 and September 15 concerning bus transportation for school children living at the Columbia Village Project.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
School Committee, October 1, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Sir,—At a recent conference of the School Committee, orders passed by the City Council under dates of September 3 and September 15, 1947, requesting "that provision be made for bus transportation for school children living in the veterans' temporary housing project located at Columbia Village (Camp McKay)," were referred to the Board of Superintendents.

The Board of Superintendents reported to the committee that under section 68 of chapter 71 of the General Laws, the School Committee may not furnish transportation to school children going to and coming from school where the distance thereto and therefrom is two miles or less. The

committee would respectfully inform the City Council that the Cora Etheridge School on Harbor View street, Dorchester, is nine-tenths of a mile from Columbia Village.

Very truly yours,

LOUISE KANE, Secretary.

Placed on file.

TRANSFERS OF APPROPRIATIONS.

The following were received:

City of Boston,
Office of the Mayor, October 6, 1947.
To the City Council.

Gentlemen,—The inclosed request for transfer of appropriations, together with the accompanying order, is forwarded for consideration and adoption by your Honorable Body.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Special Appropriation, Park and Playground Improvements, etc., \$9,000, to the appropriation for Park Department, A-2, Temporary Employees, \$9,000.

City of Boston,
Office of the Mayor, October 6, 1947.
To the City Council.

Gentlemen,—The inclosed request for transfer of appropriations, together with accompanying order, is presented for consideration and approval by your Honorable Body.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Special Appropriation, Park and Playground Improvements, \$3,500, to the appropriation for Park Department, D-9, Educational and Recreational, \$3,500.

Severally referred to the Executive Committee.

APPROPRIATION FOR SMALL PARK, SOUTH BOSTON.

The following was received:

City of Boston,
Office of the Mayor, October 6, 1947.
To the City Council.

Gentlemen,—There is forwarded herewith a communication from the chairman of the Park Commissioners requesting an appropriation of \$20,000 for the purchase of land and buildings on Macallen street and Dorchester avenue in the South Boston district of Boston in order that the area may be developed into a small public park or triangle.

In compliance with this request there is forwarded herewith an order appropriating this sum of \$20,000 from the Special Account, Sales of City Property to the Park Department, adoption of which is recommended by your Honorable Body.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, October 3, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Sir,—I respectfully request that an appropriation of \$20,000 be made for the cost of acquiring the land and buildings thereon, and the development of the area into a public park, on Macallen street and at the southwest corner of Dorchester avenue, South Boston.

The land in question is as shown on the plan of the Street Laying-Out Department, dated March 8, 1945, signed Thomas F. McGovern, Chief Engineer, in two parcels, one of which contains 1,222 square feet and the other 1,473 square feet.

The Street Commissioners, under its authority, in order to round off this dangerous corner, made a taking of private property to the actual street line of the proposed widening.

The rear portions of the lots taken for street widening purposes, with the buildings thereon, should be taken for public purposes. It is intended to develop the area into a public park or triangle similar to the other small public parks and triangles at other intersections in the city.

I respectfully request that \$20,000 be made immediately available to this department for this purpose, from any available source outside of any of the present Park Department appropriations.

Respectfully yours,

JOHN J. MURPHY, Chairman.

Ordered, That under the provisions of section 63 and section 7, clause 2 of chapter 44 of the General Laws, the sum of twenty thousand dollars (\$20,000) be, and the same is, appropriated from the Special Account, Sales of City Property, to be expended under the direction of the chairman of the Park Commission, as follows:

Acquisition of land for the establishment of a park in the South Boston district, \$20,000
Referred to the Executive Committee.

COURT HOUSE CUSTODIAN DEPARTMENT.

TO METAL EQUIPMENT CONTRACTORS.

The Commission for the Care, Custody and Control of the Suffolk County Court House invites sealed proposals for furnishing and installing, ready for use, by qualified manufacturers, or representatives thereof, metal document file cases in the office of the Clerk of the Municipal Criminal Court, New Court House Building, Pemberton square, Boston, Mass. The plans and specifications covering this work may be examined at the office of the Superintendent, Room 119, Old Court House, Boston, Mass. A bond of a surety company satisfactory to the Court House Commission for the full amount of the contract price to secure the due performance of the contract and the full protection of the County of Suffolk will be required. *Proposals may be obtained at the office of the Superintendent, Room 119, Old Court House, Monday, October 20, 1947. Each proposal must be signed by the bidder, placed in an envelope, properly sealed and marked "Proposal for Metal Equipment for Office of the Clerk of the Municipal Criminal Court," and left at the office of the Court House Commission, Room 318, New Court House Building, Boston, before 12 o'clock noon of Wednesday, November 5, 1947, with a certified check for \$200, payable to and to become the property of the County of Suffolk if the proposal, after acceptance, is not carried out. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the duplicate copy with the certified check to be left as stated above, but the original copy, without check, to be filed with the City Auditor, City Hall, Boston, before the time given above for the opening of the bids. The Commission reserves the right to reject any and all bids which, in its opinion, it may deem for the best interests of the County of Suffolk. Bidders will specify the time necessary for the completion of the contract.

COURT HOUSE COMMISSION,

PUBLIC BUILDINGS DEPARTMENT.

INVITATIONS FOR PROPOSALS FOR FURNISHING AND INSTALLING GRILLES ON WINDOWS AND DOORS AT NEW SOUTH BOSTON GYMNASIUM.

The Superintendent of Public Buildings of the City of Boston, hereinafter referred to as the Awarding Authority, invites sealed proposals for furnishing and installing grilles on windows and doors at new South Boston Gymnasium.

Proposals will be received until 12 o'clock noon, Tuesday, October 28, 1947, at the office of the Awarding Authority, Room 1005, City Hall Annex, at which time and place they will be opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

No bidder may withdraw his bid within thirty days after the actual opening thereof.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$200, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Specifications may be obtained on and after Monday, October 20, 1947, at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do.

JAMES E. SULLIVAN,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REPAIRING THE PAVEMENT OF THE SUMNER TRAFFIC TUNNEL.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairing the pavement of the Sumner Traffic Tunnel. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Repairing the Pavement of the Sumner Traffic Tunnel," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of TUESDAY, OCTOBER 28, 1947, with a certified check for SIX HUNDRED (600) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

SATURDAY, OCTOBER 25, 1947.

No. 43

BOSTON DOING ALL POSSIBLE TO PROVIDE HOUSING FOR VETERANS' FAMILIES, ENOUGH TO WARRANT SUBSTANTIAL HELP FROM THE COMMONWEALTH, TEMPORARY MAYOR JOHN B. HYNES TELLS STATE'S SPECIAL COMMISSION ON VETERANS' PROBLEMS—APPEARS BEFORE BODY DEALING WITH HOUSING, TRAFFIC, RECREATION, AND STREET LIGHTING FOR BOSTON—CITY HAS SPENT APPROXIMATELY \$400,000 FOR SOME 765 TEMPORARY DWELLING UNITS AND IS NOW IN MIDST OF PROGRAM FOR PERMANENT HOUSING—UP TO ALL AGENCIES IN COOPERATION TO SOLVE PROBLEMS.

The following is the statement of Temporary Mayor John B. Hynes to a special commission on veterans' problems in Room 222, State House, October 20:

Several weeks ago I appeared before another legislative recess commission dealing with housing, traffic, recreation, and street lighting in the City of Boston. At that time I pointed out that Boston is doing everything within its power and its present financial condition to help improve its critical housing situation. I also offered some suggestions for possible steps through which the Legislature might aid Boston and other local communities.

First of all, it should be understood that housing is a national problem and one that must be approached on the national and state levels. In Boston, the need is far too vast for the city alone to meet, without extensive help from the state and federal governments. About 15,000 to 20,000 dwelling units are required to provide homes urgently needed by veterans and to prevent a further decentralization of the city, which Boston cannot afford. The greatest need is by veterans whose earnings are in the vicinity of \$50 a week, and who, for the most part, want to rent homes rather than to purchase them. In this connection, I might point out that Boston is essentially a city of rent-payers. Only one out of every five families owns its own home, as compared to an average of three out of five home owners in Newton.

Two-Family Dwellings.

That is why Boston is directing its \$20,000,000 veterans' housing program largely to multiple and two-family dwellings. We have appropriated \$10,000,000 for single and two-family houses; we are also prepared to go ahead with the long-delayed South End project as a municipal veterans' project if we do not receive federal approval in the early future for its development as a low-rent project. We have also allocated moneys for the erection of other multiple dwellings.

We hope to have a fairly substantial number of one- and two-family houses ready for occupancy by the time the snow flies and a much greater number under construction within the next few months.

I realize that the number of units we can provide under this program will not meet the need, but the blunt fact of the matter is that the city is now in the process of doing as much as it can possibly afford to do—possibly even more than it can afford from a financial standpoint.

I believe this commission should recommend to the Legislature that it memorialize Congress for the enactment of either the Taft-Wagner-Ellender Bill or some other measure of similar nature. Because the need is nation-wide, because federal resources are greater than those of states or cities, and because the federal government already has the pattern of an established program, I believe federal legislation is essential.

Need Congress's Help.

We need the help of Congress not only to relieve the housing shortage in the low-income levels, but also to stop the forces of blight and decentralization, to redevelop neighborhoods, and to make the fullest use of existing streets, utilities, and schools in rebuilding our cities. Enactment of a new federal law providing for the use of government credit and subsidies is necessary to meet the housing problem in the proper manner.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

THEY NEVER FAIL WHO DIE IN A GREAT CAUSE, TEMPORARY MAYOR JOHN B. HYNES TELLS ARENA AUDIENCE AT MEMORIAL SERVICES HONORING DEAD OF WORLD WAR II—SAYS THESE HEROES, LIKE ALL OTHER HEROES WHO REST IN PEACEFUL AND ETERNAL SLUMBER, WILL NEVER BE FORGOTTEN, AND THE LIGHT OF FREEDOM, FOR WHICH THEY DIED, WILL NEVER BE DIMMED OR EXTINGUISHED—JOINS WITH ALL BOSTON CITIZENS IN RENDERING HONOR AND TRIBUTE.

Temporary Mayor John B. Hynes, addressing the gathering at the Boston Arena on October 19 in connection with the memorial services for the dead of World War II, spoke, in part, as follows:

We are gathered here today, at these memorial services, to pay honor to our fellow citizens who, in the last great war, gave life itself that this, our country, might remain true to the principles that were won through the blood and the sacrifices of other great heroes and martyrs of the past.

Beginning this week, and continuing for many months thereafter, young men and women who left our city at the call of the colors just a few brief years ago will come back to our city, not in the full bloom and vigor of youth, as they went away, but silently, softly, and quietly, under the canopy of immortality.

HEROES NEVER FAIL.

These, our fellow citizens, like all the gallant heroes who rest in eternal slumber, have not failed in death, because they never fail who die in a great cause.

Over a century and a half ago, the torch of freedom was lighted in our old historic city, the torch that signaled to the world that here, on this continent, in this fruitful land, man could enjoy the freedoms and the liberties denied him in the lands of his forefathers. All down through the years that have passed, that torch has remained lighted. It has not always burned brightly; at times it has flickered and wavered, as the winds of storm and passion and strife threatened to extinguish it, but it has never ceased to burn because men and women have been willing to undergo hardship, to sacrifice, yes, and to die, to keep that torch aloft and its flame alight. The price of freedom does not come cheaply; it is paid for on the altar of death.

The first of our honored dead will soon return to us, return to their families, and to the mothers who gave them birth and gave them to the world. What words are there in this or any language that can express our feelings toward our departed heroes or express our feelings for the mothers whose grief and sorrow will know no end until God takes them to His eternal paradise?

America is the home of the free and the brave, and it is free because men are brave, brave in the face of certain death, brave because deep within them was the knowledge that the peace and security of those left behind was in danger. America has never forgotten, nor will it ever forget, those who have looked unafraid into the unknown and uncharted great beyond.

We here in Boston have never forgotten the heroes of other days who rest in peaceful and eternal slumber, nor will we forget these, our new heroes, who are coming back to us wrapped in the folds of the flag they loved so well. There is little we can do for them except to honor their memories and except to vow that we shall not let that light for which they died, the light of freedom, be dimmed or extinguished.

All Boston pays homage to our fellow citizens who are coming back to us to sleep in God's green acres, in nature's

tender bosom, heroes, all heroes, forever, heroes in the sight of us, their fellow citizens, and heroes in the sight of God in Heaven, for Whose eternal rights they gave life itself.

"ON FAME'S ETERNAL CAMPING GROUND
THEIR SILENT TENTS ARE SPREAD,
AND GLORY GUARDS WITH SOLEMN ROUND
THE BIVOUAC OF THE DEAD."

May God have mercy on them. May they rest in eternal peace.

TEMPORARY MAYOR JOHN B. HYNES TELLS STATE SPECIAL COMMISSION ON VETERANS' PROBLEMS THAT BOSTON IS DOING ALL POSSIBLE TO PROVIDE HOUSING FOR VETERANS.

(Continued from page 1173.)

One of the provisions of the Taft-Wagner-Ellender Bill is "to assist the several states and their political subdivisions in eliminating slums and blighted areas and providing maximum opportunity for the redevelopment by private enterprise of land in such areas; financial aid shall be extended to localities for the assembly, clearance, and preparation of such land for redevelopment."

Passage of such legislation would offer an opportunity for the rehabilitation of many run-down areas at a minimum cost to the city and restore the areas with predominantly privately operated taxable enterprises. In the heat of the discussions over the public housing phases of the bill, that portion of it was generally overlooked, but it is one which might mean much to a city such as Boston.

FOR 1400 FAMILIES.

Two proposed low-income projects, one in South Boston and the other in the South End, which would provide apartments for about 1,400 families, have been stalled for several years, first by the

war, and more recently by the inability to overcome legal technicalities, so that the federal government could finance a major part of the expense. It is now estimated that those two projects will cost in the vicinity of the \$14,000,000, and, if they were built under the provisions of this year's federal legislation, the city's share of the expense would be in the vicinity of \$5,250,000.

We are going ahead with plans for the South End project and we will build it either as a low-rent project under federal law or a veterans' housing project under the provisions of our State Veterans' Housing Law.

We are hopeful that federal approval can be obtained, so that it will be constructed as a low-rent project with federal assistance, since that would lower the amount of money the city would have to expend on that particular development and increase the amount that could be spent for the Municipal Veterans' Housing Program.

If federal approval is not forthcoming in the near future, the city will build the South End project with city funds.

I have been advised that state officials and veterans' groups have urged this commission to recommend legislation for a program of state construction of housing for veterans and of state subsidies and guaranties for low-rent housing. Obviously, with private residential construction practically at a standstill, and with the need so tremendous, we shall have to provide housing out of public funds and public credit. The federal government can best afford the financial cost for housing. In the absence of federal assistance, the cities which cannot bear the bulk of the financial load must look to the state for greater assistance in solving this difficult problem. State construction, state subsidies, and the use of state credit can make more housing available quickly and effectively.

BURDEN ON MUNICIPALITIES.

Next, let me point out that existing state legislation places the entire financial burden of providing veterans' housing on municipalities in the first instance.

Only when cities and towns have sold all the houses constructed and operated by them and established whatever loss has been incurred, does the Commonwealth reimburse them to the extent of one half of that loss incurred, with the limitation that the reimbursement by the Commonwealth cannot exceed one tenth of the total expenditure by the municipality.

I believe that cities and towns would be encouraged to provide veterans' housing if the state made its credit available in the first instance and if the state's share of any loss by the municipalities were greater.

I would suggest that your commission recommend those two steps to the Legislature, as well as the elimination of the existing limitation that the state's contribution shall not exceed one tenth of the amount spent by the city or town.

Your commission, in my opinion, should also propose that the state make available to cities and towns, starting in 1948, a total of \$1,600,000 annually for a ten-year period from the Veterans' Services Fund.

That would amount over the ten years to \$16,000,000, the sum the Governor last year stated would be available from the Veterans' Services Fund for reimbursement to cities under the amendments to chapter 372 of the Acts of 1946.

WOULD CUT TAX LEVIES.

The use of this \$1,600,000 annually would avoid or reduce substantial tax levies by cities and towns for veterans' housing, would encourage the immediate production of housing, and would involve no outlay by the Commonwealth in excess of the amount originally anticipated, with no additional borrowing or taxes by the Commonwealth.

Such legislation should also include a provision that none of its benefits would be available to a city or town unless a program was launched within a comparatively short time after the effective date of the legislation.

By way of explanation, let me give you an example of how that might work out in Boston. Assume that Boston has a \$20,000,000 municipal program of veterans' housing. If the state, beginning next year, made an annual payment of \$400,000 to the city from the Veterans' Services Fund, the total payment to the city over the ten-year period would be \$4,000,000, or one fifth of the city's outlay.

This \$400,000 annual payment would make available to Boston 2 per cent of its initial borrowing, enough for interest and partial amortization, and would avoid the necessity of including any amount in Boston's tax rate for housing.

Since this money is available in the Veterans' Services Fund, the state would not be called upon to find additional revenue to make the payments.

If cities and towns throughout Massachusetts were given annually, for a ten-year period, 2 per cent of their initial expenditure for permanent veterans' housing, and if the total payment by the Commonwealth were the \$1,600,000 annually which is available, we could have \$80,000,000 worth of housing started by municipalities during the next year.

This would not only provide a very substantial number of dwellings for the families of our veterans, but would also create property that would yield tax revenues as soon as the houses were sold by the cities and towns.

BOSTON DOING SHARE.

To review for just a moment what Boston has done and is doing to provide additional houses, let me state that it has spent approximately \$400,000 for some 765 temporary dwelling units. It is now in the midst of a \$20,000,000 program for the creation of permanent housing.

We have cooperated, wherever and whenever it was possible to do so without injuring the city, with private industry in its attempts to put up residential property.

I believe Boston is doing everything it can do itself with respect to this most vital problem, probably even a little more than it can actually afford to do from a financial standpoint, and it is doing enough on its own behalf to warrant more substantial help from the Commonwealth. Housing is one of Boston's most critical problems.

All of the agencies of government, labor, and industry, working together, must solve this problem, just as they solved even more serious problems during the war. Boston has shown its willingness to do its part. The federal government has a grave responsibility, which must be met and cannot be shirked. The state, which has begun to go part of the way, should take even more substantial steps in the future. And, because of the urgency of the need, I suggest that the Legislature place housing at the top of the agenda at the coming session.

BOSTON EQUIPMENT READY FOR WINTER'S SNOW REMOVAL CAMPAIGN — TEMPORARY MAYOR HYNES FURNISHED INFORMATION BY PUBLIC WORKS DEPARTMENT ON REQUEST.

His Honor Mayor Hynes, on October 21, received the following letter from Richard C. Dwyer, Division Engineer, Public Works Department:

DEAR MR. MAYOR,—In reply to your request for a list of snow-fighting equipment on hand or on order for the Public Works Department, please be advised—

At the present time we have 6 large Walter snow fighters, complete with hopper bodies and mechanical spreaders for use in spreading sand or salt. These snow fighters have been completely overhauled and rebuilt during the past summer. Contracts have been placed for 5 more of these units, 3 of which will be delivered in November, 1947, 1 in December, 1947, and 1 in January, 1948.

All of the above-mentioned snow fighters are equipped with conventional front end plows, underbody scrapers for ice removal, and drift plows which are used only in the event of extremely severe storms for breaking open large drifts.

We have also purchased 1 gas-powered Huber road grader, complete with center scraper and snowplow blade, delivery of which is expected on or about November 15, 1947.

We have on requisition 2 Diesel-powered angle dozers, bids for which were received by the Supply Department on Friday, October 17, 1947, and delivery of which is expected in the near future.

We have on hand 8 small Walter snow fighters with conventional plows, dump bodies, and mechanical sand or salt spreaders for use in sanding or plowing.

There are 5 five-ton White dump trucks which can be equipped with plows or may be used for the hand spreading of sand or salt.

Also we have 3 gas-operated bucket loaders, completely reconditioned, for the loading of sand or salt from stock piles into truck bodies.

There are on hand 12 Barber-Greene snow loaders, 8 of which were delivered in 1936, 3 in 1935, and 1 in 1926.

Since January 1, 1947, we have received delivery of 28 new 1½-ton dump trucks in the Highway Division and 8 in the Sanitary Division, and we expect delivery of 22 additional units before the end of 1947. These particular trucks are suitable for hauling snow away from hand gangs or for patrol plowing after the streets have been opened up.

We also have on hand 258 snowplows, all of which are hydraulically operated, for use on our own or contract vehicles and have placed orders for 20 additional units, delivery of which is expected in 1948.

Respectfully,

RICHARD C. DWYER,
Division Engineer.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of underground construction by the Boston Edison Company, estimated to be one (1) week, vehicles are excluded from the following street, effective October 22, 1947:

Revere Street, Boston Proper.

From Charles street to West Cedar street.

GLOWING TRIBUTE PAID TO ST. MARY'S CHURCH IN NORTH END FOR HER INFLUENCE FOR GOOD IN THE CITY OF BOSTON BY TEMPORARY MAYOR JOHN B. HYNES—ENUMERATES SOME OF INFLUENCES OF EDIFICE AND PARISH DURING OBSERVANCE OF 100TH ANNIVERSARY OF THE COMING OF JESUIT FATHERS TO BOSTON AND CHURCH—CEREMONIES HELD AT BOSTON GARDEN ON TUESDAY, OCTOBER 21—TOUCHING TRIBUTE PAID TO SAINTLY GUIDANCE OF FATHER McELROY UNDER WHOSE INSPIRATION CHURCH WAS BUILT—TEACHINGS OF JESUIT FATHERS IN CHURCH HAVE BEEN OF VAST GOOD IN INFLUENCING CHARACTERS OF CITIZENS OF BOSTON.

At the Boston Garden, Tuesday, October 21, at the celebration of the 100th anniversary of the coming of the Jesuit Fathers to Boston and to St. Mary's Church, John B. Hynes, Temporary Mayor, spoke in part, as follows:

When Father Archdeacon asked me to come here tonight to express the greetings of the City, I was very happy to accept his kind invitation — for there is no Catholic church in our city which seems to be more a part of our city than old St. Mary's.

For years upon years, the business people of Boston have considered St. Mary's to be almost in the same status as their own local parishes, and considered the good Jesuit Fathers to be their personal advisors.

There must be — there surely must be — some sort of special blessing which comes to those who attend the noonday Masses at St. Mary's — for on Holy Days of Obligation, those Masses are thronged by what seems to be all of downtown Boston.

It can't be that the early Masses at the local parishes have anything to do with it — and I prefer not to think that the comfort of remaining in the arms of Morpheus for another hour or so has anything to do with it. It must be, that in that grand old edifice, where so many souls have communed with their Maker, and have been saved for all eternity, there is an overabundance of graces — unused, unheeded graces — to be shared by us — the living — who are in so much need of them.

INFLUENCE OF ST. MARY'S.

At any rate, there is something in the very atmosphere of St. Mary's Church which seems to bring us closer to the eternal verities, for one cannot help but think, as he visits that House of God, of the determined, unswerving faith of those, who, under the saintly guidance of Father McElroy, built St. Mary's Church out of earnings that were meagre—to say the least.

One hundred years ago, when Father McElroy and his brother Jesuits first came to St. Mary's, the puritan influence in Boston was still a strong and potent factor in the business and social life of our city. The Catholic of those days was looked upon with a combination of suspicion and scorn. He was the drawer of water and the hewer of stone—and his opportunities to rise above that state were few, and beset with many difficulties.

We can thank God that the intolerances of the last century have largely disappeared. We can thank God for the holy men from Father McElroy down to Father Whelan, and all the other workers in God's vineyard, who have imbued their flocks in our city with a spiritual strength and vitality which, today, is the marvel and the envy of those without the fold.

100 YEARS OF SERVICE.

For one hundred years—a long time even in the life of the church—the Jesuit Fathers at old St. Mary's have taught that man's goal in this life is to save his soul for the life to come. Only the Lord himself knows how well they have succeeded in their preachments of that fundamental dogma of the church—so

beautifully expressed in these lines from Gray's Elegy:

"The boast of heraldry, the pomp
of power,
And all that beauty, all that
wealth e'er gave;
Await alike the inevitable hour,
The paths of glory lead but to
the grave."

Boston is proud of stately old St. Mary's Church—proud of its secure place in the life of our city—proud of the long list of Jesuit Fathers who have preached the word of God from its altars—proud of the first parishoners who gave so much out of so little that its spires might reach to the heavens—proud of its great number of faithful who have done so much, and meant so much, in the spiritual and material progress of our city.

May that citadel of prayer and worship—St. Mary's of the Sacred Heart—always remain a treasured landmark in Boston—and may the zealous, scholarly counterparts of God—the members of the Society of Jesus—also remain with us—not for just another century—but until Boston is no more—and we all meet again—please God—in the House of Many Mansions.

CITIZENS INVITED TO INSPECT MASSACHUSETTS M-DAY AIR FORCE DISPLAY.

On October 17 the Temporary Mayor issued the following statement:

It is imperative that the regular Air Forces be adequately implemented by a mobile, effective and well-trained fighting M-Day unit, equipped with the most modern weapons.

This important mission falls again upon our own citizen-soldiers, our friends and neighbors who unstintingly devote their spare time and talent, wearing the uniform of the Massachusetts Air National Guard, in order to be ready, if their services should be required, to defend their homes and loved ones.

This vital Air Unit needs the support of all. Theirs is an important mission, the aerial defense of this section. We should lend every effort toward building their numbers. We should be better acquainted with their organization, equipment, and personnel. In order to familiarize ourselves with this M-Day Massachusetts Air Force, I sincerely invite you to visit Boston Common on Thursday, October 23, from 8 a. m. to 10 p. m., and inspect the men, their planes, and intricate radar and radio equipment.

CONGRESS STREET BRIDGE CLOSING.

Because of the necessity of making some essential repairs and also to do painting on the draw of the Congress Street Bridge, over Fort Point Channel, crossing from the City Proper to South Boston, Commissioner Robert P. Curley of the Public Works Department announced on October 18 that the bridge would be out of service for vehicular traffic on Sunday, October 19, from 8 a. m. to 4.30 p. m.

Motorists were requested to avoid this route on Sunday, while in downtown Boston. The Boston Traffic Commission will provide the necessary signs for detouring traffic, Commissioner Curley stated.

At the exercises at dedication of the Roger Kiley Playground in the South End Temporary Mayor John B. Hynes spoke as follows:

I am very happy to be here this afternoon at the dedication of this new playground to the memory of Roger Coleman Kiley.

This is the second playground given to our city by Mr. Henry L. Shattuck. In 1942 he made a similar gift, which is now known as the Tobin Playground. I do not think we can praise too highly the thoughtfulness and generosity of Henry Shattuck, whose great charitable heart is in evidence here today. His name will go down in the history of Boston with the names of other great philanthropists like George Robert White and George F. Parkman, and as these gentlemen loved Boston he, too, loves Boston. He loves its people and he loves its little children.

No matter how busy he may be in the many affairs which consume his time, he has repeatedly shown that there is room in his mind and in his heart for those whose lives are made brighter by just such gifts as this playground. Henry Shattuck is a man of the highest character, admired and respected by all of Boston. His service, as a member of our City Council and in the State Legislature over a long period of years, has earned for him a record unsurpassed by any other figure in contemporary public life. He is one of Boston's leading citizens and one of its most generous benefactors. I salute today, in the name of all the citizens of Boston, Mr. Henry L. Shattuck.

DEDICATED TO AMERICAN YOUTH.

This playground is being dedicated today to a young friend of Henry Shattuck, Roger Coleman Kiley, who died in the service of his country in 1943. Roger Kiley was a real American boy, whose father, here with us today, has been prominent in the public and business life of our city for almost half a century. To the memory of this fine young American who died in the flush of his manhood Henry Shattuck has given this playground—given it to the use and enjoyment of all the young boys and girls in this neighborhood who some day, like Roger Kiley, will be upstanding citizens of our community.

These small playgrounds are wonderful additions to the playground system of our city, for they provide opportunities for growing boys and girls to expend their

energies in health and wholesome environments. The South End of Boston needs more of these outlets. So does the North End. So do parts of Roxbury. The need is so great for them that the City of Boston cannot assume the obligation of constructing them, and it remains for men like Henry Shattuck to come to our assistance and do the things for us which we would like to do ourselves.

This playground should be guarded and cared for by the children who use it, and I ask their parents and the grown-ups in this neighborhood to take a special interest in this playground—to see to it that it is preserved and that destruction be at a minimum. It costs the City of Boston hundreds of thousands of dollars each year for wanton and deliberate vandalism, and the cost of that vandalism must be borne by all the people of our city.

This is your neighborhood playground. Be proud of it. Watch over it. Think of this man, Henry Shattuck, whose money and whose heart is in it. Organize a community association to make certain that the playground is used as it should be used, and protected as it should be protected, and, if you do that, you will then be saying to Henry Shattuck, as I say to him now—"Thank you, Henry L. Shattuck, for your wonderful generosity to our city."

**CITY PURCHASES NEW ISSUE
OF UNITED STATES TREAS-
URY BONDS.**

The Temporary Mayor has approved the request of the City Treasurer as contained in the following letter:

BOSTON, September 24, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—The United States Treasury Department has announced that it will receive subscriptions at par beginning September 29, 1947, for a new type of United States Government security to be designated as United States Treasury 2½ per cent bond, Investment Series A-1965. This bond will be an 18-year nonmarketable security and will yield considerably more than other available government securities at present market prices.

Subscriptions to this new issue will be limited to certain classes of investors among which are endowment funds. We have received a ruling from the Federal Reserve Bank of Boston to the effect that the George F. Parkman Fund comes under this category and subscriptions up to \$250,000 may be entered for this fund.

The George F. Parkman Fund now holds \$597,500 United States Treasury 4½ per cent bonds due October 15, 1952-47, which have been called for payment as of October 15, 1947. The Treasury Department has announced that although subscriptions to the new issue will be received on September 29, 1947, and that the books will probably remain open for a period of ten days, it also announces that it reserves the right to close the books at any time without notice. Therefore, in order to take advantage of this new issue, it will be necessary to sell at this time \$250,000 of the 4½ per cent Treasury bonds due October 15, 1952-47, in order to provide the funds for a subscription to the new issue before the books close.

Section 4 of chapter 36 of the Revised Ordinances of 1947 provides that for the purpose of investment and reinvestment of trust funds, the City Treasurer shall have power from time to time, in his discretion, to sell or exchange any of the securities of which any of the permanent trust funds of the city consist, but all purchases, exchanges and sales shall be with the written approval of the Mayor.

I therefore respectfully request your approval to sell \$250,000 United States Treasury 4½ per cent bonds due October 15, 1952-47, certificates numbered G 00000777 and H 00000778 in the denominations of \$100,000 each, and certificate numbered D 00000224 in the denomination of \$50,000, all registered in the name of City of Boston, George F. Parkman Fund, and to enter a subscription for \$250,000 United States Treasury 2½ per cent bonds, Investment Series A-1965, for the same fund.

Very truly yours,

HENRY F. BRENNAN,
City Treasurer.

CONSTRUCTION WORK.

The Temporary Mayor has approved the request of the Public Works Department for permission to perform the following construction work:

A 10-inch pipe sanitary sewer in Monument lane, between Bunker Hill street and Concord avenue, in the Charlestown district, at an estimated cost of \$6,000.

Seven (7) catch-basins, four (4) new manholes, one (1) drop inlet, rebuild two (2) manholes, and one (1) catch-basin in Lark street and Macallen street, South Boston; Warren street and Walnut avenue, Roxbury; Orleans street, Saratoga street (private land), Everett court and Butler street, East Boston; Columbus avenue, Carver street and Market street, City Proper, and Wadsworth street, in the Brighton district, at an estimated cost of \$6,500.

A sanitary sewer of 12-inch pipe and one new manhole in Pittsburgh street, between Congress street and 210 feet northeasterly, in the South Boston district, at an estimated cost of \$5,000.

A sanitary sewer to be rebuilt of 18-inch pipe, in Cummington street, between 130 feet west of Blandford street and 250 feet westerly, in the Roxbury district, at an estimated cost of \$8,000.

HON. HENRY L. SHATTUCK PRESENTS THE KILEY PLAYGROUND TO THE CITY OF BOSTON FOR BENEFIT OF SOUTH END CITIZENS AND FAMILIES—SECOND SUCH PLAY SPOT IN DISTRICT FOR USE AND ENJOYMENT OF THOSE LIVING IN VICINITY—SPOT DEDICATED TO COMMEMORATE WAR HERO WHOSE YOUNG LIFE WAS SPENT IN NEIGHBORHOOD—DONOR OF PLAY SPOT PRAISES LIFE OF MAN AFTER WHOM RECREATION SPOT HAS BEEN NAMED AND HOPES AREA WILL SERVE TO CHECK VANDALISM OF YOUTH—HOPES OTHER AREAS WILL BE SET ASIDE FOR LIKE PURPOSE.

The following were the opening remarks of Henry L. Shattuck at the Kiley Playground dedication ceremonies, October 20:

This playground is primarily for the use of boys and men. It is equipped for handball, horseshoe pitching, skating, and other sports. The adjoining "James and Margaret M. Tobin Playground and Rest Space" is primarily for the use of small children and their mothers. Together, they form a neighborhood place of assembly and recreation. They are owned by the city, and operated by the Park Department with the assistance of Lincoln House and a committee of neighbors. This joint operation I consider most important. In fact, it appears to me to be essential to an effective program, and to protection against the vandalism that has been so prevalent when the support and help of the neighbors have not been enlisted.

It is my hope that these playgrounds will serve as models for what should be done for every neighborhood in the congested portions of our city. Lincoln House and the neighbors here have shown how it should be done.

BUILT DURING WAR.

This playground was built during the war. In turning it over to the city I reserved the right at some time to name it in memory of a friend. Mr. John C. Kiley helped me in the protracted negotiations for acquiring the land. Through him, and particularly on the occasion of a voyage to Ireland in 1938, I became acquainted with his son. Roger was one of the most modest of men. He gave friendship and cheer. He asked little of the world. And yet, through his passion for music, he might have given much. And then the war came. He enlisted, and was assigned to the Air Corps and went into training in the South. There he was stricken. Taken to the Walter Reed Hospital, he died on October 23, 1943.

And now, pursuant to the authority reserved to me by the City of Boston, I name this plot of land "Kiley Playground," and dedicate it to the memory of my friend, Private Roger Coleman Kiley, United States Army Air Forces.

Music was furnished by Johnny Field's Jazz Band, consisting of:

Frank Newton, Trumpet; Ted Goddard, Saxophone; Don Alessi, Guitar; Bill Burch, Drums; Howie Gadboys, Clarinet, and Johnny Fields, Bass.

Mr. Shattuck then continued: These young men play a type of music that was

developed in the first 25 years of this century in New Orleans, Memphis, and Chicago. It is the kind of music that modern musicians enjoy playing. When looking over the personnel of some early jazz bands, one can find the names of such now well known musicians as Benny Goodman, Tommy Dorsey, Gene Krupa, and Jack Teagarden.

Jazz music is typically American. It may have started on the back streets of New Orleans and Memphis, but it has now worked its way into Symphony Hall and Carnegie Hall. It is as typically American as the people of this neighborhood. It is made up of many moods. In good jazz music, as in good neighborhoods like this one, there are no race, color, or creed differences. It may be on this account that Roger Kiley liked jazz music and liked to play it with these young men.

TEMPORARY MAYOR HYNES GRIEVES OVER NEWS OF ZOO CURATOR HARKINS' DEATH.

On October 20, upon learning of death of Daniel J. Harkins, Curator of Franklin Park Zoo, the Temporary Mayor issued the following statement:

I am deeply moved by the news of the death of Daniel J. Harkins, curator at the Franklin Park Zoo. Dan Harkins was one of the most faithful and competent men in the employ of the city. His knowledge of animals and his ability to care for them is known all over the United States. At one time Mr. Harkins was an animal man with the Ringling-Brothers Circus and if he cared to, he could have left our city at any time for a responsible position with the various circuses that tour the country.

His loss will be deeply felt by many thousands of persons who visited the zoo each year and who knew him to be a lovable and kindly man. The City of Boston has lost one of its best and most competent employees.

CHELSEA STREET BRIDGE CLOSING.

Public Works Commissioner Robert P. Curley announced on October 18 that it would be necessary to close the Chelsea Street Bridge, over Chelsea River, con-

necting East Boston and Chelsea, on Sunday, October 19, from 8 a. m. to 4.30 p. m.

The commissioner stated that some very essential repair and painting work must be done, which could be done only while the draw of this bridge is swung out of position.

Appropriate signs detouring traffic were placed by the Boston Traffic Commission, the commissioner added.

Socony Vacuum Oil Company.—Heavy fuel oil No. 6, 4,000 barrels at \$2.565 per barrel, approximate total, \$10,260. Medium fuel oil No. 5, 5,000 barrels at \$2.905 per barrel, approximate total, \$14,525. Diesel oil, 70,000 gallons at 7.6 cents per gallon, approximate total, \$5,320. Total, \$30,105.

In view of the fact that the full requirements of the city departments for fuel oil were not met in the formal proposals, conferences were held with our current suppliers who have agreed to provide the necessary requirements of fuel oils which will insure an adequate supply. It is recommended that contracts be awarded as shown above without further public advertisement. Total amount of contracts, \$538,357.50.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Upon varying dates as indicated the Temporary Mayor has approved contracts with firms, contractors and mercantile houses for furnishing supplies, labor, etc. Communications from the heads of departments interested were as follows:

BUILDING DEPARTMENT.

BOSTON, October 10, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MAYOR HYNES,—Early in February, 1946, an examination was made of the fire station, Engine No. 10, located at 127 Mt. Vernon street, Ward 5, at the request of Fire Commissioner Russell S. Codman, Jr. The examination disclosed conditions warranting a condemnation notice from the Building Department, and the premises were vacated forthwith.

An examination was made also of the adjacent building, No. 129, and it was found that the front and side walls had cracked and that the pile heads beneath the foundation had rotted.

There was some doubt in the minds of all concerned as to the exact location of the party wall between the two buildings referred to above; hence the matter was brought to the attention of the Corporation Counsel, with a request that the line of this party wall be determined. The Corporation Counsel conducted an exhaustive research and found that apparently the city had been trespassing on the premises at No. 129 for many years.

The damage done to the walls of No. 129 could well have been caused by the vibration of the fire apparatus entering and leaving the station house and possibly more done in recent years since the weight of fire apparatus has increased since the engine house was first constructed.

The engine house has recently been razed, thus exposing the party wall in question and indicating a very serious and hazardous condition. The new engine house cannot be erected until such time as the premises at No. 129 are made safe. This cannot be done immediately unless the city performs the work, since there is some question of liability on the part of the City of Boston which can only be settled by recourse to the courts. A lawsuit could well be lengthened and time consumed, and, since the Fire Commissioner is extremely anxious to complete the new building, it is thought that the only method to pursue is to have the city cause the work to be done and a lien placed on the premises, then to be followed by such court action as may be deemed necessary. Your permission is respectfully requested to award a contract for this work, without advertising, to the J. A. Singarella Company, who have been awarded the contract for the erection of the new engine house. In my opinion no benefit will accrue to the city by advertising, since the Singarella Company is already on the job and the work to be done at No. 129 must be carried on simultaneously with the erection of the new engine house.

I am enclosing the proposal from the Singarella Company in which is outlined the scope of the work to be done at a cost plus a percentage basis, with a ceiling price of \$9,700, not to be exceeded. The work to be done will be accounted for on

a day labor plus material used basis, and it is thought that a total cost will be below a maximum set price.

Respectfully submitted,

JOHN J. MAHONEY,
Building Commissioner.

HOSPITAL DEPARTMENT.

Sanatorium Division.

BOSTON, October 7, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested to our awarding two service orders to J. J. Hurley & Co. for work to be done on our steam line in the total amount of \$1,028.

On August 21, 1947, bids were solicited for work to be done to repair a steam leak on the line in the powerhouse. The bids received were as follows:

J. J. Hurley & Co., \$389; Joseph F. Dwyer, \$450; Fred Williams, Inc., \$488; V. J. Kenneally Company, did not bid; J. L. Sullivan & Co., did not bid.

On September 5, 1947, the steam leak had become so bad that it was necessary to have it fixed without delay. Consequently, the lower bidder, J. J. Hurley & Co., were called in to do the work.

On August 25, 1947, bids were solicited for repairing a safety valve on our No. 1 boiler and replacing one of the 8-inch main stop valves. The bids received were as follows:

J. J. Hurley & Co., \$639; Joseph F. Dwyer, \$668; Fred Williams, Inc., \$675; V. J. Kenneally Company, \$712; J. L. Sullivan & Co., did not bid.

At a meeting of the Board of Trustees held on September 19, 1947, it was voted to award this work to J. J. Hurley & Co., the lowest bidder, for \$639. This work has not been started, but our boilers cannot be inspected until these repairs are made.

Due to the similar nature of these two jobs, the Auditor's office has notified me that it will be necessary to obtain your authorization to award this work without advertising, because the two service orders total \$1,028.

The Trustees feel that nothing can be gained by advertising and they therefore recommend the award of this work to J. J. Hurley & Co. in a total amount of \$1,028.

Very truly yours,

M. J. ENGLISH, *President,*
Boston City Hospital Trustees.

PARK DEPARTMENT.

BOSTON, October 15, 1947.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR SIR,—The Board of Park Commissioners respectfully requests your approval of the award of a contract, without publicly advertising for bids, to Fred Ralston & Co., 19 Rector road, Mattapan, for the cutting down of dead elm trees on city streets and in parks under the control of this department.

It is several years now since we have removed dead trees from streets and parks, and in all sections of the city there are trees that require immediate removal. Many of these trees were damaged by storms of recent years and have been slowly dying. It is our policy not to remove or destroy any tree if it is possible to save it, but it has now become necessary to remove many trees located in all sections of the city which are in great danger of falling, with resultant danger to persons and property.

The work to be done under this contract is in no way connected with the work on trees specified in our letter to you dated September 19, approved on September 23.

Fred Ralston & Co. have the proper equipment for this work and also men well trained in tree removal. We have had considerable experience with this company and find that they are tree experts in every sense of the word and well qualified to do the work. They carry the necessary property damage and liability insurance, workmen's compensation, etc.

The Board of Park Commissioners would appreciate having your approval to award a contract to Fred Ralston & Co. for the removal of trees in all sections of the city, where specified, for a sum not to exceed \$5,000 in total. The work is to be done on a per diem basis, at a price agreed upon. The price to be paid to tree-men for taking down the trees is exceptionally low and very reasonable for the city. The cost is to be charged to B-42 in the Park Department budget.

Very truly yours,

JOHN J. MURPHY,
Chairman.

PUBLIC WORKS DEPARTMENT.

BOSTON, September 8, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR MR. MAYOR,—This department is preparing to proceed with the widening and construction of Macallen street, South Boston, from Foundry street to Dorchester avenue, as ordered by the Board of Street Commissioners.

In connection with this work it will be necessary to remove the portions of the properties at 113-119 and 121-123 Dorchester avenue which are now over the newly established line of the street. Invitation bids were requested from four building removal contractors, two of whom submitted proposals to this office today. These proposals are as follows:

John J. Duane Company, \$1,180; City Building Wrecking Company, \$1,400.

We have already advertised in the current *City Record* for proposals to construct this street and in order that there may be no delay in doing the work it was considered advisable to request the bids for the building removal in this manner. As a result no advantage would have been gained by public advertisement.

I respectfully request the authority of your Honor to dispense with advertising and to award this work of the building removal to the lowest bidder, John J. Duane Company of Quincy, Mass., in the sum of \$1,180.

Respectfully yours,

DANIEL M. SULLIVAN,
Acting Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, October 6, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without public advertisement, to Dempster Brothers, Inc., Knoxville, Tennessee, for furnishing to the Sanitary Service, Public Works Department, the following:

Six 4 cubic yard drop-bottom type Dempster-Dumpster detachable bodies, equipped with hinged lids and counterbalancing spring mechanism, at \$362 each, \$2,172; four 2 cubic yard drop-bottom type Dempster-Dumpster detachable bodies, equipped with hinged lids and counterbalancing spring mechanism, at \$225.50 each, \$902—\$3,074.

Since Dempster Brothers, Inc., are the only manufacturers of this equipment, there would be no advantage to publicly advertising for bids.

Total amount of contract will be \$3,074 net.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, October 16, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—On October 7, 1947, your Honor approved the awarding of a contract for snowplows, proposals for which were publicly opened and read on September 18, 1947, as follows:

E. W. Systrom Equipment Company, 12 units (Walsh Holyoke), \$5,940; United Road Machinery Company, 8 units (Ball-Boston barrier blade plow), \$8,320.

The bid of the United Road Machinery Company was irregular, inasmuch as no certified check was deposited with bid and the bidder stated in his proposal that the bid was not a competitive bid but that it was an alternate bid. The plows which the United Road Machinery Company offer are especially designed to carry snow past intersections and bridges without leaving windrows, and the Public Works Department is anxious to be equipped with a few of these special plows.

In view of the irregularity noted above, I would respectfully request that permission be granted me to amend the approval of October 7, 1947, and award a contract, without further advertising, to the United Road Machinery Company as follows:

Eight units (Ball-Boston barrier blade plow), \$8,320.

The bid of the E. W. Systrom Company was regular in every way; therefore I also respectfully request permission to award a contract to the above-named company for 12 units (Walsh Holyoke plows) at a total cost of \$5,940.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, September 29, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Your approval is requested to award a contract to the Remington Rand, Inc., for the following:

Two No. 3100 Tabulators, 100 Sectors, Alpha and Numeric, 120 Counters, Universal Carriage, Accumulator Splits, \$57,510.

Two No. 301-1 Multi-Control Reproducing Punches with Interfiler, \$16,200.

One No. 312-1 Interpreter with Repeat Interpretation Device, \$6,000.

One No. 275 Numeric Tabulator with Summary Punch, 106 Counters, \$16,310.

Two No. 220 Sorters, \$4,800.

Three No. 306-1 Automatic Visible Key Punchers with Verifying Device, \$6,840.

One No. 102 Portable Electric Punch, \$450.

Ten Extra Units (Wiring), \$2,000.

Two Sorting Racks, \$120.

Total, \$110,230.

A machine service contract at the time the machines are installed, calling for an annual payment by the city of 4 per cent of the purchase price.

The Remington Rand Company are, at present, the only manufacturers offering these tabulating machines for purchase, and, in my opinion, no advantage would be gained by publicly advertising.

Attached is a letter from the chairman of the Board of Assessors giving details of a survey conducted in 1941 and 1942. Total amount of contract is \$110,230.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

TRANSIT DEPARTMENT.

BOSTON, September 24, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to place an order, without public advertisement, with the Massachusetts Motor Car Company, Inc., for furnishing one Dodge half-ton new pickup truck to the Transit Department.

This department, under a recent date, asked for bids, and the following bids were received:

Commonwealth Chevrolet Company, Chevrolet, total price, \$1,181, time of delivery approximately 3 weeks; Massachusetts Motor Car Company, Inc., Dodge, total price, \$1,080.53, time of delivery, approximately 6 weeks.

The department is in urgent need of this truck.

The total amount of the order would be \$1,080.53.

We wish to place the order with the Massachusetts Motor Car Company, Inc., which is the lowest bidder, and no advantage would be gained by advertisement.

For this reason, I respectfully request that the permission asked for above be granted.

Respectfully yours,

MALCOLM E. NICHOLS,
Chairman.

SUFFOLK COUNTY.

SHERIFF'S OFFICE.

BOSTON, October 9, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR,—The over sized windows at the county jail (approximately 45 feet high and 8 feet wide and each opening consisting of 8 sets of double windows) are badly in need of repair.

Because of the nature of this work it is impossible to draw specifications in order to place it on bid. Therefore I respectfully request that I be allowed to award this necessary work on a per diem basis.

Yours very truly,

FREDERICK R. SULLIVAN,
Sheriff.

BOSTON, October 10, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR,—Batchelder & Snyder Company have offered me an opportunity to purchase a large quantity of frozen foods. These foods are of the highest quality and can be purchased at a substantial saving to the county. This is possible because these frozen foods are packaged so as not to be acceptable for distribution through their usual business channels.

Since the total purchase price will exceed \$1,000, I respectfully request that I be allowed to complete this purchase without competitive bidding since obviously the circumstances preclude any bidding.

Yours very truly,

FREDERICK R. SULLIVAN,
Sheriff.

LAND-TAKING IN WEST ROXBURY.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Washington Heights Avenue East, West Roxbury district, as a highway, from Washington street southeasterly about four hundred and twenty-six feet, with the name of Woodley avenue or some other distinctive name, bounded and described as follows:

A highway named Woodley avenue is hereby laid out, from Washington street southeasterly for a distance of approximately four hundred and twenty-six feet, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken is bounded and described as follows:

Northwesterly by Washington street, forty and 61-100 feet; northeasterly by the northeasterly line of said Woodley avenue as hereby laid out, four hundred thirty and 37-100 feet; southeasterly by the southeasterly line of said avenue as hereby laid out, forty feet; and southwesterly by the southwesterly line of said Woodley avenue as hereby laid out, four hundred twenty-three and 36-100 feet.

Trees or structures standing upon or affixed to the aforesaid land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered. That this Board estimates that the abutting lots of land on both sides of Woodley avenue, West Roxbury

district, as laid out under this order, from Washington street southeasterly for a distance of approximately four hundred and twenty-six feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount herein-after respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Woodley Avenue, West Roxbury, October 2, 1947, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department," and on file in the office of this department.

CITY OF BOSTON.

BOSTON HOUSING AUTHORITY.

PROPOSALS FOR FURNISHING AND INSTALLING SIGNS IN VETERANS' HOUSING DEVELOPMENTS, BOSTON, MASS.

The City of Boston, acting by and through the Boston Housing Authority, in accordance with the provisions of chapter 372 of the Massachusetts Acts of 1946, as amended, office, Room 1220, 10 Post Office square, Boston, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing and installing signs in veterans' housing developments, Boston, Mass.

A bond will be required for doing the work of a surety company approved by the Boston Housing Authority in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 1220, 10 Post Office square, Boston. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Furnishing and Installing Signs in Veterans' Housing Developments, Boston, Mass." and left at Room 1220, 10 Post Office square, Boston, before 1 p. m., E. S. T., of November 4, 1947, with a certified check for 5 per cent of the amount of the proposal, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Boston Housing Authority to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Boston Housing Authority. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as it deems best.

CITY OF BOSTON.

BOSTON HOUSING AUTHORITY.

CONSTRUCTION OF VETERANS' HOUSING DEVELOPMENTS.

The City of Boston, acting by and through the Boston Housing Authority, pursuant to the provisions of chapter 47B of the Acts of 1946, as amended by chapter 476 of the Acts of 1947, will receive sealed bids for the construction of two veterans' housing developments located in Sawyer and Downer avenues, Ward 10, Dorchester district, and Thorton and Windsor streets, Ward 14, Mattapan district, City of Boston, Mass., until one o'clock p. m., Eastern Standard Time, November 4, 1947, at the office of the Boston Housing Authority, 40 Post Office Square, Boston, Mass., at which time and place all bids will be publicly opened and read aloud. A duplicate copy of the proposal, written and sealed, shall be left with the City Auditor previous to the time named for opening of bids.

The successful bidder will be required to furnish a Performance and Payment Bond as set forth in the specification.

Attention is called to the fact that not less than the minimum wage rates as set forth in a schedule contained in the specification must be paid on this project. Attention is also called to the requirements relating to Workmen's Compensation and conditions of employment.

Contract documents, including drawings and specifications, will be on file at the office of the Boston Housing Authority, 40 Post Office Square, Boston, Mass., on October 27, 1947. Copies of the documents may be obtained by depositing \$4 in the form of a certified check or cash with the Boston Housing Authority for each set of documents so viewed. The amount of the deposit will be refunded to each person who returns all the documents in good condition within 30 days after opening of bids. The proposal form calls for separate bids for each of the two projects.

Sub-bids will be taken on the following portions of the work until twelve o'clock noon, Eastern Standard Time, October 31, 1947:

1. Heating. 2. Lathing and Plastering.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding if it be in the public interest so to do. The City of Boston also reserves the right to reject all bids of the sub-bidders on any item or items and to waive any informalities in the bidding if such rejection is warranted by the performance with section 44C of chapter 149 of the General Laws. The City of Boston reserves the right to accept any one or more of the proposals contained in the bids of the general contractor and sub-contractors and to award a contract or contracts as it deems for its best interests.

Cash, certified check on, or a certificate of deposit issued by a responsible bank or trust company payable to the City of Boston, or a performance and bond executed by the bidder and a surety company, shall be submitted with each bid as follows:

1. By general bidders, in the amount of five per cent of the Base Proposal.

2. By sub-bidders listed under Item 1 of the General Contractor's Bid Form in not less than five per cent of the sub-bidder's bid price.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Boston Housing Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Boston Housing Authority.

COUNTY OF SUFFOLK.

COURT HOUSE CUSTODIAN DEPARTMENT.

TO METAL EQUIPMENT CONTRACTORS.

The Commission for the Care, Custody and Control of the Suffolk County Court House invites sealed proposals for furnishing and installing, ready for use, by qualified manufacturers, or representatives thereof, metal document file cases in the office of the Clerk of the Municipal Criminal Court, New Court House Building, Pemberton square, Boston, Mass. The plans and specifications covering this work may be examined at the office of the Superintendent, Room 119, Old Court House, Boston, Mass. A bond of a surety company satisfactory to the Court House Commission for the full amount of the contract price to secure the due performance of the contract and the full protection of the County of Suffolk will be required. Proposals may be obtained at the office of the Superintendent, Room 119, Old Court House, Monday, October 20, 1947. Each proposal must be signed by the bidder, placed in an envelope, properly sealed and marked "Proposal for Metal Equipment for Office of the Clerk of the Municipal Criminal Court," and left at the office of the Court House Commission, Room 318, New Court House Building, Boston, before 12 o'clock noon of Wednesday, November 5, 1947, with a certified check for \$200, payable to and to become the property of the County of Suffolk if the proposal, after acceptance, is not carried out. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the duplicate copy with the certified check to be left as stated above, but the original copy, without check, to be filed with the City Auditor, City Hall, Boston, before the time given above for the opening of the bids. The Commission reserves the right to reject any and all bids which, in its opinion, it may deem for the best interests of the County of Suffolk. Bidders will specify the time necessary for the completion of the contract.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 39

SATURDAY, NOVEMBER 1, 1947.

No. 44

CORPORATION COUNSEL JOSEPH A. SCOLPONETI RULES ELECTION COMMISSIONERS ERRED IN ACTION TAKEN BY THEM IN MATTER OF CERTIFICATION OF SIGNATURES ON NOMINATION PAPERS OF GEORGE MURRAY, CANDIDATE FOR CITY COUNCIL FROM WARD 6 — IN OPINION REPLYING TO REQUEST FOR RULING ON LEGALITY OF ACTION SAYS BOARD HAS DUTY OF CERTIFICATION — ALSO DEFINES QUESTIONS OF DETERMINING WHICH SIGNATURES MAY BE HELD VALID AND WHICH NOT UNDER THE LAW.

The following ruling on the question of the validity of names on nomination papers has been handed down by Corporation Counsel Joseph A. Scolponeti:

Boston, October 24, 1947.

WILLIAM A. MOTLEY, *Chairman*,
Board of Election Commissioners.

DEAR SIR,—In your letter of October 14 you ask on behalf of the Boston Ballot Law Commission certain questions with respect to the nomination papers of one George Murray, a candidate for the City Council in Ward 6. The questions relate to the failure of the Election Commissioners to “certify” certain signatures on the Murray papers. The duty to certify is imposed by section 56 of the City Charter (St. 1909, c. 486, as amended):

“The names of candidates appearing on nomination papers shall, when filed, be a matter of public record; but the nomination papers shall not be open to public inspection until after certification. After such nomination papers have been filed, *the election commissioners shall certify thereon the number of signatures which are the names of registered voters* qualified to sign the same. . . . All such papers found not to contain a number of names so certified equivalent to the number required to make a nomination shall be invalid. . . . Such certification shall not preclude any voter from filing objections as to the validity of the nomination. . . .” (Emphasis supplied.)

1. Your first two questions ask in substance whether the Election Commissioners must certify a signature which appears as “John Smith” on the nomination paper, where the voter’s signature appears on the voting register as “John Smith, Jr.” (or “John Smith, Sr.” as the case may be). In my opinion the signature on the paper is not, in such case, the name of a registered voter, within the meaning of the statute just quoted, and therefore may not be certified. This question appears to have been squarely decided in the case of *Putnam v. Bessom*, 291 Mass. 217, in which the court held, at page 219, as follows:

“ . . . It has been said that the term ‘Junior’ is no part of the name of a person. . . . However, it is used to describe and designate a person. . . . Where so used on the list of registered voters, the signature on a petition like the present must correspond.” (Emphasis supplied.)

2. Your fourth question is as follows:

“The Commission would also like a ruling on whether a legitimate name which has been crossed off on a nomination paper (including a name with two lines drawn through it) should be accepted.”

As I see it, the Election Commissioners cannot determine from the face of the paper by whom such line or lines were drawn or with what intention. They may have been drawn by the voter who signed, while the paper was still in his possession, in which case they would indicate that he had changed his mind, and would void his signature. They may have been drawn by the candidate or someone on his behalf, in which case they would normally indicate an intent on the part of the candidate not to present such signature for certification. They may perhaps have been drawn in still other circumstances. In any case, the presence of the line or lines gives rise to doubt as to the validity of the signature or as to the intention of the candidate to present it. Since the question whether to certify or not to certify must be determined from the face of the paper, it is my opinion that, in view of the doubt which arises, the Board has no duty to certify such a signature.

HOUSING AUTHORITY ANNOUNCES POLICIES AND RENT SCHEDULE ADOPTED FOR GOVERNING ACCEPTANCES OF APPLICATIONS FOR TENANTING OF HOUSES TO BE RENTED TO VETERANS OF WORLD WAR II FOR PERIOD OF FIVE YEARS, OR LONGER IF NECESSARY—POLICIES ARE SUBJECT TO APPROVAL BY STATE BOARD OF HOUSING—THIS IS OPTIMISTICALLY ANTICIPATED, AUTHORITY ANNOUNCES—NO DESIRE TO COMPETE IN REAL ESTATE MARKET—NOT TO BE CONFUSED WITH UNITED STATES SUBSIDIZED OR LOW-INCOME HOUSING.

The following announcement has been made public by the Boston Housing Authority:

Boston, October 23, 1947.

In connection with the municipally constructed houses, authorized by chapter 372 of the Acts of 1946, for veterans of World War II, which houses are to be rented for a period of five years from the date of the law, or for a longer period if found necessary, and then sold, the Boston Housing Authority today authorized publication of the policies and rent schedule adopted by it for the acceptance of applications for the tenanting of these houses. Policies and schedules are subject to the approval of the State Board of Housing, and this Authority looks forward to such approval with a great deal of optimism.

The Authority wishes to stress that this municipal housing program is not to be confused with the Authority's regular United States subsidized, low-income housing. One must be distinguished from the other.

The Authority has no intention of competing in the real estate market. The upper limit set for income will prevent such competition, but sufficient income must be required to meet the established rents.

Several hundred applications from veterans are already on file, with more coming. These applications have been made the basis for consideration and investigation.

Information submitted by applicants has caused the Authority to select veterans' families whose income is between \$3,000 and \$5,000 yearly. This income group is in a "no man's land" so far as housing is concerned—too much money for subsidized housing and not enough to rent private housing were it obtainable. Then, too, reasonable thought should be given to the city's investment.

These conclusions have been arrived at after an exhaustive study of all the problems involved in the attempt to house at least a portion of our homeless veterans.

ELIGIBILITY DETERMINED.

With the emergency type of housing conditions in mind, the following factors and conditions for determining eligibility must be present:

Only families of veterans of World War II who were discharged under conditions other than dishonorable, families of servicemen of World War II, the widow or the mother of a serviceman who died in action, and the wife of a man who is still in service, provided they are members of a family unit, may apply.

Preference will go to those applicants who are living under the greatest housing distress.

Preference will also be given to families with small children.

Each eligible family will be admitted only to the size apartment it requires.

Applicants must be residents of this city for at least three years prior to the date of filing, the time spent in service to be included as though resident in Boston.

Applicants or any member of family to be housed will not be eligible if they own dwelling property.

The houses contain various combinations of rooms, and a dinette is counted as one half-room. There are 4½-room single floor apartments having two bedrooms and 5½-room apartments on the same pattern with three bedrooms.

In the duplex type of houses there are some 4½-room houses with two bedrooms upstairs and some 6-room houses having a full dining room and with three bedrooms upstairs.

There will also be a few 4½-room bungalows and a few 6-room two-story single houses.

The houses will be equipped with stoves but no refrigerators.

Leases will be written with the usual real estate conditions. The city will supply only the water.

The lots on which these houses are constructed are larger than the usual subdivisions, and the different type houses are arranged carefully to prevent the appearance of duplication. Every effort is being made to provide attractive modern homes.

Applications may be secured by calling at the offices of the Boston Housing Authority, 10 Post Office square, Boston (Room 1220), or by request in writing.

For the Authority,

JEREMIAH F. SULLIVAN,
Acting Executive Director.

TEMPORARY MAYOR HYNES ANNOUNCES PLANS FOR CITY-WIDE HALLOWEEN PARTIES AND TEEN-AGE DANCES.

His Honor, Temporary Mayor John B. Hynes, on October 24, called a meeting of a group of prominent public and private officials identified with youth work to form a committee for this year's

parties. Chairman John J. Murphy of the Boston Park Commission presided at this meeting which was held at 33 Beacon street, Boston.

One of the most progressive steps planned this year is the revival of an old New England custom of home parties, with parents and neighbors gathering with their children at home for a wholesome evening of fun.

Folders will be distributed throughout the public and parochial school systems, so that the youngsters may take them home and their parents may plan a full program of games and song fests.

Many thousands of the smaller youngsters will be unable to attend the public gatherings, but will be reached by this method.

The teen-agers will enjoy dances with popular orchestras furnishing the music.

Last year, over 50,000 youngsters enjoyed the festive games of bobbing for apples and dunking for doughnuts, with refreshments for all.

His Honor feels that last season, the youngster's appreciation of these planned groups was shown by the report of the Police Department with the lowest record for vandalism in years.

An invitation is extended to all Boston youths to take part in an orderly celebration of Halloween.

Committee.

Temporary Mayor John B. Hynes.

TEMPORARY MAYOR REGRETS RESIGNATION.

On October 28 the Temporary Mayor made public the following letter:

Mrs. EVA WHITING WHITE,

395 Charles Street, Boston, Mass.

DEAR MADAM,—I accept with deep regret your resignation as a member of the Boston Housing Authority.

If I did not realize that you are intent on resigning from the Housing Authority, I would not accept your resignation, for

your services have been extremely valuable to the city in your present capacity and in your former capacity as a member of the Overseers of Public Welfare Board. I would like to express both my personal and official best wishes to you, and gratitude for the time and the effort you have given to our city without any recompense. Your public service has always been of the highest character, and I assure you the City of Boston will find it difficult to find a replacement with such a high sense of duty and honor.

With every best wish for your future, I am

Respectfully,

JOHN B. HYNES,
Temporary Mayor.

TEMPORARY MAYOR BANS FIRES IN HALLOWEEN CELEBRATIONS.

The following is the statement of Temporary Mayor Hynes issued on October 27:

In view of the dangerous fire hazards now existing, I am asking everyone to dispense with fire of any description in the celebrations of Halloween, and between now and Halloween.

A carelessly tossed match or cigarette could well begin a conflagration that would imperil the lives of thousands and countless homes and manufacturing plants. I plead earnestly with parents not to allow their children to have lighted candles in their jack-o'-lanterns. While we all know that no harm is intended with such novelties, let's celebrate by using an ounce of prevention. The loss of lives and property through fire the past two weeks should be a horrible example of what a moment of carelessness can cause.

REPAIRS TO STREETS.

The Temporary Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board, having passed the order of notice relating to the public improvements hereinafter described, and having caused a copy of said order to be published September 26, 27, 29, and 30, 1947, in the *Boston Globe* and the *Boston Post*, two daily newspapers published in the City of Boston, and having given the public hearings, notice of which was given in said order, and being of the opinion that public necessity and convenience require, does hereby order that specific repairs be made as follows:

REPAIRS TO HUNTINGTON AVENUE.

The Temporary Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board, having passed the order of notice, relating to the public improvement, hereinafter described, and having caused a copy of said order to be published July 11, 12, 14 and 15, 1947, in the *Boston Globe* and the *Boston Post*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public necessity and convenience require, does hereby order that specific repairs be made in Huntington avenue, Roxbury district, between Evans way and Longwood avenue, consisting of a reduction of 4 feet in the width of the sidewalk on the northerly side; and, of a reduction of 5 feet in the width of the sidewalk on the southerly side; also the construction of loading platform, each platform to be 6 feet in width from the outside rail of the inbound and outbound tracks of the Boston Elevated Railway Company, with appropriate protection fences; as shown on a plan on file in this office.

AMENDED DAMAGES.

The Temporary Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of June 23, 1947, determining damages caused by the making of the public improvement consisting of the taking of 5,638 square feet of land for playground purposes, be, and the same hereby is, amended, by striking from said order the amount \$1 awarded to Peter J. and Ellen Whoriskey in said order, and inserting in place thereof the amount \$4,250; that the amount \$4,250 be, and the same hereby is, awarded to Peter J. Whoriskey and Ellen Whoriskey, husband and wife as joint tenants and not as tenants by the entirety, for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of June 23, 1947, determining damages caused by the making of the public improvement consisting of the taking of 5,637 square feet of land for playground purposes in Tremont street, be, and the same hereby is, amended, by striking from said order the amount \$1 awarded to James M. McCusker in said order and inserting in place thereof the amount \$3,500; that the amount \$3,500 be, and the same hereby is, awarded to James M. McCusker for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of December 12, 1945, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Birchcroft road, be, and the same hereby is, amended, by adding to said order the amount \$60 as an award to LeBaron Simpson and Margaret Simpson, husband and wife as tenants by the entirety; that the amount \$60 be, and the same hereby is, awarded to LeBaron Simpson and Margaret Simpson, husband and wife as tenants by the entirety, for the damages so sustained.

REPORT OF HENRY J. SMITH, BUSINESS MANAGER, ON ATTENDANCE AT THE THIRTY-THIRD CONVENTION OF THE ASSOCIATION OF SCHOOL BUSINESS OFFICIALS IN GRAND RAPIDS, MICHIGAN, OCTOBER 6 TO 9.

Boston, October 16, 1947.

To the School Committee of the City of Boston.

The Thirty-third Convention of the Association of School Business Officials was held in Grand Rapids, Michigan, October 8-9, 1947. About 550 members and guests were present.

I arrived at Grand Rapids about noon-time on Monday, October 6, in time to participate in the round-table discussion Monday afternoon on "Finance and Accounting," which was presided over by Mr. Harold E. Akerly, Assistant Superintendent, Rochester, New York. The general discussion for the most part was on how uniform accounting could be arrived at. It was agreed that this organization should go ahead with a study together with eight other national organizations to achieve this end.

Monday evening was devoted to a visit to the booths of the 68 exhibitors in the Civic Auditorium. This proved to be very interesting and very instructive.

Tuesday morning's program called for a paper to be read by Mr. Timon Covert, Specialist in School Finance, United States Office of Education, on "Participation by State Governments in Support of the Public Schools." Also, a paper on "The National School Lunch Program" was read by Mr. O. F. Beyer, Area Field Supervisor, Food Distribution Programs Branch, United States Department of Agriculture. Both papers were well done and provided the members with much material for thought.

Tuesday afternoon the members of the association were the guests of the American Seating Company at their plant in Grand Rapids. A luncheon and tour of the factory were well conducted by the management. Their school desk and seat department was of particular interest to all of the members. From there I went to the administration offices of the Grand Rapids School Department. These offices occupied the entire top floor of the junior college building. The Business Manager's Office was well laid out and appeared to be run in a most efficient manner. From there I visited the Supply Room, which was located in an old elementary school building of four stories, which gave them ample space for the storage of their supplies.

Late that afternoon I joined Mr. James Morrison, head of the Convention Department of the Boston Chamber of Commerce. We appeared before the executive committee of the association to invite the convention to Boston in October, 1949. We were graciously received, but before the convention adjourned we found that we were unsuccessful. Chicago was chosen as the site of the 1948 convention, and Toronto, Canada, was chosen for 1949.

Tuesday evening I participated in a round-table discussion conducted by Mr. H. Spelman Burns, Supervisor, Education Supplies and Equipment, Baltimore, Maryland, on "Problems of Simplified Specification Standards."

Wednesday morning Mr. Robert W. Conder, Director of Labor Relations, Chrysler Corporation, Detroit, Michigan,

discussed "Labor Relations," and Mr. Wilfred F. Clapp, State Department of Education, Lansing, Michigan, discussed "Conditioning School Rooms for Visual Comfort and Efficiency." Both discussions were interesting and educational.

Wednesday afternoon's discussion was devoted to "Maintenance and Operation of the School Plant," and was presided over by Mr. T. Roy Noble, Business Administrator, Windsor, Canada. Wednesday evening was devoted to the annual banquet and entertainment.

Thursday morning Dr. John H. Herrick, Head, Survey Division, Bureau of Educational Research, Ohio State University, addressed the Convention on "Planning New School Buildings in Cincinnati."

The convention adjourned at 11 a. m.

Respectfully yours,

HENRY J. SMITH,
Business Manager.

CORPORATION COUNSEL JOSEPH A. SCOLPONETI RULES ON VALIDITY OF NOMINATION PAPERS.

(Continued from page 1196.)

3. A further question arises with respect to certain other signatures on Murray's papers which, as I understand it, exactly correspond with names found on the voting list of Ward 6. The Election Commissioners refused to certify such names because the same names had been previously certified by them on papers of other candidates. By the previous practice of the Commission papers are certified in the order of their filing with the Commission.

Unquestionably a voter may rightfully sign the paper of but one candidate for the Council, since there is to be elected only one councilor from each ward (St. 1909, c. 486, s. 48, as amended), and, by the terms of St. 1909, c. 486, s. 54, as amended,

"... Every voter may sign as many nomination papers for each office to be filled as there are persons to be elected thereto, and no more."

The case presented is essentially this: John Smith, a registered voter, entitled to sign but one paper, signs A's paper on Monday, and B's on Tuesday. Apart from questions of procedure, I am of opinion that A is plainly entitled to the signature. When the voter signs B's paper his act is void, because he had on the day before completely exhausted the power to sign given him by the law.

If, in the case put, B files his paper before A, it has been the practice of the Commission to examine B's paper first for certification. As a result the name "John Smith" has been certified to B, and, when it is subsequently found upon A's paper, certification has been denied on the ground of the prior certification. I have reluctantly come to the conclusion, after full consideration, that this practice is not justifiable under the law. The fact that B's paper is filed first has, in my opinion, little or no tendency to show that

the duplicated signature was first placed on that paper. Indeed, the process of certification cannot even guarantee the genuineness of the signature, let alone its priority. In the case I have put, it may happen that "John Smith" on B's paper was written by his wife, and was written on A's paper by himself. In such case A is clearly entitled to the signature, *Commonwealth v. Connelly*, 163 Mass. 539, 542; yet previous practice would certify it to B.

QUESTION OF PRIORITY.

In my opinion the question of the priority, like that of the genuineness of a signature, ought to be decided by the Ballot Law Commission upon objections made to the papers after certification. St. 1909, c. 486, s. 56; G. L. c. 53, s. 12. That Commission has the power to summon witnesses and hear evidence. It commonly does so where the genuineness of a signature is challenged, and, in my opinion, the same result ought to follow in case of a challenge as to priority.

I am not unmindful of the effect this conclusion may have upon the previous procedure of the Election Commission. In my opinion the procedural changes which it would require need not create insuperable difficulties. As I understand it, papers of candidates are immediately examined upon filing, and a check is marked against signatures corresponding to names on the voting list. If a name once checked is found on a subsequently filed paper it is marked "duplicate" on that paper. It seems to me that in such a case the former paper might again be referred to and the signature marked "duplicate" on that paper as well. When the time comes for final certification of each paper, the Board might in the first instance confine itself to signatures not marked "duplicate." It seems probable that in most, if not all, cases the Board will in this way be able to certify the number of names required by law without either (1) certifying a signature which appears on a competing paper, or (2) refusing to certify such a signature. (The administrative practice I suggest is, in my opinion, one which the Board may properly adopt under the law.)

For the reasons above stated I conclude that the previous practice does not conform to law. I am reinforced in this conclusion by the fact that, where the Legislature has intended the question here considered to be decided by the order in which the papers are certified, it has expressly so provided. I refer to the following curious provision of G. L. c. 54A, s. 3, which deals with nominations in the case of proportional representation and preferential voting:

"... A voter may not sign the nomination papers of more than one candidate ... and if a voter signs nomination papers of more than one such candidate his signature shall be invalid on all such papers except the first one acted upon by the registrars of voters ..." (Emphasis supplied.)

No such provision is to be found in the law applicable to the case now under consideration. That lack is significant and cannot, in my opinion, be supplied by inference or implication.

COMMISSIONERS' DUTY.

4. It follows from what I have said above that the Election Commissioners had the duty of certifying those names on Murray's papers which are the names of registered voters, even though such names had been previously certified on competing papers. Before finally advising as to the action now to be taken, it

is necessary, however, to consider certain other procedural aspects of the case as it now stands.

Murray's letter of October 3 to the Ballot Law Commission is as follows:

"BOSTON BALLOT LAW COMMISSION,
City Hall, Boston, Mass.,
October 3, 1947.

Ward Six.

Request for Hearing by Full Board.

1. I hereby request an examination of my papers filed for the Office of City Councillor on the grounds that the board failed to credit me with a sufficient number of valid signatures accrued in my behalf, and credited to other candidates on the basis of duplicate signatures.

2. That the board failed to allocate to me on questionable grounds valid signatures because the names as written contained a junior (jr.) or "Sr." senior or failed to contain a Junior (jr.) or other technical designation when in fact they constitute no part of the person's name.

3. That signatures appearing on my papers so written do not appear on other papers in the same handwriting of the signer.

4. Other candidates in the contest for Councillor were credited with signatures first, because of early filing with the Election Department when in fact the signatures were procured by me or someone in my behalf at an earlier time.

5. For other relief as may appear on a hearing of the merits by the full board.

GEORGE A. MURRAY,
558 E. Broadway, South Boston."

That letter does not constitute an "objection" to the papers of any other candidate within the meaning of G. L. c. 53, s. 11, and St. 1909, c. 486, s. 56, as amended. No other candidates are named in that letter, and they are mentioned in an incidental fashion only, as a group in paragraph 4 of the letter. Obviously, also, that letter is not an "objection" by Murray to his own papers. In form and in substance it is, rather, a complaint by Murray with respect to the action of the Election Commissioners in failing to certify certain signatures on his paper. That complaint, in my opinion, raises no question within the jurisdiction of the Ballot Law Commission, for the following reasons.

ON QUESTION OF ERROR.

The question whether the Election Commissioners ought to certify or not to certify a signature is a matter which depends entirely on the face of the papers and records before them. This conclusion was strongly stated by the court in *Compton v. State Ballot Law Commission*, 311 Mass. 643, which dealt with certification of signatures to an initiative petition. The court there said, 311 Mass. 643, 647:

"... The sole function of the registrars is to check and certify the names upon an initiative petition that are the names of registered voters. In so certifying, the registrars are not required to investigate whether persons registered as voters are legally registered as such. The registrars are entitled—indeed are bound—to rely upon their records. . . ." (Emphasis supplied.)

If the Election Commissioners commit error in failing to certify a signature which

should be certified under the law, the remedy is not by objection to the Ballot Law Commission but by petition for writ of mandamus. The Ballot Law Commission is not designed to review the action of the Election Commissioners in certifying signatures. Its function is to determine questions of fact which require the hearing of witnesses and evidence, upon objections made after certification when the papers are "in apparent conformity with law" and "valid" on their face. G. L. c. 53, s. 12, St. 1913, c. 835, ss. 61, 205. As I have pointed out, Murray's letter of October 3 raises no questions of this kind and therefore presents no question to be decided by the Ballot Law Commission.

I have concluded above "that the Election Commissioners had the duty of certifying names on Murray's papers which are the names of registered voters, even though such names had been previously certified on competing papers." Under the law that duty should have been performed "on or before five o'clock p. m. on the thirty-fourth day preceding the city election." In my opinion the duty ought still to be performed, unless by reason of the subsequent lapse of time Murray has gained an undue advantage over competing candidates. It is obvious that if the duplicate signatures above discussed are now certified by the Election Commissioners on Murray's papers, as of the thirty-fourth day before the election, there will exist no opportunity on the part of any voter or competing candidate to file objections to those papers. If Murray, in this situation, had filed and was now able to maintain objections against papers of competing candidates, on the ground that the duplicate signatures above discussed had first been placed on his paper, it is obvious that he would have acquired an advantage by the delay in the certification of his own papers.

If that were the fact, I should not advise the Board now to certify the duplicate signatures on Murray's papers even though it had the duty to do so in the first instance. I understand, however, that, though certain objections have been filed by Murray to the papers of competing candidates, those objections have not yet been decided, and the time within which the Ballot Law Commission may decide them has now passed. If that be the fact, and if those objections are now unavailable to Murray, I am of the opinion that he will secure no undue advantage if the disputed signatures are now certified on his papers. I therefore advise the Board that in those conditions it may properly perform its duty under the law to certify the signatures in question on the papers of George Murray.

One further question remains. G. L. c. 53, s. 7, provides that,

"... Names not certified in the first instance shall not thereafter be certified on the same nomination papers."

This sentence does not, in my opinion, prohibit the Election Commissioners from now performing the duty to certify the signatures in question, under the conditions I have indicated. The procedure with respect to certification and filing established by chapter 53, section 7, is different in material respects from the procedure established by our City Charter, and to the extent that it is inconsistent therewith does not apply in Boston. St. 1909, c. 486, s. 60. In Boston, certification does not take place until after papers are filed and have definitely gone out of

the possession of the candidate. St. 1909, c. 486, s. 56. Under the procedure established by the General Laws, however, papers must be presented to the registrars for certification before they are filed with the town clerk. G. L. c. 53, s. 7. Under that procedure it might happen, in a case where the registrars had certified an insufficient number of signatures to make a nomination, that the candidate, resuming possession of the papers, and before filing them, would obtain further signatures thereon and present the papers a second time to the registrars for additional certification. In my opinion, the sentence above quoted from G. L. c. 53, s. 7, was designed to prevent an occurrence of this kind. Such a situation could not occur under our Charter because no certification can be made until the papers have been filed and have definitely and finally gone out of the possession of the candidate. In my opinion, therefore, the quoted sentence does not apply in Boston and does not prevent the Election Commissioners from now performing their duty to certify under the conditions I have discussed above.

Yours very truly,

JOSEPH A. SCOLPONETI,
Corporation Counsel.

Boston, September 3, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On July 10, 1947, proposals were publicly opened and read in this office for furnishing refrigerating equipment for the Boston Sanatorium, and prices were received as per attached list.

This office has received a self-explanatory letter from Doctor Bogan of the Boston Sanatorium, copy of which I am attaching, in which he requests that in the interest of interchangeability and standardization the first item on the attached list be of General Electric Company's make and the other three items of the Frigidaire Company's make.

L. G. Anderson, Inc., are bidding on General Electric refrigerators and the Commercial Refrigeration Company are bidding on Frigidaire.

In view of the explanation, I would respectfully request that permission be granted me to award contracts as shown on the attached sheet.

Total amounts of awards are as follows: Commercial Refrigeration Company, \$2,210.95; L. C. Anderson, Inc., \$561.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Upon September 25 the Temporary Mayor approved a contract as indicated in the following letter:

BOSTON, September 24, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—On August 19, 1947, bids were publicly opened and read in this office for cement lined cast iron water pipe to be used by the Public Works Department, Water Division. The U. S. Pipe and Foundry Company were the successful bidders but could not start delivery for nine months. Their contract is in the amount of \$85,700.

The Water Division will require approximately 1,200 lengths of pipe before the start of the U. S. Pipe and Foundry contract. It is requested that I be granted permission to purchase in the open market approximately 1,200 lengths of pipe at an estimated cost of \$5,000.

Very truly yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Bids were as follows:

Upon varying dates as indicated the Temporary Mayor has approved contracts for furnishing supplies, labor, etc., to the various city departments. Communications from the heads of the departments interested were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.

Boston, October 17, 1947.

HON. JOHN B. HYNES.

Temporary Mayor of Boston.

DEAR MR. MAYOR,—As of July 7, 1947, a contract for alterations, including rebuilding the boiler room and installing new boilers in the John Marshall School, was awarded to M. S. Kelliher Company, low bidder, and it was expected at the time the award was made that at least one of the two boilers to be installed would be operable by the advent of the heating season.

The cold spell from September 18 on, however, advanced the school heating season by some few weeks and was so severe that, to avoid dismissal of classes, it was necessary to provide heat by use of temporary upright boiler and piping which was installed on the sidewalk and housed in a shanty and operated by steamfitters in the employ of the steamfitting subcontractor.

It is expected that the use of the temporary boiler and appurtenances will be discontinued not later than November 8, at which time one of the permanent boilers should be in operable condition.

As the temporary boiler could not be installed and operated by persons other than those in the employ of the heating subcontractor and as the costs for such installation and operation will exceed the sum of \$1,000, and as it was impossible to determine the exact length of time it would be necessary to use the temporary installation, I respectfully request your approval of my proposal to issue an order of addition to M. S. Kelliher Company in an upset amount not to exceed \$4,000, with the understanding that an itemized bill for work performed will be submitted to and checked by this department with our daily records, before payment is authorized.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

FIRE DEPARTMENT.

Boston, October 20, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Your Honor's permission is requested to award, without public advertising, the work of making certain repairs to fireboat "Matthew J. Boyle," Engine Company 44, to James S. Munro, 298-316 Border street, East Boston, at an approximate cost of \$1,715, as follows:

Dry-dock, clean all surfaces below water line, supply and apply one coat anticorrosive and one coat antifouling, and paint all draft numbers; remove seven suction strainers, clean wells, and renew retaining screws, as required; check propeller shaft clearance and recement propeller nuts for \$925.

Open up, grind in and repack the following valves: Four 10-inch fire pump suction valves; two 14-inch condenser circulating pump suction valves; two toilet valves; two bilge siphon discharge valves; three skin blow-off valves; one bilge pump suction valve for \$790.

There will be an additional unit price of \$1.50 each for renewing shell rivets as required, exclusive of any removals in way, and a price of \$1 per pound for renewing any defective hull zinc plates.

The following bids were received in connection with this work:

Bethlehem Steel Company (Shipbuilding Division), \$1,140 plus a unit price of \$1.75 for each shell rivet renewed, ex-

clusive of any removals in way, and unit price of \$1 per pound for renewing hull zinc plates.

James S. Munro, \$1,715 plus a unit price of \$1.50 each for renewing shell rivets, exclusive of any removals in way; also, a price of \$1 per pound for renewing hull zinc plates.

The above two concerns are the only ones equipped to haul the fireboat out of the water on to a dry dock in Boston or vicinity. However, the Bethlehem Steel Company cannot do the work at this time, as stated in their bid, because their employees are on strike.

As this is an emergency repair job and because of the fact that there is only one concern in Boston or vicinity who can perform the work, no advantage would be gained by the city through public advertising for bids inasmuch as the repair work would be delayed, and it is an absolute necessity to have the fireboat back in service as quickly as possible especially with the winter season so near.

The foregoing work must be done on the boat in accordance with orders of the U. S. Coast Guard Marine Inspection Bureau.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

BOSTON, October 21, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Your Honor's permission is requested to award a contract to the Boston Marine Works, Inc., 33 Sumner street, East Boston, without public advertising, for repairs to the fireboat, "Matthew J. Boyle," Engine Company 44, as follows, at a cost of \$3,265.

The work to be done is as follows:

1. Overhaul steering engine and prove in good working order, \$250.
2. Renew valve and seat on reversing ram on main engine, \$90.
3. Renew five 4-inch tubes, bottom row forward boiler as marked; affidavit required for same; Turbine lower row of 4-inch tubes forward boiler, \$450.
4. Damaged smokestack to be repaired; inner stack to be realigned in central position, brackets refastened or renewed as found necessary, \$1,000.
5. Steam line to whistle to be realigned and flanged joint made tight, this is to be done after completion of repairs to stack, \$150.
6. Repair or replace where necessary, stanchion rails on starboard side upper decks, \$100.
7. Remove dents in starboard ventilator, \$25.
8. Replace broken oak guard rail on starboard side forward, and replace metal chaffing strap, \$200.
9. Renew filter box in engine room, \$600.
10. Remove eccentric and strap from H. P. main engine and rebabbitt strap and machine and fit in place with proper oil, grooves; remove cross head and line up slipper on L. P. engine and also replace alignment, \$400.

The following bids were received in connection with this work:

Boston Marine Works, Inc., \$3,265; General Ship and Engine Works, Inc., \$3,362; Gibbons Engineering and Machine Company, \$3,422.

The foregoing three concerns are the only companies in Boston, at present, available, who are equipped to perform the foregoing work. The Bethlehem Steel Company did not bid because their employees are on strike.

As this is an emergency repair job and because of the fact that the above-mentioned companies are the only concerns in Boston available to perform the work, no advantage would be gained by the city through public advertising for bids as the repair work would, in all probability, be delayed and it appears that we could not obtain a lower price than that given by the Boston Marine Works, Inc. It is an absolute necessity to have the fireboat placed in service as quickly as possible in order to properly protect water front property and especially as the winter season is so near.

The foregoing work has been ordered done by the U. S. Coast Guard Marine Inspection Bureau.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

LIBRARY DEPARTMENT.

BOSTON, October 17, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—Your approval is respectfully requested of the award of a contract, without public advertising, to Rambusch Decorating Company, 2 West 45th street, New York City, for the furnishing and installing of certain lights to provide adequate illumination for the world-famous mural paintings by Edwin A. Abbey, on "The Quest of the Holy Grail," which are in the Central Library Building in Copley square.

The inadequacy of the lighting for these paintings has troubled us for a long time and has been a constant source of complaints. Under the direct supervision of our consulting architects we have therefore had several engineering studies made for achieving adequate lighting and have had several outstanding artists view the results of these studies. All concerned have come to the conclusion that the best all-around lighting results will be produced by the scheme of the Rambusch Decorating Company.

Upon the advice of the Director, the Trustees have therefore voted as follows:

"Voted, That there be awarded to Rambusch Decorating Company, 2 West 45th street, New York City, a contract for the designing, manufacture and installation of certain lighting equipment together with necessary electric wiring work in the Abbey Room of the Central Library Building, Boston, as specified in the terms of the contract, in an amount not to exceed eight thousand dollars (\$8,000)."

This is a highly specialized type of work for which competitive bidding by public advertising cannot bring satisfactory results. Your approval of the award of this contract without public advertising is therefore respectfully requested.

Respectfully,

THE TRUSTEES OF THE PUBLIC
LIBRARY OF THE CITY OF BOSTON,
by FRANCIS B. MASTERSON,
President.

PARK DEPARTMENT.

BOSTON, September 19, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Under date of September 10, I wrote your Honor a letter, pointing out the urgency of having an initial appropriation to help in combating the Dutch Elm Disease in Boston.

We have at the present time 15 trees actually known to be affected with the

Dutch Elm Disease. It is imperative we make immediate steps for the taking down and burning of these trees. This is the only effective method of destroying the beetle and preventing the spread of disease to other trees. Accordingly, I respectfully ask your permission to award a service order, without advertising, to Fred R. Ralston & Co., 19 Rector road, Mattapan, for a sum not to exceed \$1,800, for doing the following work:

Take down and remove 15 elm trees in the City of Boston affected by the Dutch Elm Disease, as directed by the Park Department, furnishing men to do this work at the rate of \$1.50 per hour and truck at \$1 per hour. Trees to be taken down and removed 6 inches above ground.

The work on these trees to start Monday, September 22, 1947, and to be charged to B-42, in the Park Department budget.

Very respectfully yours,

JOHN J. MURPHY, *Chairman.*

Cemetery Division.

BOSTON, October 15, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—Your permission is respectfully requested for permission to grant two service orders to the Easton Tree and Landscape Corporation of 280 Bridge street, Dedham, Mass. for the furnishing and planting of various types of trees and plants at the Mount Hope and Fairview Cemeteries—to be covered by two service orders—with the amount to be expended not to exceed \$1,400.

This department has contacted several tree and landscape companies relative to having this work done, and the conclusion has been reached, after much study, that it would be most advantageous, financially and otherwise, to place this work with the above-mentioned Easton Tree and Landscape Corporation.

The money is available for these items in the Cemetery Division budget of this department.

Very truly yours,

JOHN J. MURPHY, *Chairman,*
Board of Park Commissioners.

SUPPLY DEPARTMENT.

BOSTON, October 21, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On March 20, 1947, a contract was awarded to Sparrow-Chisholm Company for furnishing 100,000 yards of towelling for delivery to the Park Department at a price of 17½ cents per yard. The Park Department was of the opinion that the 100,000 yards contracted for would fulfill their needs for the entire year of 1947, but they find that they will need 10,000 yards more to take care of their requirements.

This department has canvassed the various bidders in an endeavor to secure the lowest price possible and find that the price of 17½ cents per yard offered by Sparrow-Chisholm Company is the lowest price obtainable and is also the original price on the contract of March 20, 1947. For this reason, I would respectfully request that permission be granted me to award an order to Sparrow-Chisholm Company for furnishing 10,000 yards of towelling, as per sample, at a price of 17½ cents per yard for immediate delivery to the Park Department. Total amount of order is \$1,750.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

CHANGES IN CONTRACTS.

The Boston Chain Link Fence Company has been ordered to change the contract for the erection of a chain link fence at Alsen Village, Boston, Mass., as follows:

POLICE DEPARTMENT ORDERS.

General Order No. 955.

Patrolman Roy A. Boning, Division 4, honorably discharged veteran of World War I, having arrived at the age of forty-seven years, having been in service of the Boston Police Department for twenty-one years, and having requested retirement under provisions of section 57, chapter 32, General Laws (Ter. Edit.), as amended, it is hereby

Ordered, His Honor the Temporary Mayor having approved the same, that Patrolman Roy A. Boning be retired from active duty in the Police Department, effective Tuesday, October 28, 1947, at 5.45 o'clock p. m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 956.

The following-named officer having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that he is incapacitated, it is hereby

Ordered, His Honor the Temporary Mayor having approved the same, that he be retired from active service in the Police Department, effective Saturday, November 1, 1947, at 7.45 o'clock a. m.:

Sergt. Michael M. Heffernan, Division 4, 25 years of service.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 957.

I am in receipt of the following letter which I am pleased to publish for the information of the department:

NATIONAL CONVENTION OF THE
HOLY NAME SOCIETY.

Boston, October 24, 1947.

THOMAS F. SULLIVAN, *Commissioner*,
Boston Police Department.

DEAR COMMISSIONER,—The national and local committees in charge of arrangements for the recent National Holy Name Convention join in extending sincere and heartfelt thanks to you and the members of the Boston Police Department for the magnificent services rendered by you and your men during the convention, October 1-5.

While we sensed that the whole department was alerted for help during all those days—and we are most grateful to all—we would mention a special debt of praise and thanks that we owe those who were on duty in connection with the Candlelight Holy Hour on Friday evening, October 3, and through the parade during Sunday, October 5.

The complimentary observations of our own committee and of local participants and spectators were confirmed by thousands of visiting delegates and their friends, who often spoke in highest terms of the efficiency and courtesy displayed constantly through the series of great events by the Police of Boston.

May I ask you, please, to convey these sentiments of sincere appreciation to the men of your department?

Monsignor Allehin, Archdiocesan Director, Father McElroy, assistant Executive Secretary, and I join His Excellency, Archbishop Cushing, in praying for God's choicest blessings on you and on all your men.

Very sincerely yours,

DANIEL J. DONOVAN,
Executive Secretary.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 958.

Sergt. Leo W. Gannon, Patrolmen Thomas J. Reilly and Hilary J. McGunigle, all attached to Division 4, are commended, and each officer is granted three days' extra vacation for meritorious police duty performed on September 26, 1947, in connection with the capture of two men who had committed two holdups of liquor stores in Roxbury and the South End earlier that night.

Later in the evening, while in Albany street near Webber street, the officers observed a Chevrolet truck alleged to have been used in the holdup in Division 10. They seized the occupant and after a brief struggle disarmed him of a .38 caliber revolver. It was learned that his accomplice was in a building on Albany street. Sergeant Gannon and Patrolman McGunigle gained entrance and were met by the second man, who immediately drew a loaded revolver and after a vicious struggle was disarmed.

One of the prisoners was identified as the man who held up the Stone Loan Company on September 25, 1947, and implicated an accomplice who was later arrested.

The Commissioner is pleased to recognize and record the prompt and fear-

less conduct exemplified by these officers in accomplishing the arrest and conviction of these felons.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 959.

I am in receipt of the following letter, which I am pleased to publish for the information of the department:

ARCHBISHOP'S HOUSE,
Lake Street, Brighton, Mass.,

October 23, 1947.

COMMISSIONER THOMAS F. SULLIVAN,
154 Berkeley Street, Boston, Mass.

DEAR COMMISSIONER,—Undoubtedly the Holy Name Committee has expressed to you and the members of the Boston Police Department their appreciation of the splendid work performed during the recent Holy Name Convention. The thought occurred to me at this time that I should express to the members of your department, through you, my sincere gratitude for the wonderful service they rendered.

This convention was a truly remarkable event in the history of Boston, and the Candlelight Holy Hour and parade were outstanding features. On both of these occasions the officers and members of the Boston Police Department served us well. In fact, they are always serving us well.

Please, therefore, convey to them my profound thanks and appreciation. I am proud of them.

Your devoted and grateful friend,

RICHARD J. CUSHING,
Archbishop of Boston.

Accompanying this letter was the Archbishop's check for \$100 for the benefit of the Boston Police Relief Association.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 960.

The Superintendent of Police is hereby directed to make the following details in connection with the City Election in this city on Tuesday, November 4, 1947:

1. The necessary number of patrolmen from the several police divisions to attend the several polling places in this city on City Election Day, to preserve order and protect voters in the full exercise of their rights.

2. Three patrolmen for duty in the office of the Board of Election Commissioners, 111 City Hall Annex, on arrival of ballots for the City Election at 10 o'clock a. m., Monday, November 3, 1947, such details to continue until all ballots cast at the Election have been received.

3. One patrolman for duty in parking area surrounding City Hall Annex at 4 o'clock p. m., Monday, November 3, 1947 (the night before election day), to properly place "No Parking" signs and to keep the entire area clear for the following morning, so that twenty-four trucks coming to the Election Commissioners' Office for ballots at early hours on election morning will be able to park without interference or delay.

4. One superior officer for duty at the City Hall Annex, to supervise the police detail for motor trucks from 5 o'clock a. m., Tuesday, November 4, 1947, until relieved.

One patrolman from 4 o'clock p. m., on the same date, until relieved for duty at the same place, to keep clear the approaches to the office of the Board of Election Commissioners for motor vehicles returning from the polling places with ballot boxes, etc.

5. One sergeant for duty at basement vault of Board of Election Commissioners from 9 o'clock p. m., on Tuesday, November 4, 1947, until such time as all returns from the 362 precincts are in.

6. Twenty-four sergeants, one to a motor vehicle, to report at the office of the Board of Election Commissioners in ample time, to be prepared to leave that office for their respective destinations, according to the following schedule, in such vehicle with ballot boxes, ballots, etc., and deliver such ballot boxes, ballots, etc., to the police officer detailed in each precinct.

SCHEDULE FOR HOURS OF DEPARTURE OF
SERGEANTS SO DETAILED FROM OFFICE
OF BOARD OF ELECTION COMMISSIONERS ON MORNING OF NOVEMBER
4, 1947.

(One motor vehicle for each of the twenty-two wards, excepting Ward 18, Hyde Park, and Ward 20, West Roxbury, for which two trucks, each, have been engaged.)

Wards 1 to 4, inclusive, 6.30 a. m.

Wards 5 to 7, inclusive, 6 a. m.

Wards 8 to 10, inclusive, 5.30 a. m.

Ward 11, 5 a. m.

Ward 12, 5.45 a. m.

Wards 13 to 17, inclusive, 5.30 a. m.

Ward 18, 5.15 a. m.

Wards 19 and 20, 5.20 a. m.

Ward 21, 5.25 a. m.

Ward 22, 5.30 a. m.

7. For proper coordination in the delivery of ballot boxes, ballots, etc., by the sergeants as herein set forth, to the police officers detailed at the various precincts, it is of the utmost importance that such sergeants leave the City Hall Annex promptly on time as per schedule.

8. One patrolman to report at each of the three hundred and sixty-two precincts, as hereinafter set forth, on Tuesday, November 4, 1947, to receive ballot boxes, ballots, etc., from the sergeants detailed on motor trucks. Regardless of the use of voting machines in some precincts, a ballot box will be delivered to each one as usual, and it is essential that the officer be there to receive it.

Attention is called to the necessity of having officers, so detailed, to report at their posts on time, so that there will be no delay in the opening of any polling place.

In Ward 22, Precinct 3 (polling place located in Allston station of Boston and Albany Railroad), from the opening to the close of the polls (8 o'clock a. m., to 8 o'clock p. m.), an officer will be detailed outside this polling place to safeguard the voters.

In all other precincts officer assigned outside polling place will report at 6 p. m. and remain until close of the polls at 8 p. m. Officers assigned to duty outside the polls are to enforce the law which prohibits the distribution of campaign literature within 150 feet of the entrance to a polling place.

9. The detail of patrolmen at the various precincts will continue until the ballots are counted and the results de-

clared. The officers are then to bring the ballots and returns to the Election Commissioners' office.

10. Cards with the ward and precinct number and location of voting booth printed thereon will be forwarded to the several police divisions, on which the Division Commander will write the name, the division number, and the number of the officer detailed at the time stated on the morning of November 4, 1947, at the voting booth of each respective precinct on his division. This card, to be given to the officer so detailed at the voting booth, will be retained in his possession until delivery by him to an employee of the Board of Election Commissioners, who will arrive accompanying a sergeant on motor vehicle from the Election Commissioners' office on the morning of November 4, 1947, with the ballot boxes, ballots, etc., as hereinbefore stated.

This card, when returned by such employee to the office of the Election Commissioners will be its receipt that the ballot boxes, ballots, etc., have arrived at their proper destination.

11. On receipt by the patrolman from the sergeant, detailed on motor vehicle, as herein provided, of registering ballot box, ballots, voting lists and such other documents as may have been received from the Election Commissioners, the patrolman detailed at polling place will deliver same to the warden or clerk of the precinct, allowing no person to take or handle them before such delivery, and hand the key of the registering ballot box to the warden. On delivery of the ballots to the warden, the patrolman will take from him a receipt for the same, which receipt will be returned to the Election Commissioners.

12. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the patrolman who is to retain it until after the polls have closed, except that, at the request of the warden, the patrolman may allow him to open the box for the purpose of pressing down the ballots, in order to make room for more ballots, after which the patrolman will see that the box is again locked, and the key returned to the police officer.

13. The patrolman will obtain from the warden copies of poster, which will be sent to the latter, in relation to smoking and the use of liquor in polling places, and post same in conspicuous places where they may be easily read. Tacks will be sent for the purpose.

14. The warden will deliver to the patrolman detailed at the polling place for his use at that place a copy of the descriptive voting list, which must be returned to the warden at the close of polls.

15. When the polls are opened, the patrolman will mark in the place indicated on the tag attached to the key the figures which the register shows before any ballots are cast.

16. At 8 p. m., Tuesday, November 4, 1947, when the polls close, one sergeant will report in each of the 22 wards (excepting Ward 18, Hyde Park, and Ward 20, West Roxbury, for which wards two sergeants and two motor trucks, each, are provided), to meet motor vehicle at last point of morning distribution; thence to proceed to each of the several precincts in his

respective ward, and receive registering ballot box (which must be locked), and key thereof, voting lists envelope, signed by the warden and other election officers, receipts for ballots, unused ballot box, sealed and certified (containing unused and spoiled ballots), stamps for marking spoiled ballots and check lists, and individual envelopes containing keys to each voting machine, carry them to the Election Commissioners' office and deliver same to some member of the Board of Election Commissioners.

17. When the polls are closed, the patrolman will mark on the same tag the figures which the register shows after all ballots have been cast. He will then hand the key to the warden, who will open the box and take out all the ballots to be sorted and counted. The warden will then cause the voting lists, including the list used by the police officer, to be sealed up in an envelope, and the envelope certified by the signatures of himself and the other election officers and the same returned to the Election Commissioners. The patrolman will not allow this envelope to be put into the ballot box. The sergeant who will report on motor vehicle will keep it about his person until delivery at the office of the Election Commissioners.

The unused and spoiled ballots are then to be put into the box for unused ballots and the box sealed and certified, to be delivered to the office of the Board of Election Commissioners.

18. When returning from polls, all motor vehicles must drive to the easterly side of City Hall Annex, Court square, where ballot boxes will be conveyed by chute to the basement.

19. It is important that the patrolman sees that the voting lists envelope is signed by the warden, clerk and all the inspectors. The patrolman will also see that the special book for signatures of voters is returned in the registering ballot box.

20. In case a patrolman is detailed to relieve another after the close of the polls, the commanding officer will see that he is properly instructed as to the duty of bringing the official return, the box of ballots cast, and the press return to the Election Commissioners' office as soon as they are delivered to him by the election officers.

21. When the ballots have all been counted, the ballots thus counted, tally sheets and nothing else (the ballots to be in their separate boxes or envelopes) shall be placed by the warden in the leatheroid box sent for that purpose, which must be sealed up and signed by all the election officers. The patrolman will particularly see that this box is properly sealed up and that all the election officers have signed their names to the certificate on the box. The patrolman will then bring the box, official return, record book and press return to the City Hall Annex, Court square, and deliver same to the Election Commissioners.

The patrolman is directed not to allow the official return, press return or record book to be placed in the leatheroid box with ballots cast, but are to be returned by the officer to the Board of Election Commissioners.

22. While the polls remain open an officer of rank will visit the polling place in each division at stated intervals, to be designated by the captain, and in case of any disturbance will report the

fact to the commanding officer of the station house without delay. If additional men are needed beyond the number available in that division, the officer in charge will communicate immediately with headquarters.

He shall remind the officer and the warden on duty at the polls, that the official return, press return and record book are not to be placed in the leatheroid box, but shall be safely delivered to the Election Commissioners with the leatheroid box.

23. Attention is called to the fact that the polls at the City Election on Tuesday, November 4, 1947, shall open at 8 o'clock a. m. and close at 8 o'clock p. m.

24. Commanding officers of divisions will see that the officers detailed for duty on City Election Day are furnished with a copy of the circular issued by the Board of Election Commissioners, entitled: "Instructions to Police Officers on Election . . . Days."

25. Voting machines will be used in the following precincts at the coming City Election:

Ward 1, all precincts.
Ward 2, all precincts.
Ward 3, all precincts.
Ward 4, all precincts.
Ward 5, Precinct 4.

Officers assigned to duty in these precincts should be apprised of the procedure to be followed. When the warden has set up the machines for voting and the polls are declared open, he will give keys Nos. 2, 3 and 4 of each machine in the precinct to the police officer. The officer will have custody of these keys until the close of the polls. Since the law requires that a ballot box be furnished for absentee and challenged ballots, the officer will also have custody of the ballot box key during the polling hours. At the close of the polls, the officer will return the keys to warden. Keys Nos. 2 and 3 will be automatically locked into the voting machines. Key No. 4 will be given to the police officer to return to City Hall. This key is to be enclosed in a sealed envelope signed by all the election officers. Since the procedure is most important, the officers will check the envelopes—one for each machine—to be certain that they are in proper order. If any absentee or challenged ballots are cast in the precincts where machines are used, the officer will have ballots to return, but in any event he will return to City Hall Annex the box sent to the polling place for ballots cast, in addition to the envelopes containing the No. 4 key.

IMPORTANT NOTES.

A. Officers shall strictly enforce the law pertaining to smoking. Smoking is prohibited within the confines of the polling places, during the entire day, while the polls are open, as well as after they are closed.

As polling places and their approaches and exits are, in many instances, in buildings used for places of religious worship, to say nothing of the danger to valuable property from careless persons, the importance of these instructions is apparent.

B. During the hours from 6 o'clock p. m., to 8 o'clock p. m., there has been a large increase in the number of persons who congregate outside the polling places. This makes it disagreeable to voters who are entering and leaving the

polling places. Officers shall exert every effort to relieve this congestion.

Officers are reminded that it is the privilege of the voters to watch the count of the votes cast. It is understood that no disturbance or crowding is to be permitted and that the voters are to remain outside the rails.

C. Officers shall handle ballot boxes with great care.

D. At the close of the polls all persons waiting to vote, including any who might be in line at the entrance to the polling place, are to be placed in line by the warden and given cards bearing their names. The police officer is to stand at the end of this line to be certain that no additional persons are permitted to join it. All voters in the line are to be permitted to cast their ballots, whether by paper ballots or by machine.

E. A candidate running on "stickers" (or his representative) may stand at the entrance to the polling place to distribute "stickers."

F. Corrected books showing the locations of the polling places will be sent to each division. You will note that in many instances precincts have been combined in one building, but the number of precincts is 362. On account of the many changes in location since the State election officers will check the location book carefully.

G. Commanding officers shall direct all officers detailed at the polling places in the various precincts to report promptly according to schedule.

H. Officers shall be informed that in many instances there are two precincts located in the same building, as follows:

KINDERGARTEN ENTRANCE AGE.

The following was received:

City of Boston,

Office of the Mayor, October 16, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the School Committee of the City of Boston relative to your order of October 6, 1947, concerning the lowering of the entrance age of children to kindergarten classes.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,

School Committee, October 15, 1947.

Hon. John B. Hynes,

Temporary Mayor of Boston.

Dear Sir,—An order passed by the City Council under date of October 6, 1947, requesting "that the School Committee, through his Honor the Mayor, hold a meeting and decide the question of lowering the entrance age of children to kindergarten classes in accordance with resolution of September 3, 1947, passed by the Boston City Council," has been received.

I would respectfully inform you that the School Committee, at a conference held on October 8, 1947, reaffirmed its decision—that the entrance age for admission to kindergarten shall be four years and six months as of September 15.

Very truly yours,

LOUISE KANE, Secretary.

KINDERGARTEN FACILITIES AT COLUMBIA VILLAGE, ETC.

The following was received:

City of Boston,

Office of the Mayor, October 16, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the School Committee of the City of Boston relative to your order dated September 29, 1947, relative to providing facilities at Columbia Village for the proper instruction of the children in the kindergarten and first grade classes.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,

School Committee, October 15, 1947.

Hon. John B. Hynes,

Temporary Mayor of Boston.

Dear Sir,—At a conference of the School Committee held on October 8, 1947, an order passed by the City Council under date of September 29, 1947, was presented, requesting "that his Honor the Mayor direct the School Committee to provide facilities at Columbia Village for the proper instruction of the children in the kindergarten and first grade classes."

The superintendent reported to the committee that at his request, Mr. James J. Mahar, engineer, had talked with a representative of the Boston Housing Authority, who stated that there was no available space which could be used for a first grade.

The Housing Authority is now engaged in preparation of a kindergarten and if the kindergarten numbers will permit of the use of part of the room for a first grade, the Housing Authority will arrange a partition to care for approximately 16 pupils of Grade I. The superintendent reported, however, that there were enough pupils in the kindergarten for a double session which would seem to prohibit the establishment of a first grade at this time. If later on, space can be found by the Housing Authority to take care of a first grade, the superintendent will be glad to provide a teacher.

The report of the superintendent was accepted by the committee.

Very truly yours,

LOUISE KANE, Secretary.

The following was received:

City of Boston,

Office of the Mayor, October 10, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works

relative to your order of October 6, 1947, concerning the resurfacing with smooth type asphalt of Hemenway and Haviland streets, in Ward 4.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Public Works Department,
October 9, 1947.

Mr. J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—I return herewith order in City Council that the Commissioner of Public Works arrange for the resurfacing, with smooth type asphalt, the following streets in Ward 4: Hemenway street, Haviland street.

Please be advised that it is a little late in the season to arrange for this work but kindly rest assured that these streets will be put on the list of streets to be given consideration for reconstruction during the coming year.

Very truly yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

SHORE IMPROVEMENTS, JAMAICA POND.

The following was received:

City of Boston,
Office of the Mayor, October 17, 1947.
To the City Council.
Gentlemen,—I transmit herewith communication from the chairman of the Park Department relative to your order of October 6 concerning the repairing of walks, the beautification of hedges and landscaping around the shore of Jamaica Pond.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, October 15, 1947.
Mr. J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—I am in receipt of your memorandum of October 8 with inclosure, order of the City Council that the Park Commissioner be requested, through his Honor the Mayor, to repair the walks and beautify the hedges and landscaping around the shore of Jamaica Pond.

I am not satisfied with the condition of the walks, slopes and shrubbery around Jamaica Pond. I realize that the work that should be done around the pond is a more or less major undertaking, for which no funds are at present available. However, when our budget for 1948 is being made up, I will see that a request is included for sufficient funds to carry out the improvements needed at the pond, such as reconstruction of walks, beautifying shores, etc.

Very truly yours,

JOHN J. MURPHY, Chairman.

SALE OF LAND IN FRANKLIN PARK TO WHITE FUND.

The following were received:

City of Boston,
Office of the Mayor, October 20, 1947.
To the City Council.
Gentlemen,—I transmit herewith an order for the purchase of approximately 14 acres of land in Franklin Park by the George Robert White Fund for the sum of \$20,000. I also transmit communications from the manager of the White Fund and the chairman of the Park Department relative to this sale of land.

On this parcel of land, when the transfer is consummated, will be constructed a stadium to be known as the George Robert White Fund Memorial Stadium. Plans are already being made for the construction of a stadium that will seat approximately 10,000 persons, and will have facilities for the accommodation of four football teams at the same time. A cinder track will be built within the stadium, and other facilities provided for, to permit the holding of track events. The amount of land, 14 acres, will not have any serious effect on the general enjoyment of Franklin Park, which has five hundred and twenty-eight acres.

The trustees of the George Robert White Fund have voted to construct this athletic stadium at Franklin Park at an approximate cost of \$300,000. At the present time, there is no inclosed area in the city where schoolboy and other football games and athletic events may be held. Such a stadium is a crying need.

I recommend very strongly that your Body give prompt action on the inclosed order so that we may proceed with expedition to the building of the stadium.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, October 14, 1947.
To the Hon. Temporary Mayor and City Council.

Gentlemen,—The Board of Park Commissioners of the City of Boston are in receipt of a vote of the City of Boston—George Robert White Fund passed October 9, 1947, wherein the City of Boston—George Robert White Fund requests that the City of Boston transfer to it an area of approximately 14 acres of land situated in Franklin Park, near Walnut avenue and Seaver street, in the West Roxbury district, and offers to the City of Boston the sum of \$20,000 as the fair cash value of said land.

The City of Boston—George Robert White Fund has selected this parcel of land as a site for the establishment of a stadium by said fund.

The Board of Park Commissioners of the City of Boston at a meeting held on October 14, 1947, voted that this Board recommends that the request and offer of the City of Boston—George Robert White Fund be accepted and further recommends that the selected parcel of land be transferred to the City of Boston—George Robert White Fund for the sum of \$20,000, the fair cash value thereof.

Very truly yours,

BOARD OF PARK COMMISSIONERS,
JOHN J. MURPHY, Chairman.

City of Boston,
George Robert White Fund, October 10, 1947.
To the Hon. Temporary Mayor and City Council.

Gentlemen,—The City of Boston—George Robert White Fund acting by and through the trustees designated in the fourteenth clause of the will of George Robert White and having the control and management of said fund on October 9, 1947, passed the following vote:

"Voted, That for the purpose of the establishment of a stadium by the City of Boston—George Robert White Fund the trustees have selected a site containing approximately 14 acres of land situated in Franklin Park, near Walnut avenue and Seaver street, in the West Roxbury district."

The City of Boston-George Robert White Fund requests that the City of Boston transfer said land to the City of Boston-George Robert White Fund.

The City of Boston-George Robert White Fund offers to the City of Boston the sum of \$20,000 as the fair cash value of said land.

The Manager of the City of Boston-George Robert White Fund is directed to communicate this request and offer to the Temporary Mayor and City Council and to the Board of Park Commissioners of the City of Boston.

Very truly yours,
JAMES J. MCCARTHY, Manager.

Whereas, The City of Boston owns in fee Franklin Park, a public park in the West Roxbury district of the City of Boston, containing an area of approximately 23,000,000 square feet or 528 acres; and

Whereas, The City of Boston-George Robert White Fund has selected within Franklin Park an area of approximately 14 acres as a site for the establishment of a stadium by the George Robert White Fund and has requested that the said parcel of land be transferred by the City of Boston to the City of Boston-George Robert White Fund, and has offered to the City of Boston the sum of \$20,000 as the fair cash value of said land; and

Whereas, The Board of Park Commissioners of the City of Boston recommends that the request and offer of the City of Boston-George Robert White Fund be accepted and that the selected parcel of land be transferred by the City of Boston to the City of Boston-George Robert White Fund for the sum of \$20,000, the fair cash value of said land; now therefore it is hereby

Ordered, That his honor the Temporary Mayor of the City of Boston, be, and he hereby is, authorized, in the name and behalf of the City of Boston, to transfer to the City of Boston-George Robert White Fund by an instrument in writing satisfactory in form to the Law Department of the City of Boston a parcel of land within Franklin Park containing approximately 609,840 square feet or 14 acres for the purpose of the establishment of a stadium on said land by the George Robert White Fund and upon the consideration of the payment to the City of Boston by said Fund of the sum of \$20,000, the fair cash value of said land. The parcel of land to be transferred is shown on a plan marked "Plan Showing Land to be Transferred by City of Boston-Park Department to City of Boston-George Robert White Fund, City of Boston, Franklin Park, West Roxbury, October 26, 1947, Thomas F. McKeown, Chief Engineer, Street Laying Department.

REPORT ON VOTING MACHINES PURCHASE.

The following was received:

City of Boston,
Finance Commission, October 14, 1947.

Hon. John B. Hynes,
Mayor of Boston.

Sir—The Finance Commission has inquired into the proposal of the Board of Election Commissioners to purchase a second lot of voting machines, and having requested you to defer final action in this matter temporarily, now desires to express its views on the subject.

The Commission has conferred with the Election Commissioners and has obtained from them directly their reasoning in the matter. It appears that the decision to purchase another number of machines was made in January, 1947, at a meeting of the Election Commissioners and Mayor Curley. Subsequently, in March, 1947, the Finance Commission communicated with the City Council on this subject pointing out that in the event of the adoption of a Plan E charter with preferential voting voting machines would not be used in municipal elections. The Plan E movement has every indication of remaining a live issue in Boston for several years.

It now gives the additional reason for opposing any such purchase. This is no time to indulge in expensive innovations. The proposed purchase of voting machines would cost approximately \$600,000. Election processes have been carried on for many years without voting machines, and no great harm can come from deferring further installations.

The 1947 tax rate reached an all-time high. An increase in the tax rate is generally expected for 1948. Most municipal administrators realize that basic costs of government will increase substantially in the next few years. Therefore, it is no time for the city to buy more voting machines when there is no immediate and pressing necessity.

Respectfully submitted,
JOSEPH K. COLLINS, Chairman.

SALARY SCHEDULE FOR
TEACHERS, MEMBERS OF
THE SUPERVISING STAFF
AND OTHERS, YEAR END-
ING AUG. 31, 1948.

The following twenty-four orders establishing a salary schedule, with increments for teachers, members of the supervising staff and others, for the year ending Aug. 31, 1948, were offered:

1. ORDERED, That the salaries of teachers, members of the supervising staff and others are hereby established for the school year September 1, 1947, to August 31, 1948, inclusive, in accordance with the following schedule and subject to the following adjustments or limitations:

2. ORDERED, That during the year beginning September 1, 1947, and ending August 31, 1948, teachers, members of the supervising staff and others who on August 31, 1947, shall not have reached the maximum of their salary schedules, shall be advanced in accordance with the provisions of the regulations on their respective anniversaries by the amount of the annual increment provided for in the following schedules until the new maxima of the ranks are reached; provided that the final increment shall be such as shall place the person upon the maximum salary of his rank.

3. ORDERED, That in adopting this salary schedule the School Committee reserves the right, in the event that the General Court of Massachusetts does not grant the School Committee in 1948 power to appropriate a sum sufficient in the opinion of the School Committee to pay in full the salaries specified in this salary schedule, to revise this salary schedule at any time between January 1, 1948, and August 31, 1948, both inclusive, by making such reductions therein as would amount in effect to no more than a cancellation as of January 1, 1948, of the salary increases voted by the School Committee on May 2, 1947, and be it further

ORDERED, That all rules and regulations of the School Committee inconsistent with the foregoing reservation of right be, and they hereby are, suspended.

5. ORDERED, That for the year ending August 31, 1948, any teacher or member of the supervising staff who may be designated by the Superintendent in accordance with the regulations to fill a vacancy caused by the death, disability or absence of a principal of a school or district, or of a director, associate director, assistant director in charge of a department, or supervising nurse, for a continuous period exceeding two weeks, shall be paid at the rate of \$1.00 per day of service in addition to the regular salary of his rank. A teacher or member of the supervising staff who may be similarly designated to fill the position of assistant director; head of department; co-ordinator; guidance counsellor; submaster; vice principal; vice principal, special classes; or shop foreman; shall be paid at the rate of fifty cents (50c) per day for each day of service, in addition to the regular salary of his rank.

6. ORDERED, That for the year ending August 31, 1948, any master, junior master or assistant, Latin and day high schools, who may be designated by the Superintendent in accordance with the regulations as acting head of department in charge of a single subject where there are in the proposed department not less than two thousand pupil hours, taught by at least four teachers, whole or part-time, shall be paid at the rate of fifty cents (50c) per day for each day of service, in addition to the regular salary of his rank.

7. ORDERED, That for the year ending August 31, 1948, any cafeteria attendant who may be designated by the Superintendent to serve as acting cafeteria manager in a Type A School shall be paid at the rate of one dollar and twenty cents (\$1.20) per day of service in addition to the regular salary of her rank.

8. ORDERED, That for the year ending August 31, 1948, any cafeteria attendant who may be designated by the Superintendent to serve as acting cafeteria manager in a Type B School shall be paid at the rate of fifty cents (50c) per day of service in addition to the regular salary of her rank.

9. ORDERED, That for the year ending August 31, 1948 any cafeteria manager, permanent or temporary, who may be assigned by the Superintendent to the office of the Director of School Lunches shall be paid at the rate of three dollars (\$3) per day of service in addition to the regular salary of her rank.

10. ORDERED, That during the school year 1947-48 the Superintendent is hereby authorized to fix compensation of all persons giving lectures and improvement courses for teachers other than those whose compensation is fixed

in the salary schedule for teachers and members of the supervising staff.

11. ORDERED, That holders of present XXXI. or XXXI. B certificate who while serving under said certificate obtain a Bachelor's degree shall be granted the maximum salary of \$4488, provided they have served at least one year on the former maximum of \$4344.

12. ORDERED, That all Trade Instructors who have been promoted from Shop Instructor and who have not as yet reached the maximum of the salary of the rank of Shop Foreman shall be given three additional increments to take effect September 1, 1947, provided that this salary does not exceed the maximum of Shop Foreman.

13. ORDERED, That the salary of George W. Brown, trade instructor, Boston Trade High School, is hereby placed upon the eleventh year of the salary of the rank, namely, \$4,056 (four thousand fifty-six dollars) per annum, to take effect September 1, 1947, and that he shall be advanced upon successive anniversaries of said date until the maximum of the rank is reached.

14. ORDERED, That the salary of William N. Mistler, senior instructor, mechanic arts, Boston Technical High School, is hereby placed upon the eleventh year of the salary of the rank, namely, \$4,056 (four thousand fifty-six dollars) per annum, to take effect September 1, 1947, and that he shall be advanced upon successive anniversaries of said date until the maximum of the rank is reached.

LAND-TAKING IN WEST ROXBURY.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Neillian Crescent, West Roxbury district, as a highway, from Pond street northwesterly, north-easterly, and southeasterly to Pond street, bounded and described as follows:

A highway named Neillian Crescent is hereby laid out, from Pond street northwesterly, northeasterly, and southeasterly to Pond street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southerly by Pond street, by two measurements, fifty-six and 52-100 feet and thirty and 82-100 feet; westerly by the westerly line of said Neillian Crescent as hereby laid out, by five measurements, thirty-one and 42-100 feet on a curve of twenty feet radius, eleven and 29-100 feet, sixty-three and 51-100 feet on a curve of ninety-four and 44-100 feet radius, eighty-one and 50-100 feet, and one hundred sixty-one and 52-100 feet on a curve of one hundred ten and 50-100 feet radius; northwesterly by the northwesterly line of said street as hereby laid out, one hundred twenty-six and 50-100 feet; northerly by the northerly line of said street as hereby laid out, ninety-five and 23-100 feet on a curve of sixty-four feet radius; northeasterly by the northeasterly line of said street as hereby laid out, forty-six and 10-100 feet; northerly by the northerly line of said street as hereby laid out, by three measurements, seventy-eight and 43-100 feet on a curve of one hundred and sixty feet radius, twenty-three and 34-100 feet, and thirty-two and 72-100 feet on a curve of twenty feet radius; easterly by Pond street, eighty and 18-100 feet; westerly by the westerly line of said street as hereby laid out, thirty and 11-100 feet on a curve of twenty feet radius; southerly by the southerly line of said street as hereby laid out, by four measurements, twenty eight and 58-100 feet, ninety-seven and 98-100 feet on a curve of two hundred feet radius, forty-six and 10-100 feet, and thirty-five and 71-100 feet on a curve of twenty-four feet radius; southeasterly by the southeasterly line of said street as hereby laid out, one hundred twenty-six and 50-100 feet; and easterly by the easterly line of said street as hereby laid out, by five measurements, one hundred three and 5-100 feet on a curve of seventy and 50-100 feet radius, eighty-one and 50-100 feet, ninety and 41-100 feet on a curve of one hundred thirty-four and 44-100 feet radius, three and 42-100 feet, and thirty-eight and 67-100 feet on a curve of twenty and 96-100 feet radius.

Trees or structures standing upon or affixed to the aforesaid land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on all sides of Neillian Crescent, as laid out under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Neillian Crescent, West Roxbury, August 22, 1947, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

BUILDINGS RAZED.

The Temporary Mayor has approved the request of the Building Commissioner to perform work as follows:

To enter the building or other structure, or the abutting land or buildings, at 2 Paris court, Ward 1, with such assistance as required, vacate forthwith and remove said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 4 Paris court, Ward 1, with such assistance as required, vacate forthwith and remove said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 129 Mt. Vernon street, Ward 5, with such assistance as required, and make safe said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

STATES AND CITIES TAKE ACTION ON EMERGENCY HOUSING.

Four states are taking steps toward meeting the housing shortage. In Massachusetts a state housing bill would authorize cities to (1) undertake repairs or remodeling of houses for veterans, (2) acquire land for sale to veterans or contractors who will sell or rent houses to veterans, (3) go into the housing business for themselves, and (4) seize homes from which veterans and their families have been evicted without fault. In Minnesota the Governor has appointed a state housing expediter to work with building supply industries and Federal agencies on materials distribution, to aid local communities in making use of unused buildings, and to

help cities benefit from the programs of Federal agencies having to do with housing. In Illinois the state has contributed \$4,300,000 to the Chicago Housing Authority for use in acquiring land for veterans' housing, and in California the Governor has called a special session of the Legislature to consider a bond issue of perhaps \$100,000,000 for loans to veterans for homes and farms.

VETERANS' RELIEF SERVICES SHOW DECIDED INCREASE FOR SEPTEMBER, 1947, OVER THOSE FOR THE SAME PERIOD OF 1946, ACCORDING TO MONTHLY REPORT SUBMITTED TO TEMPORARY MAYOR HYNES BY DIRECTOR OF VETERANS' SERVICES DAVID J. BRICKLEY—REDUCTION SHOWN, HOWEVER, OVER AUGUST OF THIS YEAR—SOME COLLECTIONS MADE AS REFUNDS BY FORMER BENEFICIARIES ALSO SHOWN BY REPORT.

Relief expenditures for the Veterans' Services for the month of September showed a decided increase over that of the corresponding period for 1947, according to the report of the Director, David J. Brickley, as made to Temporary Mayor John B. Hynes. The report showed 340 cases at a cost of \$30,300.92 over the preceding year for the same period. Broken down this sum is divided into 107 cases of relief for World War I veterans at a cost of \$7,389.73, and 228 cases of relief for World War II veterans at an expenditure of \$9,457.30. The complete report reads as follows:

DEPARTMENT OF VETERANS' SERVICES
IN MONTHLY REPORT TO TEM-
PORARY MAYOR HYNES SHOWS
INCREASE OF 340 CASES OVER SAME
PERIOD OF LAST YEAR.

(Continued from page 1225.)

Relief expenditures for September, 1947, show an increase of 340 cases and \$30,300.92 as compared with the corresponding period in 1946. A World War I comparison shows an increase of 107 cases and \$7,389.73 in expenditures, and a World War II comparison exhibits an increase of 228 cases and \$9,457.30 in costs as compared to September, 1946. The Emergency Item (temporary benefits granted to beneficiaries of all wars) shows an increase of \$12,363.84 as compared to September, 1946. As compared to August, 1947, there is shown a reduction of 148 cases and \$6,134.81 in expenditures. This reduction for September—entirely caused by the decrease of 162 cases and \$4,588.71 in costs for World War II beneficiaries—is the result of payments of Terminal Leave Bonds to the veterans of World War II which consequently caused an adjustment by the Department of Veterans' Services in the amount of veterans' benefits disbursed to those beneficiaries. This adjustment is only temporary and does not portend an immediate reduction in the case load of this department.

The 1,061 cases aided during the month of September, 1947, represents a total of 2,184 individuals benefited through the facilities of this department. There were 256 cases dropped from these rolls during the month of September, 1947, chiefly because of the cashing of Terminal Leave Bonds, and the acceptance of private employment.

CLASSIFICATION OF CASES AIDED DURING
SEPTEMBER, 1947.

* Of the 287 employable veterans (World War II—178 and World War I—109), 72 were dropped from these rolls during September because of the cashing of Terminal Leave Bonds, employment and other reasons. The majority of the 215 employable veterans still remaining on the rolls are either temporarily unfit physically because of service-connected or other disabilities, had insufficient service to have accrued Terminal Leave Bonds, or are unable to secure satisfactory positions.

PRAISE FOR ASSESSING DEPARTMENT FROM TAX COMMISSIONER LONG.

The following letter was received on November 3, by the Assessing Department, from Tax Commissioner Henry F. Long:

To the Assessors of the City of Boston, City Hall, Boston, Mass.

It is with great satisfaction that I approve under section 8 of chapter 58 an adjustment by authorizing you to grant abatement in respect to the South Station settlement for the years 1939 to 1946, inclusive, which becomes possible because of the Federal Court's findings.

This in my opinion is an exceptionally good settlement and far exceeds that which I have been thinking, through the years, would be possible. It bespeaks well for the intelligent way in which this matter has been handled by the City of Boston and I join with you in being gratified by a result which at one time seemed to be impossible.

My heartiest congratulations to you and the City of Boston for this splendid result which is much to be commended.

Respectfully yours,

HENRY F. LONG,
*Commissioner of Corporations
and Taxation.*

FEES FOR CHILDREN'S BOARD.

The Temporary Mayor has approved the action proposed in the following letter:

BOSTON, September 8, 1947.

HON. JOHN B. HYNES,
Temporary Mayor.

DEAR MR. MAYOR,—Your approval is respectfully requested to permit the Institutions Department to raise its rates of payment for the board of children committed to its care in foster homes as follows:

Children five to ten years, from \$7 to \$7.50 weekly.

Girls ten years and over, from \$7 to \$8 weekly.

Boys ten years and over, from \$7 to \$8.50 weekly.

No change is proposed for children under five years, for the reason that it is considered that the present rates are adequate.

By agreement in matters of this kind we have been notified by the State Department of Public Welfare that it is their intention on October 1, 1947, to raise the rates of their children in foster homes, in accordance with the above rates. It has been agreed by that department and this department that these increased rates are necessary to provide for the increased costs of living, and to lessen the difficulty in finding new homes.

It is estimated by this department that these increases will amount to \$10,000 for the balance of the year. The Institutions Department is in position to pay this \$10,000 within its existing appropriation. However, it will be necessary that a transfer of funds be made from other items in which we have effected savings.

Respectfully yours,

G. FRANK McDONALD,
Commissioner.

CIRCULAR LETTER NO. 23.

CITY OF BOSTON,
MAYOR'S OFFICE, October 28, 1947.

*To Heads of Departments, Including
County Officials.*

Subject: Budget Estimate Forms for 1948.

GENTLEMEN,—Budget estimate forms for the year 1948 are now available and may be obtained at the office of the Budget Commissioner, 44 City Hall. These sheets should be secured at once and preparation of budget estimates for the new year started immediately. Your attention is expressly directed to the instructions included with each set of estimate sheets.

For the coming year budget requirements should be carefully estimated and kept at the lowest possible figure. To avoid a confiscatory tax rate in 1948, every effort must be made to effect savings wherever possible. A genuine study of the needs of your department, coupled with a survey of present procedures, might well result in substantial savings in a more efficient and economical distribution of personnel and the elimination of existing vacancies. Requests for temporary employees must be kept at the very minimum, and will only be approved if ample justification can be shown.

His Excellency the Governor has gone so far as to ask all state departments to effect an over-all 10 per cent savings in state expenses. What state departments can do, city departments can do.

Your cooperation in this respect is essential and necessary.

Respectfully,

J. B. HYNES,
Temporary Mayor.

CORRECTION OF BID.

SUPPLY DEPARTMENT.

The Temporary Mayor has approved the action requested in the following letter:

BOSTON, October 9, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On October 2, 1947, your Honor approved the awarding of contracts for surgical dressings for the period from October 1 to December 31, 1947. The amounts of two awards were incorrect.

It is therefore respectfully requested that permission be granted me to award contracts in the correct amounts as follows:

McKesson & Robbins, Inc., \$7,085; Chester A. Baker, Inc., \$5,347.76; E. F. Mahady Company, \$198. Total, \$12,630.76.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

TRANSIT DEPARTMENT.

Upon October 17 the Temporary Mayor approved a contract with the Raymond Concrete Pile Company for wash borings, vehicular tunnel, Boston to East Boston.

Bids, were as follows:

Greenland Drilling Company, \$11,635.20; Raymond Concrete Pile Company, \$8,225.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Temporary Mayor has approved contracts for furnishing supplies, labor, etc., to the various city departments. Communications from the heads of the departments interested were as follows:

SUPPLY DEPARTMENT.

BOSTON, October 7, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract for furnishing to the Boston City Hospital 135 cartons of sponges, 4 by 4 Zobec or equal, at a price of \$22.15 per carton.

These sponges are a contract item and were on a contract with E. F. Mahady Company which expired on September 30, 1947. The request for the purchase of these sponges was not received at this office until after the expiration date and the new price on this item is now \$23.40 per carton. The E. F. Mahady Company have agreed to accept this order at the old price which means a saving to the city of \$168.75.

For the reasons given above, I would respectfully request that the permission asked for be granted me. Total amount of contract will be \$2,990.25.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, October 9, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On July 14, 1947, your Honor approved the awarding of contracts for surgical dressings for the period from July 1, 1947 to September 30, 1947, to the following companies: E. F. Mahady Company, \$33,850.50; Thomas W. Reed

Company, \$20,673.40; McKesson & Robbins, Inc., \$9,625.57—\$64,149.47.

The bid from E. F. Mahady Company was filed late in the Auditor's office. It is therefore respectfully requested that a contract be awarded to this company without further public advertisement. This is for the Auditor's records.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, October 28, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without public advertisement, to the N. E. Coke Company for furnishing approximately 200 tons of stove-size coke at a price of \$17.55 per net ton, delivered by lighter, to the Long Island Hospital. This price is subject to a discount of 15 cents per net ton if payment is received within 15 days from date of invoice.

This company has supplied this product to the city for a number of years and is the only company to furnish this tonnage. Total amount of contract will be \$3,510.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, October 28, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested to award a contract, without public advertisement, to the Boston Ice Company for furnishing approximately 25,000 gallons of kerosene to the various public buildings at their posted tank wagon price in effect on the date of delivery, less a discount of .00625 cent per gallon, resulting in a price today of .11175 cents per gallon.

The approximate total amount of contract will be \$2,793.75.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, October 28, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without public advertisement, to the H. P. Hood & Sons Company for furnishing to various locations under the direction of the Park Department, 5,000 dozen units of ice cream at fifty cents (\$.50) per dozen. All the various companies who are suppliers of this item were contacted by this department and the price submitted by the H. P. Hood & Sons Company was the lowest one received.

This ice cream is to be iced and delivered to approximately 150 locations in all sections of the city for use at Halloween parties on Friday afternoon and evening, October 31, 1947.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, October 29, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without public advertisement, to Consolidated Fuels, Inc., for supplying approximately 420,000 gallons of No. 2 fuel oil to Long Island Hospital at a price to be based on

the prevailing tank wagon price at time of delivery of supplier and/or Socony-Vacuum Oil Company in the Boston marketing area, less one cent per gallon; terms, 1 per cent 30 days; resulting in a price today of 8.8 cents per gallon, delivered dockside at Long Island in Boston Harbor. The delivered figures are to be charged at 60° Fahrenheit, gauged by E. W. Saybolt & Co. at supplier's dock. The oil shall conform with standard City of Boston specifications.

This request is occasioned by reason of a conversion in the power plant at Long Island Hospital effected since our regular contracts for this type of oil were negotiated. Due to the critical shortage of oil, no other supplier is in a position to furnish this oil.

Approximate total amount of contract will be \$36,960.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 3, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without public advertisement, to the Ayers Linen Company for furnishing to the Boston City Hospital 100 dozen surgeons' gowns, long sleeves, size 48 (sleeves to be fitted with knitted cuffs), at a price of \$28.75 per dozen.

The money for this purchase is furnished through the medium of a federal grant termed the "Veterans' Training Program." Boston City Hospital has notified this department that prompt delivery is of extreme importance and the Ayers Linen Company is able to make immediate delivery. The price of \$28.75 per dozen is as low as can be secured in the open market and in view of the fact that immediate delivery is desired, I would respectfully request that the permission asked for above be granted me. Total amount of contract will be \$2,875.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, October 24, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—The Park Department is in urgent need of 15 new lifeboats to replace the ones now in service at the various beaches under the control of this department. These boats are used by the lifeguards for the protection of the public along the different beaches. The cost of putting the old boats in proper condition, we have found, is prohibitive.

A survey of shipyards was made by the Park Department in order to secure information regarding boats of the proper specifications and it has been found that the Reids' Shipyard, Inc., Winthrop, Mass., are best equipped to furnish the type of boat needed. In view of this explanation, I would respectfully request that permission be granted me to award a contract, without public advertisement, to Reids' Shipyard, Inc., for furnishing (15) lifeboats as per specifications to the Park Department at a cost of \$165 each. Total amount of contract will be \$2,475.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

TRANSIT DEPARTMENT.

BOSTON, October 29, 1947.

HON. JOHN B. HYNES,
Temporary Mayor.

DEAR MR. MAYOR,—The construction of the extension of Rapid Transit facilities in the East Boston district requires work to be done under the main line tracks of the Boston & Albany Railroad in the vicinity of Porter and Orleans streets.

This work is of a specialized nature in that regular railroad service on the ground level must be maintained, at all times during the underground construction and it also calls for the use of special equipment and highly-trained personnel which only the Boston & Albany Railroad can supply.

The cost of this work is estimated to be fourteen thousand dollars (\$14,000).

In view of the special and peculiar nature of the work the Transit Department respectfully requests your Honor's permission to engage the Boston & Albany Railroad to perform the above-described services.

Yours respectfully,

MALCOLM E. NICHOLS,
Chairman.

SUFFOLK COUNTY.

SUFFOLK COUNTY JAIL.

BOSTON, October 29, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR,—The oversized windows at the County Jail (approximately 45 feet high and 8 feet wide and each opening consisting of 8 sets of double windows) are badly in need of repair.

Because of the nature of this work it is impossible to draw specifications in order to place it on bid. Therefore, I respectfully request that I be allowed to award this necessary work on a per diem basis in an amount not to exceed \$5,000.

Yours very truly,

FREDERICK R. SULLIVAN,
Sheriff.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Daniel Russell Boiler Works, Inc., has been granted an extension of the time of completion of the contract for repairing and retubing boilers in various schools; contract approved by your Honor, August 26, 1947. Completion date to be extended from October 15, 1947, to December 15, 1947. This extension is requested because of additional work not called for in contract.

M. Spinelli & Sons Company, Inc., has been granted an extension of the time of completion of the contract for alterations at the John G. Whittier School; contract approved by your Honor, August 1, 1947. Completion date to be extended from September 15, 1947, to November 15, 1947. This extension is requested because of difficulty in securing satisfactory materials and labor.

Peabody Construction Company has been granted an extension of the time of completion of the contract for alterations at the William Howard Taft School; contract approved by your Honor, June 30, 1947. Completion date to be extended from September 3, 1947, to December 15, 1947. This extension is requested because of shortages and delays in receiving materials.

FIRE DEPARTMENT.

An additional extension of time has been granted to J. A. Singarella Company for the performance of a contract for alterations, additions, and renovations to Fire Station, Engine 33, located at 941 Boylston street, Back Bay.

The contract is dated April 15, 1947, and was to have been completed within 90 days after date of the Mayor's approval, his Honor Mayor Curley having signed the contract April 24, 1947. The date of completion in accordance with the contract was July 23, 1947. However, the Temporary Mayor has already approved of one extension of the time of completion of the contract to October 15, 1947.

Due to the large amount of additional work which the contractor was required to perform in relation to investigation of foundation conditions at the fire station, it has been found impossible to complete the work by October 15, 1947. Request is therefore made for an additional extension of time for performance of the work under the contract until December 1, 1947.

PARK DEPARTMENT.

M. S. Kelliher Company has been granted an extension of time until November 15, 1947, for the completion of the contract for new field house, Ross Playground, Hyde Park.

PENAL INSTITUTIONS DEPARTMENT.

Kenworthy and Taylor, Inc., have been granted an extension of time for the completion of the contracts for outside wiring of electrical system at House of Correction, Deer Island. Completion date to be extended from September 30, 1947, to December 31, 1947.

D. A. Robbins Electric Company has been granted an extension of the contract for outside electrical rewiring for the new prison, House of Correction, Deer Island. Completion date to be extended from October 4, 1947, to October 25, 1947.

PUBLIC WORKS DEPARTMENT.

Baker and Company, Inc., has been granted an extension of the time of completion of the contract for the building of sewerage works in Sherman road and Veterans of Foreign Wars Parkway, West Roxbury. Completion date to be extended from October 17, 1947, to December 16, 1947, a period of 60 days. This extension is requested because of delay in starting contract due to necessity for completing other utilities in Hancock Village project.

John Deveney Company has been granted an extension of the time of completion of the contract for laying sheet asphalt pavement and sewerage works in Columbus avenue, Ward 11, from Centre street to Washington street. Completion date to be extended from October 15, 1947, to November 15, 1947. This extension is requested because the contractor was delayed by operations of the Boston Elevated Railway who did not complete their work until October 9, 1947.

CONTRACTS AMENDED.

INSTITUTIONS DEPARTMENT.

The Peabody Construction Company has been allowed to amend the contract for the building of a shaft and furnishing and installing a passenger elevator in Nurses' Home, Long Island Hospital, Boston Harbor, Mass., as follows: By substituting as the date of completion of the work "November 15, 1947" in place of "September 1, 1947." The Portland Elevator Company, sub-bidder, is delaying completion in not supplying the elevator car and equipment. It explains to the Peabody Construction Company that the delay is being had for the reason that it is experiencing difficulty in obtaining the direct current motor.

LIBRARY DEPARTMENT.

The Camac Company has been allowed to amend the contract for furnishing certain table lamps for the Central Library by striking out the words "within 90 days" as they appear on the last line of page 3 of said contract and substituting therefor the words "on or before October 27, 1947."

PENAL INSTITUTIONS DEPARTMENT.

The Robert A. LaCentra Company has been allowed to amend the contract for installing a new water system and sanitary fixtures in the Hill Prison at Deer Island as follows:

Whereas, Said contract provides that the estimated cost of the work is \$73,504.35;

Whereas, Said contract sum was increased to \$75,592.35;

Whereas, Said contract completion date was extended from September 12, 1947, to January 10, 1948, by an amendment approved by the Temporary Mayor on September 29, 1947;

Whereas, Additional work not contemplated and therefore not included in the original contract has become necessary;

Whereas, The Robert A. LaCentra Company agrees to perform such additional work;

Whereas, The reasons in detail for the additional cost have been set forth in a letter to the Temporary Mayor, approved by him on October 8, 1947, and subsequently published in the *City*

Record, which letter, approval, and publication are incorporated herein and made a part hereof;

IT IS AGREED by and between the parties that the following additional waste pipes at the unit price of \$12.31, as provided in Alternate G of the original contract, be installed: 300 waste pipes at \$12.31, \$3,693—thereby increasing the contract total sum, including the amendment of August 29, 1947, to \$79,285.35.

BOSTON, October 6, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR,—Reference is made to a contract between the City of Boston and the Robert A. LaCentra Company for installing a new water system and sanitary fixtures in the Hill Prison at Deer Island, which contract was approved May 15, 1947.

Under the terms of the contract the LaCentra Company was to clean out all lavatory wastes and, in addition, renew a certain number of these wastes, which were estimated at 60, at a unit price of \$12.31 each. In the course of the work it has been discovered that approximately 105 wastes instead of 60 had to be renewed because they were definitely broken or leaked. The unit price of \$12.31 applies to these additional 45 wastes.

In the meantime, both the contractor and our engineers, Stewart Associates, Inc., after viewing the waste pipes that were removed, feel that in the interests of the city the remaining 255 wastes should also be renewed, even though at the moment they are not actually leaking. It has been discovered after cleaning them out that they are pretty badly corroded on the inside as well, and without question a considerable number of them would have to be renewed within a short period of time.

Under our present contract we have a very favorable unit price, and it would cost far less to do this work now at this price and while the contractor is on the job than later on. Our appropriation for the work is ample to cover the cost, and the contract permits the purchase of such additional units as may be deemed necessary as the work progresses. Our engineers feel that all the units should be replaced at this time, and it in my own opinion that the interests of the city would be best served by doing so.

Permission is hereby respectfully requested to install 360 wastes at \$12.31 each, instead of the 60 originally estimated.

Very truly yours,

MAXWELL B. GROSSMAN,
Penal Institutions Commissioner.

PUBLIC BUILDINGS DEPARTMENT.

The Allied Engineering Corporation has been allowed to amend the contract to perform all work necessary and incidental to the alterations and additions to the North Grove Street Mortuary, Boston, by striking out the date, September 30, 1947, as appearing on line 4, Article II, thereof, and substituting therefor the date "November 15, 1947," so that said Article II shall read as follows:

"The contractor shall commence work forthwith upon the approval of this contract by his Honor the Mayor and shall bring the work to entire completion before November 15, 1947."

This agreement is made subject to the provisions of the contract hereinbefore referred to.

John W. Graham & Sons have been allowed to amend the contract to perform all work necessary and incidental to the interior painting of Faneuil Hall by striking out the date, September 8, 1947, as appearing on line 4, Article II, thereof, and substituting therefor the date "September 18, 1947," so that said Article II shall read as follows:

"The contractor shall commence work forthwith upon the approval of this contract by his Honor the Mayor and shall bring the work to entire completion before September 18, 1947."

This agreement is made subject to the provisions of the contract hereinbefore referred to.

ADDITIONS TO CONTRACTS.

FIRE DEPARTMENT.

Approval has been given for the following addition to the contract of Construction Units, Inc., for the erection of a new fire station for Engine 8, Ladder 24, at 392 Charter street, Boston, contract dated July 16, 1947.

Addition No. 2.—Remove 147.5 cubic yards of rock and place in trenches 8.8 cubic yards of rock, \$1,763.79; original contract, \$172,000; addition No. 1 dated September 12, 1947, \$19,948.42; total contract, \$193,712.21.

During the excavation on the site of the above fire station a number of very large granite blocks were found which apparently had been left on the premises when the old buildings were torn down. In many cases these blocks were from 2 to 4 yards in size and it was necessary to split them before removing same.

The additional charge for excavation of rock is in accordance with section 2, page 2-2, paragraph 2-4.

Although the foregoing work is in addition to the work contemplated in the original contract, it is incidental thereto.

HOSPITAL DEPARTMENT.

Sanatorium Division.

M. S. Kelliher Company, contractor for alterations to E Building, Sanatorium Division, has been instructed to add to the contract the sum of \$2,032.30 for the following:

1. Furnish and install 60A 3-phase service to building: Electric subcontract price, \$175; plus 10 per cent of subcontractor's price, \$17.50; cutting and patching, \$42.50—\$235.

2. Furnish and install 60A 3-phase submains and panel (1-3W30A, 2-3W30A, and 1-3W30A spare) to closet adjacent to dumb-waiter: Electric subcontract price, \$200; plus 10 per cent of subcontractor's price, \$20; cutting and patching, \$55—\$275.

3. Connect dumb-waiter and hot plates: Electric subcontract price, \$25; plus 10 per cent of subcontractor's price, \$2.50; cutting and patching, \$10—\$37.50.

4. Connect exhaust fan in attic and install same, disconnect switch in diet kitchen: Electric subcontract price, \$60; plus 10 per cent of subcontractor's price, \$6; cutting and patching, \$19—\$85.

NOTE.—There was no wiring in the attic for the fan where the old switch in partition was removed.

5. Furnish two 12-inch Telechron clocks in outlets: Electric subcontract price, \$30; plus 10 per cent of subcontractor's price, \$3; painting, \$7—\$40.

NOTE.—It is our opinion that these were not called for in original contract.

6. Install new metal tops on sixteen existing cubicles at first and second floor corridors using existing metal work at job; install new wood slat shelves, three 20-inch shelves at back and two 9-inch shelves at side for each cubicle, \$271.

7. Carpenter work in two toilets, \$10.

8. Substituting two General Electric refrigerators with ice cube compartments in place of refrigerators specified: Two Model No. 22SCIM General Electric equipped refrigerators with ice cube makers, \$1,190; deduction for two refrigerators, \$842—\$348; plus 10 per cent of subcontractor's price, \$34.80—\$382.80.

9. Utility Rooms 11 and 17, mounting existing bedpan racks each on a sheet of stainless steel approximately 36 inches wide and 43 inches high and installing on wall in same position; installing Monowall tile dado 8 feet high with dado cap, base, etc., and all necessary metal cover pieces as per manufacturer's specifications, \$696.

Total, \$2,032.30

Original contract, \$48,750; corrected contract, as per order No. A2104, \$51,335; now added, \$2,032.30; corrected contract, \$53,367.30; total added, \$4,617.30.

CHANGES IN CONTRACTS.

BOSTON HOUSING AUTHORITY.

Construction Units, Inc., have been ordered to change the contract for the general construction of 20 two-family houses at 291 River street, Mattapan, as follows:

For furnishing and installing anchor bolts for sills an equitable adjustment of the contract price and the contract time is established as follows: The contract price is increased \$824.80. The contract time is not changed.

The conditions hereinbefore referred to are as follows: 1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract. 2. The rights of the City of Boston are in no way prejudiced by this order. 3. All claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

CONSTRUCTION UNITS, INC.,

294 Washington Street,
Boston, Mass., May 9, 1947.

BOSTON HOUSING AUTHORITY, 10 Post Office Square, Boston, Mass.

Re: Veterans' Housing, River Street, Mattapan, Mass.

GENTLEMEN,—Our price of \$824.80 submitted May 5 for furnishing and installing anchor bolts for sills is made up as follows:

54 bolts to be installed in foundations already poured at \$10, \$540; 178 bolts at \$1.60, \$284.80; total, \$824.80.

Very truly yours,

CONSTRUCTION UNITS, INC.,
By CHARLES A. MOGAVERO.

Construction Units, Inc., have been ordered to make changes in the contract for roads, utilities, and landscaping at Liverside Estate, River street, Mattapan, as follows:

For furnishing 6 inches of gravel for roads at above project, an equitable adjustment of the contract price and the contract time is established as follows: The contract price is increased \$716. The contract time is not changed.

The conditions hereinbefore referred to are as follows: 1. The aforementioned change, and work affected thereby, is subject to all the provisions of the foregoing contract. 2. The rights of the City of Boston are in no way prejudiced by this order. 3. All claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

Re: Veterans' Housing, 291 River Street, Mattapan, Mass.

Attention: Mr. John F. Millerick.

GENTLEMEN,—At the request of Mr. Benkert, we are pleased to quote the sum of \$716 for furnishing six inches of gravel for the roads at the above project.

This price is based on \$2 per yard, as it will be necessary for us to supply cleaner gravel than is available on the job site.

Very truly yours,

CONSTRUCTION UNITS, INC.,
By CHARLES A. MOGAVERO.

Gil Wyner Company, Inc., has been ordered to make a change in the contract for road, utility and grading work at Liverside Estate, River street, Mattapan, as follows:

NO DAMAGES AWARDED.

The Temporary Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement

consisting of the laying out and construction of Neillan Crescent, West Roxbury district, as a highway, from Pond street to Pond street, under the order of the Board of October 10, 1947, and awards no damages therefor.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of Woodley avenue (formerly part of Washington Heights Avenue East), West Roxbury district, as a highway, from Washington street southeasterly for a distance of approximately 426 feet, under the order of the Board of October 10, 1947, and awards no damages therefor.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

John Deveney Company has been directed to perform the following extra work under the contract for laying sheet asphalt pavement in Pond street, Ward 19, from the Arborway to the Brookline line, dated August 26, 1947. Items ordered: Furnish and lay approximately 1,165 lineal feet of 6-inch perforated, corrugated, coated metal ground water drain, including necessary catch-basin connections. Amounts to be paid: For approximately 85 tons of crushed stone furnished and placed, the sum of \$2.50 per ton; for each lineal foot of ground water drain, the sum of \$1. Estimated cost of extra work, \$1,377.50.

Baker & Co. have been directed to perform the following extra work under the contract for sewerage works in Sherman road and Veterans of Foreign Wars Parkway, West Roxbury, dated June 19, 1947. Items ordered: Relocate and lay about 295 feet of 12-inch pipe sewer in trench of proposed surface drain in Veterans of Foreign Wars Parkway at Independence Drive, including widening of trench where required, and all incidental work, at agreed price of \$1 per lineal foot for laying. Estimated cost of extra work, \$295. This change is necessary because the condition of existing sewer in Veterans of Foreign Wars Parkway was such that it had to be abandoned.

POLICE DEPARTMENT ORDERS.

General Order No. 961.

The following-named officer having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that he is incapacitated, it is hereby

Ordered, His Honor the Temporary Mayor having approved the same, that he be retired from active service in the Police Department, effective Friday, October 31, 1947, at 7.45 o'clock a. m.:

Patrolman Gregory J. Donohue, Division 17, 26 years of service.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 962.

Acting under provisions of chapter 521, Acts of 1922, as amended, the Boston Retirement Board has approved for retirement, on account of accidental dis-

ability, the following-named police officer, a member of the Boston Retirement System, effective at the close of business, Friday, October 31, 1947.

Wherefore, In view of this operation of law, after October 31, 1947, the said police officer shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

Patrolman John M. Decker, Division 4.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment, viz.:

Weigher of Goods, for term ending April 30, 1948, Alfred N. Foley, 50 Princeton road, Arlington, Mass.

Referred to the Committee on Constables and Confirmations.

FULL-TIME ATTENDANCE OF DOCTOR, HOUSE OF CORRECTION.

The following was received:

City of Boston,

Office of the Mayor, October 24, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Penal Institutions relative to your order of October 20, 1947, concerning the advisability of having a doctor on duty twenty-four hours each day at the Deer Island House of Correction.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Penal Institutions Department,
October 24, 1947.

Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Sir,—In answer to your communication dated October 22, 1947, regarding City Council order dated October 20, 1947, may I invite the Mayor's attention to the fact that the writer, with his staff, Dr. George H. Schwartz and Major George F. A. Mulcahy, Master, have given consideration to the context of the order and have come to the following conclusions:

In 1945 we housed an average of 450 inmates at the House of Correction, Deer Island. Today the count is approximately 600. The majority of drunk cases are being sent to the Charles Street Jail, by agreement between the Municipal Courts and the commissioner; but just as soon as we open up our additional prison (which we are now in the process of renovating) the courts will start sending us these additional drunk cases, as Charles Street Jail now is overcrowded. Our count will then be over 800.

With these facts in mind, we have come to the conclusion that for the safety and health of these inmates it is necessary that we have a resident physician on duty twenty-four hours a day at the House of Correction, Deer Island, together with one hospital supervisor and two male nurses. This will provide proper coverage seven days per week.

Very truly yours,
MAXWELL B. GROSSMAN,
Penal Institutions Commissioner.

Placed on file.

"CHILDREN—SLOW DOWN" SIGN, WARD 3.

The following was received:

City of Boston,

Office of the Mayor, October 22, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Traffic Commissioner relative to your order of September 29, 1947, concerning the advisability of installing a sign reading, "Children—Slow Down" at the intersection of North street and North square, Ward 3.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,
Traffic Commission, October 17, 1947.

John B. Hynes,
Mayor of Boston.

Dear Sir,—This is to acknowledge receipt of the following Council order:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to consider the advisability of installing a sign reading "Children—Slow Down" at the intersection of North street and North square, Ward 3."

Please be advised that orders have been issued to erect the signs requested.

Respectfully submitted,
LEO F. CURLEY, Commissioner.

Placed on file.

"STOP" SIGNS, PRINCE STREET, WARD 3.

The following was received:

City of Boston,

Office of the Mayor, October 22, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Traffic Commissioner relative to

your order of September 29, 1947, concerning the advisability of installing "Stop" signs at the Prince Street Playground on Prince street, Ward 3.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,

Traffic Commission, October 17, 1947.
John B. Hynes,
Mayor of Boston.

Dear Sir,—This is in response to the following Council order:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to consider the advisability of installing "Stop" signs at the Prince Street Playground on Prince street, Ward 3."

Please be advised that orders have been issued to erect the signs requested.

Respectfully submitted,
LEO F. CURLEY, Commissioner.

Placed on file.

SPOTLIGHTS, WARD 10.

The following was received:

City of Boston,

Office of the Mayor, October 22, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Traffic Commissioner relative to your order of October 6, 1947, concerning the installation of spotlights in front of the Mission Church and at Brigham Circle, in Ward 10, to aid police officers in the directing of traffic.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,

Traffic Commission, October 20, 1947.
John B. Hynes,
Mayor of Boston.

Dear Sir,—This is to acknowledge receipt of the following Council order:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to arrange for the installation of spotlights in front of the Mission Church and at Brigham Circle, in Ward 10, to aid police officers in the directing of traffic."

The following is the report of our engineer: "The matter of erecting a spotlight in Tremont street in front of the Mission Church has been taken up and studied on several occasions and it was the opinion of the police and the engineers of the Traffic Commission that better street lighting would best serve both the police and the pedestrians at the Mission Church. The Public Works Department erected additional street lights in this area and it is my opinion that they amply serve the needs of this area."

"The intersection at Brigham Circle will be signalized within the next few months. I do not believe that we should spend the money to erect a spotlight pole when this place will be adequately taken care of with the traffic signals when they are installed."

Respectfully submitted,
LEO F. CURLEY, Commissioner.

Placed on file.

HEAVY TRUCKING, HEMENWAY STREET, WARD 4.

The following was received:

City of Boston,

Office of the Mayor, October 27, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Police Commissioner relative to your order dated October 6, 1947, concerning the assignment of police officers to enforce the traffic regulations forbidding heavy trucking on Hemenway street, Ward 4.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,

Police Department, October 24, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Mayor Hynes,—I return herewith order of the City Council dated October 6, 1947, as follows:

"Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to arrange for the assignment of police officers to enforce the traffic regulations forbidding heavy trucking on Hemenway street, Ward 4."

In City Council October 6, 1947. Passed.
Attest:

W. J. MALLOY,
Assistant City Clerk."

Police officers in that area have been specifically directed to enforce the traffic regulation prohibiting heavy trucking on this street and a motorcycle officer has been directed to patrol the street intermittently.

Respectfully yours,
THOMAS F. SULLIVAN,
Police Commissioner.

Placed on file.

PEDESTRIAN LIGHT, OLD COLONY PARKWAY AND OLD COLONY AVENUE.

The following was received:

City of Boston,
Office of the Mayor, October 24, 1947.
To the City Council.
Gentlemen,—I transmit herewith communication from the chairman of the Metropolitan District Commission relative to the order recently passed by your Honorable Body concerning the installation of a pedestrian light at Old Colony Parkway and Old Colony avenue.

Respectfully,
J. B. HYNES,
Temporary Mayor.

The Commonwealth of Massachusetts,
Metropolitan District Commission,
October 23, 1947.

Hon. John B. Hynes,
Temporary Mayor.
Dear Mr. Mayor,—Receipt is acknowledged of your letter of October 22 with the accompanying copy of an order of your Honorable City Council asking that a pedestrian installation of traffic lights be placed at Old Colony Parkway and Old Colony avenue.

The commission, at its meeting today, awarded a contract for this installation, and I will urge our engineer to get the work done at the earliest possible date.

Very truly yours,
WILLIAM T. MORRISSEY, Commissioner.
Placed on file.

APPROPRIATION FROM PARKMAN FUND INCOME.

The following was received:

City of Boston,
Office of the Mayor, October 27, 1947.
To the City Council.
Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the appropriation of \$23,000 from the income of the George F. Parkman Fund, to be expended under the direction of the Board of Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1947 budget estimates of the personal service requirements of the Park Department included an estimate of the total income of \$180,000 from the Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887.

I submit herewith an order appropriating the sum of \$23,000, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, October 22, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$23,000, which is now available, to be expended under the direction of the Board of Park Commissioners, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... \$23,000

When making up the budget estimates for the year 1947, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1947, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Very respectfully yours,
JOHN J. MURPHY, Chairman.

Ordered, That the sum of \$23,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... \$23,000

Referred to Committee on Parkman Fund.

ORDINANCE CONCERNING AUTOMATIC AMUSEMENT DEVICES.

Coun. HANNON, offered the following:

City of Boston,
In the Year Nineteen Hundred and Forty-Seven.
An Ordinance Concerning Automatic Amusement Devices.

Be it ordained by the City Council of Boston, as follows:

The Revised Ordinances of 1947 are hereby amended by adding thereto the following chapter:

CHAPTER 42.—CONCERNING AUTOMATIC AMUSEMENT DEVICES.

SECTION 1. For the purpose of this chapter, an automatic amusement device is hereby defined as any mechanism whereby, through the insertion of a coin or token, any apparatus is released or set in motion or is put in a position where it may be set in motion for the purpose of playing any game, including, but not exclusively, such devices as are commonly known as pinball machines, marble games, diggers, grab machines, baseball or football machine games, target machines and horse racing machines.

SECT. 2. No person shall, except in accordance with a license granted by the mayor, maintain,

operate or permit to be operated or maintained in any restaurant, public hall, store, place of amusement or any other place to which members of the public may resort, any automatic amusement device.

SECT. 3. Licenses granted for the maintenance, possession and operation of such automatic amusement devices shall be issued annually to expire on December thirty-first of each year. The fee for such license shall be one hundred dollars per year or portion of a year for each device.

SECT. 4. The mayor shall make rules and regulations for the use of such automatic amusement devices by the holders of licenses and he may require, from time to time, the furnishing of reports concerning the ownership of such devices or any interest therein, receipts for the use of such devices and any other information which he may deem pertinent concerning such devices and their use and operation.

SECT. 5. No person holding a license for the use of any such automatic amusement device shall use or permit the same to be used for the purpose of gambling in any manner whatsoever, either directly or indirectly.

SECT. 6. No licensee under this chapter shall permit a minor to operate an automatic amusement device without the written consent of his parent or guardian.

SECT. 7. Automatic amusement devices shall be so installed on the premises described in the license as to be in open view at all times while in operation. They shall at all times be available for inspection by the mayor and the police commissioner for the city of Boston or their authorized agents. Licenses shall not be valid to protect the holders thereof in a building or place other than that designated in the license, unless consent to removal is granted by the mayor.

SECT. 8. Any violation of the provisions of this ordinance or of chapter 136 of the General Laws shall be cause for revocation of licenses for all devices owned or controlled by licensee.

SECT. 9. Any person, firm or corporation violating the provisions of this ordinance shall be subject to a penalty not exceeding twenty dollars for each offense.

Referred to the Committee on Ordinances.

On motion of Councilor Russo the Council voted to adjourn at 5.20 p. m., to meet on Monday, November 10, 1947, at 2 p. m.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

RETIREMENT OF JAMES J. MAHAR

Mr. White, for the School Committee, presented the following, which was ordered spread upon the records:

On August 31, 1947, Mr. James J. Mahar, Engineer in the School

Department, was retired after forty-five years of service in the City of Boston. Following his graduation from the English High School, Mr. Mahar entered Massachusetts Institute of Technology, electing the mechanical engineering course, and received his degree from that institution in 1902.

In November, 1902, following his graduation from Massachusetts Institute of Technology, he entered the employ of the Schoolhouse Department and in the ensuing years worked in all branches, including engineering and architectural departments.

In 1919 he was appointed Schoolhouse Commissioner, in which position he served until 1925 when he was appointed Engineer in the Office of the Business Manager. He continued in this capacity until 1929 when Chapter 351 of the Acts of that year became effective. Under the provisions of this Act, the Superintendent of Schools was given the authority of approval of all plans and specifications relative to major alterations and repairs, and to new construction. Mr. Mahar was assigned as technical advisor to the Superintendent of Schools in all matters relating to the upkeep of the school plant and to new construction.

In 1938 he was granted leave of absence from his position as Engineer in the School Department and was elected by the Board of Commissioners of School Buildings as Superintendent of Construction in the Department of School Buildings, which position he occupied until 1946.

During his service as Superintendent of Construction he reorganized the work of the Department of School Buildings and, without reducing salaries or discharging personnel, effected reductions in expenses of approximately \$2,500,000.

Throughout his long and honorable career he has given faithful, devoted service. The Boston School Committee is deeply appreciative of this service, marked as it has been by the highest personal and professional standards. On the retirement of Mr. Mahar, a career man in the City of Boston, the School Committee extends its sincere wishes for years of health and happiness so richly deserved by a faithful, loyal worker in the interests of the Boston Public Schools.

UNFINISHED BUSINESS

The order laid over at the meeting of Sept. 10, 1947 (see p. —), making additions to the List of Authorized Text Books, was taken up and passed unanimously.

Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after Monday, November 10, 1947, at the office of the Awarding Authority upon payment of two (2) dollars.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Monday, November 17, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

ROBERT P. CURLEY,
(Nov. 8.) Commissioner of Public Works.

CITY OF BOSTON.

OVERSEERS OF PUBLIC WELFARE.

PROPOSALS FOR PAINTING AND TINTING CEILINGS AT OVERSEERS OF THE PUBLIC WELFARE BUILDINGS AT 170 HANCOCK STREET, DORCHESTER, AND 154 MAVERICK STREET, EAST BOSTON, MASS.

The Overseers of the Public Welfare of the City of Boston invite proposals for painting and tinting ceilings at the district office buildings at 170 Hancock street, Dorchester, and 154 Maverick street, East Boston, Mass., according to specifications which may be obtained from the office of the Board, first floor, 43 Hawkins street, Boston. There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out. Bidders must use the form of proposal to be obtained at this office, and the successful bidder must furnish a bond for one half of the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as a surety for the faithful performance of the contract. Bids, with a certified check for two hundred and fifty dollars (\$250), payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the office of the Board, first floor, 43 Hawkins street, before 12 noon, November 12, 1947, at which time and place they will be publicly opened and read. A duplicate proposal, without check, must be left with the City Auditor prior to the time named for the opening of the bids. The Board of Overseers of the Public Welfare reserves the right to accept or reject any or all bids. All contracts made subject to appropriations to meet the payments thereunder.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR COLLECTING AND REMOVING GARBAGE AND REFUSE IN SOUTH BOSTON, EAST BOSTON, CHARLESTOWN, BRIGHTON, WEST ROXBURY, JAMAICA PLAIN, DORCHESTER NORTH, DORCHESTER SOUTH, ELM HILL, DUDLEY, MISSION HILL, ROXBURY, BACK BAY, STUART, AND HYDE PARK DISTRICTS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States for collecting and removing garbage and refuse in the following districts: South Boston, East Boston, Charlestown, Brighton, West Roxbury, Jamaica Plain, Dorchester North, Dorchester South, Elm Hill, Dudley, Mission Hill, Roxbury, Back Bay, Stuart, and Hyde Park, and giving bond thereof of a surety company approved by the Commissioner in the sum of one hundred per cent (100%) of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. In each proposal the bidder will list the location and ownership of the dumps he proposes to use, and furnish satisfactory proof to the Commissioner as to his legal right to use them. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Collecting and Removing Refuse and Garbage," and left at Room 508, fifth floor, City Hall Annex, BEFORE 12 M. OF FRIDAY, NOVEMBER 14, 1947, WITH A CERTIFIED CHECK FOR 5 PER CENT OF THE TOTAL AMOUNT BID FOR EACH DISTRICT, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. There will be a minimum charge of two dollars (\$2) for each set of specifications taken out. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the commencing of the work under this contract. The undersigned reserves the right to reject any or all proposals or to accept any proposals should he deem it to be for the best interests of the city so to do.

(Nov. 1-8.) ROBERT P. CURLEY,
Commissioner of Public Works.

HOSPITAL DEPARTMENT.

INVITATION FOR PROPOSALS FOR INSTALLATION OF STERILIZING EQUIPMENT IN VARIOUS BUILDINGS AT THE BOSTON CITY HOSPITAL.

The Trustees of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invite sealed proposals for the installation of sterilizing equipment in various buildings at the Boston City Hospital.

Proposals will be received until 12 o'clock noon, Friday, November 21, 1947, Eastern Standard Time, at the office of the Superintendent of the Boston City Hospital, 918 Harrison avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the architect, the John M. Gray Company, 175 High street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Superintendent of the Boston City Hospital, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid, filed with the Superintendent of the Boston City Hospital.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Plans and specifications may be obtained at the office of the Architect, the John M. Gray Company, 175 High street, Boston, Mass. A deposit of \$25 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the Architect.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form obtainable from the Architect upon request.

All sub-bidders' proposals must be in the possession of the Trustees of the Boston City Hospital and delivered or mailed to the general bidder no later than 12 o'clock noon, Eastern Standard Time, Wednesday, November 19, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the sub-bidder and a surety company shall be submitted by sub-bidders listed under Item 2 of the general contractor's bid form in not less than 5 per cent of the sub-bidder's bid price, and shall be submitted with each sub-bid.

Sub-bids will be taken on the following portions of the work:

a. Plumbing. b. Heating.

A performance bond, issued by a surety company satisfactory to the Awarding Authority in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so. The City of Boston also reserves the right to reject all bids of the sub-bidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Awarding Authority.

TRUSTEES OF THE BOSTON CITY HOSPITAL,
MARTIN J. ENGLISH, M. D.,
(Nov. 8-15.) President.

SUPPLY DEPARTMENT.

PROPOSALS FOR RECHARGING EXTINGUISHERS, ETC., FOR BOSTON FIRE DEPARTMENT.

The Supply Department of the City of Boston invites proposals for recharging extinguishers, etc., for Boston Fire Department, as specified in proposals which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and plainly marked "Proposal for Recharging Extinguishers, etc." There will be a charge of twenty-five cents (\$0.25) for each set of proposals taken out. The bids will be publicly opened and read Thursday, November 20, 1947, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

NUTRITION INSTITUTE ESTABLISHED BY HEALTH DEPARTMENT.

As part of the Boston Health Department Nutrition Program, in cooperation with the National Food Conservation Project, Dr. John H. Cauley, Health Commissioner, has announced that a Nutrition Institute will be held on Thursday, November 13, at the Public Latin School Auditorium from 2 to 5 p. m. Public health workers, nutritionists, public health nurses, home economics teachers, and health teachers in the Boston public schools and social workers will attend this meeting at which Dr. Frederick J. Stare will speak on "Maintaining Good Nutrition Under Present Conditions," and Dr. Elda Robb will discuss "Feeding the Family Today."

Dr. Stare is Head of Nutrition, Schools of Medicine and Public Health, Harvard University, and Chairman of the Nutrition Committee of the Central Health Council. He is also editor of *Nutrition Reviews*, an authoritative résumé of nutrition research. Dr. Robb is Director of the School of Home Economics, Simmons College, and member of the Massachusetts Central Health Council Nutrition Committee.

Dr. Cauley emphasized the necessity for the maintenance of adequate nutrition to protect health, and announced that two other similar meetings are scheduled for January and March. These institutes will help professional workers to obtain the latest information so that they may give proper guidance to those with whom they work.

Nutritionists and those interested in the subject of nutrition, both in Boston and in the surrounding cities and towns, are invited to attend the meeting.

This meeting is sponsored by the Boston Health Department Nutrition Council, Harvard School of Public Health, Boston Metropolitan Red Cross Chapter, Home Economics Department of the Boston Public School Department, Simmons College, Visiting Nurse Association, Massachusetts Public Welfare Department, Food Clinic of the Boston Dispensary, Boston Health Department.

U. S. MARINE CORPS ANNIVERSARY.

On November 10 the United States Marine Corps celebrated the one hundred and seventy-second anniversary of its existence.

Throughout all the years of its life the Marine Corps has been a most potent force in the defence of our great republic. The pages of our national history are replete with the valor, patriotism, and the heroism of its gallant members.

Beginning on its anniversary date, the Marine Corps will call upon eligible young men to join their wonderful organization as members of the Citizens Marine Corps Reserve. This provides an opportunity for young men to become members of the most famous military organization in the world.

On the anniversary of the Marine Corps, Monday, November 10, the Temporary Mayor directed that the flags on all public buildings in our city be displayed, and requested that such a display be made on private buildings. He also urged all stores in the community to commemorate in some suitable fashion the anniversary of this great fighting organization which represents so typically the heart and spirit of America.

\$154,042.50 TO CITY IN LIEU OF TAXES FROM HOUSING AUTHORITY.

The Boston Housing Authority has announced that a check in the sum of \$154,042.50 will be given shortly to the City of Boston as payment in lieu of taxes on the Old Colony (Mass. 19051) Housing Project in South Boston.

The Authority stated that payments in lieu of taxes approximate "ad valorem" taxes which would be paid upon such projects if they were not legally exempt from taxes. However, it explained that the law permits payments approximating "ad valorem" taxes on Lanham Act Projects, so called, which are either owned by the federal government or leased by the federal government to local housing agencies. Such projects, during the war, were used for the housing of war workers and have since been converted to housing for veterans of World War II.

This payment is based on the assessed valuation of the project, which is \$3,312,-742.

ELECTRIC POWER FOR TRANSIT FACILITIES.

The Temporary Mayor has approved the request of the Transit Commissioner as contained in the following letter:

TRANSIT DEPARTMENT,

BOSTON, November 5, 1947.

HON. JOHN B. HYNES,

Temporary Mayor.

DEAR MR. MAYOR,—The construction of the extension of Rapid Transit Facilities in the East Boston District requires the installation of a power cable and return, and furnishing electric current for power and lights in East Boston.

In view of the fact that the Metropolitan Transit Authority is particularly fitted to perform the above-mentioned work which is special and peculiar in nature, this Commission has voted that the work be done by the Authority.

The cost of the power cable and return is estimated at \$3,000, and the cost of furnishing the electric current is \$0.03 per kilowatt hour, which will approximately amount to \$3,000 per month.

In view of the special and peculiar nature of the work the Transit Department respectfully requests your Honor's permission to engage the Metropolitan Transit Authority for the above-mentioned work.

Very truly yours,

MALCOLM E. NICHOLS,
Chairman.

ARCHITECT'S SERVICES, CITY HOSPITAL.

Permission has been granted to engage the services of John H. Gray, architect, for architectural services in connection with installation of new hot water service lines in Wards A, B, D, and F, and the Domestic Building, and also installation of new elevator, repairs and replacements to old elevator, including new elevator shaft to be built on the outside of the Domestic Building, Sanatorium Division.

The estimated cost for this work is \$50,000, and the architect is to be paid a fee equal to 10 per cent of the actual cost of the above work, subject to the provisions of the contract for said services.

MAYOR ASKS BUDGET PARINGS FOR 1948 BY DEPARTMENT HEADS.

On November 6, the Temporary Mayor issued the following statement:

With respect to the additional expenses to be borne by the city next year, which indicate a higher tax rate than 1947, there is a responsibility on the part of all city officials to conduct the activities of the city with all possible economy, so that wherever possible the expenses of the city may be lowered. It is the feeling of the city officials that every effort must be made to promote savings and economy in city government.

Because of the additional expenses which we must face in 1948 it is apparent that all of the requirements of the city government for 1948 should be scrutinized with the greatest care, and all department officials have been notified to prepare budget estimates for 1948 with this in view.

BUILDINGS MADE SAFE.

The Temporary Mayor has approved the request of the Building Commissioner to act to make the following buildings safe:

To enter the building or other structure, or the abutting land or buildings, at Rear 37 Dacia street (Ward 13) with such assistance as required, and make safe said structure (wall).

To enter the building or other structure, or the abutting land or buildings, at 4 Pond Street place (Ward 3) with such assistance as required, and make safe said structure (wall).

To enter the building or other structure, or the abutting land or buildings, at 62 St. Germain street (Ward 4) with such assistance as required, vacate forthwith said unsafe or dangerous building or other structure, and protect the public by a proper fence or otherwise as may be necessary.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made:

FIRE DEPARTMENT.

Approval has been given for the following addition in the 1947 Fire Department budget:

Add one Lieutenant-Chief Inspector at \$3,100 a year.

This addition is necessary in order that the rating of Lieut. Francis W. Kelley of the Fire Prevention Division can be changed to that of Lieutenant-Chief Inspector.

HOSPITAL DEPARTMENT.

Sanatorium Division.

Approval has been given to the following changes in the service of the Sanatorium Division during the week ending November 4:

Appointments—Dr. William W. Hunt, 120 Main street, Bridgewater, Dr. James W. Blunt, 452 Warren avenue, Brockton, temporary internes, \$1,400 a year and maintenance; Timothy McCarthy, 16 Westminster avenue, Roxbury, temporary hospital house worker, \$25 a week and meals.

Resignation—John Darcy, hospital kitchen worker, \$30.68 a week.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Temporary Mayor.

FIRE DEPARTMENT.

BOSTON, October 24, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—This letter makes reference to the tabulation of bids received for new fire apparatus to be purchased under the 1947 Equipment Loan, as advertised by the Supply Department of the city in accordance with requisition submitted by this department. The advertisement for bids specified the following items:

- Item 1. Eight junior aeriels.
- Item 2. Nine 85-foot aeriels.
- Item 3. Ten 750 gpm. pumpers.
- Item 4. Two 1,000 gpm. pumpers.
- Item 5. Six hose wagons.
- Item 6. One tower tractor.

In the case of Items 3, 4, 5 and 6 the low bidder was the Mack Motor Company.

There was only one bid for three units out of a total of nine prescribed under Item 2, namely, the Peter Pirsch Company.

Under Item 1 there were only two bidders, namely, the Maxim Company which bid for a total of two units, and the American-LaFrance Company which bid for a total of four units, out of a total required of eight.

It is my recommendation that the awards of apparatus be made on the following basis:

(a) Rejection of Item 2 for three units of 85-foot aeriels at \$34,000 each by Peter Pirsch & Sons. In my opinion the increased cost of these units as compared to the price contracted between the City

of Boston and the same manufacturer last year, under the 1946 Equipment Loan, is unjustifiably excessive.

(b) In rejecting this offer it is my further recommendation that the saving of money made to the city be distributed over Items 3 and 5 to the extent of increasing the number of units under Item 3 from ten to eighteen and under Item 5 from six to twelve.

Last year when the city allocated awards for the purchase of fire apparatus, under the 1946 Equipment Loan, it was deemed that the best interests of the city would be served in not making the total awards to the low bidder, but rather distribute the order to the three lowest bidders in order to insure a more rapid delivery to the city of much needed apparatus.

It is my recommendation that this policy be adopted again this year in making the awards. Specifically, it is my recommendation that the awards be made as follows:

Item 1.

Two units to Maxim Motor Company, total cost, \$58,020.

Four units to American-LaFrance Company, total cost, \$103,014.

Item 3.

Eight units to Mack Motor Company, total cost, \$104,657.60.

Six units to Ward-LaFrance Company, total cost, \$86,820.

Two units to American-LaFrance Company, total cost, \$30,161.

Two units to Maxim Motor Company, total cost, \$28,827.

Item 4.

Two units to Mack Motor Company, total cost, \$27,174.50.

Item 5.

Five units to Mack Motor Company, total cost, \$57,179.50.

Three units to Ward-LaFrance Company, total cost, \$38,904.

Two units to American-LaFrance Company, total cost, \$27,916.50.

Two units to E. A. Forbes, total cost, \$23,814.

Item 6.

One unit to Mack Motor Company, total cost, \$9,205.

In making these awards, I believe that consideration should be given to the manufacturers who last year completed delivery of apparatus in accordance with the prescribed time schedule. The allocation of units on this basis, although not specifically to the low bidder, is only an increase of approximately 7 per cent as compared to the total of awards being made to the low bidder only. The distribution of orders as outlined, I believe, will result in more rapid delivery of apparatus, as well as distributing the risk of delay in the event of strikes or shortages of critical materials which might be experienced on the part of any single manufacturer.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

May I ask your approval to award contracts on a yardage basis to the following-named contractors:

Area No. 1.—Edward M. Matz, Inc., 73 cents per cubic yard.

Area No. 2.—Baker and Co., 87 cents per cubic yard.

Area No. 3.—M. DeMatteo Construction Company, 95 cents per cubic yard.

Area No. 4.—Hugh Nawn, Inc., 70 cents per cubic yard.

Area No. 5.—Water Reed Corporation, 89 cents per cubic yard.

Area No. 6.—Ward General Contracting Company, 60 cents per cubic yard.

Area No. 7.—John Deveney Company, 90 cents per cubic yard.

Area No. 8.—Dooley Brothers, Inc., 90 cents per cubic yard.

Area No. 9.—Martin J. Kelly Company, Inc., 95 cents per cubic yard.

Area No. 10.—Joseph P. McCabe, Inc., 93 cents per cubic yard.

Area No. 11.—Earl M. Carriere, 90 cents per cubic yard.

Area No. 12.—C. & R. Construction Company, 85 cents per cubic yard.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Upon October 31 the Temporary Mayor approved a contract as requested in the following letters:

BOSTON, October 30, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Your approval is requested to award contracts for fire apparatus as follows:

Item 1.

Two units to Maxim Motor Company, total cost, \$58,020.

Four units to American-LaFrance Company, total cost, \$103,014.

Item 2.

Cancelled. See letter from Fire Commissioner attached.

Item 3.

Eight units to Mack Motor Company, total cost, \$104,657.60.

Six units to Ward-LaFrance Company, total cost, \$86,820.

Two units to American-LaFrance Company, total cost, \$30,161.

Two units to Maxim Motor Company, total cost, \$28,827.

Item 4.

Two units to Mack Motor Company, total cost, \$27,174.50.

Item 5.

Five units to Mack Motor Company, total cost, \$57,179.50.

Three units to Ward-LaFrance Company, total cost, \$38,904.

Two units to American-LaFrance Company, total cost, \$27,916.50.

Two units to E. A. Forbes, total cost, \$23,814.

Item 6.

One unit to Mack Motor Company, total cost, \$9,205.

It is requested that Item 3 be increased from 10 to 18 units and Item 5 from 6 to 12 units. I recommend that contracts for these additional units be awarded without further public advertisement because of the unsettled market conditions and the importance of replacing obsolete equipment as soon as possible.

The recommendation to allocate awards to several companies rather than a straight low bidder is based principally on 1946 deliveries and the drastic necessity of replacing obsolete equipment rapidly. I fully concur with the recommendations given in the following letter from the Fire Commissioner and in my opinion they are for the best interests of the city.

Total amount of contract will be \$595,693.10.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Temporary Mayor approved contracts with contractors, firms and commercial houses for furnishing supplies, labor, etc. Communications from the heads of the departments interested were as follows:

BOSTON HOUSING AUTHORITY.

BOSTON, October 24, 1947.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR,—This Authority, acting for and in behalf of the City of Boston, is about to construct various dwellings in the Readville section of Boston, and has under survey land on Elm Hill avenue, Roxbury; land on the easterly side of the Jamaica way; land on the Arborway, Forest Hills; and land in South Boston on Farragut road.

On the acquisition of these sites, it was necessary that the Authority obtain expert advice as to the value of the land to be acquired. In this case it has obtained the services of George W. Judkins and Robert W. S. Cox of Boston to estimate and appraise the value of the land.

Your permission is requested to award a contract, without public advertising, to George W. Judkins and Robert W. S. Cox in the amount of \$1,290 each, in connection with their services as appraisers on these properties.

The nature of the work involved is such that no advantage would be derived by

the city by advertising this work. This Authority is familiar with the experience and qualifications of both of these gentlemen and recommends your approval of the award of the contracts.

Very truly yours,

JEREMIAH F. SULLIVAN,
Acting Executive Director.

DEPARTMENT OF SCHOOL BUILDINGS.
BOSTON, November 4, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

MY DEAR MR. MAYOR,—On August 26 your Honor approved a contract with the Daniel Russell Boiler Works, Inc., for repairing and retubing boilers in various schools. This award was approved after advertising.

During the life of the contract, additional retubing was found necessary in 16 school buildings listed in the attached amendment. These repairs were necessary in order to make the boilers tight and ready for safe operation. All the work involved in the original contract together with the extra work was requested by the insurance company as a result of their annual inspection and hydrostatic tests and has to be done in order to secure certificates of operation requested by the Department of Public Safety.

In my opinion the interests of the city are best served by having this work performed by the contractor already engaged under the original contract, so that nothing would be gained by further advertising.

I therefore respectfully request your Honor's approval to amend said contract from the original amount of \$6,145 to the amount of \$10,442.62.

Very truly yours,

JAMES H. MOONEY,
Superintendent of Construction.

AMENDMENT.

Whereas, The City of Boston, acting through the Superintendent of Construction, Department of School Buildings, has entered into a contract with Daniel Russell Boiler Works, Inc., 83 Boston street, Boston, Mass., for repairing and retubing boilers in various schools, said contract being dated August 15, 1947, and approved by his Honor the Mayor of the City of Boston, on August 26, 1947; and

Whereas, It was originally contemplated that the repairs and retubing be made in accordance with the specifications in the schools as mentioned in said specification; and

Whereas, When work was actually commenced it was discovered that additional retubing and repairs were necessary;

Now, therefore, It is hereby mutually agreed by and between the parties that said contract be hereby amended by making the following additions to the work to be done by the contractor:

Theodore Roosevelt School.—Reinforce and build up fire and ash pit doors and latches on both boilers to make doors close and lock properly, \$28.30.

Agassiz School.—Renew blow-off line from boiler to first tee outside of boiler, \$65.17.

Abraham Lincoln School.—Renew one tube, No. 2 boiler, \$33.26.

Teachers College.—Renew one tube, No. 1 boiler, 15 tubes, No. 2 boiler, one tube, No. 3 boiler, \$335.27.

High School of Commerce.—Chip and remove scale from shell of No. 2 boiler, \$52.

Samuel Adams School.—Retube boiler, No. 1 boiler; renew 18 tubes No. 2 boiler, \$1,146.81.

Sarah Greenwood School.—Renew 36 tubes, No. 1 boiler, leave three spare tubes, \$488.26.

Edmund P. Tileston School.—Renew 19 tubes, No. 1 boiler; renew 10 tubes, No. 2 boiler, \$414.72.

Trade School for Girls.—Renew two tubes, No. 1 boiler; renew two tubes, No. 2 boiler, \$81.

Jeremiah E. Burke High School.—Renew one tube, No. 3 boiler, labor only, \$20.80.

Clarence R. Edwards School.—Renew one tube, No. 2 boiler; leave one spare tube, \$40.03.

James Otis School.—Renew eleven tubes, No. 1 boiler; renew six tubes, No. 2 boiler; leave one spare, \$180.86.

Jamaica Plain High School.—Install reinforcing manhole ring, \$101.55.

William L. Garrison School.—Renew one tube, No. 1 boiler; renew two tubes, No. 2 boiler; leave three spare tubes, \$93.37.

John Winthrop School.—Renew two tubes, reinforce rear head, change yokes on front manhole plate with new gasket in No. 1 boiler; renew six tubes, reinforce rear head, renew front manhole gasket in No. 2 boiler, \$257.25.

Paul Revere School.—Renew six tubes, renew blow-off line from boiler to outside of setting of No. 1 boiler; renew 27 tubes, renew blow-off line from boiler to outside of setting, \$690.97.

Total, \$4,029.62.

Strike out in Article IX on page 9 the words and figures "Six thousand four hundred fifteen dollars (\$6,415) and substitute therefore the words and figures "ten thousand, four hundred forty-four dollars and sixty-two cents (\$10,444.62)

PARK DEPARTMENT.

BOSTON, October 27, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—I respectfully request that you approve the action of the Board of Park Commissioners in retaining the Stewart Associates, Inc., 38 Memorial Drive, Cambridge, for the inspection of asphaltic concrete in connection with the roadways that have been rebuilt and are now being built in this department.

We have had this concern inspect all the asphaltic concrete which was laid on the Riverway, Jamaicaaway, Commonwealth avenue and Franklin Park—total of 7,293.7 tons. For this inspection we have been charged at the rate of 18 cents a ton.

This concern has been working for this department on this inspection before, but it has always been in smaller amounts. Their work has been extremely satisfactory to this department.

We have placed with the City Auditor two service orders amounting to \$508.31 and \$804.56. These orders were placed at different times, but the City Auditor feels he should have your approval, because the two service orders together would total over \$1,000.

I therefore request that you approve of our action, so that this concern might be paid for the work it has performed satisfactorily.

This is to be charged to "Reconstruction, Parkways, Roadways," etc.

Very respectfully yours,

JOHN J. MURPHY, *Chairman.*

SUPPLY DEPARTMENT.

BOSTON, September 30, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—On September 8, 1947, your Honor approved a request from this department for an amendment to the current contract with the White Fuel Corporation and the Staples Coal Company, doing business as City Fuel Company, for furnishing bituminous coal to the various city departments, to allow an increase of \$1.25 per net ton in the price of both run of mine and nut and slack bituminous coal.

Through an error by the contractor, the Staples Coal Company, the item of bituminous stoker coal was one of the items designated as taking an advance of \$1.25 per net ton, but they have notified this department, under date of September 24, that the proper amount of advance on this particular item should be \$1.50 per net ton.

This department has investigated and found that the price of \$1.50 per net ton advance on bituminous stoker coal is correct, and for that reason I would request permission to increase the price of this item by 25 cents per net ton, making the total advance \$1.50 per net ton.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 5, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—No response has been received on proposals to furnish sheets for the city's hospitals through public advertisement. During the past two years it has been necessary to purchase sheets in small quantities through every available source.

There is no indication that the situation will improve during the next year, and your approval is requested to continue this method of purchasing. The estimated requirement for six months is five hundred (500) dozen sheets at an approximate amount of \$15,000.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

SUFFOLK COUNTY JAIL.

BOSTON, October 29, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR,—In a letter dated October 10, 1947, approved by you on that date, you approved the proposed purchase of various provisions from Batchelder and Snyder, Inc.

The various items to be purchased and the amounts therefor are as follows: 850 cases pork and kidney stew at \$1, \$850; 1,000 cases spaghetti and meat sauce at \$1.30, \$1,300; 400 cases ham à la king at \$4.25, \$1,700; 400 cases chicken à la king at \$4.25, \$1,700; total, \$5,550.

Yours very truly,

FREDERICK R. SULLIVAN, *Sheriff.*

MUNICIPAL COURT, EAST BOSTON
DISTRICT.

BOSTON, November 4, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—May I respectfully request permission to award, without benefit of advertising, the contract for the transportation of prisoners from this

court, beginning January 1, 1947, and ending December 31, 1947, at the rate \$135 per month, to S. J. Wynters, 150 St. Andrew road, East Boston 28, Mass.

This has been our customary way of obtaining these services, because it is difficult to hire someone from competitive bidding who is always available, as is Mr. Wynters.

Yours very truly,

CHARLES J. BROWN, *Justice*.

ADDITIONS TO CONTRACTS.

FIRE DEPARTMENT.

Approval has been given for the following additions to the contract of Rossano Construction Company, Inc., for alterations and additions to Engine House 14, located at 27 Centre street, Roxbury:

Addition No. 7.—Furnish and install one solid brass pole ring, 2½ inches by 2½ inches by 3/16 inches, \$131.

Addition No. 8.—Furnish and install one door check on new front entrance door, \$23.

Total of Additions Nos. 7 and 8, \$154, original contract, \$21,804; total of Additions Nos. 1, 2, 3, 4, dated July 15, 1947, \$1,882.05; total of Additions Nos. 5, 6, dated August 19, 1947, \$660; total contract, all additions, \$24,500.05; deduction of August 5, 1947, \$86.40; total contract with all additions and deductions, \$24,413.65.

In order to make a more presentable job it was necessary to install a brass pole ring at the bottom of the sliding pole in the station. It was also necessary to install a door check on the entrance door in order that the door will close automatically when the apparatus leaves the fire station.

Although the foregoing is in addition to the work contemplated in the original contract it is incidental thereto.

Approval has been given for the following additions to the contract of General Ship and Engine Works, Inc., for conversion of two former AMc-type naval vessels for use as fire boats. Additions are all in connection with work on the Motor Vessel "Marabout."

Addition No. 6.—Furnish necessary labor and material to secure generator to foundation and make up coupling to Diesel. Inspect all controls, wires, piping, etc., and put in good working order. Try out generator. If generator unit is found in poor condition, supply necessary labor and material to repair same and put in good condition, \$516.

Addition No. 7.—Supply necessary labor and material to check air compressor starboard side for starting. If unable to start, open up compressor and repair. If motor needs repairs fix same, \$106.

Addition No. 8.—Provide labor and material to install new telltale panel in pilothouse, \$160.

Addition No. 9.—Furnish necessary labor and material to remove present galley range (to be junked). Remaining space to be cleaned, and charred bulkhead repaired in preparation to painting. Present hot water tank to be relocated in uptakes and repiped to indirect heater at boiler, \$540.

Addition No. 10.—Furnish necessary labor and material to fit new flexible exhaust pipe to old fittings; furnish two vanstone flanges consisting of two 8-inch flanges and rings. Flanges brazed to the 8-inch flexible pipe. After installation the whole to be insulated, cloth wrapped

and flanges fitted with asbestos blankets (main engine exhaust), \$390.

Addition No. 11.—Furnish necessary labor and material to install converter (port side). Install starting switch for same in pilothouse as directed. Install A. C. double output box in pilothouse as directed. Install proper A. C. and D. C. feed and control lines between converter, switchboard, and pilothouse, \$294.

Addition No. 12.—Furnish necessary labor and material to install 24 wood lockers as directed. Alterations to present conditions on boat to be made to suit the installation of lockers. Bubbler drinking fountain in galley is to be removed and put in shop, \$480.

Addition No. 13.—Supply labor and material to fabricate and install in the pump room, starboard side, one work bench 30 inches by 48 inches with wood top, 1½ inches thick, and angle frame 2 inches by 2 inches by ¼-inch, \$74.

Addition No. 14.—Furnish necessary labor and material to install one steel locker (supplied by department), \$24.

Addition No. 15.—Fabricate suitable strongback and slings for lifting pup boat, \$165.

Addition No. 16.—Repair linoleum on galley floor as directed, \$30.

Addition No. 17.—Furnish necessary labor and material to clean and cement wash two fresh water tanks, located port and starboard aft, in the lazarett, \$120.

Addition No. 18.—Furnish necessary labor and material to pump out water in the main fuel tanks, port and starboard, in the main engine room, \$86.

Addition No. 19.—Provide labor and material to install ¾-inch diamond copper tubing from pumps for priming (four required per boat), \$35.

Addition No. 20.—Provide labor and material to make and install a guard over the crankshaft projection at forward end of engine. Guard to be made of No. 16 gauge steel and bolted to bearing cover plates, \$35.

Addition No. 21.—Provide labor and material to run necessary wires from the main switchboard to the galley and connect to electric hot plates (supplied by Boston Fire Department), \$62.

Addition No. 22.—Provide labor and material to alter uptakes to accommodate electric hot plates. Recess to be constructed to provide access to uptakes. All work to be done as directed, \$117.

Addition No. 23.—Furnish necessary labor and material to felt wrap all fire lines in quarters above main deck, \$232.

Addition No. 24.—Provide labor and material to check main engine pyrometer system and put in good working order, \$95.

Addition No. 25.—Furnish labor and material to flush out the cooling system of the starboard and port generator using antirust compound if needed, \$30.

Addition No. 26.—Provide labor and material to disconnect the shore line at the main switchboard and relocate to former drum winch breaker switch, \$35.

Addition No. 27.—Provide labor and material to disconnect F. W. pump motor. Take the electric shop, and check for grounds. Repair or replace if necessary, \$65.

Addition No. 28.—Provide labor and material to fabricate and install ten rail gun sockets as per sketch (location to be determined by Lieutenant Landry, \$124.

Addition No. 29.—Provide labor and material to install salt water pump (being repaired by department), \$38.

Addition No. 30.—Provide labor and material to paint the main deck a second coat of nonskid gray, \$50.

Addition No. 31.—Provide labor and material to paint the deckhouse and hose house one extra coat of Socony red, \$450.

Addition No. 32.—Provide labor and material to inspect pilot-house window guides, and replace with new where necessary, \$40.

Addition No. 33.—Provide labor and material to check all wiring and controls on heating boiler. All defective wires to be replaced with new wire, \$185.

Addition No. 34.—Provide labor and material to overhaul heating boiler. Clean, check for leaks, repair or replace all defective fittings. Test entire heating system and prove in good order. Cover hot water lines and indirect water heater at the boiler. Repair covering of smoke pipe at boiler, \$948.

Addition No. 35.—Provide labor and material to install water visors over the side panels of the hose house, \$82.

Addition No. 36.—Replace the tachometer in pilothouse and check for operation on completion of work, \$55.

Addition No. 37.—Provide labor and material to repair and put in good running condition the port generator. Replace missing parts, rewind armature and field coils for 25-kilowatt D. C. generator, and renew voltage regulator, \$1,820.

Addition No. 38.—Provide labor and material to install indicator lights in the pump room (4) and pilothouse (4) with individual switches. A horn to be supplied in the pump room, operated by a button in the wheelhouse and on hose house. The whole operated on 12 volts, taken from the starting batteries of No. 1 pump (forward), \$610.

Addition No. 39.—Provide labor and material to relocate carbon dioxide bottles (4) and supports to pump room, port side, and furnish new fittings, \$155.

Addition No. 40.—Furnish all labor and equipment for installation of a 26-cubic-foot compressor in the "Marabout"; also for installation of air tank and automatic control. This work also includes foundations, all electrical wiring, and high pressure piping the valves for connecting to the rest of the system and any and all other work involved in the installation, \$3,025.

Total of foregoing additions, \$11,273, original contract, \$168,600; total of Additions Nos. 1, 2, 3, and 4, dated April 28, 1947, \$3,327; Total of addition No. 5, dated May 19, 1947, \$4,400; total contract, \$187,600.

The foregoing items generally refer to machinery in the main engine room which theoretically was in good condition, and neither these items nor any of the others listed were contemplated in the original contract and specifications but they are all incidental thereto. It was felt that it would be to the advantage of the city to allow for necessary additions as the work progressed rather than give the contractor a blank check for an approximate figure which would have proved far in excess of the total of the present additions.

Some of the work mentioned above could not be foreseen until engines, generators, and other equipment were operated or opened up for inspection. Other additions were requested by the Fire Department.

PARK DEPARTMENT.

M. S. Kelliher Company has been ordered to make the following additions to the contract for the Ross Playground field house, Hyde Park:

1. Hang ceiling joists, furr steel beams in center section and substitute 2-inch by 12-inch joists, 12 inches o. c., in place of 2-inch by 10-inch as shown on roof framing plan. For this additional work, the sum of \$625.88 will be added to your contract price.

2. Increase the first floor concrete slabs from 6-inch to 7-inch and place the steel rods 7 inches o. c., instead of 8 inches o. c., as called for on the plan. This change was ordered by the Building Department. For this additional work, the sum of \$392.45 will be added to your contract price.

3. Furnish and install one (1) dead lock on each of the following doors, and knife guards on three (3) outside doors: door in girls' locker room; door in boys' locker room; door, office to basement; door, office to closet. For this additional hardware, \$58 will be added to your contract price.

Contract price to date, \$46,612; additions: hanging ceiling, etc., \$625.88; increasing floor slab, \$392.45; new hardware, \$58; contract as standing, \$47,688.33.

CONTRACT AMENDED.

Construction Units have been allowed to amend contract so that in addition to the quantities which the contractor is required to furnish, and in addition to the sums due the contractor under the terms of the aforesaid contract of August 19, 1947, the contractor shall furnish and lay 3,000 yards of bituminous concrete at the unit price of \$2.50 per square yard, making the sum payable on account of the work to be performed under this agreement to be approximately \$7,500.

All provisions of the aforesaid contract dated August 19, 1947, not inconsistent with the provisions of this agreement shall remain in full force and effect in accordance with the following letter:

BOSTON, October 23, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR.—Your Honor's approval is respectfully requested to permit the Institutions Department to award a contract in an amount not exceeding \$7,500 to the Construction Units Company, 294 Washington street, Boston, for furnishing and laying 3,000 yards of bituminous concrete at the Long Island Hospital, Boston Harbor, without the formality of public bidding.

A contract was awarded to the Construction Units after competitive bidding on August 19, 1947, for the construction of bituminous concrete roads and drainage work at the Long Island Hospital, Boston, at an estimated cost of \$62,400. This amount was based on estimated quantities at specific unit prices. The contract provided in part as follows:

"The quantities mentioned herein are merely estimates of what will probably be required, and the department reserves the right to increase or diminish the quantities in any of the items, as it may deem necessary, without change of price per unit, provided that the increase of the sum of all said items, as determined by the engineers' final estimate, does not exceed 25 per cent of the total of the original proposal."

The contractor has performed all of the quantities on all the items selected, plus 25 per cent, according to the engineers' recent survey.

An increase in the area of the roads has been found necessary. The Fire Department requested that we extend the roads to include a road to the back wharf to enable their apparatus to approach the back wharf. The road to the cemetery is nearly impassable in the early spring, winter, and fall, and with the new adjoining cemetery of Civil War Veterans, the graves of whom we recently removed from Rainsford Island, a road and circle are found necessary to that point.

In order to do this additional work it is preferable to omit some curbing and granolithic walks and use the funds for bituminous, but notwithstanding this, an additional 3,000 yards of bituminous are necessary to complete the roads.

Although the contractor is not required under the terms of the contract to do so, he has agreed to perform the additional work at the same unit price, namely \$2.50 per square yard, which was contained in the original bid.

In view of the availability on the site of the necessary equipment and manpower, the contractor is in a position to complete the new work at a saving to the city.

For the foregoing reasons, I respectfully request your Honor's permission to enter into an agreement with the Construction Units Company, 294 Washington street, Boston, for furnishing and laying 3,000 yards of bituminous concrete at the unit price of \$2.50 per square yard, making an estimated total of \$7,500.

All provisions of the contract now existent which are not inconsistent with the provisions of the proposed new contract will remain in full force and effect.

Respectfully yours,

G. FRANK McDONALD,
Commissioner.

REQUESTS FOR CHANGE IN CONTRACT AWARDED.

SUPPLY DEPARTMENT.

The Temporary Mayor has approved the request contained in the following letter:

BOSTON, November 5, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On October 31, 1947, your Honor approved a request from this department of the award of a contract for furnishing one (1) power street sweeper at a price of \$10,810 to the Clyde Everett Company, Cambridge, Massachusetts, the only bidder. The proposal submitted by the Clyde Everett Company to this department was signed by the Elgin Sweeper Company, Elgin, Illinois, who are the manufacturers.

The Elgin Sweeper Company has notified this department that the contract should be made, executed under the name of Elgin Sweeper Company instead of the Clyde Everett Company who submitted the bid for them. I would respectfully request that permission be granted me to change the award from Clyde Everett Company, Cambridge, to the Elgin Sweeper Company, Elgin, Illinois.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

EXTENSION OF CONTRACTS.

FIRE DEPARTMENT.

Approval has been given for the following additions to the contract of J. A. Singarella Company for alterations, additions and renovations to Fire Station, Engine 33, located at 941 Boylston street, Back Bay:

Addition No. 4. Install new gas meter connection near gas service in basement, \$30.

Addition No. 5. Repair existing 4-inch soil stack through first floor, and broken soil stack through basement floor. Also cutting and patching work in connection with above, \$206.50.

Addition No. 6. Furnish material and labor to rewire five lights on apparatus floor of Ladder 15. Wiring to be BX Cable, concealed wherever possible. Switches controlling lights to be relocated on wall between Ladder 15 and Engine 33. Feeds to other locations from present wiring of lights to be connected into new wiring, \$228.80.

Addition No. 7. Extend walls of control room to underside of second floor beams in order to afford additional support, \$164.45.

Addition No. 8. Furnish labor and equipment for installation of one Wayne 876D gasoline pump, and one 1,000-gallon storage tank, \$1,775.00.

Total of foregoing additions, \$2,404.75.

Original contract, \$49,337; total of Additions Nos. 1, 2, and 3, dated August 27, 1947, \$796.95; total of contract with all additions, \$52,538.70; Deduction No. 1, dated August 27, 1947, \$40; total contract with all additions and deduction, \$52,498.70.

A new gas meter connection was ordered by the Boston Consolidated Gas Company. When existing sheathing was ripped out it was found that concealed soil pipe stack was cracked and broken in several sections. It was necessary to rewire five lights on the apparatus floor as concealed wiring had deteriorated to such an extent that it was unsafe. In order to strengthen the second floor it was necessary to extend the walls of the control room to the underside of said floor beams in order to afford additional support. The present gasoline pump and storage tank in the Fire Station are both in poor and leaky condition, and practically beyond repair. Although the foregoing is in addition to the work contemplated in the original contract it is incidental thereto.

HOSPITAL DEPARTMENT.

J. A. Singarella Company has been granted an extension of time for completion of contract for alterations and additions to Thorndike Building, Boston City Hospital, from October 29, 1947, to January 15, 1948. This extension is requested because of delay in delivery of materials necessary for completion of contract.

J. W. Praught Company has been granted an extension of time for completion of contract for furnishing and installing new feed pump in pump room of boiler house, Boston City Hospital, from July 6, 1947, to January 15, 1948. This extension is requested because of delay in delivery of materials necessary for completion of contract.

PENAL INSTITUTIONS DEPARTMENT.
